

PROGRESS REPORT

Cybersecurity: progress report, 2025-09-01 to 2026-09-01

Edition of 2026-09-01 · compiled by Claude Opus from the documents in the Corpus repository

3 places. Every table below is carried verbatim from that place's own progress report; nothing is written here.

AFRICA · SOUTHERN AFRICA · WEST AFRICA

Movement values. *Advanced* — a system entered service, a stage was completed or an instrument was made. *Stalled* — a stated target passed without delivery. *Regressed* — an instrument was withdrawn or neutralised, or a measured position worsened. *Closed* — the programme ended. *No change* — the position at both ends is the same. *Baseline not held* — the base carries no position at the start of the period, so no movement can be stated. A value may carry a qualifying clause after a comma, as in *Advanced, slipped*.

Africa

BODY, INSTRUMENT OR SYSTEM	AT 2025-09-01	AT 2026-09-01	MOVEMENT
Privileged access management for the African Union Commission's own networks	Did not exist	A request for bids for the supply and installation of a privileged access management solution for the Commission's own networks (Ref. ET-AUC-560865-GO-RFB), amended on 21 August 2026 to push the bid deadline from 27 August to 10 September 2026 and to restate the licence requirement as 8 administrator, 40 enterprise privileged-user, 25 business-user and 5 external-vendor subscriptions on three-year terms, with training raised from six staff to eight	ADVANCED, SLIPPED
Reported cybercrime losses across the continent	About US\$192m reported (2024)	About US\$484m reported, more than double the 2024 figure, drawn from 36 member countries, with artificial intelligence involved in 55% of surveyed 2025 cybercrime cases and deepfake incidents up sevenfold between the second and fourth quarters of 2024; against that, only 8% of intelligence analysts are recorded as having advanced artificial-intelligence expertise and 94% of agencies as lacking digital forensics tools, and a single Ugandan deepfake investment scam is put at over US\$2m of losses	REGRESSED
Vendor-measured attack volume across the continent	None published	African organisations averaged 3,237 attacks a week in July 2026 against a global average of 2,336, behind Latin America at 3,561 and Asia-Pacific at 3,316; Angola was highest of the African markets broken out at 5,714, then Nigeria at 4,975, Kenya at 2,915 and South Africa at 2,195. Ransomware victims were up 87% year on year and the continent posted the world's highest phishing rate at 1 in 106 emails	ADVANCED
Standing in the global cybersecurity index	BASELINE NOT HELD	Mauritius, Rwanda, Kenya, Tanzania and Ghana in the top tier; Benin, Togo, Zambia and South Africa in the second; the majority of the continent below, scored across legal, technical and organisational measures, capacity building and international cooperation	Baseline not held

Southern Africa

BODY, INSTRUMENT OR SYSTEM	AT 2025-09-01	AT 2026-09-01	MOVEMENT
SADC central-bank frameworks on cyber, climate risk and cross-border crisis management	In drafting by working groups led by Botswana and Zimbabwe	Finalised and approved, with supervision extended to cloud hosts and payment processors	ADVANCED
SADC Regional CIRT framework	A draft framework of September 2018, unpublished, with no regional incident-response capability operating	Unchanged; the 2018 draft is still the newest record held	NO CHANGE

West Africa

BODY, INSTRUMENT OR SYSTEM	AT 2025-09-01	AT 2026-09-01	MOVEMENT
ECOWAS Regional Cybersecurity Coordination Mechanism	Did not exist	Establishment approved; no terms of reference, seat, budget or staffing held	ADVANCED
Regional organised-crime operation	Under way	An eight-month international police operation targeting West African organised crime groups concluded with 58 arrests	CLOSED
ECOWAS Information Sharing and Analysis Centre	BASELINE NOT HELD	Named by the Commission as established, as the region's threat-intelligence sharing platform; no founding instrument, membership, feed or published output is held (2026-08)	Baseline not held

Figures are dated because most are time-varying: a figure carries the date it was true, not the date you are reading it. Where the base holds no reliable statement, the document says **Not held** rather than leaving a silence — those are counted, and listed at the end.

This is a dated edition and is not revised after publication. If a figure here has moved, the current edition will say so.
