

STATUS REPORT

Seychelles: status report

Edition of 2026-08-17 · 48 systems and instruments tracked, 6 of them not held

Compiled 2026-08-14 from the Data Landscapers source base, from [outputs/reports/SYC/ledger.csv](#) (48 systems and instruments, 6 of them **Not held**). Each section opens with its ledger; specific events are covered in the monthly updates. Figures are dated because most are time-varying.

Status values. *Implemented* — in operation or in force. *Piloting* — running with a limited user group or in a controlled environment. *In development* — build or drafting under way, not yet operating. *Planned* — announced or provided for, no build or draft on record. *Enacted* — an instrument passed into law; pair with a qualifying clause for its in-force date. *Under review* — a law or policy currently being reconsidered. *Discontinued* — closed or superseded. *Not held* — the base carries no reliable statement of status; these are the gaps to fill and are listed again at the end.

Summary of position

Seychelles' Data Protection Act 2023 passed its 18-month transition on 22 June 2025 and now binds every controller and processor in full, but the Information Commission's own reform whitepaper names "no clear power to enforce its orders" as its most urgent weakness, and no audit, investigation or fine against any controller is on record since. [Cabinet approved a National AI in Education Framework 2026-2030 on 22 July 2026](#) covering every state school, though the Framework's own text is not published and could not be located on a first acquisition attempt.

Connectivity gained a third network in 2026: [Airtel switched on commercial 5G on 3 July](#), six years behind Cable & Wireless, and [Starlink soft-launched on 21 July](#) as the 28th African market carrying the service. Payments infrastructure moved on several fronts at once: a four-stage cheque phase-out is running toward a 2028 close, [India's UPI signed an MoU targeting a 2026 rollout](#), and the fintech Fusepay took its first live transaction in November 2025.

Six subjects carry no instrument on the record at all: energy policy for digital infrastructure, a dedicated rural digital-service programme, district-administration digitisation, EU digital cooperation, Gulf-state investment, and any domestic budget line for digital transformation — the last consistent with the hub's own finding that domestic-state financing data is not yet held for Seychelles.

Infrastructure

Connectivity

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Airtel Seychelles 5G network	IMPLEMENTED ↗	Commercial 5G launch, Airtel House; SBC content partnership announced alongside
Cable & Wireless Seychelles 4G/5G network	IMPLEMENTED ↗	CWS launched 5G with Huawei as vendor
Hytera–CWS emergency-communications MoU	PLANNED ↗	MoU signed at MWC 2025 for a resilient PoC/MCX emergency-comms core integrating with CWS 4G/5G
Starlink Seychelles (satellite ISP)	IMPLEMENTED, SOFT LAUNCH ↗	Soft-launch briefing, State House, VP Pillay + SCRA confirm authorisation

Data Storage

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Airtel Seychelles data centre (Ericsson turnkey project)	IMPLEMENTED ↗	Ericsson awarded turnkey project to relocate/modernise Airtel's network into a new datacentre, hybrid network cloud

Energy

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
National policy linking digital infrastructure to energy supply	NOT HELD	—

Cybersecurity

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Budapest Convention on Cybercrime accession	UNDER REVIEW, ASSEMBLY-APPROVED ↗	National Assembly unanimously approved accession motion, tabled by Hon. Sylvanne Lemiel
National Cybersecurity Coordination Committee	IMPLEMENTED, THIN RECORD ↗	Ran a World Press Freedom Day workshop with AMPS on AI's impact on press freedom, ethics and cybersecurity

Seychelles now has three competing mobile networks and, for the first time, a satellite alternative. [Cable & Wireless launched the country's first 5G network with Huawei as vendor in July 2020](#); Airtel followed six years later, [switching on commercial 5G on 3 July 2026](#) from a datacentre Ericsson had been contracted to build in 2021. [Starlink soft-launched on 21 July 2026](#), the 28th African market carrying the service, after Cabinet approved the licence in February and the operator incorporated locally in May. A March 2025 emergency-communications MoU between Hytera and Cable & Wireless has produced no reported build in the seventeen months since signing.

The National Assembly voted unanimously on 22 July 2026 to approve accession to the [Budapest Convention on Cybercrime](#); the accession itself, an executive act, has not yet followed. The National Cybersecurity Coordination Committee's only documented activity on record is a joint workshop on AI and press freedom in May 2025 — no founding instrument or mandate document is held for it. No national policy links digital infrastructure to energy supply, and no dedicated rural digital-service programme or district-administration digitisation effort is on record.

Digital public infrastructure

Data Exchange

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Seychelles–AfCFTA–Quest Ghana digital-trade-hub MoU	UNDER REVIEW, ESTABLISHED BUT TERMS UNHELD ↗	Seychelles Nation reported the signing during Secretary-General Wamkele Mene's visit, positioning Seychelles as the AfCFTA digital-trade hub

Digital Identity and CRVS

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
CertExpress (online civil-status certificates)	IMPLEMENTED ↗	Announced alongside the SeyID two-tier change; birth/marriage/death certificates online, 2-working-day delivery, saved to the SeyID E-Doc wallet
SeyID national digital-identity platform	IMPLEMENTED, TWO-TIER CREDENTIAL ↗	Official launch, built on WISEKey's WISEID platform

Digital Payments and Fintech

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Cheque phase-out (Central Bank of Seychelles, four-stage schedule)	UNDER REVIEW, PHASED ↗	CBS announced four dated stages: stop issuing to individuals 1 Jan 2025, stop accepting from individuals 1 May 2025, stop issuing to non-residents 1 Jan 2026, stop accepting from non-residents after 1 May 2026
Foreign Exchange Act 2009 amendment (authorised-dealer perimeter)	UNDER REVIEW, CABINET-APPROVED ↗	Cabinet approved amendments widening authorised dealer to include credit unions and licensed payment service providers
Fusepay (B2B fintech, virtual business accounts)	IMPLEMENTED, EXPANDING ↗	First live transaction on Fusepay's Seychelles payments platform
National Payment System (Electronic Money) Regulations 2022 (S.I. 128 of 2022)	ENACTED, IN FORCE ↗	Made by the Central Bank under s.42(1) of the National Payment System Act 2014; incumbents had 6 months to comply, 1 year to reach the capital floor
UPI — Unified Payments Interface (India, NPCI MoU)	PLANNED ↗	NPCI International and the Central Bank of Seychelles signed an MoU during PM Modi's visit; rollout targeted end-2026

Registries (population, land, address, etc.)

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
National Addressing and Postcode System (S42 standard)	IN DEVELOPMENT ↗	Cabinet approved implementation; S42 address standard adopted; legal framework being drafted by a technical committee with the AG's Office
Registrar General's Office digitalisation (business registration & IP)	IN DEVELOPMENT ↗	President Ramkalawan toured the Registrar General's Office, praised digitalisation, announced unspecified legislative reforms

Sectoral management information systems (HMIS, EMIS, etc.)

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
e-Sanjeevani / e-Office / e-Hospital (India DPI platforms)	PLANNED, BILATERAL DISCUSSIONS ↗	Firstpost reports bilateral consultations advancing between India and Seychelles toward potential adoption

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Huawei/CWS SMART Education	IMPLEMENTED, PILOT ↗	Ministry of Education, CWS and Huawei launched SMART Education (multimedia lessons, real-time assessment, IdeaHub) across four secondary schools

Other GovTech and e-Gov

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Ease of Doing Business one-stop portal	PILOTING ↗	Ministry of Investment, Entrepreneurship & Industry launched EODB portal with NRD Companies (two journeys, 15+ services), full rollout targeted 30 Jun 2026
egov.sc government portal	IMPLEMENTED, RELAUNCHED ↗	VP/ICT Minister Pillay relaunched egov.sc, coinciding with the 50th Independence anniversary
Electronic Case Management System (justice sector)	IMPLEMENTED ↗	President Herminie officially launched ECMS, live with immediate effect
Electronic Certificate of Origin (e-CO)	IMPLEMENTED ↗	Seychelles Revenue Commission, with the COMESA Secretariat, launched the e-CO for trade facilitation
Mandatory e-invoicing system (Seychelles Revenue Commission)	PLANNED, PROCUREMENT AT FINAL STAGE ↗	Acting Commissioner General Fred Morel: EOI opened March 2026, procurement now at final stage
Video-enforcement pilot (automated traffic ticketing, Roche Caiman)	PILOTING ↗	VP Afif announced an eight-week pilot repurposing the public CCTV estate for automated offence detection and remote e-tickets; partner Acusensus (Australia)

Rural digital data capture

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Dedicated rural digital-service programme	NOT HELD	—

Digitalisation of sub-national government

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Digitisation of district-administration systems	NOT HELD	—

Use of satellite data

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
UN COPUOS accession / UNOOSA engagement	PLANNED ↗	Cabinet approved accession to the UN Committee on the Peaceful Uses of Outer Space and engagement with UNOOSA, framed as building geospatial-data capability for maritime security, disaster preparedness, ocean management

Government-facing platforms multiplied through 2026. The [Electronic Case Management System launched 23 June](#) for the Attorney-General's Office, financed by the US State Department through UNODC and UNOPS; [egov.sc was relaunched 24 June](#) after more than a decade as, in effect, a public-servant email gateway; and the Seychelles Revenue Commission [launched an electronic certificate of origin with COMESA on 4 July](#) and moved [mandatory e-invoicing procurement to its final stage by 25 July](#), with no vendor or go-live date yet named. A traffic-camera pilot in Roche Caiman, announced 30 July with the Australian firm Acusensus, repurposes the existing CCTV estate for automated offence detection with no data-protection basis stated on the record.

Digital identity has not moved since 2024: [SeyID's two-tier credential](#) split virtual-only access to new work-permit holders from a retained physical option for citizens, and no enrolment or adoption figures have been published since. Payments saw the most activity: the [Central Bank's four-stage cheque phase-out](#) is running toward a [full close by 31 December 2028](#), India's NPCI [signed an MoU for UPI during Prime Minister Modi's visit](#) targeting an end-2026 rollout, and Fusepay took its first live B2B transaction in November 2025 before adding an AI operations layer in July 2026. Cabinet approved amendments in July widening the Foreign Exchange Act's authorised-dealer perimeter to credit unions and licensed payment providers, with no Bill text yet published.

Governance and regulation

Legislation and regulation

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Access to Information Act 2018 (ATIA) reform	UNDER REVIEW, DRAFTING ↗	InfoCom whitepaper recommends a centralised Access-to-Information Unit, aligning s.33(4) with the DPA 2023, open-reuse licensing; AG drafting targeted end-2025
NISTI Act 2025 (National Institute of Science, Technology and Innovation)	ENACTED, COMMENCEMENT PENDING ↗	Act 24 of 2025 assented; establishes NISTI as a body corporate with an AI-strategy mandate, a Science Academy, an open-access scientific-data repository, incubation centres

Strategies, plans and policies

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
'Fully digitalised e-government by 2030' target	PLANNED, RESTATED ↗	President Herminie reaffirmed the target while receiving Malta's first High Commissioner's credentials, exploring bilateral technical cooperation
Multidimensional Vulnerability Index (MVI) operationalisation	PLANNED ↗	Cabinet approved national measures naming enhanced data and institutional capacity and alignment of planning/budgeting frameworks as the instruments

Regional collaboration

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
AUDA-NEPAD Programme for African Developing Island Economies	ENACTED, COMMUNIQUE ADOPTED ↗	AUDA-NEPAD launched the programme at the AU's STC Ministerial Segment (Abidjan), covering seven island states including Seychelles; 2026–2031 roadmap, six pillars including digital transformation

Data protection

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Data Protection Act 2023 (Act 24 of 2023)	ENACTED, IN FORCE IN FULL ↗	s.56(1)'s 18-month transition (from the 22 Dec 2023 commencement) elapsed; controllers/processors now subject to the Act in full
Information Commission (data-protection authority)	IMPLEMENTED, ENFORCEMENT-CAPACITY GAP DOCUMENTED ↗	InfoCom's ATIA reform whitepaper names 'no clear power to enforce its orders' as its own most urgent weakness

EU activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
European Union digital cooperation with Seychelles	NOT HELD	—

The Data Protection Act 2023 is now binding on every controller and processor, its 18-month transition having elapsed on 22 June 2025, and the [Future of Privacy Forum's continental survey \(12 March 2026\)](#) credits the reform with moving Seychelles from "a largely symbolic framework" toward operational enforcement machinery, including recognised participation in the Global Cross-Border Privacy Rules system. That credit sits against the [Information Commission's own November 2025 whitepaper](#), which names "no clear power to enforce its orders" its most urgent weakness and recommends reform of the 2018 Access to Information Act alongside it; no audit, investigation or fine against any controller has been reported to date.

The [NISTI Act 2025 was assented on 22 December 2025](#), establishing a body corporate with an AI-strategy mandate, a Science Academy and an open-access research repository, but commences only on a date the minister has yet to appoint. President Herminie restated a "fully digitalised e-government by 2030" target on 4 August, naming bilateral technical assistance from Malta as the only route so far identified. [AUDA-NEPAD launched a Programme for African Developing Island Economies on 24 July](#), covering Seychelles among seven states on a 2026–2031 roadmap naming digital transformation one of six pillars. No EU digital-cooperation instrument with Seychelles is on record.

Artificial intelligence and the technology sector

AI

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
National AI in Education Framework 2026–2030	ENACTED, CABINET-APPROVED (TEXT NOT HELD) ↗	Cabinet approved the 21-page policy; covers every state school, AI literacy across the curriculum, mandatory AI micro-credential for teachers, an AI Champion per school, a Steering Committee maintaining approved/prohibited AI tool lists

China activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Huawei vendor relationship (5G core + SMART Education)	IMPLEMENTED ↗	CWS launched 5G with Huawei (2020); Ministry of Education, CWS and Huawei launched SMART Education across four schools (2025-08)

Gulf/UAE activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Gulf-state digital investment in Seychelles	NOT HELD	—

Cabinet approved a [National AI in Education Framework 2026-2030 on 22 July 2026](#), covering every state school with AI literacy integrated across the curriculum, a mandatory AI micro-credential for teachers, an AI Champion per school and a steering committee maintaining approved and prohibited AI-tool lists. Two World Bank pilots were already running ahead of the Framework's approval. Neither the Framework's own text nor any Seychelles AI strategy document outside education is published; a first automated acquisition attempt on 9 August 2026 failed to locate it.

Huawei remains Cable & Wireless's core vendor, a relationship unchanged since it [supplied the 2020 5G network](#) and extended into education through a four-school SMART Education pilot in August 2025 with no reported scale-up since. No Gulf-state technology or data-centre investment in Seychelles is on record.

Inclusion and capacity

Training and skills

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
AI Student Tutor Programme (World Bank pilot)	PILOTING ↗	Personalised AI learning support for Secondary 3 Maths and Geography
AI Teacher Coach Programme (World Bank pilot)	PILOTING ↗	World Bank/Ministry of Education pilot: AI-assisted lesson-planning and classroom-practice guidance for Primary 5-6 teachers

The only dedicated capacity-building instruments on record are the two World Bank pilots feeding into the AI in Education Framework: an [AI Teacher Coach programme for Primary 5–6 teachers](#) and an [AI Student Tutor programme for Secondary 3 Maths and Geography](#), both already piloting across several schools by the time the Framework reached Cabinet. No enrolment, completion or outcome figures are published for either pilot, nor for the earlier Huawei SMART Education rollout. Inclusion in payments and identity is carried by the systems recorded elsewhere — SeyID's citizen/non-citizen credential split and the unresolved financial-exclusion concerns raised in the cheque-phaseout consultations — rather than by a standalone digital-literacy or digital-divide programme, none of which is held for Seychelles.

Finance

New investments

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Hustle Fund et al. → Fusepay pre-seed	IMPLEMENTED, CLOSED ↗	US\$350,000 pre-seed: Hustle Fund, Everywhere Ventures, First Check Ventures, Startup Istanbul, Ryan Nesbitt (angel)
TDB → CWS debt refinancing and digital-transformation facility	IMPLEMENTED, DISBURSED ↗	US\$50m package refinancing US\$48.1m of the 2019 debt; TDB acquired ~2.9% CWS equity (Dec 2022); CWS listed on the MERJ Exchange (Sep 2022); TDB co-arranged a SCR 168m (~US\$12.5m) local-currency bond (Feb 2024)
TDB → CWS Investment Ltd acquisition financing	IMPLEMENTED, DISBURSED ↗	TDB arranged US\$70m syndicated acquisition financing (US\$50m own book) for CWS Investment Ltd to acquire Cable & Wireless Seychelles from Liberty Latin America
World Bank Seychelles Social Protection PforR (PAD3541)	IMPLEMENTED, APPROVED ↗	US\$30m Program-for-Results; digital element is the social-protection registry/MIS

MoUs and other agreements

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Mauritius Telecom-Eboo cross-border payments	PLANNED, ANNOUNCED ↗	Mauritius Telecom CEO Veemal Gungadin announced cross-border payment capabilities between Mauritius and Seychelles, in partnership with Eboo, a Seychelles fintech

Domestic budget appropriations and expenditure

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Domestic-state digital-transformation budget line	NOT HELD	—

Trade and Development Bank financing underwrites Cable & Wireless's ownership structure: a [US\\$70m acquisition facility in 2019](#) placed the operator in full local ownership, and a [2022 refinancing](#) gave TDB a small equity stake ahead of the operator's MERJ Exchange listing and a further local-currency bond in 2024 — the facility that now underwrites CWS's digital-service platforms. The World Bank's [US\\$30m Social Protection Program-for-Results](#), approved March 2021, remains the only development financing on record for the social-protection registry that underpins digital benefits delivery, with no completion report since.

Fusepay closed a US\$350,000 pre-seed round in August 2025 ahead of its November platform launch, and [Mauritius Telecom announced a cross-border payments partnership with the Seychelles fintech Eboo on 16 July 2026](#), with no operational detail or launch date given. No domestic Seychelles government budget line for digital transformation is held anywhere in the base — the hub's own financing aggregate marks the domestic side "pending that dataset."

Gaps to fill

SYSTEM OR INSTRUMENT	WHAT WOULD SETTLE IT	LAST PROBED
National policy linking digital infrastructure to energy supply	A national policy, strategy or programme document connecting power reliability or generation to digital-infrastructure planning.	not yet probed
Dedicated rural digital-service programme	A programme document or budget line for outer-island or rural digital-service delivery, distinct from the Starlink market entry.	not yet probed
Digitisation of district-administration systems	A district-administration system specification or digitisation programme document.	not yet probed
European Union digital cooperation with Seychelles	Any EU or European Investment Bank digital financing, programme or memorandum covering Seychelles.	not yet probed
Gulf-state digital investment in Seychelles	Any Gulf-state investment, financing or memorandum covering Seychellois digital infrastructure.	not yet probed
Domestic-state digital-transformation budget line	A Seychelles government budget document or appropriation line for digital transformation.	not yet probed

Six of forty-eight ledger rows carry no instrument. Two are financing questions the base is structurally unable to answer without a domestic-budget dataset: energy policy for digital infrastructure and the domestic digital-transformation budget line itself. The other four are genuine absences rather than reading gaps — no EU digital-cooperation instrument, no Gulf-state investment, no rural digital-service programme distinct from the Starlink launch, and no district-administration digitisation project appear anywhere in the 59 sources held for Seychelles.

Figures are dated because most are time-varying: a figure carries the date it was true, not the date you are reading it. Where the base holds no reliable statement, the document says **Not held** rather than leaving a silence — those are counted, and listed at the end.

This is a dated edition and is not revised after publication. If a figure here has moved, the current edition will say so.
