

STATUS REPORT

Cameroon: status report

Edition of 2026-08-13 · 91 systems and instruments tracked, 8 of them not held

Compiled 2026-08-10 from the Data Landscapers source base, from [outputs/reports/CMR/ledger.csv](#) (91 systems and instruments, 8 of them **Not held**). Each section opens with its ledger; specific events are covered in the monthly updates. Figures are dated because most are time-varying.

Status values. *Implemented* — in operation or in force. *Piloting* — running with a limited user group or in a controlled environment. *In development* — build or drafting under way, not yet operating. *Planned* — announced or provided for, no build or draft on record. *Enacted* — an instrument passed into law; pair with a qualifying clause for its in-force date. *Under review* — a law or policy currently being reconsidered. *Discontinued* — closed or superseded. *Not held* — the base carries no reliable statement of status; these are the gaps to fill and are listed again at the end.

Summary of position

Cameroon has a data-protection law and no regulator to apply it. [Loi n° 2024/017 was promulgated on 23 December 2024](#) and the authority it creates is [not established and carries no appropriation in the FY2025 or FY2026 estimates](#); the statute defines it as an independent public body, so the function does not sit with the ICT agency.

The strongest measured systems are payments and the backbone. The regional switch carried [20.3m transactions worth FCFA 863bn in 2025, up 40% by volume](#), and the backbone is reported at [over 15,000 km](#), with a further [4,000 km](#) and a national data centre authorised on a [CNY 1,350,963,161 loan, about FCFA 108.4bn](#).

The budget is legible at proposal stage and nowhere else: the ministry's digital programme is [FCFA 19,494,457,000 proposed for FY2026, up 71.5%](#), the enacted law being a page-image scan the wiki cannot read, and released, actual and audited columns are empty in every held budget row. Eight of the rows below are *Not held*.

Infrastructure

Connectivity

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Chad border fibre link	PLANNED ↗	The enabling memorandum suspended by Chad's regulator, revision requested
Customs circular on satellite terminal seizures	IMPLEMENTED ↗	In force since 2024-04-15
Fibre backbone Phase IV	PLANNED ↗	Decree of 2026-03-06 authorising signature; the loan is not confirmed signed

Data Storage

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
National data-centre consolidation policy	PLANNED ↗	A study restituted May 2025; the minister stated a one-or-two-centre policy
Zamengoe Data Centre	IMPLEMENTED ↗	Presented at a national digital forum on 2026-06-09

Energy

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Douala meter-data centre	IN DEVELOPMENT ↗	Under construction; no completion date published
Smart-meter rollout	IMPLEMENTED ↗	Nationwide deployment launched 2026-05-27 after final acceptance in April 2026
Data-centre power supply and energy efficiency standard	NOT HELD	—

Technical Capacity

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
IPv6 transition	PLANNED ↗	A regulator call to accelerate adoption at the sixth national naming forum

Cybersecurity

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Device certification guidelines	IMPLEMENTED ↗	Guidelines issued 2025-11-10
DNSSEC signing of the national domain	IMPLEMENTED ↗	The zone cryptographically signed 2025-04-08
Intelligent urban video surveillance extension	IMPLEMENTED ↗	A fourth loan of FCFA 39.2bn authorised by decree of 2025-12-17
National computer incident response team	IMPLEMENTED ↗	Equipment handover 2026-01-20, about FCFA 735m under the national connectivity project

The backbone's extension is Chinese-financed. Length is reported at [over 15,000 km](#), against about 12,000 km terrestrial on the 2024 reference year — two figures not reconciled to a single primary. A [decree of 6 March 2026 authorised signature of a loan for a further 4,000 km, a national data centre and regional links](#); the loan is not confirmed signed. The [Chad border link regressed](#): its enabling memorandum was suspended by Chad's regulator on digital-sovereignty grounds, and Cameroon is Chad's only submarine-cable entry point.

Satellite access is closed by customs rather than by licence: a [circular in force since April 2024 provides for systematic seizure of satellite kits at the borders](#) and remains the operative instrument.

The national incident response team [ingests about 200GB a day](#), on hardware commissioned in January 2026 for about FCFA 735m, and reported [19m threats blocked in 2024](#). The national domain zone is signed and validation is not: the [national average is 56.60%, one operator at 2.75% and most others at 0%](#), a first-half 2026 target of 98% having passed unmeasured. Urban video surveillance has drawn [FCFA 150.8bn over eight years across three Chinese lenders](#).

The [data-centre consolidation policy](#) is an intention to concentrate on one or two national backup centres, with no instrument or site since, and no power-supply or efficiency standard is held.

Digital public infrastructure

Data Exchange

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Trade single window (GUCE)	IMPLEMENTED ↗	Audit chamber report on internal control for the 2024 certification campaign
Trilateral customs steering committee	IMPLEMENTED ↗	A joint communiqué adopted 2026-07-29 establishing the committee
National government interoperability layer	NOT HELD	—
National urban data governance policy	NOT HELD	—

Digital Identity and CRVS

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
AILGLES biometric payroll system	IMPLEMENTED ↗	Public Service Minister told parliament in June 2026 the system had flagged over 53,000 public servants drawing undue benefits
Biometric national identity card	IMPLEMENTED ↗	A second production centre opened at Garoua 2025-08-07
Biometric voter register	IMPLEMENTED ↗	1,000 third-generation enrolment kits delivered, reported 2025-05-08
Décret n. 2025/059 on identity titles	IMPLEMENTED ↗	Signed 2025-02-28
Secondary-school student digital identity	PLANNED ↗	A memorandum addendum signed, date not published
Yaoundé taxi and driver digital identity	IMPLEMENTED ↗	Enrolment opened 2026-07-03 and closes 2026-10-05

Digital Payments and Fintech

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
CAMTEL Blue Money	IMPLEMENTED ↗	Launched 2025-05-01
CEMAC interoperable QR-code standard	IMPLEMENTED ↗	Launched at Douala 2026-07-29 under a regional regulation of 2026-04-08
Central bank membership of the pan-African settlement system	IMPLEMENTED, OPERATIONALISATION TO END-2026 ↗	Membership announced 2026-07-09; member-state banks to be integrated by end-2026
Digital customs-duty payment card	PLANNED ↗	A signing ceremony reported as imminent, March 2026
Regional switch tariff grid revision	IN DEVELOPMENT ↗	A consultation workshop opened at Douala 2026-07-30 and closed 2026-07-31

Registries (population, land, address, etc.)

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Device import-duty regime by handset identifier	IMPLEMENTED ↗	In effect 2026-04-01 under the 2023 finance law
Digital birth certificates	IMPLEMENTED ↗	The first certificate issued at Limbe I, January 2026

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Digital civil-registration programme	IN DEVELOPMENT ↗	A technology partnership reported October 2025, with a fully digital target for 2029
Douala digital cadastre and possession certificate	PLANNED ↗	A memorandum signed 2026-04-28
Law 2024/016 on civil registration	IMPLEMENTED ↗	Enacted 2024-12-23, 130 sections
National civil-status registry platform	PILOTING ↗	Deployment in pilot councils reported 2026-07-16
Network blocking of unregistered handsets	PLANNED, DEADLINE MISSED ↗	The 2026-05-25 blocking deadline passed without implementation

Sectoral management information systems (HMIS, EMIS, etc.)

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Basic-education information system upgrade	IN DEVELOPMENT ↗	Technical-assistance agreement signed, announced 2026-07-31
National Digital Health Strategic Plan 2026-2030	IMPLEMENTED ↗	Launched 2026-03-04 with an envelope of about FCFA 29bn
National examinations digitisation	IN DEVELOPMENT ↗	A partnership signed 2026-01-15
Pandemic Fund preparedness project	IMPLEMENTED, NO DELIVERABLE REPORTED ↗	Activities launched 2026-07-29

Other GovTech and e-Gov

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Electronic public-procurement platform	IMPLEMENTED ↗	An upgraded platform unveiled with a US\$12m grant, 2025-06-30
Electronic visa and consular platform	IMPLEMENTED ↗	Second-generation consular services launched October 2025
Local-government digitisation programme	PLANNED ↗	Presented to technical and financial partners 2026-06-02; financing not secured
Tax administration system modernisation	IN DEVELOPMENT ↗	A project valued at about FCFA 4.7bn, partner-supported

National statistics

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Fourth population and agriculture census	IMPLEMENTED, ENUMERATION EXTENDED TO 2026-09-15 ↗	Complementary enumeration period 2026-08-01 to 2026-09-15, ordered by an arrêté made public 2026-07-31
Open SDG indicator platform	IMPLEMENTED ↗	Officially launched 2025-09-17

Use of satellite data

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Satellite-and-sampling census enumeration methodology	IMPLEMENTED ↗	Validated in the October to November 2025 census pilot

The biometric card runs from [two production centres, the second at about 2,000 cards a day](#), under a fifteen-year build-operate-transfer contract with a FCFA 10,000 pre-enrolment fee. A separate biometric payroll system, AILGLES, has been [operational since early 2025 and had flagged over 53,000 public servants drawing undue benefits by June 2026](#), running alongside a finance-ministry census of more than 950,000 dependent-child birth certificates

prompted by forged and duplicate records in the civil-registration system. [Law 2024/016 provides for electronic declaration, a national database, digital certificates and a unique personal identification number](#); its text is not held. [Digital birth certificates are in routine issuance across ten municipalities in three regions, and the registry platform is deployed in unnamed pilot councils, with no count or rollout date.](#)

An [interoperable QR-code standard launched on 29 July 2026](#) lets any application scan any merchant code across the six member states, and the regional central bank [joined the pan-African settlement system on 9 July 2026](#); no Cameroonian bank is yet named as live on it. Merchant use of it is [48,605 transactions worth FCFA 9.7bn in the first quarter of 2026, under 1% of the switch's 2025 volume](#), two mobile operators accounting for 98% of issuing value.

Importers must [declare each device by its identifier and pay duties before network use](#), but the [blocking deadline of 25 May 2026 passed without implementation](#), two operators refusing on unmet prerequisites.

The [fourth population and agriculture census is still in the field](#): an order made public on 31 July 2026 opened a complementary period to 15 September 2026 for households, persons and agricultural holdings missed when enumeration closed on 29 May, and no results are published. The [audit chamber found no mechanism to cross-check the revenues declared by the forestry, mining and customs administrations against the amounts registered in the trade single window](#). No national interoperability layer or urban data governance policy is held.

Governance and regulation

Legislation and regulation

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Loi n. 2010/012 on cybercrime and cybersecurity	IMPLEMENTED ↗	Promulgated 2010-12-21

Strategies, plans and policies

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Starlink Cameroon operating licence	IN DEVELOPMENT ↗	A draft concession convention finalised 2025-12-12; no decision at 2026-07-27

Regional collaboration

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Regional satellite data-residency framework	PLANNED ↗	Recommended by an expert panel at the regional regulators' tenth ordinary session

Standards

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Regulator quality-of-service monitoring platforms	IMPLEMENTED ↗	Handed over by the national connectivity project and the World Bank, 2026-01-07

Data protection

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Loi n. 2024/017 on personal data protection	IMPLEMENTED ↗	Promulgated 2024-12-23
Personal data protection authority	PLANNED ↗	No appropriation in the FY2025 or FY2026 estimates

EU activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
EU digital engagement with Cameroon	NOT HELD	—

Open data

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
National open-data policy	PLANNED ↗	Provided for in the artificial-intelligence roadmap; no policy published
Transparency and good governance code	IMPLEMENTED ↗	Promulgated 2018-07-11

Two statutes define the position and neither has moved. [Loi n° 2024/017 is in force with no supervisory authority operating](#); the statute's only appearance in a finance law is a tax derogation from it. [Loi n° 2010/012 on cybercrime, promulgated in 2010, is in force and invoked to justify network restrictions](#); civil-society reform recommendations put to government after a June 2026 workshop are pending.

Restriction is measured only from outside: a monitoring organisation records [four shutdowns in 2025, including election-period restrictions on social platforms](#), one of them a cross-border cut that took the Central African Republic off a submarine cable.

The satellite licence is the most consequential undecided file. One was [refused in March 2025](#); a [draft concession convention was finalised in December 2025](#) and the file has [sat at the ministry undecided for more than two years](#), the objections on record being lawful interception, armed-group use and the incumbent's commercial position.

Regulatory capability improved and has produced nothing measurable: [quality-of-service monitoring platforms were handed to the regulator in January 2026](#), with inspections at Douala in April and no sanction on record since. A [transparency and good governance code in force since 2018](#) requires budget-information dissemination; the finance ministry was still running first-contact sensitisation in April 2026. No open-data policy has been published, and no European Union engagement is held at any date.

Artificial intelligence and the technology sector

AI

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
AI authority and presidential council	PLANNED ↗	Provided for in the roadmap's governance pillar; not named among the ten priority areas
Driver-behaviour monitoring system	IN DEVELOPMENT ↗	Presented and awarded at the first national road-safety forum

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Founding membership of a global AI cooperation body	IMPLEMENTED ↗	The telecommunications minister told cabinet Cameroon acceded as a founding member
GPU cloud hosting, Douala node	IN DEVELOPMENT ↗	Announced as sovereign GPU hosting for two cities, service stated to start in the second quarter of 2025
National AI strategy	IN DEVELOPMENT ↗	Cabinet told the strategy is currently being developed; ten priority areas and a costed roadmap tabled
National consultations on artificial intelligence	IMPLEMENTED, NO THIRD EDITION ON RECORD ↗	The second edition held 7 and 8 July 2025 in Yaoundé, where the strategy was unveiled
National High-Performance Computing Centre	PLANNED ↗	Named to cabinet as one of ten priority areas
Rail forward-detection system	IMPLEMENTED ↗	Presented as deployed at the eighth rail safety day
Rail intelligent customer portal	PLANNED, NO DELIVERY ON RECORD ↗	Announced for first-quarter 2026 delivery
Sovereign large language model for national languages	PLANNED ↗	Named in the roadmap's third pillar

ICT Industry

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Douala smart port digital platform	IN DEVELOPMENT ↗	The state pension fund signed a capital-participation protocol 2026-03-04

Innovation ecosystem

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Climate innovation hub	IMPLEMENTED ↗	Launched at a Yaoundé university
Pyramid local software suite	IMPLEMENTED ↗	Launched at the seventh technology conference in Douala
SME and entrepreneur funding platform	IMPLEMENTED ↗	Launched in Yaoundé by the trade ministry

US / hyperscaler activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
CAMTEL and Amazon Web Services approach	PLANNED, EXPLORATORY ONLY ↗	A working session with the vendor's Africa executives and the US embassy ICT representative

India activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
India-Cameroon technology cooperation	NOT HELD	—

Gulf/UAE activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Gulf-state technology engagement in Cameroon	NOT HELD	—

The AI position is a roadmap that has not become a strategy. A 2040 roadmap on seven pillars was presented in July 2025; a year later cabinet was told the strategy is still being developed, with ten priority areas tabled and no adoption instrument published. The AI authority and presidential council the roadmap provided for are still not created, and are absent from the ten priorities, which carry only adaptation of the legal framework. A sovereign large language model for national languages has no build, budget or corpus named; a national high-performance computing centre has no site, cost or timetable. The benchmark of record is 46.3 out of 100, 30th of 42 African states, below the continental average of 56.

Working deployments are private and narrow: a rail forward-detection system detecting obstacles to 2 km against a 1.5 km maximum braking distance, with no fleet count or contract value, and a driver-behaviour monitoring system presented in May 2026 with no deployment scale or data-protection regime. The only domestic AI compute in the base is a GPU cloud node announced in February 2025 that no held source confirms in service.

The sector is large in revenue and small in venture. Regulator-reported revenue is FCFA 1,022bn for 2024, up 18%, with investment of FCFA 194.5bn and 3.16% of GDP; startup funding is two funded startups raising US\$300,000 in 2025. A state pension fund has taken equity in the Douala smart port digital concession on undisclosed terms.

Inclusion and capacity

Digital divides

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Bridging the digital gender divide project	IMPLEMENTED ↗	Recorded active, EUR 3m committed for 2023 to 2026
Rural connectivity component of the national connectivity project	IN DEVELOPMENT ↗	A limited national tender opened for the rural component

Literacy

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Bank-fee comparison platform	IMPLEMENTED ↗	Launched in Yaoundé by the national economic and financial committee
Digital financial-literacy project	DISCONTINUED ↗	The project closed, with a capitalisation workshop held 2026-07-23

Training and skills

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
AI workforce target of 60,000 specialists by 2040	PLANNED ↗	Cabinet reviewed the strategy; ten priority areas and a costed roadmap tabled
National AI challenge	IMPLEMENTED ↗	The 2025 edition concluded, with 100 young Cameroonians trained across five cities
Operator and higher-education skills partnership	PILOTING ↗	A first implementation wave opened 115 internships across all ten regions
Orange Digital Center network	IMPLEMENTED ↗	A sixth centre inaugurated at a Far North university

Research institutions

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Academic chair in digital governance	IN DEVELOPMENT ↗	A partnership formalised after four years of negotiation, creating the chair
Sovereign scientific database and digitisation centre	PLANNED ↗	Cabinet tabled ten priority areas including two research-infrastructure builds

Local-government digitisation reaches **230 councils today, about 64% nationally**, against the government's own baseline that 68.5% of authorities lack structured computer networks.

Skills are announced in tens of thousands and delivered in cohorts. The strategy's target is **60,000 specialists by 2040 including 40% women**, with no enrolment or expenditure figure against it at any date. What is delivered is **six operator training centres with 481 young people trained**, company-reported, and **115 internships across all ten regions**.

Finance

New investments

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Development bank trade finance facility	IMPLEMENTED ↗	The board approved the facility in December 2025
Mobile network expansion syndicated financing	IN DEVELOPMENT ↗	A syndicated financing consolidated and signed in Yaoundé
Operator three-year network capital pledge	PLANNED ↗	The pledge restated alongside an infrastructure partnership

MoUs and other agreements

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Master service agreement with Ethio Telecom	IMPLEMENTED ↗	A three-year framework signed 2025-12-05

Domestic budget appropriations and expenditure

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Lands ministry cadastre modernisation programme	PLANNED ↗	The FY2026 finance bill tabled with the programme renumbered and cut
Special Telecommunications Development Fund	DISCONTINUED ↗	The FY2024 finance law abolished the fund and folded its revenue and expenditure into the general budget
Telecommunications ministry digital-ecosystem programme	PLANNED ↗	The FY2026 finance bill tabled, merging the development and cybersecurity programmes into one
Domestic appropriation for digital inclusion, literacy, training or research	NOT HELD	—
Outturn or audit figure for any digital programme	NOT HELD	—

The instrument that once funded universal service no longer exists. The [Special Telecommunications Development Fund was abolished by the FY2024 finance law](#) and its revenue folded into the general budget, so universal-service money has not been separately traceable since; rural connectivity now runs through donor-tendered projects, the current one a [tender for FCFA 55bn targeting 328 unserved localities by 2028](#), no award held since it opened.

Local-government digitisation is the largest unfunded programme on file: [FCFA 92bn announced with no financier or start date](#).

Two budget lines move in opposite directions at proposal stage: the ministry's own digital programme is [proposed at FCFA 19,494,457,000 for FY2026](#), up sharply, while the [lands cadastre modernisation programme is cut 44.2% to FCFA 874,046,000](#), below its FY2024 level.

Gaps to fill

SYSTEM OR INSTRUMENT	WHAT WOULD SETTLE IT	LAST PROBED
Data-centre power supply and energy efficiency standard	the 2025 national data-centre study itself, of which the wiki holds only press accounts of its restitution	not yet probed
EU digital engagement with Cameroon	an EU-Cameroon Global Gateway or digital-development package record, a Team Europe digital commitment, or an EU delegation statement naming Cameroon	not yet probed
National government interoperability layer	a decree or agency framework naming a national data-exchange platform or interoperability standard	not yet probed
National urban data governance policy	a housing or planning ministry instrument creating a national urban-data policy or municipal data observatories	not yet probed
India-Cameroon technology cooperation	any India-Cameroon memorandum, line of credit, training placement or Indian supplier contract with a value	not yet probed
Gulf-state technology engagement in Cameroon	a dated UAE, Saudi or Qatari investment, data-centre or AI memorandum with Cameroon	not yet probed
Domestic appropriation for digital inclusion, literacy, training or research	a finance-law sub-programme volume showing whether such an activity exists inside the digital-ecosystem programme	not yet probed
Outturn or audit figure for any digital programme	the audit chamber's per-ministry, per-programme execution table bound reliably to its labels	not yet probed

Eight rows carry no reliable statement. Two are systems the state names as objectives without building: no national government interoperability layer, and no national urban data governance policy, a December 2025 policy brief recording that urban databases are neither interconnected nor public.

Four are external or physical: no European Union engagement, no India cooperation, no Gulf-state engagement, and no data-centre power-supply or efficiency standard — the last named as a failing by the state's own 2025 study, which the wiki holds only through press accounts.

The remaining two bear on every figure here: no domestic appropriation classified to digital inclusion, literacy, training or research in any of the three years, and no outturn or audit figure for any digital programme. Each row is in [gaps.csv](#) with what would settle it; none has yet been probed.

Figures are dated because most are time-varying: a figure carries the date it was true, not the date you are reading it. Where the base holds no reliable statement, the document says **Not held** rather than leaving a silence — those are counted, and listed at the end.

This is a dated edition and is not revised after publication. If a figure here has moved, the current edition will say so.
