Governance

Strategies, plans and policies

- **Gov Radda hosts NCC, MTN, approves joint c'mttee on digital infrastructure** — TheNiche (Nigeria), 19 September 2026 NIGERIA

The governor of Katsina State constituted a four-member joint implementation committee with the communications regulator and the dominant mobile operator, to turn a courtesy visit into a costed connectivity plan. *Also under [Connectivity](#) and [Access to services](#).*

Regional collaboration

- **'Africa needs data centre surge' to keep up with the digital economy** — Sunday Times / Business Times, 19 September 2026 SOUTH AFRICA AFRICA

The head of the continental free trade area told a conference that Africa should aim for more than 700 data centres within ten years to carry a digital economy he put at 700 billion dollars. About 260 are counted now, and he named South Africa, Nigeria and Kenya as the builds to replicate. *Also under [Data Storage](#), [AI](#) and [New investments](#).*

ICT Infrastructure

Connectivity

- **President Sisi instructs expansion of AI, cloud computing, 5G networks** — Egypt Today, 19 September 2026

EGYPT

The presidency directed the expansion of fifth-generation mobile networks, hyperscale data centres and a unified government services card. The instruction is tied to a target of eight billion dollars in digital exports by 2028. *Also under [Data Storage](#), [AI](#) and [Other GovTech and e-Gov](#).*

- **Gov Radda hosts NCC, MTN, approves joint c'mttee on digital infrastructure** — TheNiche (Nigeria), 19 September 2026 NIGERIA

Summarised under [Strategies, plans and policies](#).

Data Storage

- **Hosting services** — Centre National de l'Informatique (CNI), 19 September 2026 TUNISIA

Tunisia's national computing centre describes the state data centre that carries the government's major applications: about fifty servers serving some 4,500 workstations across ministries, regional offices, public bodies and municipalities, with a replicated backup site.

Summarised under [Connectivity](#).

Technology

AI

- **These founders turned a lockdown problem into an AI startup** — TechCabal, 19 September 2026 NIGERIA

A Lagos expense-tracking startup abandoned open banking after the account-data calls it depended on came to about 200 naira each, and rebuilt the product around reading receipts instead. It now reports 10,000 users across 100 countries. *Also under [Innovation ecosystem](#)*.

ABOUT THIS DOCUMENT

EDITION	2026-09-19
RETENTION	Kept until 2026-09-26. Older bulletins: the country pages and the monthly reports.
THIS FILE	https://corpus.data-landscapers.io/bulletin/corpus-bulletin-2026-09-19.pdf
FEEDBACK	info@data-landscapers.io
LICENCE	CC BY 4.0

This bulletin is produced automatically at the end of each data collection sweep but only includes items published on the day cited in the edition, and the previous day. Items published in the last month can be found on the [country pages](#). The links to all items stored in the corpus can be found in the [catalogue](#).

Bulletins are kept for a week — the last week's editions are listed above, each at its own dated address — and are then deleted. Older material is in the country pages and the monthly reports.
