Governance

Strategies, plans and policies

- [هيئة الاتصالات تنظم ورشة عمل حول الخطة الوطنية للاتصالات في حالات الطوارئ](#) — The Libya Observer (Arabic), 28 September 2026 LIBYA

Libya's telecoms authority and the ITU held a first two-day workshop in Tripoli to review the national emergency telecommunications plan, develop early-warning systems and a unified protocol, and set agencies' roles. The plan was conceived after communications with Derna and other eastern cities failed during Storm Daniel in 2023. Also under [Connectivity](#).

- [State IT agency faces fork in the road on rehabilitation journey](#) — Daily Maverick, 28 September 2026

SOUTH AFRICA

South Africa's communications department has formally begun a structural review of what the State IT Agency should be responsible for, the minister said at GovTech 2026. The agency's managing director set out a move from custom development to shared platforms and the retirement of legacy systems. Also under [Other GovTech and e-Gov](#) and [Digital sovereignty](#).

- [South Sudan retains ICT minister in cabinet dissolution](#) — CAJ News Africa, 28 September 2026

SOUTH SUDAN

South Sudan's ICT minister was kept on in a caretaker capacity when the President dissolved the transitional government ahead of December elections. An analyst expects a caretaker administration to hold the status quo rather than start long-term digital investment. Also under [Public debate and participation in policymaking](#).

- [Nigeria prepares fourth edition of its GovTech conference](#) — wearetech.africa, 28 September 2026

NIGERIA

Nigeria's public service reform bureau will host the fourth GovTech conference in Abuja on 13-14 October, on digitising administration, digital identity, e-payments and service delivery. Also under [Other GovTech and e-Gov](#).

- [Gabon/Numérique : ouverture des travaux de la stratégie nationale de l'intelligence artificielle](#) — Agence Gabonaise de Presse (AGP), 28 September 2026

GABON

Gabon's digital ministry opened work on a national AI strategy with the UN Development Programme in Libreville, starting from a diagnosis of the country's AI landscape. Also under [AI](#).

Legislation and regulation

- [Wireless open access network licensing direction withdrawn](#) — ITWeb South Africa, 28 September 2026

SOUTH AFRICA

South Africa withdrew the 2019 policy reserving high-demand spectrum for a wireless open access network that was never licensed, freeing it for the regulator to assign. Wholesale, universal-service and anti-concentration obligations on licensees stay, as does the 2024 set-aside for the state digital infrastructure company. *Also under [Connectivity](#).*

- **Uber rebuilt in Denmark. African cities need platforms built to stay.** — FINTAK, 28 September 2026

KENYA

NIGERIA

UGANDA

TANZANIA

Kenya's fintech association argues that Uber's exits from Nigeria and Uganda on 2 September, after Tanzania in January, left drivers and riders with no notice or data on why. It calls for ride-hailing platforms, which depend on digital payments and identity, to be held to exit and disclosure rules. *Also under [ICT Industry](#) and [Digital Payments and Fintech](#).*

- **Truecaller says Nigerians can remove their numbers after privacy ruling** — TechCabal, 28 September 2026

NIGERIA

Truecaller says it will not suspend or redesign its Nigerian service after the Lagos High Court dismissed a privacy suit on behalf of non-users, and points them to its unlisting portal. Judgment excerpts show the court held that a user's upload of contacts does not establish non-users' consent, and counsel for the applicants plans to appeal the refusal of relief. *Also under [Data protection](#).*

- **Nigeria's fintech boom tests regulatory boundaries** — ITWeb Africa, 28 September 2026

NIGERIA

Fintech and financial-crime specialists say Nigeria's rules leave stablecoin payments caught between the securities regulator, which treats digital assets as investments, and the central bank, which governs payments. They also point to compliance costs, identity fraud and weak coordination among regulators. *Also under [Digital Payments and Fintech](#) and [Digital Identity and CRVS](#).*

- **International Day for Universal Access to Information - 28 September 2026** — African Commission on Human and Peoples' Rights, 28 September 2026

AFRICA

The African Commission on Human and Peoples' Rights will review its 2013 Model Law on Access to Information next year to add digital-age provisions. It also points to its guidelines for states on monitoring technology companies and for platforms serving the public interest, and to draft guidelines on access to data. *Also under [Regional collaboration](#), [Public debate and participation in policymaking](#) and [AI](#).*

- **How Nigeria's overlapping data rules affect fintechs and banks** — TechCabal, 28 September 2026

NIGERIA

Nigeria's central bank rule requiring payment data to be stored locally by January 2027 and the national cloud policy come from two regulators with different mandates. Executives interviewed describe the result as an overlap to be managed rather than a clash, but warn of compliance costs. *Also under [Digital sovereignty](#), [Data Storage](#) and [Digital Payments and Fintech](#).*

- **Ethiopia's Council of Ministers Advances New Legal Frameworks for State Institutions, Data Sovereignty, Defence and Economy** — Fana Media Corporation S.C., 28 September 2026

ETHIOPIA

Ethiopia's Council of Ministers unanimously sent a draft national data proclamation to parliament, framed around data security and sovereignty, data sharing and interoperability across government, and support for AI research. *Also under [Data Exchange](#) and [Digital sovereignty](#).*

- **Council of Ministers Refers Key Bills to HPR on Governance, Data, Power and Defense** — Ethiopian News Agency (ENA), 28 September 2026

ETHIOPIA

The state news agency's account of the same Council session names the bill the National Data Governance Draft Proclamation, referred to parliament with the Council's unanimous backing. *Also under [Data Exchange](#) and [Digital sovereignty](#).*

- **Airtel Starlink Uganda Launch Tests Africa's Satellite Rules** — Techmoonshot, 28 September 2026

UGANDA

Airtel Uganda switched on Starlink's satellite-to-phone messaging on 24 September, its second market after the DR Congo, nine months after the regulator said Starlink was unlicensed. The service covers SMS and light data on supported phones. *Also under [Connectivity](#) and [US / hyperscaler activities](#).*

Data protection

- **Guardrisk distances itself from MIP cyber breach** — ITWeb South Africa, 28 September 2026

SOUTH AFRICA

Insurer Guardrisk says neither it nor its parent Momentum has any exposure to MIP Holdings, and that it has found no sign its own systems were breached, after a ransomware group claimed them. *Also under [Cybersecurity](#).*

- **DA to report e-Panic button data breach to Information Regulator of South Africa** — Democratic Alliance Gauteng, 28 September 2026

SOUTH AFRICA

South Africa's opposition DA in Gauteng will ask the Information Regulator to investigate the exposure of data from the provincial e-Panic Button app, including crime reporters' names, reports, photos and locations. It says the department did not inform the legislature's oversight committee. *Also under [Cybersecurity](#).*

- **Truecaller says Nigerians can remove their numbers after privacy ruling** — TechCabal, 28 September 2026

NIGERIA

Summarised under [Legislation and regulation](#).

Regional collaboration

- **Smart Africa outlines continental AI delivery at Pan African AI Summit 2026** — Tech Review Africa, 28 September 2026

AFRICA

At the Pan African AI Summit in Accra, Smart Africa set out its programmes for delivering the continent's AI ambitions within its single digital market of 42 member states, citing low intra-African trade and foundational digital skills held by 8% of people as the barriers. *Also under [AI](#) and [Training and skills](#).*

- **Egypt and Mali discuss digital transformation and ICT capacity building** — Tech Review Africa, 28 September 2026

EGYPT

MALI

Egypt's and Mali's ICT ministers agreed to begin technical talks on Mali drawing on Egypt's digital platforms and citizen services, with cooperation on fibre, government connectivity, AI and training. *Also under [Connectivity](#), [Other GovTech and e-Gov](#) and [Training and skills](#).*

- **African Ministers coordinate common position ahead of ITU Plenipotentiary Conference** — Tech Review Africa, 28 September 2026

AFRICA

African ministers and the African Telecommunications Union coordinated the continent's common position for the ITU Plenipotentiary Conference at a closed session during the UN General Assembly.

- **International Day for Universal Access to Information - 28 September 2026** — African Commission on Human and Peoples' Rights, 28 September 2026

AFRICA

Summarised under [Legislation and regulation](#).

Standards

- [إطلاق برنامج تكويني لتوحيد معايير البنية الرقمية للدولة](#) (Elilam), 28 September 2026 MAURITANIA

Mauritania's digital ministry opened a week-long training for its officials and 120 new staff on applying unified state digital-infrastructure standards to every new digital service, following a March consultation of 34 ministerial sectors under the Digital-Y project. The ministry says the national government cloud now hosts state services and its design system is in use internally ahead of wider rollout. *Also under [Other GovTech and e-Gov](#), [Training and skills](#) and [Data Storage](#).*

Public debate and participation in policymaking

- [Technology Is the Visible Part. Institutions Are the Real Work. Three Policy Reflections from Malawi](#) – LinkedIn, 28 September 2026 MALAWI

A departing UNICEF official reflects on nearly four years of digital work in Malawi, arguing that what institutions can absorb, sustain and govern matters more than what technology can do. *Also under [Other GovTech and e-Gov](#) and [AI](#).*

- [Souveraineté numérique des pays en voie de développement : un informaticien suggère de numériser les données pour exister dans les réponses de l'IA](#) – Al-Watwan, 28 September 2026 COMOROS

A Comorian computer engineer found that an AI search tool's answer on Mayotte drew mostly on French and European sources, and argues that countries must digitise their own data to be heard in AI answers. *Also under [AI](#).*

- [Recommandations au HCN pour une stratégie de numérisation souveraine](#) – Al Hirak Al Ikhbari, 28 September 2026 ALGERIA

An Algerian engineer argues that the new high council for digital transformation needs real power over technology flows, recommending prior approval of digital imports and concrete support for national industry. *Also under [Digital sovereignty](#) and [ICT Industry](#).*

- [Malawi's Telecoms Regulator Proposes AI Surveillance Network for Blantyre](#) – iAfrica.com, 28 September 2026 MALAWI

Malawi's communications regulator recommended AI surveillance cameras for Blantyre under its Smart City Surveillance Initiative, a pilot combining number-plate recognition, traffic monitoring and a central command centre at four sites. No cost, supplier, timeline or rules on footage have been published, and the country has no AI policy yet. *Also under [Other GovTech and e-Gov](#) and [AI](#).*

- [Government Reaffirms commitment to digital Rights and Media Development](#) – MISA Zambia, 28 September 2026 ZAMBIA

MISA Zambia launched its 2026 Digital Rights and Media Development reports, and the information ministry restated its commitment to a rights-based digital environment. *Also under [Digital divides](#).*

- [Access to information and information integrity inseparable in the digital age](#) – MISA Zimbabwe, 28 September 2026 ZIMBABWE

MISA Zimbabwe links access to information to information integrity and says the national AI strategy for 2026-2030 is a chance to build domestic AI capacity. *Also under [AI](#), [Open data](#) and [Digital divides](#).*

- [\[Blog\] Artificial Intelligence in Mauritius: Progress, Regulation, and the Road Ahead](#) – Le Defi Media Group, 28 September 2026 MAURITIUS

A Mauritian lawyer asks whether the country's regulatory and institutional frameworks can keep pace with AI adoption in finance and public services. *Also under AI.*

- **3 questions à Soilahoudine Mohamed Ali** — AI-Watwan, 28 September 2026

COMOROS

In an interview, the Comorian engineer explains that AI models draw little on African data because so little of it is digitised. *Also under AI.*

- **South Sudan retains ICT minister in cabinet dissolution** — CAJ News Africa, 28 September 2026

SOUTH SUDAN

Summarised under [Strategies, plans and policies](#).

- **International Day for Universal Access to Information - 28 September 2026** — African Commission on Human and Peoples' Rights, 28 September 2026

AFRICA

Summarised under [Legislation and regulation](#).

Finance

Financial sustainability

- **How Cabo Verde uses data and financing to turn skills training into jobs** — World Bank, 28 September 2026

CAPE VERDE

A World Bank blog describes Cabo Verde's employment and training fund, created in 2012, which finances training through competitive calls and tracks whether graduates find work. *Also under [Training and skills](#) and [Sectoral management information systems](#).*

New investments

- **The Money Was Already In The Room** — CIO Africa, 28 September 2026

AFRICA

An analysis of WIOCC's funding notes that the US development finance agency joined a US\$300m round three weeks after it was signed by a continental financier and a Saudi investor, with its own amount undisclosed and subject to congressional notification. It sets the round against data-centre costs of US\$5-12m per megawatt, enough for tens rather than hundreds of megawatts. *Also under [Connectivity](#) and [Data Storage](#).*

- **IFC backs \$700M digital payments expansion as identity and fraud risks grow** — Biometric Update, 28 September 2026

GLOBAL

The IFC launched a US\$700m risk-sharing programme covering settlement risk so that more banks and fintechs in emerging markets can join international payment networks. It projects 360m cards and 90m new users, which the report says will put pressure on identity and fraud controls. *Also under [Digital Payments and Fintech](#) and [Digital Identity and CRVS](#).*

ICT Infrastructure

Connectivity

- **Sénégal : 6888 établissements scolaires ciblés par un vaste plan de connexion haut débit** — wearetech.africa, 28 September 2026

SENEGAL

Senegal plans to connect 6,888 schools to broadband, with satellite for more than 2,000 others, against education-ministry figures showing 19.7% of public elementary schools online in 2023 and 15.4% in rural areas. The plan sits under the 2025-2029 digital education strategy. *Also under [Access to services](#), [Training and skills](#) and [Rural digital data capture](#).*

Data Storage

- **TCS Sovereign Cloud Goes Live In Nairobi** — CIO Africa, 28 September 2026 KENYA
Tata Consultancy Services' sovereign cloud went live in Kenya, hosted at iXAfrica's Nairobi campus and delivered with a regional integrator, aimed at government agencies and regulated sectors with data-residency rules. Its capacity, pricing and clients were not disclosed. *Also under [Digital sovereignty](#).*
- **Nigeria targets fourfold data centre capacity increase** — The Punch, 28 September 2026 NIGERIA
An industry forum in Lagos set out a plan to raise Nigeria's data-centre capacity from about 50 MW of IT load to about 200 MW over five years, with a market assessment counting 21 operational facilities and 16 upcoming. A speaker said more than 80% of Nigeria's sovereign data is hosted abroad. *Also under [Digital sovereignty](#).*
- **INTERPOL roped in on RSTP incident** — Times of Eswatini, 28 September 2026 ESWATINI
Eswatini's police have engaged INTERPOL over the incident at the National Data Centre and will investigate once a consultant hired by the science park and the ICT ministry reports. Unnamed sources suspect a third-party client gave attackers a way in; preliminary findings point to corrupted files and no data stolen. *Also under [Cybersecurity](#) and [Other GovTech and e-Gov](#).*

ABOUT THIS DOCUMENT

EDITION	2026-09-28
RETENTION	Kept until 2026-10-05. Older bulletins: the country pages and the monthly reports.
THIS FILE	https://corpus.data-landscapers.io/bulletin/corpus-bulletin-2026-09-28.pdf
FEEDBACK	info@data-landscapers.io
LICENCE	CC BY 4.0

This bulletin is produced automatically at the end of each data collection sweep but only includes items published on the day cited in the edition, and the previous day. Items published in the last month can be found on the [country pages](#). The links to all items stored in the corpus can be found in the [catalogue](#).

Bulletins are kept for a week — the last week's editions are listed above, each at its own dated address — and are then deleted. Older material is in the country pages and the monthly reports.
