

TWELVE-MONTH PROGRESS REPORT

Morocco: progress report, 2025-08-01 to 2026-08-23

Edition of 2026-08-23 · 132 systems and instruments tracked, 17 of them not held

Compiled 2026-08-23 from the Data Landscapers source base. Sections follow the status report. Each opens with a movement ledger comparing the position at the start and end of the period, which runs to the date of issue rather than to the last month's close.

Of 132 systems and instruments on this place's ledger, 69 changed position between 2025-08-01 and 2026-08-23, 35 did not, 11 carry no stated baseline, and 17 are **Not held** at both ends.

Shape check, run before the comparison: 140 sources for this place in the window — 36 in the earlier half (2025-09 to 2026-02), 104 in the later (2026-03 to 2026-08). The two halves are comparable, so the comparison is made over the whole window.

Movement values. *Advanced* — a system entered service, a stage was completed or an instrument was made. *Stalled* — a stated target passed without delivery. *Regressed* — an instrument was withdrawn or neutralised, or a measured position worsened. *Closed* — the programme ended. *No change* — the position at both ends is the same. *Baseline not held* — the base carries no position at the start of the period, so no movement can be stated. A value may carry a qualifying clause after a comma, as in *Advanced, slipped*.

Summary of the period

The single largest movement in the twelve months to 6 August 2026 is that fifth-generation mobile service went from a licence tender to 3.2m subscribers. The tender opened on 16 July 2025 and three operators launched commercially on 7 November ([launch account](#)); the [regulator reported 3.2m subscribers, 8.4% of mobile-internet users, by March 2026](#).

The second is that Morocco began deploying live facial recognition without a data-protection instrument being made. Patrol vehicles moved from a May 2026 demonstration to field service in Rabat in July ([deployment account](#)), while law 09-08 of 2009 remained the operative statute at both ends of the window and the framework bill drafted to modernise it sat with the general secretariat throughout.

Twenty-five rows did not move at all, and nine carry no stated baseline. Morocco's base is thicker in the later half of the window than the earlier, so the second figure understates continuity rather than overstating change.

Infrastructure

Connectivity

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-23	MOVEMENT
5G commercial mobile service	Licence tender open, no commercial service (2025-07)	In service on 3.5 GHz and 700 MHz; 3.2m 5G subscribers, 8.4% of mobile-internet users (regulator, 2026-03)	ADVANCED
5G licence specification and coverage obligations	Not held	Coverage floor: 8 cities plus airports by November 2025, 25% of population by end-2026, 70% by end-2030; terms: maximum 3 licences, 20-year renewable, 50-100MHz at 3GHz plus 2x10MHz at 700MHz, MAD 60m per licence for band reorganisation; corrects the conflicting 45%/85% figure held elsewhere; bidders' own coverage commitments are not disclosed in the report	ADVANCED
5G licences	Competitive tender launched, no licences awarded (2025-07)	Three licences awarded and in commercial service; the regulator stated it would assess operators after the first operational year; IAM's 20-year renewable licence is now individually gazetted; the cahier des charges' five annexes (shareholding, frequencies, coverage engagements, quality of service, interference procedure) are withheld as confidential though binding; the Arabic text prevails in courts	ADVANCED
5G subscribers	Did not exist, pre-launch	3.2m subscribers, 8.4% of mobile-internet users (2026-03), from 2.63m and 38% outdoor population coverage at Q4 2025	ADVANCED
Dual-band radio deployment on rail and motorway corridors	Did not exist	In commercial service; the operator and vendor claim a 13 dB coverage gain, 83% higher average downlink throughput and 3.2 times the active users, with no additional sites built. The vendor puts the deployment at roughly a kilometre of extra range, an 83% download-speed gain and 3.2 times more concurrent users per site; the regulator put the operator at 19.4m mobile subscriptions, a 34.04% share and a market-leading 41.83% of mobile internet at the end of March 2026	ADVANCED
Median mobile download speed after the 5G launch	44.4 Mbps 4G median one week before launch (2025-11)	5G median down 38% from 261.7 Mbps at launch to about 160-165 Mbps; 4G median down 28%; combined median 44.59 Mbps at month six	REGRESSED
Mobile interconnection tariff symmetry	Asymmetric mobile interconnection tariffs	Transitional phase running 2026-07-01 to 2027-01-31, full symmetry from 2027-02-01	ADVANCED
Regulator's telecommunications market observatory	Not held	First regulator-own periodic observatory held (not via a measurement firm): mobile park 57.06m (-0.58% y/y), penetration 154.93%, outgoing traffic -18.79% y/y, SMS -9.12%, fixed lines 3.262m (+5.05%), FTTH 1.5m (about 52% of wireline internet), sector revenue +2.89%	ADVANCED
Satellite terminal licence renewal	In force, prior expiry not stated	Renewed to 2035	ADVANCED
Medusa subsea cable Morocco landing	Supplier selected; no Moroccan landing date (2025-07)	Same; nothing further on file	NO CHANGE
Shared fibre and tower joint ventures	Formed, sharing fibre and 5G assets (2025-04)	Same; no further reporting on file	NO CHANGE
Starlink licence	Local subsidiary registered 2024-11-11 with capital of MAD 1,000; no licence	Same; regulator negotiations reported continuing, and the operator's own map lists the Morocco service date as unknown	NO CHANGE

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-23	MOVEMENT
Fibre-to-the-home passive infrastructure sharing	BASELINE NOT HELD	Prerequisites completed April 2026; commercial opening scheduled 2026-04-27	<i>Baseline not held</i>

Data Storage

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-23	MOVEMENT
Icudar Dakhla green data centre	Did not exist	Planned as a green data-centre campus at Dakhla under the Igoudar Numerique programme, with one part for the kingdom's sovereign digital needs and another open to private investment; feasibility studies were launched in April 2026 and no capacity, cost, operator or commissioning date is held	ADVANCED
Local-storage requirement for sensitive data (2021 law)	Not held	Article 11 mandates exclusive national hosting of sensitive data; article 12 sets outsourcing conditions; article 49 sets a fine of MAD 200,000-400,000 (doubled on repeat); article 53 defers force to implementing texts; 'donnees sensibles' is defined only in the unheld decret 2-15-712	ADVANCED
Ministry-Vertiv memorandum of understanding	Did not exist	Signed; commits to exchanged expertise, technical studies and the identification of structuring projects across data centres, cloud, artificial intelligence, high-performance computing and the power and cooling beneath them, with no sum attached	ADVANCED
National cloud roadmap 2025-2030	Not held	Six objectives, 21 domaines d'intervention, Cloud First policy, a national Cloud Marketplace via ADD, sovereign cloud under decret 2-24-921, a national reference architecture promised from 2026, governance via a CNDN sub-committee; claimed economics 40-50% shorter procurement, 20-30% savings, MAD 100bn by 2030; formal targets, budget and milestones still absent	ADVANCED
Nexus artificial-intelligence compute platform	Phase 1 announced for Q1 2026 at over 40 MW, the full programme powered by up to 500 MW contracted from a national generator (consortium release, 2025-06-18)	MAD 12bn initial investment over two phases – MAD 5bn for 16 MW at Nouaceur and MAD 7bn for a further 20 MW in the north – 36 MW cumulative and 125 direct jobs by end-2027 (ministry, 2026-04-08). Reported at roughly US\$1.2bn and up to 500MW near Casablanca, with a South Korean cloud operator, a chip maker and the platform's own developer named, and a second renewable-powered project planned for Dakhla	ADVANCED, PHASE-1 CAPACITY REDUCED
Orange Tech data centre, Nouaceur	Not in service	In service at 1.5 MW initial capacity, certified, with over 1,000 solar panels; described by the operator as its largest data centre in Africa	ADVANCED
Sovereign data centre, Rabat	Did not exist on the record	Named in the ministry's July 2026 communique as a project the Vertiv cooperation will feed; still no cost, date or financing	ADVANCED, MARGINAL
Data-centre facilities in Morocco	23 Uptime Institute Tier-certified data centres nationally - 11 Casablanca-Settat, 8 Rabat-Sale-Kenitra, 4 Marrakech-Safi (Conseil de la concurrence monograph, Uptime Institute data as at 2023-09-15)	No national facility count on file with an established counting rule. The widely-repeated '23, ahead of South Africa' figure is that 2023 Tier-certification count, not a current facility census, and the 'ahead of South Africa' claim is a certification-count comparison, not a capacity or estate-size one - the base's capacity evidence (South Africa 60%-plus of Africa's 500-plus MW) does not support continental leadership on size. Other published counts use unstated rules and are not commensurable with the certification figure or each other: 8 active, Casablanca only (Heirs Technologies 'Africa's Digital Leap', 2025); 25-plus, Casablanca only (US Commercial Service, 2025-07-31); 14 nationally at 1.5 MW (BMI/Fitch Solutions, 2026 Q2, not held - capacity figure fails a sanity check against CESE's 98 MW 2020 series and is not ingested).	NO CHANGE

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-23	MOVEMENT
Decree 2-24-921 on qualified cloud service providers	Gazetted 2025-02-20 and not in force; the qualification arrete not published (2025-08)	Same; neither the qualification arrete nor the list of qualified providers is held at 2026-08-09	NO CHANGE
Oracle cloud regions, Casablanca and Settat	Announced, not recorded in service (2024-05)	Same; no held source records either region entering service	NO CHANGE

Energy

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-23	MOVEMENT
Renewable power supply agreement for the Nexus platform	Up to 500 MW contracted for the full programme (2025-06)	Same; the ministry's April 2026 communique restates no power-supply figure and gives 36 MW cumulative capacity by end-2027	NO CHANGE

Technical Capacity

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-23	MOVEMENT
Installed national data-centre capacity	98 MW installed (2020), the state's last measurement	98 MW installed (2020), of which 14 MW - 14% - was outsourced; no later national figure published to 2026-08-09	NO CHANGE, NO FRESHER NATIONAL MEASUREMENT PUBLISHED

Cybersecurity

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-23	MOVEMENT
Directive Nationale de la Securite des Systemes d'Information (DNSSI) v2.0	DNSSI v1.0 in force since 2014	v2.0 in force, ISO 27002-structured, covers state bodies and all vital-importance infrastructures; entities given six months to schedule conformity	ADVANCED
National Cybersecurity Strategy of 2023 and its implementing texts	Not held	One instrument, not two: see MAR-infra.cybersec-cybersecurity-strategy-2030 for the full text	ADVANCED
National cybersecurity strategy to 2030	<i>Baseline not held</i>	Four pillars (governance; cyberspace resilience; capacity development; regional cooperation), 11 objectives, 26 initiatives, 60 actions; succeeds Morocco's first national cybersecurity strategy (2012); confirmed the same instrument as the 2023-dated secondary account (decree 2011, DNSSI 2014, decret 2-15-712 2016, loi 05-20 2020, DNSSI v2 2023); workforce commitments carry no numbers; the ITU 50th-place claim is the 2020 edition	ADVANCED
National computer emergency response centre	Operating as the national alert and response centre; no establishment date on file	Same; issued the advisory naming Moroccan institutions among about 75,000 affected devices in about 200 countries	NO CHANGE

At the start of the window a competitive tender for fifth-generation licences was open and no network was in service; at the end three were, with 3.2m subscribers reported for March 2026 against 2.63m and 38% outdoor population coverage at the fourth quarter of 2025 ([measurement account](#)). The same measurement firm records [median speeds falling over the period: the fifth-generation median down 38% from 261.7 Mbps at launch to about 160-165 Mbps at month six, and the fourth-generation median down 28%.](#)

The compute programme was revised downwards inside the window. The consortium announced in June 2025 that phase 1 would launch in the first quarter of 2026 at over 40 MW, with up to 500 MW contracted from a national generator; the ministry's memorandum of April 2026 gives phase 1 as 16 MW at Nouaceur and 36 MW cumulative by end-2027 ([ministry communiqué](#)). The Q1 2026 launch date passed with no delivery reported.

Two hosting positions did not move: cloud regions announced in May 2024 for Casablanca and Settat are recorded nowhere as having entered service, and the cloud-first policy stands with its 2027 observatory not established.

Digital public infrastructure

Data Exchange

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-23	MOVEMENT
AfCFTA ADAPT cross-border DPI pilot	Did not exist	One of the first three countries selected to implement shared cross-border rails for identity, payments and trusted data exchange, chosen on a two-stage assessment of political commitment, regulatory alignment, technical capacity, private-sector engagement and the maturity of national digital systems	ADVANCED
Continental cross-border data exchange pilot	Did not exist; the system was launched November 2025	Morocco one of three pilot states, on a distributed-ledger reference architecture owned by the continental trade secretariat	ADVANCED
National water digital twin	Did not exist	A three-layer design resting on a sovereign national data platform hosted in Morocco, fusing sensor networks, satellite observation and data from the basin agencies, the planning commission and engineering consultancies; to be hosted in an engineering school's forthcoming scientific tower	ADVANCED
Cross-border data exchange guidelines	Drafting convened under Morocco's chairmanship of the continental agency council (2025-07)	No published guidelines on record at 2026-08-06	NO CHANGE
Single-window trade platform	18,000 importers and exporters (2016)	Same; no figure or status since 2016	NO CHANGE
National health-data platform (DHIS2)	BASELINE NOT HELD	In service and under a security and performance audit covering infrastructure, application, database and cybersecurity, on a 170,000 dirham budget under a donor grant, with no cyberattack or breach cited as the trigger	Baseline not held

Digital Identity and CRVS

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-23	MOVEMENT
Biometric passport decree 2.26.551	The 2008 decree regime; address on the biodata page; temporary passports issued	Four languages including Amazigh, an encrypted chip to international civil aviation standard, the address removed and temporary passports abolished; the current format continues during a transitional period	ADVANCED
Idarati X.O national digital wallet	Did not exist	Eight conventions signed and two vendors engaged on architecture; a six-month build stated; binds the social security fund, the road safety agency, the land registry, transport and youth and culture on a card-authenticated core	ADVANCED

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-23	MOVEMENT
Mon e-ID digital identity application	In service under Digital Morocco 2030; no user figure held (2025-08)	2.5m users and over 7m transactions since April 2022 (2025-09); authenticates the national digital wallet (2026-02)	ADVANCED
Online identity-card renewal	Did not exist	Pre-fill, document upload, residency-certificate tracking and stamp-fee payment online; biometric capture remains in person	ADVANCED
Electronic national identity card	4.6m cards issued in 2024; 71 centres at diplomatic missions, 219,408 cards for citizens abroad	Same 2024 figures; no 2025 or 2026 issuance count held	NO CHANGE
Trusted third-party identity verification platform	17 framework agreements and 30-plus authorised institutions (2024); a blueprint to extend verification to all government entities (2025-05)	Same; no later agreement or institution count held	NO CHANGE

Digital Payments and Fintech

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-23	MOVEMENT
Bank Al-Maghrib standalone financial-inclusion measurement report (1st edition)	Did not exist as a separate publication	Access points per 10,000 adults about 10 (2021) to about 15 (2024); account-holding 53% to 58%; M-Wallets 6.3m to 13.7m; formal savings 33%, formal credit 12% of adults (end-2024); usage, not access, named as the binding constraint	ADVANCED
National financial inclusion strategy	Not held	M-Wallets grew 2.44m (2020) to 6.3m (2021, +158%) to 7.7m (2022, +22%) to 10.4m (2023, +35%); adult savings-account penetration 28% (2021) to 38% (2023) against a 20% target (exceeded); 20 M-Wallet offers on record by 2023; formal savings 30%, formal credit 12% of adults; microcredit MAD 8.4bn in 2022 but active clients down 4.9% to 795,000	ADVANCED
Morocco FinTech Center	Operating; no participant, funding or output figure held (2025-06)	Same; no later figure held	NO CHANGE

Registries (population, land, address, etc.)

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-23	MOVEMENT
National population registry and unified social registry	About half the population enrolled (2024-12)	22 million of 39 million registered and 5 million eligible households served, on a June 2026 account	ADVANCED, ON A PRESS FIGURE
Registry legal basis, law 72-18	Not held	Creates the Registre national de la population and the Registre social unifié, the Identifiant digital civil et social, and the Agence nationale des registres; articles 19/22 carve out defence/security; article 45 defers force to implementing texts	ADVANCED
National register agency	Named as a project component (2024-12)	Same; no establishment date, budget or operating record held	NO CHANGE

Sectoral management information systems (HMIS, EMIS, etc.)

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-23	MOVEMENT
Shared medical record	Did not exist	Full penal chapter now held: article 42 (6-12 months, MAD 50,000-200,000), article 43 (3-12 months, up to MAD 200,000), article 44 (MAD 50,000-300,000 for failure to feed or interconnect), article 45 (3-12 months, MAD 10,000-100,000); a doctors' and clinics' collective opposes it, citing CNSS leaks and attributing a claimed MAD 400m/year CNSS saving to its own communique rather than the bill	ADVANCED, CONTESTED

Other GovTech and e-Gov

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-23	MOVEMENT
Administrative certificates abolished under law 55.19	Not held (2025-08)	22 certificates abolished and replaced by sworn declarations	ADVANCED
Court of Cassation portal	In service as the portal lawyers use to track rulings	Offline for more than a week with no official explanation, as the courts increasingly rely on digital portals for tracking rulings	REGRESSED
Medical council digital platform (CNOM)	Baseline not held	Doctors handle registration, transfers, licence changes and fee payment online with document upload and real-time case tracking, replacing in-person visits; implements a mandate set by implementing decree 2-15-447 of 2016 under the 2015 medical-practice law	ADVANCED
Ombudsman caseload	Fewer than 9,958 files; the 2024 figure itself is not held	9,958 files opened, 1,653 settlement decisions, a mean 815 days to implement a recommendation and 774 days to close a file ending in one (2025)	REGRESSED, CASELOAD UP MORE THAN 25% YEAR ON YEAR
Law 55.19 and the administrative procedures portal	In force since 2020-09-28, with more than 2,500 procedures transcribed onto the idarati.ma portal and the simplification phase running since 2022	Only procedures published on the portal are legally recognised and enforceable on citizen and official alike; certified copies and legalised signatures dropped for most procedures; no administration may demand more than one copy of a file; the ministry reports a 45% reduction in the documents demanded of users where its simplification method has been applied, on perimeters it does not name	NO CHANGE
Police online services and reporting portals	12,614 reports on the reporting platform since June 2024	Same; no later report count held	NO CHANGE
GovTech Innovation Challenge 2026	BASELINE NOT HELD	A sourcing channel for public-audit and public financial management tools, with the general finance inspectorate and the court of audit as institutional users	Baseline not held
Online registration in the annual electoral-roll revision	BASELINE NOT HELD	382,170 new registrants, 254,740 online against 127,430 in person; about 16.5m voters; about 1.4m entries removed	Baseline not held
Public services available online	BASELINE NOT HELD	600 services online (2026-02)	Baseline not held

Rural digital data capture

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-23	MOVEMENT
Mobile identity enrolment units	80 units, more than 130,000 citizens served (2024)	Same; no later figure held	NO CHANGE

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-23	MOVEMENT
Registry extension to rural and remote areas	Extension via digital and remote applications, targets stated (2024-12)	Same; the end-2024 target date has passed with no delivery or coverage figure held	NO CHANGE

Use of satellite data

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-23	MOVEMENT
National earth-observation data programme	Not held	Mohammed VI A and B satellites (launched 2017, 2018), operated by the Royal Centre for Remote Sensing; earth-observation applications named in water, land use, agriculture and disaster management	ADVANCED

Identity moved by process rather than by scale. The newest issuance figure the base holds is still 4.6m cards for calendar 2024; what changed is that renewal moved online in May 2026, leaving only biometric capture in person ([renewal account](#)), and that a national digital wallet was launched into construction in February 2026 on eight partnership conventions ([launch account](#)).

The passport regime advanced from the 2008 decree to a draft decree approved on 9 July 2026, adding a fourth language, removing the holder's address from the biodata page and abolishing temporary passports ([approval account](#)).

Against these, the registry's own extension target lapsed. The December 2024 operation set at least five programmes served by end-2024 and eight by 2028; the end-2024 date has passed with no delivery or coverage figure held ([approval account](#)). The single-window trade platform's last recorded position is 2016.

Governance and regulation

Legislation and regulation

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-23	MOVEMENT
Digital health bill 52.26	Did not exist	A 50-article bill adopted and now publicly opposed by doctors; implementing decrees due within 12 months of publication and provider connection within 24 months of the technical decree; text not published	ADVANCED, CONTESTED
Digital X.O framework bill	Did not exist	With the general secretariat; three pillars — data governance, sectoral digital identity, and interoperability on traceable consent; no text, article count or tabling date on record	ADVANCED, NOTHING ON RECORD SINCE
Electoral organic bill 53.25	Did not exist	A new article carries two to five years' imprisonment and a fine of MAD 50,000-100,000, with artificial-intelligence tools enumerated as a means of commission on four offences; candidacy filing and proxy voting via a dedicated electronic platform upheld under articles 154/72; new article 51 bis (fabrication, not mere dissemination) punishes AI-enabled election disinformation with 2-5 years and MAD 50,000-100,000, upheld against a press-freedom challenge	ADVANCED

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-23	MOVEMENT
Organic laws 54.25 on political parties and 55.25 on electoral lists	Not held	54.25 constitutionally cleared alongside 53.25, promulgation dahir not yet held; 55.25 institutionalises internet-based electoral-roll registration (resident and expatriate) and bars AI tools and social platforms from publishing referendum poll results, committee-adopted across four sessions 12-27 November 2025	ADVANCED
Personal data protection law 09-08	In force, commission supervising (2025-08)	In force since 2009; a recast bill is now in the legislative circuit per the regulator's own account (no transmission date or text held), described by the regulator as clarification rather than replacement	ADVANCED
Private member's bill on regulating artificial intelligence	A 17-article private member's bill before the bureau (2025-08)	Same; described as still under parliamentary deliberation, with no committee report or adoption on record	NO CHANGE

Strategies, plans and policies

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-23	MOVEMENT
Cloud First policy	Mandatory default in force; a national cloud observatory scheduled for 2027 (2025)	Same; the observatory is not established and no later state is on record	NO CHANGE
Digital Morocco 2030	In force; stated targets include a place in the global top 50 for electronic government and 100,000 people trained by 2030	In force; a US\$250m acceleration programme attached in June 2026; the technology sector was 6.8% of gross domestic product on a 2025 figure	NO CHANGE

Regional collaboration

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-23	MOVEMENT
African Telecommunications Union Administrative Council seat	Did not exist	Elected for the 2027-2031 term; the delegation combined the digital ministry, the regulator and the development agency	ADVANCED
Host-country agreement for a continental development agency office	Did not exist	Agreement signed and approved; the office is not on record as established	ADVANCED
Host-country agreement for a regional cyber-incident coordination centre	Did not exist	Agreement approved; no site, budget, staffing or opening date on record	ADVANCED
Morocco-Gabon protocol on digital skills	Did not exist	Signed between the two digital ministries; capacity-building commitments directed at Gabon, with no value, term or timetable stated	ADVANCED
Morocco-Ghana statement of intent on digital transformation	Did not exist	Signed; covers digitalisation, open government, artificial intelligence, data governance and exchanges of delegations and experts; no value, term or timetable stated	ADVANCED

Standards

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-23	MOVEMENT
National data classification guide	BASELINE NOT HELD	Categorises data by sensitivity, with sensitive data required to be stored domestically	Baseline not held

Data protection

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-23	MOVEMENT
Data-protection cooperation memorandum with Portugal	Did not exist	Signed; exchange of information and technical expertise on artificial intelligence, synthetic media and digital violence	ADVANCED
Facial-recognition case-by-case authorisation regime	Moratorium in force to 2020-12-30	Case-by-case prior-authorisation regime in force, preserving sectoral authorisations D-108-EUS/2020 and D-126-EUS/2020, and conditioning future authorisation on routing through a national trusted-third-party identity system; the CNDP flags controllers building their own biometric databases, sometimes hosted abroad	ADVANCED
National responsible-artificial-intelligence platform	Did not exist	Agreement signed to build national platforms on large language models incorporating Moroccan language, culture, legal framework and digital identity; no platform, budget or delivery date on record eleven months later	ADVANCED
Registre National de la Protection des Donnees a caractere Personnel (RN-PDP)	Did not exist	Public register operating under loi 09-08 articles 45-50	ADVANCED
Smart patrol vehicles with live facial recognition	Shown at police open days in Rabat, May 2026; not in service	In field service in Rabat with Casablanca and Tangier announced next; live facial recognition, automated number-plate reading and in-vehicle access to the central database	ADVANCED
Data-protection deliberation on video surveillance	Hearings decided 2025-03-21; no draft published (2025-08)	No deliberation published at 2026-08-09; the commission treats facial recognition on the public highway as an open question	NO CHANGE
Facial recognition for benefit proof of life	Permitted case by case on prior authorisation since 2020-07-29 (2025-08)	Same; no authorisation count or revocation record is held	NO CHANGE
Facial recognition for remote bank account opening	Permitted case by case on prior authorisation since 2020-04-23 (2025-08)	Same; no authorisation count, revocation or migration record is held	NO CHANGE

Public debate and participation in policymaking

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-23	MOVEMENT
Law 55.19 on procedural simplification	BASELINE NOT HELD	In force, but the ombudsman's 2025 report finds agencies still asking for paper copies of documents already held electronically and imposing undisclosed extra conditions	<i>Baseline not held</i>
Public debate on platform regulation and digital sovereignty	Baseline not held	Specialists arguing for a law defining platform responsibilities and notice-and-response mechanisms, and against blanket blocking or breaking encryption (2026-08)	BASELINE NOT HELD

EU activities

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-23	MOVEMENT
Council of Europe Convention 108 accession	In force; ratified 2019	In force; ratified 2019	NO CHANGE
European Union adequacy decision for Morocco	No adequacy decision; an intention to seek one reported during 2025	No adequacy decision; the Commission's list names sixteen jurisdictions plus one international organisation, none in Africa	NO CHANGE

Open data

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-23	MOVEMENT
Cooperation agreement with the anti-corruption authority	Did not exist	Signed; aims at transparency through advanced information systems and artificial-intelligence tools for corruption-risk prevention	ADVANCED
National open-data portal	Operating at data.gov.ma with a documented publication procedure since April 2021 (2025-08)	Operating at data.gov.ma with four published procedure volumes - manuals for Responsables Open Data and Gestionnaires de Donnees (April 2021), a data-inventory methodology v1.3 (February 2023) and a standards and formats manual v1.1 (December 2024) - and published datasets including a 1,028-entry start-up database (2025-01-03); a four-strand action plan (legal, technical, organisational, usage) followed the 2020 assessment; the assessment report itself remains unheld	ADVANCED
Right of access to information law 31-13	Not held	Commission du Droit d'Acces a l'Information (CDAI) created; article 30 defers entry into force one year, and proactive-publication duties a further year; CDAI publishes no annual reports despite its article 22 duty	ADVANCED

The legislative pipeline filled and did not empty. The electoral organic bill was tabled in October 2025 ([bill text](#)), the framework bill on artificial intelligence and data governance went to the general secretariat in November 2025 ([drafting account](#)), and the digital health bill was adopted in the government council in July 2026 ([bill account](#)). None is recorded as promulgated, and the private member's bill on regulating artificial intelligence has sat with the chamber's bureau since January 2025 unchanged.

The one governance instrument that both began and completed inside the window is the facial-recognition deployment, which required no instrument: the vehicles went from a demonstration in May 2026 to field service in July ([deployment account](#)).

Two host-country agreements were approved by the council of ministers on 9 April 2026, one for a regional cyber-incident coordination centre and one for a continental development agency office ([programme account](#)). Neither facility is on record as established.

Artificial intelligence and the technology sector

AI

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-23	MOVEMENT
AI Made in Morocco roadmap	An "AI first" posture described as emerging alongside the cloud policy (2025, year precision)	Named at the ministry's national "AI Made in Morocco" event on 2026-01-12, framed there as consolidating Maroc IA 2030, and repeated at subsequent signings; no published text at 2026-08-09; a trade-press account (2026-01-30) describes ten programmes: trust (Digital X.0 law, framework 2025-26, certification 2027, alignment 2029-30), infrastructure (Move to Cloud 2025-27, 50MW+Benguerir data centre, 500MW green campus), data/interoperability (digital commons platform, 20-API library, once-only), skills (YouCode, Master AI Junior, JobInTech, 2,500 to 14,000 trained), and a national Darija/ Amazigh LLM at alpha stage; still no ministry-published document	ADVANCED

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-23	MOVEMENT
AI-Jazari institutes network	Two regional protocols d'accord signed - Guelmim-Oued Noun 2025-04-14 and Nador 2025-07-02 - with no statute, budget, site or opening date (2025-08)	A founding institute, JAZARI ROOT, launched 2026-01-12, and four regional or thematic institutes constituted by protocole or founding agreement - Guelmim-Oued Noun (2025-04-14), Nador (2025-07-02), artificial intelligence and energy transition at Dakhla (2025-11-18) and industry at Fez (2026-03-11); no statute, legal form, campus, budget, governance structure or intake published	ADVANCED
Government AI readiness index position	101st globally, by implication of the reported fourteen-place gain	87th globally and eighth in the MENA region on an index of government readiness for artificial intelligence, up fourteen places in 2025, attributed in the account to the AI Made in Morocco roadmap and a regional data-for-sustainable-development hub developed with UNDP	ADVANCED
Jazari artificial-intelligence institutes	BASELINE NOT HELD	Four public-interest institutes established, covering artificial-intelligence research and sovereign systems, education, industrial automation and smart cities	Baseline not held

ICT Industry

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-23	MOVEMENT
Oracle regional research and development office, Agadir	Did not exist; a Casablanca research centre was announced in June 2025 with 1,000 jobs claimed	Office inaugurated by the head of government; no headcount, investment figure or delivery outturn published for the site	ADVANCED
Renewed offshoring offer and specialised territorial hubs	Not named on file (2025-08)	Three agreements covering a training incentive, territorial attractiveness and specialised offshoring hubs; a stated 2030 target of 270,000 jobs and nearly MAD 40bn in exports	ADVANCED
Digital offshoring employment and export revenue	148,500 employed, MAD 26.2bn exports (end-2024, the latest published at 2025-08)	148,500 employed, MAD 26.2bn exports (end-2024); no newer figure published to 2026-08-06	NO CHANGE, NO FRESHER OBSERVATION PUBLISHED

Innovation ecosystem

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-23	MOVEMENT
Artificial-intelligence start-up programme with a technology park	Did not exist	Announced, offering cloud, connectivity, cybersecurity and business use cases to artificial-intelligence start-ups; no cohort, intake or budget published	ADVANCED
Start-ups listed in the digital development agency's database	1,028 entries (2025-01-03), the latest published (2025-08)	1,028 entries (2025-01-03), the union of four listing exercises; no later release published to 2026-08-09	NO CHANGE, NO FRESHER RELEASE PUBLISHED

US / hyperscaler activities

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-23	MOVEMENT
United States-Morocco Agreement on Scientific and Technical Cooperation	In force under the 2006 agreement as extended by the 2023 protocol	In force; the protocol's signed pages carry no text layer, so its operative terms and its term of years are not established	NO CHANGE

Everything in this section postdates 1 August 2025 except an emerging cloud-first posture. The roadmap was first named in March 2026, the two institutes were constituted by founding agreement in November 2025 and March 2026, and the start-up programme with a technology park was announced in April 2026 ([programme account](#)).

Three of those four positions have not moved since they were announced. The Dakhla institute has no statute, campus, budget or intake on record ([Dakhla agreement](#)); the start-up programme has no cohort, intake or budget; the roadmap has no published text.

The one measured position in the section is a year stale. Offshoring employment and export revenue stand at 148,500 and MAD 26.2bn for end-2024 at both ends of the window ([agreements account](#)), against a 2030 target of 270,000 jobs set in agreements signed in January 2026. A regional research and development office was inaugurated at Agadir on 29 June 2026 with no headcount or investment figure disclosed ([inauguration account](#)).

Inclusion and capacity

Access to services

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-23	MOVEMENT
Stratégie nationale d'alphabétisation 2023-2035	Did not exist	Strategy running 2023-2035 with a 2023-2027 roadmap; a digital element (strategic choice 8) is named but not established in the French-language text held; citizen-level digital literacy remains an absence	ADVANCED
Internet-box refurbishment	BASELINE NOT HELD	6,000 boxes refurbished in Morocco in 2025 with EUR 1.5m in savings, company-reported	Baseline not held

Training and skills

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-23	MOVEMENT
Executive leadership programme in cybersecurity	Did not exist	A five-day programme for senior officials of African member states, organised by the continental network of cybersecurity authorities and hosted by the general directorate for information systems security; no participant count or budget stated	ADVANCED
Ministry-Capgemini artificial-intelligence skills memorandum	Did not exist	Covers skills-building and acculturation across administrations, universities and research centres, support to institute-backed start-ups, and public-service use cases; no sum attached	ADVANCED
Enrolment in public-university digital streams	21,125 enrolled (2023-24), the latest published (2025-08)	21,125 enrolled (2023-24), from 10,712 in 2022-23; no later figure published to 2026-08-09	NO CHANGE, NO FRESHER FIGURE PUBLISHED

Research institutions

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-23	MOVEMENT
National research, development and innovation support programme (PNARDI) 2025-2028	In force since 2025-04-07; MAD 1bn committed across four editions to 2028	MAD 1bn from a joint higher-education ministry and OCP Group fund across four editions between 2025 and 2028, of which MAD 200m is directed at mobilising Moroccan researchers resident abroad; no digital or artificial-intelligence share is stated; first edition's three named sub-programmes are IBN ALBANNA (R&D), IBN BATTOUTA (young researchers) and NEFZAOUIA (tech transfer); still no award or disbursement record	ADVANCED

The measured position added inside the window is an operator's own: 6,000 internet boxes refurbished in Morocco in 2025 at a stated EUR 1.5m in savings, with no Morocco figure held for 2024 to compare it against ([operator report](#)).

Finance

New investments

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-23	MOVEMENT
Digital Transformation Acceleration Program	Did not exist	US\$250m over five years (MAD 2.34bn at the reporting outlet's 2026-07-22 conversion); conditions for entry into force outstanding	ADVANCED
Insurance technology and inclusion programme	Did not exist	XDR 371,714.70 committed (US\$508,015 at the 2026 provisional annual average rate), 2026-2028, executed by the insurance supervisor; total cost US\$680,000 of which US\$510,000 is grant and US\$170,000 counterpart	ADVANCED
Merchant digital-payment acquisition fund grant	Did not exist	XDR 370,023.73 committed (US\$505,704 at the 2026 provisional annual average rate), 2026-2028, through a continental digital financial inclusion facility	ADVANCED
First Financial and Digital Inclusion Development Policy Financing	EUR 459.8m (about US\$500m at the 2020 conversion) development policy loan	Unchanged; no second operation in the series on file	NO CHANGE
Second Identity and Targeting for Social Protection Project	US\$70m approved 2024-12-04; the two registries had enrolled about half the population	Unchanged; no disbursement or delivery reported in the window	NO CHANGE
Corporate venture fund	BASELINE NOT HELD	US\$250m fund writing cheques of up to US\$5m into regional start-ups	Baseline not held

MoUs and other agreements

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-23	MOVEMENT
Ministry-Orange artificial-intelligence memorandum	Did not exist	Signed at a second artificial-intelligence summit; advances the institutes programme; no sum attached	ADVANCED
Private 5G platform agreement and laboratory	Did not exist	A vendor to supply a private 5G platform for an operator laboratory, with a catalogue targeting smart logistics, utilities and energy; no sum attached	ADVANCED
Vodafone Business and Maroc Telecom memorandum	Signed 2025-04-25, initial phase smart-city and energy-management solutions	Unchanged; no delivery, expansion or sum reported since	NO CHANGE

Domestic budget appropriations and expenditure

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-23	MOVEMENT
Digital ministry investment appropriation	MAD 1,758.7m investment appropriation (2024), the latest published (2025-08)	MAD 1,758.7m investment (2024), against MAD 85.8m personnel and MAD 187.8m materiel; no 2025 or 2026 appropriation published	NO CHANGE, NO FRESHER APPROPRIATION PUBLISHED

The financing position advanced by two development-bank pipeline entries and one large programme: the merchant payment acquisition fund entered the pipeline in February 2026 and the insurance inclusion programme in April, each at about US\$0.5m ([insurance activity](#)); the US\$250m acceleration programme was approved and signed in June 2026 and had not entered force by 6 August ([ministry account](#)).

Two other financing instruments did not move at all across the window: the memorandum signed in April 2025 between Vodafone Business and Maroc Telecom on smart-city and energy-management solutions has produced no delivery, expansion or sum since ([memorandum account](#)), and the 2020 First Financial and Digital Inclusion Development Policy Financing has no completion or results report on file.

Where the record is thin

SYSTEM OR INSTRUMENT	WHAT WOULD SETTLE IT	LAST PROBED
Morocco-China technology cooperation framework	A signed state-to-state instrument; the base holds six sources on this subject and every one is a vendor relationship, with no government-level framework on file	2026-08-06
Morocco-United States bilateral digital or artificial-intelligence agreement	A signed bilateral instrument on digital or artificial-intelligence cooperation; the base now holds the 2023 protocol extending the two states' 2006 science and technology agreement, which is not one, and otherwise a commercial guide, ambassadorial attendance at two openings and an unresolved satellite licensing position	2026-08-06
Founding decree or statute for the AI-Jazari institutes	The founding agreements or the constituting decree; the base now holds the ministry's own accounts of four regional or thematic signings from 2025-04-14 and of the founding institute launched 2026-01-12, and no statute, legal form, governance structure, budget, campus or intake for any of them	2026-08-06
National artificial-intelligence roadmap "Morocco AI 2030"	The roadmap text or a ministry announcement of the roadmap itself; the ministry's 2026-01-12 record names "AI Made in Morocco" as a national event and frames the founding institute as consolidating Maroc IA 2030, so the two names are an event and a framework rather than two roadmaps, and no text of either is held	2026-08-06
Official start-up investment statistics	A publication by the digital development agency, the investment agency or the ministry giving funded-company counts and amounts; the agency's own 1,028-entry start-up database (2025-01-03) carries no funding amounts, and investment totals remain two third-party trackers whose 2025 Morocco figures disagree	2026-08-06
Start-up legal status	A bill, decree or published legal definition of start-up status; the base carries a 3,000-start-up target and several accelerator programmes, and no instrument conferring status	2026-08-06
Commune-level rollout of the procedures portal	Interior ministry or local-government reporting on commune-level implementation; the subject carries no Morocco sources at all, and local government appears only as the addressee of national circulars	2026-08-06
Accession to the modernised Council of Europe data-protection convention	The ratification or accession instrument for the modernising protocol, or a statement that Morocco has not acceded to it; accession to Convention 108 itself is now established from the 2012 committee opinion and the regulator's recital of a 2019 ratification, and nothing on file addresses the modernised text	2026-08-06
Ombudsman's 2025 annual report	The report's own text; it was presented in Rabat on 2026-07-23 and is known only through two press accounts, and the wiki records that the institution's own site is unreachable	2026-08-06
Promulgated organic law amending the electoral code	The gazette publication of the enacted electoral organic law; the base holds the bill as tabled with its provisions, and no held source carries the adoption or constitutional-review dates, so every citation must say it rests on the draft	2026-08-06
Digital Morocco 2030 progress report	An official progress or monitoring publication against the strategy's stated targets; the base carries the targets and no delivery figure against any of them at any date	2026-08-06
Data-protection authorisation for the facial-recognition patrols	A data-protection commission decision, authorisation or opinion covering live facial recognition in the patrol vehicles; the base now holds the commission's 2019-2020 facial-recognition instruments and its 2025-03-21 decision to open hearings towards a video-surveillance deliberation, none of which reaches the patrols, and law 09-08 article 2(4) excludes processing in the interest of national defence and state security	2026-08-06

SYSTEM OR INSTRUMENT	WHAT WOULD SETTLE IT	LAST PROBED
Data-protection commission annual report	Any annual or activity report of the national data-protection commission; the base now holds four of its deliberations and two communiqués directly, and still no enforcement statistics, registration counts or sanction record for any year	2026-08-06
National digital literacy programme	A named national digital-literacy or basic-skills programme document, or a household digital-skills survey; the base now holds public-university digital enrolment and a training count from the ministry's talent brochure, and nothing on citizen-level literacy	2026-08-06
Digital ministry appropriation in the 2026 finance law	The 2026 finance law or the ministry's budget annexes for 2025 and 2026; the ministry's own budget-by-chapter series is now held to 2024 and stops there, so no appropriation is established for either year the report covers	2026-08-06
National digital inclusion index or indicator framework	A ministry or planning-commission publication defining inclusion indicators and targets; the base carries the published finding that inclusion objectives are not operationalised and a connectivity baseline from a private tracker, and no Moroccan inclusion index, vulnerability profiling or territorial targeting instrument	2026-08-06
National cybersecurity workforce plan	A government plan or published target for cybersecurity skills; the base holds one vendor study's figures of 6,000 certified professionals against demand above 12,000, and a general target of training 100,000 people by 2030, with no cybersecurity-specific plan, intake target or progress reporting	2026-08-06

Thirty rows are *Not held* at both ends of the window, and all 30 were searched on 6 August. Twenty-six name published documents, three are searched absences, and one — installed data-centre capacity — returned three incompatible national figures and became a contradiction rather than a gap.

Two of them bear directly on what this report could otherwise have said. The regulator's market observatory is absent from the base for every period, so the subscriber and coverage series this report cites comes from a private measurement firm rather than from the body that licensed the networks. The probe of 6 August found the regulator publishes quarterly observatories to the first quarter of 2026, so this is an intake gap and not a publication one. And no digital-ministry appropriation is held in any finance law, so a [US\\$250m external programme](#) is the largest priced commitment in a country whose own digital spending is nowhere in the base.

The third notable absence is oversight of deployed systems: no data-protection authorisation for the facial-recognition patrols, and no annual report of the data-protection commission at any year. Both were absent before the patrols entered service and remain absent after.

Figures are dated because most are time-varying: a figure carries the date it was true, not the date you are reading it. Where the base holds no reliable statement, the document says **Not held** rather than leaving a silence — those are counted, and listed at the end.

This is a dated edition and is not revised after publication. If a figure here has moved, the current edition will say so.
