

PROGRESS REPORT

Energy: progress report, 2025-08-01 to 2026-08-27

Edition of 2026-08-27 · compiled by Claude Opus from the documents in the Corpus repository

17 places. Every table below is carried verbatim from that place's own progress report; nothing is written here.

CHAD · ESWATINI · LESOTHO · MALAWI · MALI · MAURITANIA · MAURITIUS · MOROCCO · MOZAMBIQUE ·
NIGERIA · SIERRA LEONE · SOUTH SUDAN · TUNISIA · UGANDA · ZAMBIA · ZIMBABWE · AFRICA

Movement values. *Advanced* — a system entered service, a stage was completed or an instrument was made. *Stalled* — a stated target passed without delivery. *Regressed* — an instrument was withdrawn or neutralised, or a measured position worsened. *Closed* — the programme ended. *No change* — the position at both ends is the same. *Baseline not held* — the base carries no position at the start of the period, so no movement can be stated. A value may carry a qualifying clause after a comma, as in *Advanced, slipped*.

The place reports do not share one window; the period above is the range they span.

Chad

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-25	MOVEMENT
Instruction to migrate transmission sites to renewable power	Did not exist	Instruction on record, with no deadline set, no compliance reported and no cost stated	ADVANCED
Solar mini-grids for five towns	No position held on the second phase; the first phase had already delivered 133,000 individual household solar kits and electrified sixty-one health centres and sixty-two schools in three provinces	Equipment in manufacture for hybridisation of local grids at five towns, with twelve towns to have solar plants at project end; no delivery confirmation is held	BASILINE NOT HELD

Eswatini

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT
Power supply to the National Data Centre	Baseline not held	Still being sourced five years after the facility opened; no capacity, price or timetable stated	BASILINE NOT HELD

Lesotho

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT
Electricity generation against domestic demand	BASILINE NOT HELD	About 72MW installed against about 209MW of domestic demand, with 438 of the 970 GWh consumed in 2024 imported	Baseline not held

Malawi

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT
Solar-powered coverage extension	Did not exist; no solar or off-grid network-power position appears in the base at 2025-08-01	The chief executive stated the operator covers 85% of the population and is working to reach the remaining 15% through cost-effective technologies including solar-powered infrastructure; no site count, capital allocation, target date or partner is stated, and foreign-exchange shortages were named as the operator's biggest challenge	ADVANCED
Electricity tariff increase cited in the 2026 operator tariff applications	No electricity price figure held at 2025-08-01	An 8% rise in electricity tariffs, alongside a roughly 144% rise in fuel prices, cited by both mobile operators in support of an average 55% tariff increase application; the regulator approved 22.2% for one and 26% for the other	BASELINE NOT HELD

Mali

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT
Diesel-to-solar conversion of network sites	Did not exist	In the loan's scope; no site count published	ADVANCED

Mauritania

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT
SOMELEC digital-transformation programme	BASELINE NOT HELD	A FADES-financed data-centre fit-out (launched July 2023, due October 2024), a FADES+SOMELEC-financed ERP and CRM system with infrastructure (in procurement, due June 2025), a second IDA-financed ERP study (due December 2025), an IDA-financed geo-referenced database for the national electrification strategy with server-operations training (due October 2025), and IDA-financed advanced-metering and national-dispatch studies (due October-November 2025); two telecoms engineers recruited under AfDB financing; no item is reported complete	Baseline not held

Mauritius

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-25	MOVEMENT
Saudi Arabia energy and cybersecurity memorandum	Did not exist	An approval to sign, not a signature: the stated scope puts digital transformation and energy-sector cybersecurity alongside hydrocarbons, with no signing date, term, value or committed system, standard or spend (2026-08)	ADVANCED

Morocco

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT
Renewable power supply agreement for the Nexus platform	Up to 500 MW contracted for the full programme (2025-06)	Same; the ministry's April 2026 communique restates no power-supply figure and gives 36 MW cumulative capacity by end-2027	NO CHANGE

Mozambique

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT
Grid supply arrangements for data centres and telecom sites	Not held	Medium Voltage 4.78 MT/kWh plus 497.03 MT fixed plus 3,207.25 MT/kW; High Voltage 4.70 MT/kWh, negotiable; no data-centre-specific supply arrangement, generation commitment or outage figure published	ADVANCED
Solar power at the rural mobile stations	Not specified in the tender notice	Solar energy systems specified to power all 60 sites; no installed capacity, supplier or commissioning date stated	ADVANCED
University data centre power supply	Did not exist	Grid supply with integrated photovoltaic generation and a generator as redundancy, named by the minister as the reason interruption risk falls; capacity, generation and consumption figures not stated	ADVANCED

Nigeria

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT
Grid supply to the data-centre estate	BASELINE NOT HELD	The grid has never reliably exceeded 6 GW for about 230m people, roughly 41% availability	Baseline not held

Sierra Leone

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-25	MOVEMENT
RESPITE solar and storage plant	Not held	A World Bank-funded 40MW solar-plus-storage project at Lungi and Newton fully operational, commissioned in July 2026 and projected to raise the electricity access rate toward 36% and ease outages affecting telecommunications and digital services	BASELINE NOT HELD

South Sudan

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT
CREI solar-hybrid telecom energy programme	US\$5,000,000 committed (2024)	US\$10m committed in total; 490 of 499 MTN sites renovated and coverage reported to have risen from 69% to 80% of the population over three years (2026-02)	ADVANCED

Tunisia

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT
Renewable power for data-centre capacity	Did not exist	A 60 MW solar site is to power the planned Bizerte facility, its base camp operational from November 2025; no grid connection or power purchase arrangement is published (2026-02)	ADVANCED

Uganda

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT
Karuma surplus power for compute	BASELINE NOT HELD	100MW of surplus pre-transmission power from the 600MW plant, with Nile-water cooling, claimed in the project design	Baseline not held

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT
MTN Uganda network sites on solar or hydro	BASELINE NOT HELD	45% of network sites on solar or hydro; a 490 kWh solar plant commissioned at headquarters	<i>Baseline not held</i>

Zambia

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT
Load-shedding as a constraint on digital services	Regular load-shedding of more than 20 hours daily following the drought that began in January 2024, stated to negatively affect digital services, with energy-access gaps named as a constraint that connectivity expansion must be aligned with	No later measurement of load-shedding hours or of its effect on networks is held	NO CHANGE
Solar power at local authority offices	No position held on power supply at council offices	The government chief technical officer states solar power has been provided to all 116 councils, enabling 24-hour service provision	BASELINE NOT HELD

Zimbabwe

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-25	MOVEMENT
100 MW solar farm for the technology park	Announced as part of the 300-hectare park (2025-12-19); nothing on record at 2025-08	Phase 1 under construction; phase 1 capacity, cost, financing and completion date all unstated	ADVANCED
Artificial-intelligence fuel management on tower sites	Not on record at 2025-08	Credited with reducing energy consumption and improving availability and uptime; no percentage, litre, cost or uptime figure published	ADVANCED, UNQUANTIFIED
Power company generation licence and installed capacity	Licensed since 2018; no later capacity disclosure held	Generation Licence GC0066/2018 authorises a 0.45 MW grid-connected solar plant at Willowvale for own consumption; no installed megawatts, site count or tariff published since	NO CHANGE
Base-station solar programme	BASELINE NOT HELD	Deployment continuing, with higher diesel prices cited as the driver; no site count or installed capacity published	<i>Baseline not held</i>
Solar for Health programme	BASELINE NOT HELD	1,044 health facilities solarised across all ten provinces, more than 60% of all facilities, on 11 megawatts of installed capacity and more than US\$28m of financing; power is stated as the precondition for connectivity and electronic records	<i>Baseline not held</i>

Africa

BODY, INSTRUMENT OR SYSTEM	AT 2025-08-01	AT 2026-08-27	MOVEMENT
Digitisation priorities in the national energy compacts	Did not exist	The smart-metering and grid-optimisation priorities set out in the national energy compacts are argued to be constrained across Africa by a fragmented low-power internet-of-things layer: narrowband deployment reaches only markets such as South Africa, Kenya and Nigeria, while the 2G and 3G networks early smart meters rely on are expected to be retired well inside a meter's ten to fifteen year life; the analysis calls for integrated energy and telecom planning, targeted incentives for low-power wide-area network rollout, and energy-telecom co-investment	ADVANCED

Figures are dated because most are time-varying: a figure carries the date it was true, not the date you are reading it. Where the base holds no reliable statement, the document says **Not held** rather than leaving a silence — those are counted, and listed at the end.

This is a dated edition and is not revised after publication. If a figure here has moved, the current edition will say so.
