Governance

Strategies, plans and policies

The Wholesale Broadband Market: Open Access, Pricing Battles, and the Future of Competition — Africa Telecom Review, 3 September 2026

A trade analysis argues that African broadband is now shaped less by how much fibre is laid than by wholesale economics: who may sell capacity, who benefits from infrastructure, and at what price. *Also under [Connectivity](#).*

Smart Africa Calls for Stronger Public-Private Collaboration to Drive Digital Transformation — Tech Africa News, 3 September 2026

Smart Africa called for stronger public-private collaboration at the opening panel of the Global Digital Collaboration conference in Geneva. *Also under [Public debate and participation in policymaking](#).*

SITA spends big on procurement from SMMEs — ITWeb South Africa, 3 September 2026

SOUTH AFRICA

South Africa's state IT procurement agency spent R183 million with small, medium and micro enterprises and designated groups between 1 April and 31 July, 49% of its available procurement spend against a 45% annual target. *Also under [Other GovTech and e-Gov](#).*

Kogi Moves To Digitise Cooperatives, Warns Operators: 'The Era Of Manual Records Is Over' — Kogi State Government, 3 September 2026

NIGERIA

Kogi State launched digital registration and mandatory revalidation for cooperative societies, ending manual registration, with transparency and accountability given as the objects. *Also under [Other GovTech and e-Gov](#).*

Legislation and regulation

UCT research warns SA cannot delay AI regulation — ITWeb South Africa, 3 September 2026

SOUTH AFRICA

A University of Cape Town doctoral thesis argues that South Africa can no longer defer artificial-intelligence regulation, and proposes a constitutional approach built on bias and the rule of law. *Also under [AI](#).*

Regional collaboration

Kenya and Italy Deepen Digital Partnership to Accelerate Konza Technopolis Development — Tech Africa News, 3 September 2026

KENYA

Kenya's ICT principal secretary and Italy's ambassador discussed turning existing partnerships into infrastructure, skills and economic opportunity at Konza Technopolis. *Also under [Other GovTech and e-Gov](#).*

Gabon Puts Forward Its Candidacy for the ITU Council — Tech Africa News, 3 September 2026

GABON

Gabon announced its candidacy for the Council of the International Telecommunication Union at the World Telecommunication and ICT Policy Forum in Nassau. *Also under [Standards](#).*

ESCWA and Morocco Sign Regional Partnership to Advance Digital Governance — Tech Africa News, 3 September 2026

MOROCCO

The UN Economic and Social Commission for Western Asia and Morocco's minister for digital transition signed a memorandum in Rabat framing regional cooperation on modernising public administration and digital governance reform. *Also under [Other GovTech and e-Gov](#).*

Standards

Gabon Puts Forward Its Candidacy for the ITU Council — Tech Africa News, 3 September 2026

GABON

Summarised under [Regional collaboration](#).

Public debate and participation in policymaking

East Africa shows why Africa's digital future will be decided inland — ITWeb Africa, 3 September 2026

A fault on an undersea cable can stop card payments and mobile money hundreds of kilometres inland; business leaders and policymakers meeting in Mombasa argued that the continent's digital resilience is decided away from the coast. *Also under [Connectivity](#).*

Smart Africa Calls for Stronger Public-Private Collaboration to Drive Digital Transformation — Tech Africa News, 3 September 2026

Summarised under [Strategies, plans and policies](#).

Finance

MoUs and other agreements

Malawi drives next wave of connectivity — ITWeb Africa, 3 September 2026

MALAWI

The World Bank-financed programme carries US\$150 million across digital connectivity, the universal service fund's 100-tower rollout, an e-services portal and the national data centre in Lilongwe. Its latest phase is expected to connect more than 500 public institutions and more than 2,000 schools. *Also under [Connectivity](#) and [Other GovTech and e-Gov](#).*

As Nigeria's capital market surges, Daba and Coronation want global investors in — TechCabal, 3 September 2026

NIGERIA

The digital investment platform Daba partnered with Coronation Securities and Coronation Asset Management to give eligible users access to Nigerian capital market products, signed in Lagos. *Also under [Digital Payments and Fintech](#).*

New investments

Malawi Seeks Private Investment to Close Digital Connectivity Gap — Ecofin Agency (Cynthia Ebot Takang), 4 September 2026

MALAWI

The information and communications technology ministry called for private investment in telecommunications and fibre infrastructure at a rural broadband consultation on 31 August, arguing that public resources cannot finance the expansion alone. *Also under [Connectivity](#) and [Digital Identity and CRVS](#).*

Village Capital – Africa Ecosystem Catalysts Facility, first Nigeria investments, 2026 – TechCabal, 3 September 2026

NIGERIA

Village Capital deployed US\$450,000 from its US\$4 million Africa Ecosystem Catalysts Facility into two Nigerian companies, the small-business lending platform Trade Lenda and the agricultural-waste firm AirSmat. The per-company split is not stated. *Also under [Digital Payments and Fintech](#).*

Village Capital deploys \$450,000 in first Nigeria investments – TechCabal, 3 September 2026

NIGERIA

The facility's first Nigerian investments follow two Ghanaian ones earlier in the year, taking its portfolio further across the region. *Also under [Digital Payments and Fintech](#).*

TN CyberTech targets AI-powered branches – ITWeb Africa, 3 September 2026

ZIMBABWE

The Zimbabwean group TN CyberTech reported profit after tax of ZWG151 million for the six months to 30 June, about 38% up on the comparative period, on a strategy of technology partnerships and low physical infrastructure cost. *Also under [Digital Payments and Fintech](#) and [AI](#).*

Nomba raises \$3 million to target Africa-Asia payment corridor – TechCabal, 3 September 2026

NIGERIA

The Nigerian fintech Nomba raised a US\$3 million debt facility to expand cross-border payments across Central Africa, giving it dollar liquidity through banking relationships in Hong Kong and Singapore. *Also under [Digital Payments and Fintech](#).*

Korea and Africa Chart New Course on Artificial Intelligence (AI) and Digital Infrastructure at 20th anniversary of Korea-Africa Economic Cooperation (KOAPEC) – African Development Bank Group (distributed by APO Group), 3 September 2026

The Korea-Africa Economic Cooperation partnership will put artificial intelligence and digital infrastructure at the centre of its eighth ministerial conference in Seoul, where a new action plan is to be unveiled on its twentieth anniversary. *Also under [AI](#).*

CardinalStone Finance – Nomba cross-border payments debt facility, 2026 – TechCabal, 3 September 2026

NIGERIA

CardinalStone Finance extended the facility as a commercial loan, recorded as closed. *Also under [Digital Payments and Fintech](#).*

Askya Investment Partners lance un programme d'accompagnement gratuit pour l'IA africaine – wearetech.africa, 3 September 2026

Askya Investment Partners opened a free support programme for African artificial-intelligence startups, offering strategic advice and up to US\$200,000 of investment without taking equity. *Also under [AI](#).*

ICT Infrastructure

Connectivity

The Rise of Non-Terrestrial Networks: Integrating LEO Satellites into Core Telecom Strategy — Africa Telecom Review, 3 September 2026

Low-Earth-orbit constellations are moving from a last-resort backup layer into operators' core network planning, particularly where terrestrial infrastructure has not reached.

Telecom Egypt to Advance Egypt's Eastern Digital Corridor with a Multiple-Petabit Sharm El Sheikh-Taba Subsea Cable in Accordance with its New Strategy — Telecom Egypt Investor Relations, 3 September 2026 EGYPT

Telecom Egypt signed an agreement to build a multiple-petabit subsea cable between Sharm El Sheikh and Taba, which it frames as extending the country's eastern digital corridor.

Roke Telkom, Paratus Bring Starlink to Uganda's Enterprise Market — Nilepost, 3 September 2026 UGANDA

Roke Telkom and Paratus Uganda launched Starlink connectivity for businesses and organisations, aimed at locations where fibre and wireless networks are unavailable or unreliable.

Private 5G's Three Contenders: Telcos, Hyperscalers, Neutral Hosts — Africa Telecom Review, 3 September 2026

Private 5G is being deployed in African mining corridors, factories and logistics hubs for automation and predictive maintenance, with telcos, hyperscalers and neutral hosts competing to supply it. *Also under [ICT Industry](#).*

mmWave Monetization: Turning High-Band Investments into Revenue — Africa Telecom Review, 3 September 2026

Millimetre-wave spectrum has been a long-term bet rather than a revenue source for most African operators; the question is shifting from acquiring high-band spectrum to earning from it.

Malawi Activates 36th Rural Telecom Tower to Expand Digital Connectivity — Tech Africa News, 3 September 2026 MALAWI

The government switched on the 36th tower under the Last Mile Rural Connectivity Project, at Kalira Village in Traditional Authority Kalumbu. *Also under [Access to services](#).*

Cybersecurity

Telecom Cybersecurity in the Age of AI: Defending Networks Against Intelligent Threats — Africa Telecom Review, 3 September 2026

Attackers are turning artificial intelligence on telecom networks that now carry financial transactions, government services and industrial systems, eroding what had been a defensive advantage for operators. *Also under [AI](#).*

Inside ISWAP's secret AI units in Northern Nigeria — TechCabal, 3 September 2026

NIGERIA

Former insurgents describe Islamic State West Africa Province running prompt-engineering cells and encrypted satellite links paid for by central Islamic State cadres, turning consumer software to tactical use. *Also under [AI](#).*

Implats pushes AI as it addresses cyber breach — ITWeb South Africa, 3 September 2026

SOUTH AFRICA

Implats recorded a limited-impact cyber security breach at a managed operation's IT environment, which does not appear on the Information Regulator's website; its audit and risk committee has made cyber a focus area for the coming financial year. *Also under [AI](#).*

DPI

Digital Identity and CRVS

2.8B still excluded from digital ID as new gender gaps emerge: World Bank — Biometric Update, 3 September 2026

The World Bank's ID4D Global Dataset 2025 estimates that 2.8 billion people remain outside government-recognised digital identity systems, and finds new gender gaps opening in digital identity even as the gap in standard legal identity has closed.

Malawi Seeks Private Investment to Close Digital Connectivity Gap — Ecofin Agency (Cynthia Ebot Takang), 4 September 2026

MALAWI

Summarised under [New investments](#).

Digital Payments and Fintech

The Revenue Drain: Why Telecom's Billing Infrastructure Can No Longer Keep Up — Africa Telecom Review, 3 September 2026

Legacy billing platforms are described as a commercial constraint on African operators, leaking revenue and limiting the pricing models available for 5G, machine-to-machine services and network interfaces. *Also under [ICT Industry](#).*

Online penetration boosts TFG retail sales — ITWeb South Africa, 3 September 2026

SOUTH AFRICA

South African retail group TFG reported online sales in Africa up 54.1% in the 21 weeks to 22 August, taking online to 10.5% of sales from 7.1%, while overall sales grew 0.2% to R23 billion. *Also under [ICT Industry](#).*

MTN pushes mobile money beyond payments — ITWeb Africa, 3 September 2026

GHANA

The chief executive of MTN Mobile Money Ghana said that fewer than 0.3% of its users are actively investing and only a small proportion save regularly, against more than 26 million transactions a day, and rejected the description of Ghana as a mature market. *Also under [Access to services](#).*
