

STATUS REPORT

Comoros: status report

Edition of 2026-08-14 · 110 systems and instruments tracked, 35 of them not held

Compiled 2026-08-14 from the Data Landscapers source base, from [outputs/reports/COM/ledger.csv](#) (110 systems and instruments, 35 of them **Not held**). Each section opens with its ledger; specific events are covered in the monthly updates. Figures are dated because most are time-varying.

Status values. *Implemented* — in operation or in force. *Piloting* — running with a limited user group or in a controlled environment. *In development* — build or drafting under way, not yet operating. *Planned* — announced or provided for, no build or draft on record. *Enacted* — an instrument passed into law; pair with a qualifying clause for its in-force date. *Under review* — a law or policy currently being reconsidered. *Discontinued* — closed or superseded. *Not held* — the base carries no reliable statement of status; these are the gaps to fill and are listed again at the end.

Summary of position

The Comoros has built its payment rails ahead of everything else and legislated almost none of it. The [national interoperable switch](#) is live, connecting commercial banks, microfinance institutions and mobile-money operators, and the [data centre for the public administration](#) is in service and certified to the third tier. Against that the [digital code is not adopted, its 2024 target missed](#), the cybersecurity, e-commerce and electronic-signature instruments do not exist, and the [2018 strategy remains the stated delivery frame, unrevised](#). Thirty-one of 110 rows are *Not held*, and the absences are structural rather than incidental: no data-protection regime, no incident-response team, no universal-service fund, no internet-penetration series, and no measurement at all of the country's international connectivity. What the base can describe is a state that has bought systems; what it cannot describe is the rules or the reach of them.

Infrastructure

Connectivity

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Comores Telecom fifth-generation and fixed-wireless service	IMPLEMENTED, PILOT SITE ONLY ↗	Presidential launch at the Hamramba pilot site
Prohibition on satellite internet deployment	IMPLEMENTED, PENDING A LICENCE ↗	A ministerial circular signed 2025-06-09 and announced by the regulator on 2025-06-12
Yas Comores fifth-generation service	IMPLEMENTED, TWO DISTRICTS OF THE CAPITAL ↗	Commercial launch in two districts of Moroni with a supplier's engineering support

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
International connectivity - cable system, landings and capacity	NOT HELD	—

Data Storage

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Data centre for the public administration	IMPLEMENTED ↗	Inaugurated 2025-05-19
Primary and backup data centres for the finance ministry	IN DEVELOPMENT ↗	Turnkey tender issued 2025-12-22, with bids opened 2026-02-16
Data centre capacity and utilisation	NOT HELD	—

Energy

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Electricity supply to digital infrastructure	NOT HELD	—

Cybersecurity

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
National computer emergency response team	NOT HELD	—

Infrastructure is thinly evidenced in both directions. The one built asset is the [data centre for the public administration](#), in service and certified to the third tier, with [primary and backup centres for the finance ministry in development on French development financing](#). Both fifth-generation services are pilots — one at a single site, the other in two districts of the capital — and [satellite internet deployment is prohibited pending a licence](#), so the country's fastest route to rural coverage is closed by decision rather than by cost. Five rows here are *Not held* and they are the whole of the measurement: no cable, landing or capacity figure for international connectivity, no data-centre capacity or utilisation, no electricity supply position, and no national computer emergency response team of any kind.

Digital public infrastructure

Data Exchange

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Government interoperability and data-exchange platform	PLANNED ↗	Contracts opened under the e-government procurement notice
Study on interfacing the tax system with mobile banking	IN DEVELOPMENT ↗	A feasibility study tendered, with expressions of interest due 2025-10-28 and a shortlist of four to six

Digital Identity and CRVS

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Agence Nationale de l'Etat Civil	IN DEVELOPMENT ↗	Island consultation workshops on the draft implementing decree

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Biometric passport and national identity card production concession	IMPLEMENTED ↗	A Dutch supplier formally succeeded the Belgian incumbent on 2026-03-31, the previous contract having expired on 2026-03-26
Digital identity layer	PLANNED ↗	Named as a workload of the public administration data centre at its inauguration
Personal identification number	IN DEVELOPMENT ↗	Preparatory studies validated at a Moroni workshop
Programme national d'intégration du permis de conduire biométrique	PLANNED, NO APPROPRIATION AT ANY GRAIN ↗	Absent from the 2026 finance law at every grain

Digital Payments and Fintech

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Accession to the Pan-African Payment and Settlement System	IN DEVELOPMENT ↗	Implementation commenced 2024-08-23, the membership agreement having been signed in July 2024
Decentralised digital financial institution licence	IMPLEMENTED ↗	Licence granted by the central bank
Government securities market	IN DEVELOPMENT ↗	Regulations in force, actors trained and pilot tests passed, with first operations not launched
Komor Switch	IMPLEMENTED, FIRST PHASE ONLY ↗	Launched 2026-05-04, with card interoperability between local banks from July 2026
KomorPay interbank settlement system	IMPLEMENTED ↗	Entered service 2026-04-23, with a presidential launch on 2026-05-04
Mali Ya Wakazi agent-banking network	PILOTING ↗	In test since June 2025, with agents identified and trained and progressive commissioning under way
National interoperable payment switch	IMPLEMENTED ↗	Went live 2025-08-23, built under a World Bank financial-sector operation

Registries (population, land, address, etc.)

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Civil-registry modernisation programme	IN DEVELOPMENT ↗	Preliminary-study validation workshop at Moroni
National digital agricultural register	PLANNED ↗	Named as an objective of a protocol with the agriculture chambers
Registre social unique	IMPLEMENTED ↗	Sixty-two thousand households registered
Business registry and investment one-stop shop digitisation	NOT HELD	—
Land and property registry digitisation	NOT HELD	—

Sectoral management information systems (HMIS, EMIS, etc.)

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Digital data capture in national health campaigns	IMPLEMENTED, A SINGLE CAMPAIGN ↗	First use in a national campaign, launched 2025-10-04
School records and digital textbook platforms	PILOTING ↗	Launched 2025-06-05 at a primary school
Education management information system beyond the pilot	NOT HELD	—
Routine national health information system	NOT HELD	—

Other GovTech and e-Gov

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
E-government modernisation project	IN DEVELOPMENT ↗	General procurement notice issued 2026-03-12, with submissions open to 2027-03-12
Online scholarship portal	IN DEVELOPMENT ↗	Marked as under way on the digital agency's own delivery log since a technical meeting of June 2024
Système de Gestion des Impôts et Taxes	IMPLEMENTED ↗	Named as the operating tax system in the interface procurement notice
Teleprocédures fiscales	IN DEVELOPMENT ↗	Implementing corpus appropriated and validated at a three-day workshop, 15-17 April 2026
Integrated financial management information system	NOT HELD	—
National government services portal or single window	NOT HELD	—

Rural digital data capture

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Universal service or rural digital access fund	NOT HELD	—

Digitalisation of sub-national government

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Municipal or island-government digital services	NOT HELD	—

National statistics

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Enquête Agricole Annuelle	IN DEVELOPMENT ↗	Sensitisation campaign concluded 2026-08-07 and a training-of-trainers workshop held for national instructors, ahead of the survey's rollout
Fifth population and housing census	IN DEVELOPMENT ↗	Officially launched 2026-06-05
National open-data or statistical dissemination platform	NOT HELD	—

Use of satellite data

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Census cartography capability at the statistics institute	IN DEVELOPMENT ↗	A ten-day geographic information systems training, 13-24 April 2026, under a World Bank statistical capacity project
National spatial data infrastructure or address register	NOT HELD	—

The systems in operation are concentrated in payments and in identity. The central bank's [KomorPay](#) entered service on 2026-04-23 and settles between banks only, with no retail leg, and [Komor Switch](#) is running the first of its three phases, cross-bank cash withdrawal, with online purchases explicitly not covered; the [government securities market](#)

has its regulations in force, its actors trained and its pilot tests passed, and its first operations have not been launched. Identity rests on a production concession rather than on a state system: [biometric passport and identity card production](#) passed to a new supplier on 2026-03-31, with Comorian biometric data domiciled in the country where the previous concession had stored it in Belgium, while the [personal identification number](#) and the [Agence Nationale de l'Etat Civil](#), both provided for by the law of 27 July 2023, remain in development, the agency existing in law and not in fact. A [biometric driving licence programme](#) named in the 2025 budget bill carries no appropriation at any grain. The statistics institute, INSEED, is building an annual survey cycle on top of one-off exercises: a [sensitisation campaign for a new Enquete Agricole Annuelle](#) concluded 2026-08-07, and a five-day World Bank-funded (STATCAP) training-of-trainers workshop prepared national instructors on survey methodology and electronic data-collection tools ahead of the survey's rollout; the exercise follows the second General Agricultural Census (RGA-2), whose results were published in April 2026. The section's *Not held* rows include a national services portal or single window, land and business registry digitisation, an integrated financial management information system and a routine national health information system.

Governance and regulation

Legislation and regulation

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Code numerique	PLANNED ↗	A stated 2024 target passed with no adoption on file, checked 2026-08-04
Cybercrime provisions of the penal code	IMPLEMENTED ↗	Promulgated by presidential decree 2021-02-16, at articles 449 to 505
Cybersecurity law	IN DEVELOPMENT ↗	Recorded as drafted by the digital agency
E-commerce law	PLANNED ↗	Recorded as still to be drafted by the digital agency
Electronic-signature instrument	PLANNED, NOTHING ON RECORD BEING DRAFTED ↗	Named as a legal vacuum by the state's own 2018 strategy, with no instrument on file at 2026-08-04
Loi n 14-031/AU on electronic communications, as amended	IMPLEMENTED ↗	Promulgated by decree of 2024-02-02, the amending law having been adopted 2023-12-26
Revised public procurement code for dematerialised procurement	IN DEVELOPMENT ↗	Recorded as drafted by the digital agency

Strategies, plans and policies

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Digital agency board of directors	IMPLEMENTED ↗	First session held and the bureau elected, members having been named by decree of 11 June 2026
Observatoire national du numerique	PLANNED ↗	Institutional capacity and a stand-up consultancy procured under the e-government project
Strategie Comores Numerique 2028	IMPLEMENTED ↗	Restated as the delivery frame at the digital agency's first board session
Conseil National sur le Numerique	NOT HELD	—
National artificial-intelligence strategy or policy	NOT HELD	—

Regional collaboration

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Programme for African Developing Island Economies	IMPLEMENTED, NO COMORIAN COMPONENT IDENTIFIED ↗	Launched at the Abidjan ministerial segment 2026-07-24
Position under the African Union Convention on Cyber Security and Personal Data Protection	NOT HELD	—

Standards

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Access catalogue of the state cable company for 2025-2026	IMPLEMENTED ↗	Approved by regulator decision of 2025-07-17
Country-code top-level domain registry	IMPLEMENTED, TRANSITIONAL ↗	Technical transfer from the incumbent operator completed overnight on 6-7 May 2025 under a ministerial order of 29 September 2024
Regulator mobile quality-of-service audit	IMPLEMENTED, SINGLE EDITION ↗	The 2024 audit presented at a Moroni workshop
Regulator statutory annual activity report	PLANNED, REQUIRED BY STATUTE AND NEVER PRODUCED ↗	Required annually since promulgation on 2024-02-02, with no edition ever published
Regulator sanctions, licensing decisions and spectrum awards	NOT HELD	—

Data protection

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
National personal data protection authority	PLANNED ↗	A stand-up consultancy and institutional capacity procured under the e-government project, with submissions open to 2027-03-12
Protection of Personal Data Law	IMPLEMENTED, SUPERVISORY AUTHORITY NOT CONSTITUTED ↗	Enacted 2021-06-29, with the authority still not stood up as of mid-2024

Public debate and participation in policymaking

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Code de l'information et de la communication, as amended	IMPLEMENTED, AMENDING LAW ADOPTED AND NOT SHOWN PROMULGATED ↗	Adopted by the Assembly of the Union by 31 votes of 33 deputies

EU activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
European electronic administration project	IN DEVELOPMENT ↗	Officially launched 2025-10-16

Open data

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Open government data policy or portal	NOT HELD	—

The [Protection of Personal Data Law](#) has been in force since 2021-06-29 and the supervisory authority it provides for has never been constituted; a consultancy to stand the authority up is [procured under the e-government project](#), with submissions open to 2027-03-12. The [Code numerique](#) passed a 2024 target the digital agency set itself and is not adopted; the [cybersecurity law](#) and the [revised public procurement code](#) are recorded as drafted and not enacted; and no [electronic-signature instrument](#) is on file, a vacuum the state's own 2018 strategy named. Cyber conduct is criminalised inside the general penal code, whose [cybercrime provisions](#) were promulgated on 2021-02-16, at articles 449 to 505. The regulator has published a [single quality-of-service audit](#), for 2024, and has never published the [annual activity report](#) the electronic communications statute has required of it since 2024-02-02. The [digital agency's board of directors](#) held its first session on 2026-07-27, seven years after the strategy that designed the agency. The [Programme for African Developing Island Economies](#), launched on 2026-07-24, names digital transformation as one of its six pillars and identifies no Comorian component.

Artificial intelligence and the technology sector

AI

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Artificial-intelligence preparedness strand of the e-government project	PLANNED ↗	Named in the general procurement notice, with submissions open to 2027-03-12
National artificial intelligence forum	IMPLEMENTED, ONE EDITION ONLY ↗	First edition held at a Moroni hotel on the theme of digital inclusion
Shikomori text-to-speech model	PILOTING ↗	Launched for first public trials, with the translation component still experimental
Deployed or piloted artificial-intelligence system	NOT HELD	—

ICT Industry

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Digital commerce platform	IMPLEMENTED ↗	Official launch with a technology partnership and chamber of commerce backing
Digital sector contribution to gross domestic product	NOT HELD	—

Innovation ecosystem

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Enterprise resource planning product built in the Comoros	IMPLEMENTED ↗	Officially launched at the first artificial intelligence forum
Technopole numerique	PILOTING ↗	Pilot phase launched at the Palais du peuple with a supplier present
Start-up statute or innovation-financing instrument	NOT HELD	—

US / hyperscaler activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
United States digital or technology cooperation instrument	NOT HELD	—

China activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Chinese digital or technology cooperation instrument	NOT HELD	—

India activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Indian digital or technology cooperation instrument	NOT HELD	—

Gulf/UAE activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Gulf-state digital or technology cooperation instrument	NOT HELD	—

Six positions exist and all six are first-of-kind and small. A [Shikomori text-to-speech model is in pilot](#), a [national artificial-intelligence forum has held one edition](#), a [digital commerce platform is live across the three islands](#), and a [technology park pilot is running](#). Seven rows are *Not held*, and together they say what the sector lacks: no deployed or piloted artificial-intelligence system in government, no measure of the digital sector's contribution to output, no start-up statute or innovation-financing instrument, and no cooperation instrument held with the United States, China, India or any Gulf state. The sector therefore has no size, no legal frame and no stated foreign partner on this record.

Inclusion and capacity

Digital divides

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Mobile science caravans	IN DEVELOPMENT ↗	Described as being launched at the technology park pilot
Universal service or rural access fund	NOT HELD	—

Access to services

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Official internet-penetration or affordability series	NOT HELD	—

Literacy

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
National digital-literacy or digital-skills programme	NOT HELD	—

Training and skills

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Artificial intelligence training sessions by a private foundation	IMPLEMENTED ↗	A second session held at Moroni for about forty secondary pupils
Entry to the international artificial-intelligence olympiad	IMPLEMENTED ↗	First Comorian participation, at the third olympiad, 2-8 August 2026
Statistical capacity project	IMPLEMENTED ↗	Funded a census-cartography training for the statistics institute, 13-24 April 2026
Women entrepreneur training programme	IMPLEMENTED ↗	Named as a 2025 milestone in the group's own strategy communication

Inclusion is carried by one-off activities and measured by nothing. What exists is a [private foundation's artificial-intelligence training sessions](#), [two pupils sent to the international artificial-intelligence olympiad](#), [a ten-day mapping and field-survey training under the statistical capacity project](#), and a women entrepreneurs' programme with no participant count. Four rows are *Not held* and they are the ones that would tell anyone whether this works: no universal service or rural access fund, no official internet-penetration or affordability series, and no national digital-literacy programme. Against a [banking rate of 39 per cent](#), that absence is the finding.

Finance

New investments

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
China Eximbank concessional loan for network modernisation	IMPLEMENTED ↗	Loan agreement signed 2018-12-11, with the fibre-to-the-home programme launched with the supplier on 2022-03-22
Connectivity pledge across three markets	PLANNED ↗	Pledge announced 2025-04-01, targeting 97 per cent population coverage and six million connected by 2030
Continental bank project to support digitisation of the economy	IMPLEMENTED, IN EXECUTION ↗	Officially launched 27-28 March 2025, financing agreements having been signed in 2024
Islamic bank project for the digitalisation of the economy	IMPLEMENTED, APPROVED AND UNDISBURSED ↗	Commitment transactions dated 2025-09-23
Loan to the second mobile operator	IMPLEMENTED ↗	Agreement announced 2025-06-20, a prior loan of EUR 13m from 2019 having been fully repaid in June 2025

Domestic budget appropriations and expenditure

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Chambre du Numerique transfer line	IMPLEMENTED ↗	Appropriated KMF 50,000,000 for 2026
Digital ministry annual vote	IMPLEMENTED ↗	Promulgated by decree of 2026-01-16, the finance law having been adopted 2025-12-26
Direction de l'Etat Civil et Casier Judiciaire annual vote	IMPLEMENTED ↗	Appropriated KMF 4,000,000 against a revised 2025 comparator of KMF 2,000,000
Information systems directorate of the finance ministry	IMPLEMENTED ↗	Appropriated KMF 277,128,000 against a revised 2025 comparator of nil on every line
Loi de finances rectificative for 2025	IMPLEMENTED, TEXT UNPUBLISHED ↗	Adopted by the Assembly of the Union
Regulator funding under the statutory levy	IMPLEMENTED, OFF-BUDGET BY STATUTE ↗	Hand-checked absent from the finance law and the full ministry classification
Site Web et Consommation Internet common-expenditure line	IMPLEMENTED, NO POSITION PUBLISHED SINCE 2024 ↗	Cut by ministerial virement, November 2024
Annual budget execution report	NOT HELD	The 2024 report dated 14 March 2025 on its face, with no 2025 report and no fiscal operations table for 2025 at 2026-08-04
Budget framing letter	NOT HELD	Signed on or before September 2025
Contract for information technology equipment for the rural development centres	NOT HELD	Contract start 2026-03-04 with forty-five-day delivery and milestone-linked payment
Execution of the 2025 digital vote	NOT HELD	—
List of contracts and beneficial owners	NOT HELD	Published, undated on its face

The digital ministry's vote for 2026 is [KMF 338,724,932](#) and includes the first appropriated state capital line the ministry has carried in the three-year corpus, at KMF 50,000,000. The largest single digital appropriation sits in another ministry: the [information systems directorate of the finance ministry](#) carries KMF 277,128,000 under a service code the 2025 rectificative had zeroed. The [Chambre du Numerique](#) transfer falls to KMF 50,000,000 from KMF 73,000,000, and the [regulator](#) is absent from every Comorian budget instrument and funded by statutory levy, so its size is established from no source held. The [Direction de l'Etat Civil et Casier Judiciaire](#), which holds the population register and the criminal record, has KMF 4,000,000 for 2026, wholly goods and services, against the KMF 324,000,000 of civil-status document revenue the same law books; and the only named digital line the base holds outside the digital ministry, [Site Web et Consommation Internet](#) in common expenditure, stood at KMF 15,000,000 after KMF 30,000,000 of it was transferred to guarding costs in November 2024. The projects themselves are externally financed: the [continental bank's project to support digitisation of the economy](#) is in execution and the [Islamic bank's project](#) is approved and undisbursed.

Gaps to fill

SYSTEM OR INSTRUMENT	WHAT WOULD SETTLE IT	LAST PROBED
International connectivity - cable system, landings and capacity	The state cable company's own statutes or annual report, the inspectorate audit of it planned for 2025, or any regulator or ministry statement naming the cable systems landing in Comoros, their capacity and whether the archipelago has more than one path; the base names the operator on five sources and the physical asset on none	not yet probed
National computer emergency response team	Any decree, digital agency statement or regulator decision establishing an incident-response body, or a statement that none exists; the 2018 strategy costed a national cybersecurity apparatus at KMF 942,931,440 and nothing on file says what was built	not yet probed
Electricity supply to digital infrastructure	A national utility annual report, an inspectorate audit of it, or an operator statement on grid availability at telecom sites; the incumbent names consolidation of energy infrastructure as a 2025 priority without a figure, and the subject holds no Comorian source at all	not yet probed
Data centre capacity and utilisation	The digital agency's own statement or annual report, or the facility's tier certification record; the only market-level document is a commercial briefing whose figures are held and deliberately not absorbed	not yet probed
National government services portal or single window	The portal's own address and service catalogue, or the digital agency's 2026 action plan, examined by its board on 2026-07-27 and not published; the procurement notice speaks of upgrading a government portal, implying one exists	not yet probed
Land and property registry digitisation	The territorial development ministry's cadastre programme documentation, or a development bank appraisal naming a land component; nothing is on file at all	not yet probed
Business registry and investment one-stop shop digitisation	The investment agency's communique on its January 2026 working meeting with the tax authority on interconnecting their information systems, recorded in the base as a lead and never staged	not yet probed
National open-data or statistical dissemination platform	The statistics institute's data-release practice or the national statistical development strategy invoked by name at the census launch and not held	not yet probed
National spatial data infrastructure or address register	The cartography unit's or the territorial development ministry's geospatial policy document; two training programmes are recorded and no institution or dataset	not yet probed
Routine national health information system	The health ministry's own system instance or an annual health-statistics yearbook; one campaign is on file and nothing about what runs between campaigns	not yet probed
Education management information system beyond the pilot	The education ministry's statistical yearbook, or the extension study the children's fund is described as conducting; coverage, pupil count and identifier issuance are unpublished	not yet probed
Universal service or rural digital access fund	The regulator's statutory annual activity report, which does not exist for any year; the electronic communications statute funds the regulator from a turnover levy and the base records no access fund	not yet probed
Municipal or island-government digital services	A communal or island-executive digital plan, or the decree organising the collectivities; mayors and prefects appear only as stakeholders in the civil-registry programme	not yet probed
Integrated financial management information system	The public finance programme's procedures manual, or a French development agency appraisal naming the expenditure-chain system; the tax system covers tax only	not yet probed
Conseil National sur le Numerique	The decree or order constituting the council, or a digital agency or government statement of the sector's steering arrangements; the 2018 strategy designs it as the sector's political steering organ and nothing since mentions it	not yet probed
Regulator sanctions, licensing decisions and spectrum awards	The regulator's decisions series, of which the base holds exactly one item, or the statutory annual activity report that would list them	not yet probed
Open government data policy or portal	Any Comorian open-data instrument, a national data portal, or an access-to-information law; the subject returns no Comorian file at all, so no position on open data can be stated	not yet probed
National artificial-intelligence strategy or policy	A published strategy or the ministry's or digital agency's own statement of one; the first national forum on the subject was held 2026-03-31 and discussed regulation as a structural challenge without producing an instrument	not yet probed
Position under the African Union Convention on Cyber Security and Personal Data Protection	The African Union depositary status list, or a Comorian ratification law; no regional data or cyber instrument is connected to Comoros anywhere in the base	not yet probed

SYSTEM OR INSTRUMENT	WHAT WOULD SETTLE IT	LAST PROBED
Deployed or piloted artificial-intelligence system	Any named operational system in Comorian government or industry, or a ministry inventory of them; the base names artificial intelligence only as a forum theme, a training strand and a procurement line	not yet probed
Start-up statute or innovation-financing instrument	A Comorian start-up law, an innovation fund decree, or the incubator's operating charter under the e-government project; no such instrument appears anywhere in the base	not yet probed
Digital sector contribution to gross domestic product	The statistics institute's national accounts by branch, or the regulator's statutory annual activity report, which has never been published; no sector-size, employment or firm-count figure exists in the base for any year	not yet probed
Chinese digital or technology cooperation instrument	The memorandum or contract behind the technology park build and the supplier training cohort, or the World Bank appraisal document naming the supplier arrangement; the supplier appears in three sources as builder and trainer and no instrument is held	not yet probed
United States digital or technology cooperation instrument	Any embassy, development finance or trade agency statement on Comorian digital cooperation, or the regulator's decision on the satellite operator's licence application; the only United States-linked item in the base is the deployment ban	not yet probed
Indian digital or technology cooperation instrument	A bilateral statement, a credit line, or a digital public infrastructure memorandum; the base holds nothing whatsoever on this subject	not yet probed
Gulf-state digital or technology cooperation instrument	A bilateral digital agreement, or the Islamic bank's own board approval document for the e-government project, which would at least date and characterise the component the base knows only through a procurement notice	not yet probed
Universal service or rural access fund	A published universal-service provision in the electronic communications statute, whose promulgating decree is held and whose own text is not, or a regulator decision establishing a fund and its levy rate; a corpus-wide search returns such funds in four other countries and nothing Comorian	not yet probed
National digital-literacy or digital-skills programme	An education ministry or digital agency programme document, or the education chapter of the 2018 strategy's implementation plan, naming a programme with a target and a budget line	not yet probed
Official internet-penetration or affordability series	The regulator's statutory annual activity report, which does not exist for any year, or connectivity figures actually stored rather than pointed at; the wiki holds a reference report for Comoros whose stored body carries no figures at all	not yet probed
Execution of the 2025 digital vote	The budget execution report for 2025, due mid-2026 on the ministry's own cadence, or the fiscal operations table; neither exists at 2026-08-04, and only the 2024 outturn exists, by nature	not yet probed
Financing instrument behind the technology park	The World Bank appraisal document or aid-transparency activity for the operation carrying the US\$4,090,000, which would identify the lending instrument and disbursement schedule	not yet probed
Annual budget execution report	A companion record in raw/ for the budget-execution report held as a PDF in OSINT's budget-archive; the document exists there and Corpus cannot cite it (notes-for-osint 13).	2026-08-14
Budget framing letter	A companion record in raw/ for the lettre de cadrage budgétaire held as a PDF in OSINT's budget-archive (notes-for-osint 13).	2026-08-14
Contract for information technology equipment for the rural development centres	A companion record in raw/ for the equipment contract held as a PDF in OSINT's budget-archive (notes-for-osint 13).	2026-08-14
List of contracts and beneficial owners	A companion record in raw/ for the contracts and beneficial-owners list held as a PDF in OSINT's budget-archive (notes-for-osint 13).	2026-08-14

Thirty-one rows are *Not held*, and three groups account for nearly all of them. The first is basic infrastructure measurement — international cable landings and capacity, data-centre utilisation, electricity supply to digital infrastructure — none of which the state or its cable company publishes. The second is the governance layer that does not exist rather than being merely unpublished: no data-protection regime, no incident-response team, no universal-service fund, no national services portal. The third is the budget record, and it is the one the site cannot close from here: four rows cite companion records for documents held in a budget archive Corpus has no access to, so those citations cannot be repaired from this side however they are written. That last group is raised with OSINT as a note rather than left as a silent failure.

ABOUT THIS DOCUMENT

EDITION	2026-08-14
CURRENT EDITION	https://corpus.data-landscapers.com/reports/COM/COM-status.html
THIS FILE	https://corpus.data-landscapers.com/reports/COM/COM-status-2026-08-14.pdf
DERIVED FROM	Data Landscapers source base, commit <code>7150d81e4dbb</code>
VERIFY	Hash this file and look it up in https://corpus.data-landscapers.com/manifest.csv
LICENCE	CC BY 4.0

Figures are dated because most are time-varying: a figure carries the date it was true, not the date you are reading it. Where the base holds no reliable statement, the document says **Not held** rather than leaving a silence — those are counted, and listed at the end.

This is a dated edition and is not revised after publication. If a figure here has moved, the current edition will say so.
