

STATUS REPORT

Mozambique: status report

Edition of 2026-08-14 · 131 systems and instruments tracked, 18 of them not held

Compiled 2026-08-14 from the Data Landscapers source base, from [outputs/reports/MOZ/ledger.csv](#) (131 systems and instruments, 18 of them **Not held**). Each section opens with its ledger; specific events are covered in the monthly updates. Figures are dated because most are time-varying.

Status values. *Implemented* — in operation or in force. *Piloting* — running with a limited user group or in a controlled environment. *In development* — build or drafting under way, not yet operating. *Planned* — announced or provided for, no build or draft on record. *Enacted* — an instrument passed into law; pair with a qualifying clause for its in-force date. *Under review* — a law or policy currently being reconsidered. *Discontinued* — closed or superseded. *Not held* — the base carries no reliable statement of status; these are the gaps to fill and are listed again at the end.

Summary of position

Mozambique's cyber-security statutes are enacted but not yet in force, and its data-protection statute is neither. Law 13/2026 and Law 14/2026 were published on 1 July 2026 and take effect on 29 September 2026, with implementing regulations due within 180 days ([gazette](#)). The personal data protection law has been in preparation since at least April 2025, and the Cabinet submission the institute planned for June 2026 is not on record ([ministerial account](#)).

The institutional layer was rebuilt in a single quarter. A digital transformation agency, a multisectoral technical commission and an artificial-intelligence commission were all created by decree in March 2026 ([agency account](#)), and none of the three creating decrees is held.

Where the state has built, it has built payments and identity. The instant payment system entered production in March 2026 and carried more than 11,000 transfers a day by 30 July ([central bank communique](#)), and the identification directorate produced 856,101 identity cards in the first half of 2026 ([directorate account](#)). The state's own money behind that is small: the communications ministry's central apparatus holds MZN 111,260,610 of operating budget against a capital budget of MZN 2,637,800,000 that is entirely external ([budget maps](#)).

Infrastructure

Connectivity

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
5G coverage plan to 2027 and 2030	PLANNED ↗	Pledged by the President at the 5th National Communications Conference
5G licence terms and coverage obligations	IMPLEMENTED, TERMS NOT PUBLISHED ↗	Obligations stated by the regulator at the award, 2026-06-23
5G spectrum assignment (700 MHz, 2.6 and 3.5 GHz)	IMPLEMENTED ↗	Licences awarded to Tmcel, Vodacom and Movitel 2026-06-23
Chanida-Cassacatiza cross-border fibre interconnector	IMPLEMENTED ↗	Commissioned 2026-02-23
DARE1 subsea cable southern extension	PLANNED ↗	Extension announced by Djibouti Telecom; work from 2026, ready for service 2028
Internet Para Todos	IMPLEMENTED ↗	Launched March 2025 with targets to 2030
Nacala-Lobito submarine cable	IN DEVELOPMENT ↗	The President stated the project is in the design phase
National broadband coverage portal	IMPLEMENTED ↗	INCM communique, 2026-07-22
Rural Connectivity Project (FSAU)	IMPLEMENTED ↗	Contract INCM/CP/117/2025 awarded to Vodacom, scope doubled from 30 to 60 sites
Starlink service in Mozambique	IMPLEMENTED ↗	Mozambique among 25 African markets where the service is live
Visabeira control of TV Cabo and Televisa	IN DEVELOPMENT ↗	Merger notified to the competition authority; 15-day public consultation opened
Published national internet penetration figure	NOT HELD	—

Data Storage

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
AFR-IX network deployment in Raxio Mozambique	PLANNED ↗	Partnership announced 2026-07-23
Alibaba Cloud local services	IMPLEMENTED ↗	Local services launched in Maputo, billed in local currency
Bubble cloud availability zones	IN DEVELOPMENT ↗	Announced at a Maputo banking and finance conference
Centro de Dados de Maluana, the state data centre	IMPLEMENTED ↗	Named by INTIC as an operating but underused state facility, 2025-07-24
Five-year domestic data-centre plan for bank and institutional hosting	PLANNED ↗	Announced by the communications minister at a bank anniversary event
Raxio MZ1, Beluluane	IMPLEMENTED ↗	Launched as the first independent Tier III carrier-neutral facility in Mozambique
Universidade Eduardo Mondlane data centre	IMPLEMENTED ↗	Inaugurated 2026-08-03 by the communications minister
Vodacom Matola data centre	IMPLEMENTED ↗	Inaugurated at Tchumene, Matola, by the Prime Minister

Energy

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Grid supply arrangements for data centres and telecom sites	IMPLEMENTED ↗	EDM's own published industrial tariff schedule under Decreto 80/2022
Solar power at the rural mobile stations	PLANNED ↗	Specified in the 60-station award to Vodacom

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
University data centre power supply	IMPLEMENTED ↗	In service on inauguration
Power and resilience requirements of the data-centre regulation	NOT HELD	—

Technical Capacity

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
MoRENet, the education and research network	IMPLEMENTED ↗	The minister proposed transferring management from his ministry to the universities
Mozambique Internet Exchange Point	IMPLEMENTED ↗	Operator's own about page fills fields the tracker note flagged missing
The .mz registry operator and registration volumes	IMPLEMENTED ↗	Decree 82/2020 of 10 September, in force 2020-12-09
Installed national data-centre capacity	NOT HELD	—
National compute capacity plan for artificial-intelligence workloads	NOT HELD	—

Cybersecurity

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Biometric SIM registration and the unique telecommunications number	IMPLEMENTED ↗	Optional pilot from 2024-01-15, compulsory in H2 2024, blocking from 2025
Cyber Security Fund	PLANNED ↗	Established at articles 67 to 71 of Law 13/2026, published 2026-07-01
National cyber incident response team	IN DEVELOPMENT ↗	Created and seated in INTIC by Law 13/2026
National Cyber Risk Assessment of critical information infrastructure	IMPLEMENTED ↗	First edition signed and published 2025-05-02
Critical information infrastructure register	NOT HELD	—

Spectrum for fifth-generation mobile service was assigned on 23 June 2026 to the three operators, by administrative consignment rather than auction ([regulator account](#)); one reported paying US\$56m for 210 MHz. The licence instruments are not published, but the regulator states the obligations: 710,000 subsidised smartphones and broadband for at least 3,000 schools and 1,000 community institutions ([award account](#)), with no deadline or penalty attaching to a named operator.

Rural coverage runs through one instrument. The universal access fund awarded 60 mobile stations to a single operator in October 2025, doubled from the 30 tendered ([award account](#)), and no commissioning report has followed. The regulator's 2024 report leaves 6 of 453 administrative posts and 209 of 1,222 localities without mobile coverage ([regulation report](#)), and no later figure is published.

The hosting estate is mostly commercial. Two carrier-neutral facilities and a university data centre inaugurated on 3 August 2026 are what the base can name; the state's own facility at Maluana is described on the regulator's site as capable but underused ([regulator-hosted account](#)). The communications minister put the research and education network at 60 Gbps, funded for fifteen years, on 3 August 2026, and the same speaker gave 3.75 Gbps a week earlier; reconcile established on 2026-08-09 that the two measure different things. MoRENet's own account,

presented to UbuntuNet Connect 2025 at Harare on 30 October 2025, is that its **international** bandwidth was raised from 5 Gbps to 60 Gbps over the AmLight-SACS South Atlantic link, with full utilisation awaiting the national backbone expansion that would carry it to the universities – so the 60 Gbps is transit capacity, not capacity delivered to institutions. What the 3.75 Gbps rising to 10 Gbps measures is not established by anything on file, and the fifteen-year funding term rests on that single announcement and is corroborated nowhere. Of the 29 critical systems the regulator assessed in May 2025, 19 came back in the highest risk band ([risk assessment](#)).

Digital public infrastructure

Data Exchange

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Portal de Divulgacao de Dados de Infra-estruturas Publicas (IPDP)	IMPLEMENTED ↗	Validated as an OC4IDS publisher in 2026
Single unified government database	PLANNED ↗	Named as a responsibility of the digital transformation agency
X-Road interoperability platform	IN DEVELOPMENT ↗	Named as under implementation in the mobile digital-identity tender
Government data catalogue and designated data steward	NOT HELD	—

Digital Identity and CRVS

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Biometric passport and electronic pre-booking	IMPLEMENTED ↗	Named as the principal documentary-security measure at the migration service's 51st anniversary
Biometric register of humanitarian-aid recipients (INGD)	IN DEVELOPMENT ↗	Piloting in Beira, launch stated for October 2026
Free first issuance of the national identity card	IMPLEMENTED ↗	Extended to 2027 and widened, announced at Nampula 2026-07-28
National mobile digital identity and electronic signature infrastructure	PLANNED ↗	Consultancy tender published 2026-05-25
Regulations on Civil Identification and the National Identity Card	IMPLEMENTED ↗	Approved by the Council of Ministers at its 15th session

Digital Payments and Fintech

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Biometric identity and access management in the national payments switch	IN DEVELOPMENT ↗	Multi-year deployment agreement announced 2026-02-24
METIX instant payment system	IMPLEMENTED ↗	Aviso 1/GBM/2026 text now held, alongside entry into production 2026-03-16
Mobile-money payment of health workers (WHO)	IMPLEMENTED ↗	Cumulative disbursement reported, 11 August 2026
National Payments System Law (Law 15/2026)	IMPLEMENTED ↗	Enacted 2026-07-02, replacing the regime in force since 2008
Notice 2/GBM/2026 on National Switch connection and outage reporting	IMPLEMENTED, IN FORCE 90 DAYS AFTER PUBLICATION ↗	Notice text now held: published Boletim I Serie n. 103, 2 June 2026, signed 14 May 2026
Implementing regulations for Law 15/2026	NOT HELD	—

Registries (population, land, address, etc.)

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Civil registration and population register services tender	IN DEVELOPMENT ↗	Bids closed 2026-02-05
Free birth registration campaign 2026	IMPLEMENTED ↗	Launched 2026-03-23, running to 2026-12-31
Land cadastre and land-use right registry digitisation	IMPLEMENTED ↗	SiGIT (land information system) review report describes DUAT processing workflow
Law 8/2024 on electronic processing of legal proceedings	IMPLEMENTED ↗	In force since 2024-06-07

Sectoral management information systems (HMIS, EMIS, etc.)

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Digital Health Strategy 2025-2034	IMPLEMENTED ↗	Recorded as the operative national digital health instrument, July 2026
National health management information system	IN DEVELOPMENT, CONSOLIDATING ON THE INTEGRATED ELECTRONIC MEDICAL RECORD SIS-RME ↗	Architecture set in the bilateral health memorandum signed 2025-12-15, with a minimum viable SIS-RME targeted for September 2026

Other GovTech and e-Gov

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Citizen Portal	IN DEVELOPMENT ↗	Prototype in completion, experimental phase due late August to early September 2026
CloudGov (INAGE government file storage platform)	IMPLEMENTED ↗	Announced by INAGE, developed for cross-institution rollout, framed as a COVID-19 response
Decree 40/2026 on simple prior notification	IMPLEMENTED, IN FORCE 90 DAYS AFTER APPROVAL ↗	Approved by the Council of Ministers, reported 2026-08-03
Digital Governance and Economy Project	IMPLEMENTED ↗	Third restructuring; partial cancellation effective 2025-02-10; closing 2027-02-28
One-stop service desks and the electronic single-desk platform	IMPLEMENTED ↗	Described as operating in the World Bank and African Development Bank rapid diagnostic
Online tax clearance certificate	IMPLEMENTED ↗	Service live 2026-08-03 with a ten working-day issuance ceiling
Sistema de Gestao Autarquica (e-SGA)	PLANNED ↗	22-module specification published by CEDSIF for ANAMM; no rollout date stated
Government-systems integration roadmap	NOT HELD	—

Digitalisation of sub-national government

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Municipal revenue and property-tax management system	IMPLEMENTED ↗	SISPGIA (built 2009, Maputo municipality) named in a 2020 PDUL rapid assessment of municipal financial-management information systems
Projecto Municipio Digital	IN DEVELOPMENT ↗	Memorandum of understanding signed 2025-02-21 across 65 municipalities

National statistics

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Fifth General Population and Housing Census	IN DEVELOPMENT ↗	Pilot census launched in Magde district 2026-08-01, running to 2026-08-15
MOZDATA microdata catalogue (INE)	IMPLEMENTED ↗	79 statistical operations catalogued as of 2026-08-08, all licensed access, not open download
Plano de Melhoria de Qualidade de Dados (PMQD) 2025-2029	IMPLEMENTED ↗	Published following a 2022-23 national assessment finding 9% exact-match between SIS-MA records and facility registers
Updated national statistical strategy	IN DEVELOPMENT ↗	Named as in preparation in the World Bank and African Development Bank diagnostic

Use of satellite data

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
ANGOSAT-2 connectivity via the Boane earth station	PILOTING ↗	Station technically integrated and receiving signals; operational tests under way
Starlink terminals in disaster response	IMPLEMENTED ↗	Donated terminals deployed at accommodation and coordination centres
National space policy or programme	NOT HELD	—

Wallet-operator participation in the instant payment system is mandatory ([launch account](#)).

Free first issuance of the identity card, in place since November 2023, was [widened to the birth certificate](#), and the free birth registration campaign targets about 7 million people ([launch account](#)). The statistics institute is rehearsing the 2027 census, the first to be run entirely in digital form, in a US\$430,000 pilot across 177 enumeration areas ([pilot account](#)); the operation is costed at EUR 96.2m and was reported US\$68m short of the US\$110m required in March 2026.

Decree 40/2026, reported on 3 August 2026, mandates automatic information-sharing between the Tax Authority, the Registry of Legal Entities, Social Security, the State Financial Administration and immigration services, and the account of it names no safeguard or oversight ([decree account](#)). About 140 services are inventoried for the citizen portal ([ministerial account](#)). Municipal digitalisation runs under a 2025 memorandum across all 65 municipalities, with no delivery report ([signing account](#)).

Under the bilateral health memorandum the government owns and operates [SIS-RME as the core electronic medical record](#), its minimum viable version targeted for September 2026, with a health data exchange expected functional by the end of 2026 and a national health data warehouse by the end of 2027.

Personal Data Protection Law (draft)	IN DEVELOPMENT ↗	Named in preparation, no tabling date
Personal-data breach reporting platform	PILOTING ↗	Launched as a pilot 2026-02-06

Open data

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
National open data portal	NOT HELD	—

The [Cyber Security Law](#) creates a Cyber Security Fund at articles 67 to 71, financed by a flat 1% of licensed cybersecurity providers' prior-year gross revenue, and the Cybercrime Law repeals six Penal Code articles.

The ground for [voiding provisions of the Telecommunications Traffic Control Regulations on 29 July 2026](#) was organic unconstitutionality, so the powers remain available to the Assembly of the Republic by statute, and the government stated on 4 August that it will seek the same end by another route, naming no bill or timetable ([government response](#)).

Since 2003 a central bank notice has required data centres to be located in the country, with offshore replicas only by prior approval ([inception report](#)). The draft data governance policy proposes an independent council of 11 to 17 members standing above the ministries, alongside a protection authority the law has not created ([zero draft](#)). The breach reporting platform pilot has no statute behind it ([platform account](#)).

A Data Sharing Agreement and a Specimen Sharing Agreement were signed the same day as the bilateral health memorandum and annexed to neither instrument, so [their terms cannot be read from the memorandum that penalises failure to fulfil them](#); the State Department has published neither, and [a suit for their release](#) was unresolved at 2 April 2026.

Artificial intelligence and the technology sector

Gulf/UAE activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Gulf-state digital or data-centre investment agreement	NOT HELD	—

The national artificial-intelligence strategy has not been adopted. A draft was presented at an International Telecommunication Union workshop in May 2026, with the artificial-intelligence commission to review it before submission to the Council of Ministers ([presentation account](#)).

The artificial-intelligence commission, created by decree of 10 March 2026 and in force from April, sits under the Council of Ministers, is chaired by the communications minister, and issues opinions on policy, legal instruments, funding and research ([commission account](#)).

The Intellectual Property Policy and Strategy 2026-2035, approved on 30 June 2026, mandates a study on the patentability of inventions made by artificial intelligence and costs legal and institutional modernisation at 719.6m meticaïs, of which 632m meticaïs is for strengthening intellectual-property institutions through digital infrastructure and cloud platforms ([approval account](#)). Mozambique signed the agreement establishing the World Artificial Intelligence Cooperation Organization in Shanghai on 16 July 2026 as one of 29 founding member states ([signing account](#)).

The bilateral health memorandum of 15 December 2025 [plans United States support of US\\$1,829,380,000 across 2026-2030 against Mozambique's US\\$70,573,106](#), of which US\$83,072,079 is for health data systems, and carries no personal-data, data-ownership, hosting or residency clause.

Inclusion and capacity

Domestic budget appropriations and expenditure

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Cyber Security Fund appropriation	PLANNED ↗	No appropriation line found in the FY2026 final maps
State budget information technology and digital appropriation lines	IMPLEMENTED ↗	PESOE 2026 final maps, Mapas E and H
Universal Access Service Fund accounts	NOT HELD	—

The domestic budget is readable for FY2026. The state budget appropriates MZN 757,832,010 to the financial information systems centre, including MZN 100,000,000 of domestic investment, and MZN 73,636,370 to the information and communication technologies institute, which has no capital allocation ([budget maps](#)).

External financing carries the rest of the load. The World Bank's acceleration project was restructured a second time on 16 January 2026, cutting cybersecurity and data protection from US\$18m to US\$11m on the stated ground that operationalising the data protection office had been envisaged over six years and the remaining project period no longer allows it ([restructuring paper](#)). The European Union signed EUR 28m for the digital transition on 9 June 2026, within a package of EUR 178m ([delegation announcement](#)).

Gaps to fill

SYSTEM OR INSTRUMENT	WHAT WOULD SETTLE IT	LAST PROBED
Gulf-state digital or data-centre investment agreement	Any agreement with a Gulf state fund or operator; the held data-centre financiers are development finance institutions, private funds and an operator, with no Gulf party named	2026-08-06
National innovation and research funding programme	A science ministry or Council of Ministers instrument establishing a research or innovation fund, with an appropriation line; the base carries the artificial-intelligence commission's mandate to opine on funding but names no fund, programme or amount	2026-08-06
Start-up act	A start-up or innovation statute, or a ministerial statement that none is planned; the base carries no source at all on this subject and no held source names a start-up law, register or qualification regime	2026-08-06
National space policy or programme	A Mozambican space-sector policy, or the text of the June 2026 space memorandum; the base holds two signed memoranda with Angola and the earth-station integration, with no domestic instrument behind them; named legal analysts (Abreu Advogados, Jan 2025) confirm no national space strategy or Space Law exists, pegged to the April 2025 African Space Agency inauguration -- corroborates the absence, does not settle it	2026-08-06
Government data catalogue and designated data steward	A government decision designating the catalogue host and the data-steward role; the World Bank diagnostic of December 2025 recommends both be designated, which establishes that neither existed, and nothing since	2026-08-06
Government-systems integration roadmap	The roadmap itself or a progress statement by the technical commission; the base records the February 2026 commitment to deliver it by mid-2026 and carries nothing on whether it was delivered	2026-08-06
Implementing regulations for Law 15/2026	A central bank notice or Council of Ministers decree issued under the new payments law; the base holds the enactment through secondary accounts and nothing on subordinate instruments	2026-08-06
National open data portal	A government-hosted open-data portal or data catalogue with an address and a dataset count, or a dated statement that none exists; the three sources held on this subject name no portal, catalogue or access-to-information instrument	2026-08-06
Data Classification Policy	The policy text or a Council of Ministers resolution approving one; the base carries the World Bank's December 2025 recommendation to design one and the minister's April 2026 statement that states must classify their data, but no instrument, draft, timetable or responsible body	2026-08-06
Financial education programme under the financial inclusion strategy	The strategy text or its financial-education work plan; the base carries only the launch report's summary that financial literacy will be promoted, especially in rural areas, with no programme name, budget, delivery agency or target	2026-08-06
National digital literacy programme or strategy	A published national digital-literacy or digital-skills programme document, or a ministry statement of its status; the base carries no source at all on this subject, and training counts under the acceleration project are professional rather than population-level	2026-08-06
Universal Access Service Fund accounts	Fund accounts or the regulator's levy receipts; the fund is named as the funder of the rural connectivity build with no income, balance or disbursement figure anywhere in the base	2026-08-06
World Bank financing for the university data centre	The operation name, project number and amount; three held accounts of the 2026-08-03 inauguration name the World Bank as financier and state none of the three	2026-08-06
Installed national data-centre capacity	A register of licensed data centres carrying capacity in megawatts; the base carries a disputed count of facilities and now one operator's own specification for one facility (400 racks, 2,000 sqm, 3 MW), and no capacity figure for any other Mozambican facility and no national total	2026-08-06
National compute capacity plan for artificial-intelligence workloads	A ministry or agency plan responding to the minister's own statement of 2026-07-28 that current infrastructure cannot support more advanced models; no plan, budget or procurement is held	2026-08-06
Published national internet penetration figure	A national statistical or regulator series; the base carries only third-party estimates — close to 80% offline (GSMA, 2026-07), 21.2% (ITU, cited 2026-07) and 23.2% (DataReportal, 2024) — and no Mozambican official figure	2026-08-06
Critical information infrastructure register	The designation instrument made under the Cyber Security Law; compliance with the cloud and radio-centre regulations is stated to be mandatory for operators of critical infrastructure, and which operators those are is nowhere established	2026-08-06

SYSTEM OR INSTRUMENT	WHAT WOULD SETTLE IT	LAST PROBED
Power and resilience requirements of the data-centre regulation	The regulation text or its technical annexes; the base carries the consultation summary, which names insurance, infrastructure rules and incentives, and says nothing about power, resilience or efficiency requirements	2026-08-06

The universal access fund publishes no accounts, and no account of the World Bank financing behind the university data centre states its operation name, project number or amount.

No official internet penetration figure is held at any date, and the three figures the base carries are all third-party estimates. Installed national data-centre capacity is unheld: one operator's specification for one facility is the only figure on file.

The base establishes the existence of instruments whose text it cannot read: the data-centre and cloud regulations, held only as public-consultation drafts, the implementing regulations for the payments law, and the register of critical information infrastructure the 2026 cyber statutes presuppose. Two subjects remain empty of any source: a national digital literacy programme, and a start-up statute.

Figures are dated because most are time-varying: a figure carries the date it was true, not the date you are reading it. Where the base holds no reliable statement, the document says **Not held** rather than leaving a silence — those are counted, and listed at the end.

This is a dated edition and is not revised after publication. If a figure here has moved, the current edition will say so.
