

STATUS REPORT

Guinea: status report

Edition of 2026-08-13 · 86 systems and instruments tracked, 13 of them not held

Compiled 2026-08-11 from the Data Landscapers source base, from [outputs/reports/GIN/ledger.csv](#) (86 systems and instruments, 13 of them **Not held**). Each section opens with its ledger; specific events are covered in the monthly updates. Figures are dated because most are time-varying.

Status values. *Implemented* — in operation or in force. *Piloting* — running with a limited user group or in a controlled environment. *In development* — build or drafting under way, not yet operating. *Planned* — announced or provided for, no build or draft on record. *Enacted* — an instrument passed into law; pair with a qualifying clause for its in-force date. *Under review* — a law or policy currently being reconsidered. *Discontinued* — closed or superseded. *Not held* — the base carries no reliable statement of status; these are the gaps to fill and are listed again at the end.

Summary of position

Guinea's digital build is concentrated in payments and identity. The central bank [opened NimbaPay, a national instant payment rail, on 22 July 2026](#). The identity stack is being rebuilt domestically after the World Bank's WURI project closed two years early in June 2024; [biometric birth certificates and national IDs are enrolled in one commune](#).

The instruments that would govern either are absent: no data-protection law, no cybersecurity statute, no payments statute and no national AI strategy. The payments law and the payments governance council both [sit at terms-of-reference stage under a World Bank project](#).

Two things ran the other way. [Facebook, YouTube and TikTok have been blocked since 28 July 2026](#), unacknowledged by any authority. The state's own biometric-enrolment contractor [stated that fees not provided for in the regulations were being taken](#) at centres issuing documents the government had declared free.

Infrastructure

Connectivity

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
ACE submarine cable (sole international link)	IMPLEMENTED ↗	Named saturated after ~13-15 years as the country's only landing
FTTH and Wifi-Zone licensing regime	UNDER REVIEW ↗	FESATEL strike threat over FTTH restriction and the Wifi-Zone regime, 21 May 2026
GIGA school connectivity programme	IN DEVELOPMENT ↗	Plan launched 5 November 2025 to connect 2,200 primary schools by end-2026

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Guinea-Sierra Leone backbone interconnection (Pamelap)	IMPLEMENTED ↗	Capacity raised from 42.5 Gbps to 100 Gbps under the 2024 Digital Pact
MEDUSA Africa submarine cable (second landing)	IN DEVELOPMENT ↗	Construction and maintenance agreement signed, May 2026
National fibre backbone	IMPLEMENTED ↗	Capacity reported quadrupled to 200 Gbps in the 2025 sector review
Restriction on Facebook, YouTube and TikTok	IMPLEMENTED, UNACKNOWLEDGED ↗	Blocking measured from 28 July 2026; still running 2026-08-07
State shareholding in MTN Guinee	IMPLEMENTED ↗	Transfer of 87.5% to the state made official 30 December 2024
Univ Connect higher-education fibre (ANSUTEN)	IMPLEMENTED ↗	17 universities and institutes contracted, 13 connected
Via Africa submarine cable (third landing)	PLANNED ↗	Co-investment agreed in Paris, June 2026
Starlink market authorisation	NOT HELD	FESATEL states Starlink is not recognised in Guinea; no licensing decision on file

Data Storage

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
National Tier III data centre	IMPLEMENTED ↗	Inaugurated in Conakry, Uptime-certified
Sovereign management of the .gn ccTLD	IMPLEMENTED ↗	Sovereign management reinstated, September 2025

Technical Capacity

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Universite Numerique de Guinee (UNG)	IMPLEMENTED ↗	ISFAD converted into UNG by presidential decree, published the evening of 30 July 2026, under Loi L/2023/0016/CNT

Cybersecurity

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
ANSSI (national cybersecurity agency)	IMPLEMENTED ↗	Named as an established agency in the Smart Africa host profile
Cybersecurity statute	IMPLEMENTED ↗	Loi L/2016/037/AN on cybersecurity and personal-data protection adopted by the National Assembly and promulgated by President Alpha Conde; date precision year only, no promulgation date published

International connectivity rests on a single submarine cable. GUILAB, the landing company, [described the ACE cable as saturated after some 13 to 15 years as the country's only landing](#). Two further landings were contracted within the period — a construction and maintenance agreement for [MEDUSA Africa in May 2026](#) and a [co-investment in Via Africa agreed in June 2026](#) — neither carrying a published service date.

The ministry's [2025 review reported the backbone quadrupled to 200 Gbps and 585 schools connected under GIGA](#), against a [2,200-school target for end-2026](#); no independent measurement is on file.

Hosting and naming came under national control in September 2025, with a [Tier III data centre](#) and [sovereign .gn management](#). The state has held 87.5% of MTN Guinee since 30 December 2024.

FESATEL threatened to strike on 21 May 2026 over FTTH and Wifi-Zone restrictions, and stated that Starlink is not recognised in Guinea; no Starlink licensing decision is on file. Facebook, YouTube and TikTok have been blocked since 28 July 2026 on independent tests by the bloggers' association ABLOGUI, still running 7 August 2026; a consumer-protection union additionally reported WhatsApp restricted and bandwidth reduced for months, with operators saying the decision was not theirs. ANSSI is named as an established agency, but no founding instrument for it is held. Guinea's cybersecurity statute, *Loi L/2016/037/AN of 2016*, is now held — an image-only scan whose cybercrime and evidence-collection provisions are known only from ANSSI's own summary.

A decree of 30 July 2026 converted the distance-learning institute ISFAD into the *Universite Numerique de Guinee (UNG)*, a public scientific establishment mandated for online higher education and digital-pedagogy support; no programme or budget is published.

Digital public infrastructure

Data Exchange

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
GovStack interoperability layer (WARDIP)	IN DEVELOPMENT ↗	GovStack workshop held under the World Bank WARDIP project
National interoperability and identity-verification platform (ONECI / NG Tech Innovation)	PLANNED ↗	Memorandum of understanding signed in Conakry, 24 July 2026

Digital Identity and CRVS

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Biometric civil registry and national ID (ONECI, MOSIP/TECH5)	PILOTING ↗	Enrolment opened in Sanoyah commune, phase 1 of 2,000 certificates
Free issuance of biometric civil-registration documents	IMPLEMENTED, CONTESTED AT THE COUNTER ↗	State contractor MGG alleged unprovided-for fees and pay-for-priority at enrolment centres
FUGAS biometric civil-service payroll	IMPLEMENTED ↗	Biometric audit confirmed ~130,000 of ~277,000 registered civil servants
Unique personal identification number	PLANNED ↗	Prime minister called for FUGAS to integrate one; no instrument on record
WURI-Guinea foundational ID project	DISCONTINUED ↗	Closed 28 June 2024, two years early, with ~8,000 unique IDs issued

Digital Payments and Fintech

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
ECOWAS EPSS integrated payment project	DISCONTINUED ↗	Withdrawn from the BCRG's 2025 strategic priorities after a single evaluation meeting on 10 July 2024
National payment switch	IN DEVELOPMENT ↗	BCRG-AfricaNenda memorandum signed 5 December 2024 with Guineenne de Monetique
NimbaPay national instant payment system	IMPLEMENTED ↗	Opened for operations 22 July 2026
PAPSS participation	IMPLEMENTED, NO TRANSACTION RECORDED ↗	Participant status with no transaction yet recorded on the platform

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Resilient SWIFT infrastructure (BCRG)	PLANNED ↗	International tender launched for a resilient SWIFT infrastructure at the BCRG; bids due 31 August 2026
RTGS migration to ISO 20022	IN DEVELOPMENT ↗	Second equipment lot delivered 28 January 2025; migration not made
Tresor Pay public-payments gateway	IMPLEMENTED ↗	Launched 22 December 2025
Unique bank identifier and interoperability project (UBI/IN)	IN DEVELOPMENT ↗	Launched 26 June 2024; reached consultant recruitment

Registries (population, land, address, etc.)

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Land cadastre digitalisation	PLANNED ↗	Named a ministerial priority; no instrument, budget or timetable published
PN-RAVEC administrative census	IMPLEMENTED ↗	Secured civil-registry inputs delivered to RGPH-4 and the RNPP
Registre national des personnes physiques (RNPP)	IMPLEMENTED ↗	DGE-ONECI convention institutionalised RNPP-to-roll data sharing
Registre Social Unifie (RSU)	IMPLEMENTED ↗	Created by Decree D/2019/271 of 1 October 2019
RETSSM movable-collateral electronic registry	IN DEVELOPMENT ↗	Rescue consultancy tendered under WARDIP, opening 27 July and closing 17 August 2026

Sectoral management information systems (HMIS, EMIS, etc.)

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
SNIS health information system interoperability	IN DEVELOPMENT ↗	Conakry workshop with the Health Ministry; REC maternite register piloted in 15 centres

Other GovTech and e-Gov

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
eCNSS online social contributions	IMPLEMENTED ↗	Launched, carrying ~60% of contribution receipts
Guichet Unique des Services Publics (GUSP)	IN DEVELOPMENT ↗	Guinea-Azerbaijan partnership agreed to build it on the ASAN model
Journal Officiel numerique	IMPLEMENTED ↗	Free online legal gazette carrying 1,100+ journals and 6,000+ texts
LANDAYA industrial-permits platform	IMPLEMENTED ↗	Industrial licences issued in 72 hours; successor to PLAGED
National vehicle-attestation platform	IN DEVELOPMENT ↗	Contract awarded to SIIN and DIGITECH of Cote d'Ivoire
Nine-project public-administration package	IN DEVELOPMENT ↗	Nine projects announced, May 2026
Oeil du Tresor fund-call platform	PILOTING ↗	Regional training for prefectural treasurers begun in Guinee forestiere
TELEMO e-procurement platform	IMPLEMENTED ↗	Platform launched 22 May 2026, having been unveiled at Transform Africa Summit 2025

Rural digital data capture

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Rural digital-services programme	NOT HELD	No dedicated source on file

Digitalisation of sub-national government

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Prefectural treasury connection to central systems	PILOTING ↗	Training under Oeil du Tresor begun in five prefectures of Guinee forestiere

National statistics

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
RGPH-4 population census	IMPLEMENTED ↗	Population of 17,521,167 carried into the electoral file

Use of satellite data

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Earth-observation or satellite data programme	NOT HELD	No source on file

NimbaPay opened on 22 July 2026, making banks, electronic-money institutions and microfinance institutions interoperable nationwide, built in 127 days on Mojaloop by Guineenne de Monetique. Tresor Pay, for state administrative fees, launched on 22 December 2025. The BCRG has also gone to tender for a resilient SWIFT infrastructure, bids due 31 August 2026. The BCRG's own project register — undated, its latest dated entry 28 January 2025 — records the rest: RTGS migration to ISO 20022 undelivered, held by unpaid invoices and customs delays; the unique bank identifier project at consultant recruitment; PAPSS participation with no transaction recorded; and ECOWAS EPSS withdrawn from the bank's priorities after one 2024 evaluation meeting.

WURI-Guinea closed on 28 June 2024 with about 8,000 unique IDs issued; ONECI began enrolling biometric birth certificates and national IDs in Sanoyah commune in March 2026, phase one covering 2,000 certificates. The RNPP became the electoral file's single source under a January 2026 DGE-ONECI convention, which carried 6.95m electors across 23,681 stations for the 31 May 2026 elections. The biometric payroll FUGAS confirmed about 130,000 of some 277,000 registered civil servants; the unique personal identification number called for then is still not on record. Free issuance is policy and contested in practice: the state's technical partner Multimedia Glory Guinee stated on 28 July 2026 that unprovided-for fees were being taken at enrolment centres, with no ministry response.

The platform layer is populated, from TELEMOMO for procurement to LANDAYA for industrial licences; the layer beneath it is not: GovStack is at workshop stage, the NG Tech Innovation platform signed 24 July 2026 discloses no value, duration or scope, and RETSSM has software but no legal provisions, security posture or user base.

Governance and regulation

Legislation and regulation

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
ARPT supervision of electronic transactions and mobile money	IMPLEMENTED ↗	Décret D/2021/092/PRG/SGG signed 25 March 2021 as the implementing instrument for Loi L/2016/035/AN

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Conseil National de Paiement	PLANNED ↗	To be created under WARDIP; at terms-of-reference stage
Digital Analysis and Regulation Platform (PARN)	PLANNED ↗	Created by the decree of 21 May 2026 to monitor foreign digital services
Digital Compliance Fee (RCN) on foreign digital services	ENACTED, SIX-MONTH TRANSITION BEFORE ENFORCEMENT ↗	Decree signed 21 May 2026
Digital Sovereignty Fund (FSN)	PLANNED ↗	Created by the decree of 21 May 2026, financed primarily from the RCN
Loi L/2016/035/AN on electronic transactions	IMPLEMENTED ↗	Adopted 26 July 2016, the date established from the 2021 implementing decree that cites it
Payment systems law	PLANNED ↗	At terms-of-reference stage under WARDIP, awaiting the World Bank's no-objection

Strategies, plans and policies

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Ministere de la Communication, de l'Economie numerique et de l'Innovation (MCENI)	IMPLEMENTED ↗	Portfolio held unchanged through the reshuffle of 27 July 2026
National Data Governance Strategy	IN DEVELOPMENT ↗	Drafting launched 19 June 2026 under DNTIEN
Simandou 2040 digital pillar	IMPLEMENTED ↗	Pillar 3 launched at Transform Africa Summit 2025, targeting digital at 20% of GDP

Regional collaboration

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Chairmanship of the African Council of Regulators (ARPT)	IMPLEMENTED ↗	ARPT director-general presided at CAR-15 alongside Transform Africa 2025
Guinea-Sierra Leone free-roaming agreement	ENACTED ↗	Protocol signed at CAR-15, 17 November 2025
Malabo Convention ratification	IMPLEMENTED ↗	Ratified by Décret D/2017/184/PRG/SGG, effective from signature on 26 July 2017
Transform Africa Summit 2025 hosting	DISCONTINUED ↗	Held in Conakry 12-19 November 2025, 42 states and 14 memoranda

Standards

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
GovStack technical standards adoption	IN DEVELOPMENT ↗	Workshop held under WARDIP; no standard adopted on record

Data protection

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Consumer-protection conditions on NimbaPay	PLANNED ↗	AGUIDUTEN published twelve conditions on the day after launch; no regulator or operator response on file
Data protection law	IMPLEMENTED ↗	Loi L/2016/037/AN on cybersecurity and personal-data protection adopted by the National Assembly and promulgated by President Alpha Conde; date precision year only, no promulgation date published

Public debate and participation in policymaking

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Official explanation of the social-media restriction	NOT HELD	Operators and ISPs told a consumer-protection union they were compelled to comply but did not name the authority; no government, regulator or legal basis has been published (2026-08-04)

EU activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
European co-financed cable connection (MEDUSA)	IN DEVELOPMENT ↗	Construction and maintenance agreement signed, May 2026

Open data

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Open government data portal	NOT HELD	No portal or open-data policy on file

A data-protection law is now held, [Loi L/2016/037/AN](#) — see Infrastructure, Cybersecurity, above — previously only [flagged at Transform Africa Summit 2025](#) with no text, date or authority recorded. Guinea [ratified the African Union convention on cyber security and personal data protection by decree on 26 July 2017](#), a date the Union's own list puts at 31 July 2018; [both the ratifying decree and the promulgation decree for the authorising law are now held, in the same August 2017 gazette](#), though the law itself remains held only by title. [Loi L/2016/035/AN of 2016 frames electronic signature, digital archiving and online commerce](#), and a [2021 decree makes the telecoms regulator the supervisor of electronic transactions including mobile money](#). Absent are a payments statute and a Conseil National de Paiement, [at terms-of-reference stage awaiting the World Bank's no-objection](#).

A [decree of 21 May 2026 created a Digital Compliance Fee on foreign digital services, tiered from an initial flat rate](#), a Digital Sovereignty Fund financed from it, and a Digital Analysis and Regulation Platform to monitor foreign services; neither fund nor platform is on record as operating, and a six-month transition runs before enforcement. [Drafting of a National Data Governance Strategy opened on 19 June 2026](#).

The day after NimbaPay opened, the consumer body AGUIDUTEN [published twelve conditions](#) — a tariff grid, complaint deadlines, security audits and fraud-statistics publication — with no regulator or operator response on file.

The digital portfolio held through the [reshuffle of 27 July 2026](#), MCENI keeping the minister gained at its February 2026 merger; a World Bank tender that week still names the predecessor, MPTEN.

No official explanation for the block is on record; a consumer-protection union [said operators and ISPs told it they were compelled to comply, without naming the authority](#).

Artificial intelligence and the technology sector

AI

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
DouIA programme and Manifesto of Conakry	IN DEVELOPMENT ↗	DouIA1 closed and DouIA2 launched with the signing of the Manifesto of Conakry
Guinea-Rwanda cooperation in AI and e-health	PLANNED ↗	Areas identified at a Conakry meeting on 20 July 2026; nothing signed
Six-country Francophone West African AI governance framework	ENACTED ↗	Adopted and announced 6 July 2026; submitted to the UN Global AI Dialogue
National AI strategy	NOT HELD	No strategy document on file; probed 2026-08-09 and a national AI roadmap is named in open sources, unheld

ICT Industry

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Cauridor cross-border payments infrastructure	IMPLEMENTED ↗	Appointed a chief operating officer; operating in 36 countries

Innovation ecosystem

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Startup act or innovation-financing instrument	NOT HELD	No instrument on file

US / hyperscaler activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Taxation of United States digital-service providers	ENACTED, SIX-MONTH TRANSITION BEFORE ENFORCEMENT ↗	Decree of 21 May 2026 brings streaming, cloud, SaaS, advertising and e-commerce into charge

China activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Chinese digital investment in Guinea	NOT HELD	No Guinea-specific source on file; the base holds one continental study only

India activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Indian digital cooperation with Guinea	NOT HELD	No source on file

Gulf/UAE activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Gulf-state digital investment in Guinea	NOT HELD	No source on file

No national AI strategy is held. A [July 2026 account of a six-country Francophone West African framework](#) names Senegal and Cote d'Ivoire as the two participants with adopted national strategies and places the others, Guinea among them, as still developing their governance frameworks. Guinea did adopt that shared framework, announced on 6 July 2026 and submitted to the United Nations' first Global AI Dialogue as a written contribution.

The domestic AI work on record is the DouIA programme, whose [second phase was launched with a Manifesto of Conakry](#); the only account held is from a PR-wire outlet and no primary document is on file. [Cooperation with Rwanda in AI and e-health was identified at a Conakry meeting on 20 July 2026](#), with nothing signed.

In the sector itself the largest named object is [Cauridor, a Guinea-founded cross-border payments infrastructure operating in 36 countries](#). No startup act or innovation-financing instrument is on file.

Inclusion and capacity

Access to services

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Private electronic-money and wallet market	IMPLEMENTED ↗	CORIS Money (February 2026), Orange Money-BNG interoperability (March 2026) and KS-Wallet (April 2026) entered service

Literacy

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Digital literacy programme or measurement	NOT HELD	No source on file

Training and skills

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Holberton Guinee software-engineering campus	IMPLEMENTED ↗	Conakry campus launched 16 July 2026

Research institutions

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Public research programme in digital or data science	NOT HELD	No source on file

The private payments market added three services in the period — [CORIS Money in February 2026](#), [Orange Money to bank interoperability with BNG in March 2026](#) and [KS-Wallet in April 2026](#) — against six licensed electronic-money institutions in 2024 and eleven by November 2025.

The [ministry's review of 2025](#) reported more than 10,000 people trained in digital skills and mobile internet costs down 25%, both ministry-reported and unverified elsewhere in the base. [Holberton Guinee opened a software-engineering campus in Conakry on 16 July 2026](#).

Finance

New investments

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
WARDIP-Guinea (Digital Transformation for Africa)	IMPLEMENTED ↗	IDA Credit No. 74440GN; RETSSM rescue consultancy tendered 27 July 2026

MoUs and other agreements

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Visa-Guinea central bank memorandum	PLANNED ↗	Talks opened with the Finance Ministry toward a central-bank memorandum

Domestic budget appropriations and expenditure

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Domestic budget appropriation for digital transformation	NOT HELD	No budget document or appropriation line on file

Tracked non-state digital-transformation finance stands at US\$543m across five deals for 2023 to 2025, on the wiki's own compilation of the deal records it holds as of 6 August 2026 — not a published figure, and carrying no source of its own. The largest instrument inside it is WARDIP, a [US\\$60m credit under IDA Credit No. 74440GN, from which the RETSSM rescue consultancy was tendered on 27 July 2026](#). No domestic budget appropriation is held: no Loi de finances line is on file for MCENI, ANDE, ANSSI or the Digital Sovereignty Fund, so this report can state what those bodies have announced but not what they have been given.

Gaps to fill

SYSTEM OR INSTRUMENT	WHAT WOULD SETTLE IT	LAST PROBED
Starlink market authorisation	An ARPT licensing decision, a published authorisation register, or a ministerial statement on Starlink market entry.	2026-08-09
Earth-observation or satellite data programme	A national earth-observation or geospatial-data programme document, or an agency mandate covering satellite data.	2026-08-09
Rural digital-services programme	A rural connectivity or rural digital-services programme document, or the white-zones plan named in the 2026 targets.	2026-08-09
Official explanation of the social-media restriction	Any published legal basis, ARPT decision or ministerial statement acknowledging the restriction on Facebook, YouTube and TikTok.	2026-08-09
Open government data portal	A national open-data portal, an open-data policy, or a public-sector information reuse instrument.	2026-08-09
National AI strategy	The national AI roadmap document named in open sources, with its validation date and adopting instrument.	2026-08-09
Chinese digital investment in Guinea	A Guinea-specific Chinese financing agreement, contract or memorandum covering digital infrastructure.	2026-08-09
Startup act or innovation-financing instrument	A startup act, an innovation fund instrument, or a published incubation or venture programme.	2026-08-09

SYSTEM OR INSTRUMENT	WHAT WOULD SETTLE IT	LAST PROBED
Indian digital cooperation with Guinea	Any India-Guinea digital cooperation agreement, line of credit or programme document.	2026-08-09
Gulf-state digital investment in Guinea	Any Gulf-state investment, financing or memorandum covering Guinean digital infrastructure.	2026-08-09
Public research programme in digital or data science	A public research programme, university research centre mandate or published research output in digital or data science.	2026-08-09
Digital literacy programme or measurement	A digital-literacy programme document, or a published measurement of digital literacy.	2026-08-09
Domestic budget appropriation for digital transformation	The Loi de finances or its annexes showing appropriation lines for MCENI, ANDE, ANSSI or the Digital Sovereignty Fund.	2026-08-09

One of the not-held rows is a governing instrument open sources describe as coming without the wiki holding it — a national AI strategy. Most of the rest are absences of any source: satellite data, rural digital services, an open-data portal, Chinese and Indian digital cooperation, Gulf-state investment, public research, digital literacy, a startup act and the domestic budget appropriation, which bears on every other section. Two are of a different kind: a licensing decision on Starlink and a legal basis for the platform restriction are things the state would have published had it made them, so the absence is itself the finding.

Figures are dated because most are time-varying: a figure carries the date it was true, not the date you are reading it. Where the base holds no reliable statement, the document says **Not held** rather than leaving a silence — those are counted, and listed at the end.

This is a dated edition and is not revised after publication. If a figure here has moved, the current edition will say so.
