Governance

Strategies, plans and policies

- **وزير الصحة يترأس اجتماعًا تشاوريًا لإعداد خطة التحول الرقمي بالقطاع الصحي في ليبيا 2026–2030** — Libya Observer, 27 October 2026 LIBYA

  Libya's Health Minister chaired a consultative meeting on a 2026-2030 plan for digitalising the health sector. The Minister of State for Digital Economy and AI and representatives of the WHO and UNDP took part. Participants reviewed the state of digital health, facility readiness, national health information systems and a preliminary digital maturity analysis. The plan is in preparation. Priorities, responsibilities and timetables were still to be set. *Also under Sectoral management information systems.*

- **RDC : la stratégie de digitalisation de la gouvernance sécuritaire soumise à validation - Congo Inter** — Congo Inter, 27 October 2026 DRC

  DR Congo's deputy interior minister opened a four-day national workshop in Kinshasa on 26 October 2026. The workshop is to validate a strategy and roadmap for digitalising security governance. The aim is real-time reporting of security information from village to state level. That reporting still relies largely on manual procedures. *Also under Other GovTech and e-Gov.*

- **Planning, Monitoring and Evaluation holds inaugural Geospatial Information Management Strategy Coordination Committee Meeting, 29 Oct** — South African Government, 27 October 2026 SOUTH AFRICA

  South Africa's Department of Planning, Monitoring and Evaluation will convene the first Geospatial Information Management Strategy Coordination Committee on 29 October 2026 in Pretoria. The agenda covers governance arrangements, implementation priorities, data standards, reporting and systems integration. *Also under Standards.*

- **Le FDSU présente la stratégie nationale pour la connectivité universelle 2026-2035 – modèle TowerCo Lead** — Fonds de Développement du Service Universel (FDSU), 27 October 2026 DRC

  DR Congo's universal service fund set out a 2026-2035 connectivity strategy, first presented on 12 February 2026, to reach about 68 million rural people. Tower companies finance and build passive infrastructure on open access, and mobile operators run the active equipment, in consortia subsidised by zone. There are five zones and three phases. *Also under Connectivity and Rural digital data capture.*

- **Lancement de l'atelier sur le commerce électronique** — Ministère du Commerce et de l'Industrie (Niger), 27 October 2026 NIGER

Niger's Ministry of Commerce and Industry opened a three-day pre-validation workshop on 26 October 2026. The workshop concerns its national e-commerce strategy. The strategy aims to use digital means to support financial and social inclusion. It also aims to make Niger a major West African e-commerce actor by 2035.

- **Kenya Plans 44,000km Fiber Expansion to Boost Internet Access** — Techweez, 27 October 2026 KENYA

  Kenya plans a further 44,000km of fibre. One part is a 17,000km project for public institutions. The other is 27,000km of backbone, middle-mile and cross-border links. Government investment of KES 13 billion backs the plan. The plan sits within a Digital Superhighway target of 100,000km. The ICT Principal Secretary's remarks are the source. An earlier account on file describes the 17,000km as already added since 2022. *Also under Connectivity and Digital divides.*

- **Ethiopia Prioritises National Geospatial Data Infrastructure in New Strategy** — TechAfrica News, 27 October 2026 ETHIOPIA

  Ethiopia's Minister of Innovation and Technology told the Space Science and Geospatial Institute to build an integrated national geospatial data foundation and extend digital addressing, so far started in selected cities, nationwide. The work feeds the next five-year plan. A study of a national communications satellite has not yet been done. *Also under Use of satellite data and Registries.*

- **Cybercriminalité en Côte d'Ivoire : plus de 14 700 plaintes et 23 milliards FCFA de pertes en 2025** — Ivoirematin, 27 October 2026 CÔTE D'IVOIRE

  Côte d'Ivoire's national cybersecurity agency recorded more than 14,700 cybercrime complaints in 2025, according to the digital minister. Losses came to nearly FCFA 23 billion. His Cybersecurity Month statement places security in the 2026-2028 digital roadmap of seven pillars and 40 projects. It also tells firms to comply with the national security framework. *Also under Cybersecurity.*

- **African Union Opens 6th Session of Specialized Technical Committee on Communication and ICT** — African Union Commission, 27 October 2026 GABON AFRICA

  The African Union's Specialised Technical Committee on Communication and ICT opened its 6th Ordinary Session in Libreville. It elected a bureau chaired by Ghana, with Kenya, Gabon and a North African state still to be confirmed as vice-chairs, and Lesotho as rapporteur. Its recommendations go to AU ministers for decision. *Also under Regional collaboration.*

Legislation and regulation

- **NCC, NITDA, AGF, National Assembly demand stronger cybersecurity measures against AI-driven threats** — Daily Post Nigeria, 27 October 2026 NIGERIA

  Nigeria's Attorney-General said the Federal Ministry of Justice has advanced a draft executive bill to strengthen the cybercrime legal framework. It covers emerging technologies and the preservation and exchange of electronic evidence. NITDA said it is reviewing cybercrime legislation with the Office of the National Security Adviser and the National Assembly. *Also under Cybersecurity.*

- **Minister Chipungu reveals hackers targeted Malawi's land database | Nyasa Times** — Nyasa Times, 27 October 2026 MALAWI

Lands Minister Chimwemwe Chipungu said the ministry's Land Information Management System was hacked about two weeks earlier, exposing title deeds and other land data. He alleged the intruders sold title deeds while posing as ministry officials. The ICT Minister announced reviews of two existing acts and three bills: on cybersecurity, cyber crimes and e-evidence, and e-transactions and e-commerce. *Also under Cybersecurity and Registries.*

- **Malawi pushes tough new laws to track, expose and jail online scammers | Nyasa Times** — Nyasa Times, 27 October 2026 MALAWI

  Malawi's Justice Minister, Charles Mhango, said the government hopes to table a cybercrime bill in the February-April 2027 budget session. Drafted with the ICT Ministry, it is meant to trace fraudulent bank and mobile-money accounts and to address AI-linked threats. He spoke at the National Cyber Drill and Cybersecurity Conference in Lilongwe. *Also under Cybersecurity.*

- **Le chef de l'Etat préside les travaux de la 12e séance du Conseil des ministres** — Agence Djiboutienne d'Information (ADI), 27 October 2026 DJIBOUTI

  Djibouti's Council of Ministers approved a draft organic law on finance laws with a title on dematerialisation. It provides for an integrated public financial management system, electronic archiving, digital signatures and online publication of budget data. *Also under Sectoral management information systems and Open data.*

- **ACCÈS À INTERNET - Une nouvelle législation en faveur des investissements** — L'Express de Madagascar, 27 October 2026 MADAGASCAR

  Madagascar's government filed bill 040/2026 on electronic communications and digital infrastructure on 28 August 2026. Its vote was adjourned in the previous session, and it was not yet on the National Assembly's agenda for the new session. Article 111 would guarantee operators stable legal, tax, customs and financial regimes for the term of their licence. *Also under Connectivity.*

Data protection

- **Trust Stamp targets Nigerian biometric ID programs with 3-year BLIP deal** — Biometric Update, 27 October 2026 NIGERIA

  Trust Stamp signed a three-year technology services and data sovereignty agreement with BLIP Limited, a Nigerian provider of registration platforms for government. Trust Stamp will supply tokenised biometric identity tools, with data hosted in Nigeria. The company expects more than one million enrolments in the first year. *Also under Digital Identity and CRVS and Digital sovereignty.*

- **Rand Mutual probes alleged breach of 1.68m claims** — ITWeb South Africa, 27 October 2026 SOUTH AFRICA

  Rand Mutual Assurance said it is investigating a possible systems breach after an alert on 23 October 2026. A threat actor claims to hold 366GB of data, including 1,683,810 compensation claims records, and demands US$95,000 by 5 November. The insurer said no unauthorised access had yet been established. *Also under Cybersecurity.*

- **FNB issued with R1m fine for POPIA violation** — ITWeb South Africa, 27 October 2026 SOUTH AFRICA

  South Africa's Information Regulator fined First National Bank R1 million after a fault in its mobile app exposed the personal data of 88 home-loan applicants to 696 unauthorised people. The regulator found the bank's safeguards inadequate and its response to repeated security incidents deficient. It issued the notices on 26 October 2026.

- **Benin Data Protection Authority calls for stronger cooperation on cybersecurity and digital sovereignty** — TechReviewAfrica, 27 October 2026 BENIN

  Luciano Hounkponou, who heads Benin's data protection authority, spoke at the 15th One Africa Digital Forum in Cotonou. He called for closer cooperation between the data protection, cybersecurity and communications regulators, and for regional harmonisation of standards. He also argued for national data centres and less offshore hosting. *Also under Cybersecurity and Digital sovereignty.*

Regional collaboration

- **Zambia : Zambia Takes First SADC Regional Cybersecurity Chair** — Lusaka Times, 27 October 2026 ZAMBIA

  Zambia took the first chair of the SADC Regional Computer Incident Response Team Steering Committee for 2026-2027. The Zambia Cyber Security Agency's director general, Dr Schmidt Chintu, assumed the post on 17 September 2026. The agency says the regional cybersecurity framework adopted in 2019 is now being put into operation. *Also under Cybersecurity.*

- **Gabon and African Union Sign Host Country Agreement on Digital Cooperation** — Tech Africa News, 27 October 2026 GABON

  Gabon and the African Union signed a host country agreement for the AU Specialised Technical Committee on Communication and ICT. Gabon's digital economy minister and the AU Commissioner signed it in Libreville at the opening of Digital Week. The signing date is not stated.

- **Cameroon to host ARTAC headquarters as Central African regulators deepen digital cooperation** — Tech Review Africa, 27 October 2026 CAMEROON CENTRAL AFRICA

  Central African telecoms regulators chose Cameroon as the seat of their association, ARTAC. They gave Cameroon's regulatory board the task of appointing its Executive Secretary. They decided this at their fourth extraordinary session in Libreville on 20-21 October 2026. The session also adopted a resolution on running the regional ICT Observatory.

- **ARTAC: le Cameroun s'impose comme capitale numérique de l'Afrique centrale** — Journal du Cameroun, 27 October 2026 CAMEROON

  Cameroon was confirmed as the seat of ARTAC, the assembly of Central African telecoms regulators, at its fourth extraordinary session in Libreville on 20-21 October 2026. Cameroon's regulator was charged with naming the Executive Secretary, under the statutory rotation. *Also under Connectivity.*

- **African Union Opens 6th Session of Specialized Technical Committee on Communication and ICT** — African Union Commission, 27 October 2026 GABON AFRICA

  Summarised under Strategies, plans and policies.

Standards

- **Why Rwanda is Unhappy with Only 11% of Government Services Fully Digitised** — KT Press, 27 October 2026 RWANDA

  The latest Rwanda Governance Scorecard finds that 11% of government services are fully digitised from start to finish. Cabinet reviewed the scorecard on 26 October 2026 and directed institutions to take coordinated, measurable action. The report also cites a service inventory that cuts local services from 235 to 60, a consolidation of 22 licences and 12 land services online. *Also under Other GovTech and e-Gov and Access to services.*

- **INFOSI certifica e aprova utilização da plataforma AngolaID** — Portal de T.I, 27 October 2026 ANGOLA

Angola's information society agency INFOSI certified and approved the private AngolaID identity-verification platform, built by Tech by Tech, for use nationwide. This followed an October test release. The company says the platform neither issues nor replaces the state identity card. *Also under Digital Identity and CRVS and Innovation ecosystem.*

- **Planning, Monitoring and Evaluation holds inaugural Geospatial Information Management Strategy Coordination Committee Meeting, 29 Oct** — South African Government, 27 October 2026 SOUTH AFRICA

  Summarised under Strategies, plans and policies.

Public debate and participation in policymaking

- **São Vicente: UCID denuncia paralisação da recuperação de processos judiciais afectados pela tempestade Erin** — Inforpress, 27 October 2026 CAPE VERDE

  Cabo Verde's opposition party UCID said recovery of court files has stalled. The files were flooded in São Vicente by storm Erin. It said the justice information system runs there for criminal but not civil cases. It said the system does not connect to the Judiciary Police system. It called for court records to be digitised. *Also under Sectoral management information systems.*

- **New National IDs to be activated soon – Minister Baryomunsi** — Watchdog Uganda, 27 October 2026 UGANDA

  Parliament heard that Uganda's newly issued national ID cards are failing verification at banks, and that NIRA is synchronising them with the Uganda Communications Commission. An MP questioned the proposal to use national identification numbers in place of tax identification numbers for individual tax registration. The Deputy Speaker directed the ICT committee to oversee the authentication. *Also under Digital Identity and CRVS.*

- **Meta, Google, Microsoft to support INEC in tackling false claims ahead of 2027 elections** — Premium Times Nigeria, 27 October 2026 NIGERIA

  Microsoft, Google and Meta committed to help Nigeria's electoral commission, INEC, counter AI-generated falsehoods before the 2027 elections. Microsoft will load INEC's final candidate list into its systems to block generated images of candidates. Google has opened its SynthID Detector to the public, and Meta will work with INEC on reliable election information. *Also under AI.*

- **IFC Checked Sama's Fire Exits. Nobody Checked the Client Exit.** — ICTworks, 27 October 2026 KENYA UGANDA

  A commentary argues that the IFC's appraisal of the outsourcing firm Sama did not price the risk of a client leaving. It points to the 16 April 2026 redundancy notices to 1,108 Nairobi staff. Meta had ended one engagement. It cites a randomised study of 1,115 Nairobi youth. In the study, training plus a referral to Sama raised monthly earnings by 37%. Training alone showed no gain. *Also under ICT Industry.*

- **Democracy Online: Can Internet Voting Help Rebuild Sudan after Conflict?** — Next Century Foundation, 27 October 2026 SUDAN

  An unsigned commentary from the Next Century Foundation proposes a phased, hybrid route to internet voting for Sudan's displaced electorate. It makes secure digital identity the precondition, and compares the experience of countries that already use electronic or internet voting. It is analysis and reports no decision.

ICT Infrastructure

Connectivity

- **Why Ghana is Mandating 4G for Rural Telephony Before 5G Takes Over** — Tech Africa News, 27 October 2026 GHANA

  Ghana's Communications Minister, Samuel Nartey George, directed that all rural telephony sites be upgraded to at least 4G. A national audit covers the 2,016 community network sites inherited under the Rural Telephony Project, of which about 1,400 carry traffic. Telecel is to add about 350 sites, and GIFEC has allocated GH¢30 million. *Also under Rural digital data capture.*

- **Rwanda Marks Completion of Smart Education Project Phase I and Launches the DigiTruck Initiative** — Ministry of Education (Rwanda), 27 October 2026 RWANDA

  The Ministry of Education, with the Ministry of ICT and Innovation and Huawei, marked the end of Phase I of the Smart Education Project. Phase I connected 1,500 schools to high-speed internet and built two data centres. The DigiTruck, a mobile solar-powered classroom, was launched to give free digital skills training to more than 5,000 people across 30 districts over three years. The page carries no date of its own. *Also under Training and skills.*

- **Paratus expands its African reach with Tanzania PoP** — Connecting Africa, 27 October 2026 TANZANIA

  Paratus Tanzania launched a point of presence at the Wingu Data Centre in Dar es Salaam. It links customers to Paratus network routes north to Nairobi via Mombasa and south to Maputo, Johannesburg and Eswatini. The company will offer IP transit, Layer 2 circuits and wholesale capacity to carriers, internet service providers and enterprises.

- **Orange continues 'remarkable' MEA growth story in Q3** — Connecting Africa, 27 October 2026 AFRICA

  Orange reported third-quarter 2026 revenue of EUR 2.4 billion in its Middle East and Africa region, up 14.2% on a year earlier, against 5.3% growth in Europe. Orange Money customers rose 21.8% to 54 million by the end of September. The region has 98 million 4G customers and 5.4 million fixed broadband customers. Group revenue was EUR 12.2 billion, and the group raised its 2026 growth target to above 4.5%. *Also under ICT Industry and Digital Payments and Fintech.*

- **O3 lands Medusa cable in Benghazi** — ITWeb Africa, 27 October 2026 LIBYA

  O3, a Libyan telecoms provider, has landed the Medusa submarine cable in Benghazi. Its data centre, with a Tier III design certificate from the Uptime Institute, is due to operate by March 2027. The company plans further projects from December 2026 through 2027, including a national fibre network, digital services and an education programme. *Also under Data Storage.*

- **Le Mozambique veut porter à 1000 le nombre d'écoles connectées à Internet d'ici 2029** — wearetech.africa, 27 October 2026 MOZAMBIQUE

  Mozambique's Communications and Digital Transformation Minister, Américo Muchanga, gave a radio interview broadcast on 26 October 2026. He said the government aims to connect 1,000 schools to the internet by 2029, up from 418. He added that 19,454 computers have been distributed to higher-education students. He added that 20 digital spaces have been created. *Also under Digital divides.*

- **Internet : retour à la normale après la maintenance du câble sous-marin reliant l'Algérie et l'Espagne** — Algérie Éco, 27 October 2026 ALGERIA

Algeria's posts and telecommunications ministry announced on 27 October 2026 that internet service was back to normal. Maintenance on the Algeria-Spain submarine cable had taken place overnight on 26-27 October. Traffic had been moved to other cables beforehand. The ministry said main services were not affected.

- **Fibre à domicile : l'ARCEP prépare une carte pour comparer les opérateurs** — Togo First, 27 October 2026 TOGO

  Togo's regulator ARCEP opened a tender, number 004/ARCEP/PRMP/2026 of 25 September 2026, for a public portal mapping home fibre networks. Users could compare operators' coverage, speeds and service quality by locality and report faults on the map. Bids are due 30 October 2026, the contract is estimated at FCFA 250 million, and delivery is set within 240 days. *Also under Access to services.*

- **Des coupures du réseau Vodacom perturbent les activités économiques depuis 3 semaines à Aba** — Radio Okapi, 27 October 2026 DRC

  Vodacom's mobile network at Aba, in Haut-Uélé province, had been down for three weeks, according to local civil society on 26 October 2026. Vodacom is the only operator there, and mobile-money transfers and airtime and data sales stopped. Outages were also reported at Aru, Ariwara and Bunia in Ituri; Vodacom had not responded. *Also under Access to services.*

- **Crise du carburant : les réseaux télécoms à bout de souffle** — Les Dépêches de Brazzaville (ADIAC), 27 October 2026 CONGO

  Congo's telecoms regulator reported voice, internet and mobile-money outages on 27 October 2026. They hit all or part of the country. A diesel shortage caused them by leaving backup generators without fuel. Operators average nine hours of grid power a day against six hours of battery autonomy. Helios Towers needs about 100,000 litres of diesel a week for its 550 sites. *Also under Energy.*

- **Le FDSU présente la stratégie nationale pour la connectivité universelle 2026-2035 – modèle TowerCo Lead** — Fonds de Développement du Service Universel (FDSU), 27 October 2026 DRC

  Summarised under Strategies, plans and policies.

- **Kenya Plans 44,000km Fiber Expansion to Boost Internet Access** — Techweez, 27 October 2026 KENYA

Cybersecurity

- **نصب يطال مسؤولين سودانيين .. وانتحال شخصية عبر واتساب** — Garaa News, 27 October 2026 SUDAN

  A colonel commanding the New Halfa and Atbara River area warned that unknown parties are using his name on WhatsApp. The office of Sovereignty Council member Salma Abdeljabbar Al-Mubarak reported that a phone number in her name was used to defraud other officials. An information security engineer described phishing and other fraud patterns, sometimes run from outside Sudan.

- **Somalia Opens Fourth National Cybersecurity Forum in Mogadishu** — Somali National News Agency (SONNA), 27 October 2026 SOMALIA

  The fourth National Cybersecurity Forum opened in Mogadishu. The National Communications Authority and Mogadishu University organised it over two days under a security-by-design theme. The Minister of Communications and Technology noted that the Somalia Computer Incident Response Team was launched in March 2026. The Minister also noted a planned National Cybersecurity Academy later this year. *Also under Training and skills.*

- **Semaine nationale de lutte contre la cybercriminalité: prévention collective face aux menaces cybernétiques** — Quotidien Sidwaya, 27 October 2026 BURKINA FASO

  Burkina Faso's central cybercrime brigade announced the second national week against cybercrime on 23 October 2026. The week is held in Ouagadougou from 26 to 30 October. The brigade's commander said it recorded more than nine billion FCFA in losses from online fraud between 2020 and 2025. *Also under Literacy.*

- **NCC tasks telcos on stronger defenses against AI cyberattacks** — The Guardian Nigeria, 27 October 2026 NIGERIA

  The Nigerian Communications Commission spoke at the second International Cybersecurity Conference in Abuja. It urged telecom operators to adopt zero-trust architecture. It also urged them to test their AI systems regularly for weaknesses. The commission said telecoms infrastructure is designated Critical National Information Infrastructure. It said it runs a computer incident response team with mandatory incident reporting. *Also under AI.*

ABOUT THIS DOCUMENT

EDITION	**2026-10-28**
RETENTION	Kept until 2026-11-04. Older bulletins: the country and region news.
THIS FILE	https://corpus.data-landscapers.io/bulletin/corpus-bulletin-2026-10-28.pdf
FEEDBACK	info@data-landscapers.io
LICENCE	CC BY 4.0

This bulletin is produced automatically at the end of each data collection sweep but only includes items published on the day cited in the edition, and the previous day. Items published in the last month can be found on the country pages. The links to all items stored in the corpus can be found in the catalogue.

Bulletins are kept for a week — the last week's editions are listed above, each at its own dated address — and are then deleted. Older material is in the country and region news.
