

STATUS REPORT

Chad: status report

Edition of 2026-08-14 · 123 systems and instruments tracked, 42 of them not held

Compiled 2026-08-14 from the Data Landscapers source base, from [outputs/reports/TCD/ledger.csv](#) (123 systems and instruments, 42 of them **Not held**). Each section opens with its ledger; specific events are covered in the monthly updates. Figures are dated because most are time-varying.

Status values. *Implemented* — in operation or in force. *Piloting* — running with a limited user group or in a controlled environment. *In development* — build or drafting under way, not yet operating. *Planned* — announced or provided for, no build or draft on record. *Enacted* — an instrument passed into law; pair with a qualifying clause for its in-force date. *Under review* — a law or policy currently being reconsidered. *Discontinued* — closed or superseded. *Not held* — the base carries no reliable statement of status; these are the gaps to fill and are listed again at the end.

Summary of position

Chad has an umbrella strategy, a data centre and a set of obligations, and almost none of the instruments behind them. [Tchad Connexion 2030 is in force targeting at least 80 per cent national internet coverage by 2030](#), the [national data centre is built and awaiting certification](#), and satellite users must now be [formally identified with the regulator or a licensed operator](#). Against that, 42 of 123 rows are *Not held*, and they include the digital code's adopted text, any data-protection statute, the cybercrime law, the founding instrument of the telecommunications regulator, the national frequency plan and the universal-service fund. The state's position is therefore legible almost entirely through announcements: the base can say what Chad has undertaken and very seldom show the document that binds it.

Infrastructure

Connectivity

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Fifty telecom sites and fifty kilometres of fibre to the home at N'Djamena	PLANNED ↗	Announced by the minister at a ministry ceremony
N'Djamena to Mbere fibre corridor memorandum	IN DEVELOPMENT, SUSPENDED PENDING REVISION ↗	The ministry ordered the two operators to correct the clauses and sign
Network investment programme of the larger mobile operator	IN DEVELOPMENT, DELIVERY CONTESTED ↗	Announced as a programme running through June 2026
Order to the two mobile operators to connect to the national fibre backbone	IMPLEMENTED, NOT COMPLIED WITH ↗	A seven-day ultimatum issued after a ministerial meeting

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Projet de modernisation des infrastructures de connectivité de l'Etat	IN DEVELOPMENT, FIRST PHASE COMMENCED ↗	First phase inaugurated at Sarh in Moyen-Chari
Starlink operating licence	IMPLEMENTED ↗	Commercial launch announced by the minister at a press conference
TCHADIX internet exchange point	IMPLEMENTED ↗	First-year ordinary general assembly held, with statutes and internal rules adopted
Trans-Saharan fibre-optic backbone, Chadian section	IN DEVELOPMENT, BEHIND SCHEDULE ↗	Reported 60 per cent complete
Twenty-year concession for a border-to-border fibre link	IN DEVELOPMENT, NO PROGRESS REPORTED ↗	Two incumbent operators joined the vehicle and no progress was made
5G spectrum award or licensing plan	NOT HELD	—
Exchange-point peering traffic volume	NOT HELD	—
Fibre kilometres laid and masts erected under the connectivity programme	NOT HELD	—
National radio frequency plan and spectrum allocation table	NOT HELD	—
Retail price of internet access	NOT HELD	—
Universal service fund	NOT HELD	—
Wholesale international capacity price	NOT HELD	—

Data Storage

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
National Data Centre	IN DEVELOPMENT, BUILT AND AWAITING CERTIFICATION ↗	Building and operational equipment confirmed complete, with audit and certification the last step before inauguration
One hundred government micro-data centres	PLANNED ↗	Provided for in the tripartite audit agreement

Energy

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Instruction to migrate transmission sites to renewable power	PLANNED, INSTRUCTION ISSUED ↗	The minister rejected fuel-supply excuses and instructed migration to solar or wind
Solar mini-grids for five towns	IN DEVELOPMENT ↗	Ministerial inspection of equipment in manufacture, 6-7 January 2026, with delivery contracted for July 2026 at the latest
Electricity access rate and grid reliability	NOT HELD	—
Power arrangements for the data centre and telecom sites	NOT HELD	—

Technical Capacity

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Information technology equipment transfer to the national police	IMPLEMENTED ↗	Handover ceremony
Information technology workforce and regulator technical staffing	NOT HELD	—

Cybersecurity

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
National cybersecurity strategy	IN DEVELOPMENT, NO ADOPTED TEXT ↗	Work launched in December 2022, with no adopted strategy on record
Order on the conditions of use of satellite internet services	IMPLEMENTED ↗	Signed by the Minister of Telecommunications
Tripartite data-centre security audit and certification agreement	IMPLEMENTED ↗	Agreement signed between the digital agency, the security agency and a private firm
National computer emergency response team	NOT HELD	—

The physical build is real and unevenly evidenced. The national data centre is complete in building and equipment and awaiting certification against critical-infrastructure standards, with a hundred government micro-data centres provided for and none deployed. Satellite service is licensed and on sale, and the exchange point has passed a year of operation without publishing traffic, membership or peering figures. The backbone is the weak point: the trans-Saharan section is behind schedule, the corridor memorandum is suspended pending revision, and the order requiring both mobile operators to connect to the national fibre backbone is recorded as implemented and not complied with. Eleven rows in this section are *Not held*, and they are the whole of the measurement: no frequency plan, no 5G award, no fibre-kilometre delivery, no peering volume, no retail internet price, no wholesale capacity price, no electricity access rate, no universal-service fund, and no national computer emergency response team.

Digital public infrastructure

Data Exchange

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Accession to the regional digital integration programme	PLANNED ↗	Chad's active integration set for the programme's second deployment phase
Central bank accession to the Pan-African Payment and Settlement System	IN DEVELOPMENT ↗	Accession announced, with member-state banks to connect by end-2026
Prohibition on ministry systems incompatible with existing platforms	PLANNED ↗	Reported in the 2027 budget orientations
National interoperability and data-exchange layer	NOT HELD	—

Digital Identity and CRVS

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Mass enrolment and subscriber-data interconnection with a mobile operator	IMPLEMENTED ↗	Partnership signed
Memorandum on secure identity for vulnerable populations	IMPLEMENTED ↗	Memorandum signed with an international migration organisation
National biometric register	IMPLEMENTED ↗	A real-time data-sharing agreement concluded with the finance ministry
Data-protection authority overseeing the biometric register	NOT HELD	—

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
National identification enrolment total and coverage rate	NOT HELD	—

Digital Payments and Fintech

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Airtel Money Chad	IMPLEMENTED ↗	Licensed as a payment institution in 2023
Exclusive electronic state-payment regime	PLANNED, EFFECTIVE FROM THE START OF 2027 ↗	Restated for a 1 January 2027 start
Framework agreement on mobile payment of public services	IN DEVELOPMENT ↗	A working session with four operators at which the minister called for rapid signature
Interoperable payments platform with an international finance institution	IN DEVELOPMENT ↗	Partnership announced
Konoom	IMPLEMENTED ↗	A multichannel wallet in service, licensed in 2025
Payment-institution licence for the second mobile-money operator	IMPLEMENTED ↗	Payment-institution approval obtained in April 2026, on the operator's own filing
Regional interoperable payment switch	IMPLEMENTED ↗	Annual figures for 2025 presented at Douala
Regional interoperable QR-code standard	IMPLEMENTED ↗	Launched at Douala under the monetary union regulation of 8 April 2026
Standardised electronic invoice	IMPLEMENTED, EXCLUSIVITY DEFERRED TO 2027 ↗	Mandatory from the 2026 budget, with exclusive use as the basis for state payment starting 2027

Registries (population, land, address, etc.)

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Child birth-registration campaign	IMPLEMENTED, FIRST PHASE RUNNING ↗	Launched with a first phase of six months to December 2026
Digital civil registration	IMPLEMENTED ↗	Launched on African Identity Day
Moratorium on court fees for supplementary birth judgments	IMPLEMENTED ↗	Signed 2026-02-02, suspending fees for children aged four months to seventeen years until 2030
TASDJIL civil-registration application	IMPLEMENTED, DEPLOYMENT EXTENT NOT ESTABLISHED ↗	Deployment dated to 2021 by the head of the UNICEF national sub-office
Cadastre, state property and land registry platforms	NOT HELD	—
National business register and one-stop shop	NOT HELD	—

Sectoral management information systems (HMIS, EMIS, etc.)

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Education management information system (StatEduc)	IMPLEMENTED, HIGHER-EDUCATION MINISTRY ONLY ↗	Ministry statistics and digitalisation staff trained 20-25 July 2026
Electronic medical records and health-facility interconnection	PLANNED ↗	Exploratory meetings on a Washington mission of late May 2026
National health management information system	NOT HELD	—

Other GovTech and e-Gov

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Electronic visa as the sole visa channel	PLANNED ↗	Provided for from 2027 in the budget orientations
Freight bureau enrolment platform	IMPLEMENTED ↗	Presented at an official ceremony at Douala in Cameroon
Fully online business creation	PLANNED ↗	Provided for from 2027 in the budget orientations
Integrated public financial management system	IMPLEMENTED, GENERALISATION PENDING ↗	The whole expenditure chain mandated through the system from the 2026 budget
Integrated transport-services platform	PLANNED ↗	Discussed at a ministerial meeting, with nothing further on file
National citizen electronic-services portal	NOT HELD	—

Rural digital data capture

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Rural connectivity programme for the unserved localities	NOT HELD	—

Digitalisation of sub-national government

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Civil-registry interoperability with the capital municipality	IMPLEMENTED ↗	A working session on interoperability between the biometric system and communal registers
Local-government digital services beyond the capital	NOT HELD	—

National statistics

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Third general population and housing census	IMPLEMENTED, ENUMERATION EXTENDED ↗	A decree of 2026-07-20 extended the main enumeration to 2026-08-06
Census results	NOT HELD	—
National statistics institute data publication	NOT HELD	—

Use of satellite data

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Space cooperation protocol with a national space agency	PLANNED ↗	Protocol of agreement signed at N'Djamena

Identity and civil registration rest on the national biometric register, which the identity agency [describes as the intended single source of truth](#) and which shares data in real time with the finance ministry; no enrolment total has been published at any date. Civil registration runs against it: digital civil registration was [launched in September 2025](#), and the head of the UNICEF national sub-office dates deployment of the TASDJIL application, as part of civil-

registration modernisation, [to 2021](#), with no coverage, site count or throughput figure published for it. A campaign to register [at least a million children aged four months to seventeen years](#) is in its first phase, which runs to December 2026, inside a moratorium on court fees for supplementary birth judgments that holds to 2030.

Payment is licensed nationally and interoperable regionally. Both mobile-money operators are licensed as payment institutions, the second having [obtained approval in April 2026, on its parent group's half-yearly filing](#), at [FCFA 500m of paid-up capital with solvency, cybersecurity-audit and anti-money-laundering obligations](#), alongside Konoom, licensed in 2025 as the first wholly Chadian payment institution. The operator of the regional interoperable payment switch, in which Chad is a participant state, reported [20.3m transactions worth FCFA 863bn for 2025 across 153 participants](#); no Chad-disaggregated figure for it exists in the base. The state's own regime is planned rather than operating: exclusive electronic state payment was mandated for budget year 2026 and is now [restated for a 1 January 2027 start](#).

Inside government, the integrated public financial management system is the [mandated environment for the whole expenditure chain from the 2026 budget](#), with generalisation to institutions, local authorities, public establishments and diplomatic and consular missions still pending. Sector information systems are thinner. The education management information system is on record as StatEduc, in use in the higher-education, research and vocational training ministry, whose statistics and digitalisation staff were [trained on it on 20-25 July 2026](#) under a programme UNESCO supports; nothing is on file for the basic-education ministry. The base carries no reliable statement on a national health management information system, on a national interoperability and data-exchange layer, or on a citizen electronic-services portal.

Governance and regulation

Legislation and regulation

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Code du numerique	IN DEVELOPMENT, NO ADOPTED TEXT ↗	A forty-five-day drafting deadline set 2026-04-27 expired about 2026-06-11 with no text on record
Committee to overhaul the digital, electronic communications and postal legal framework	IMPLEMENTED ↗	Inaugurated with thirty-four members and a forty-five-day deadline
Loi n 013/PR/2014 on electronic communications and postal regulation, as amended	IMPLEMENTED, ONE ARTICLE AMENDED ↗	The Senate ratified the amending ordinance on 2025-12-23 by 65 of 67, after the National Assembly on 2025-10-22 by 105 to 31 with 2 abstentions; the ordinance was signed 2025-08-05
Cybercrime law	NOT HELD	—
Founding instrument of the telecommunications regulator	NOT HELD	—

Strategies, plans and policies

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Tchad Connexion 2030	IMPLEMENTED ↗	Launched with US\$1.5bn of planned investment to 2030, developed with World Bank support and external analysis
Budget-framing instrument for 2027	NOT HELD	—

Regional collaboration

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Position under the African Union Convention on Cyber Security and Personal Data Protection	PLANNED, SIGNED ONLY ↗	Signed 14 June 2015, with no ratification and no deposit on the depositary's status list of 2 February 2026

Standards

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Regulator service-quality audit programme	IMPLEMENTED ↗	The fifteenth cycle conducted September to October 2025, with findings reported February 2026
Strategic regulatory platforms	IMPLEMENTED ↗	Inaugurated by the minister

Data protection

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
General data-protection law and supervisory authority	PLANNED, NONE ENACTED AND NO AUTHORITY - THE FUNCTION IS ASSIGNED TO THE SECURITY AGENCY ↗	No enacted text, number or gazette reference, the function having been folded into the security agency on 2026-03-13
Law on biometric data in judicial procedures	IN DEVELOPMENT, ADOPTED WITH NO PROMULGATION OR GAZETTE ON RECORD ↗	Adopted by 138 votes to 1 at a plenary of the 2026 first ordinary session
Ordonnance n 001/PR/2026 reforming the security and electronic certification agency	IMPLEMENTED, GAZETTED TEXT NOT HELD ↗	The Senate ratified after National Assembly approval

Public debate and participation in policymaking

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Internet shutdown in Lac province	IMPLEMENTED, NO RESTORATION ON RECORD ↗	The province had been cut off since 2024-10-28, more than three months at the internet society communique of 2025-02-11
Media regulator's three-year strategic plan for 2026-2028	IMPLEMENTED, TEXT NOT HELD ↗	Cited by the regulator as the basis for the licensing freeze, one axis being to clean up the profession
Suspension of applications to create online newspapers	IMPLEMENTED, NO END DATE ↗	A communique reported 2026-08-04 suspending examination until further notice
Founding instrument and mandate of the media regulator	NOT HELD	—

EU activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
European digital-governance or regulatory-alignment instrument	NOT HELD	—

Open data

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Access-to-information statute	NOT HELD	—

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Open government data portal or policy	NOT HELD	—

Chad regulates without a data-protection regime. The [general data-protection law and supervisory authority remain unenacted](#), and the [base holds no Chadian data-protection statute at any date](#), while the security and electronic certification agency has been reformed by ordinance to a wider mandate — so the body administering the regime has no independent supervisor above it. The [digital code has no adopted text, number, promulgation date or gazette reference](#), and the [committee inaugurated to overhaul the sector's legal framework](#) produced no draft within its forty-five-day deadline. The one statute held is the [2014 electronic communications law, with one article amended and the amending ordinance's text not held](#). The cybercrime law and the regulator's own founding instrument are both *Not held*.

Artificial intelligence and the technology sector

AI

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Deployed or piloted artificial-intelligence system	NOT HELD	—
National artificial-intelligence strategy or policy	NOT HELD	—

ICT Industry

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Privatisation of the state telecommunications operator	PLANNED ↗	Re-announced in February 2025 with a 60 per cent stake offered, and no advisory bank appointed
Third private mobile operator	PLANNED ↗	Named as a component of the national strategy, with no licensing process on record
Official sector statistics	NOT HELD	—
Per-operator mobile market shares and subscriber bases	NOT HELD	—

Innovation ecosystem

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Telemedan	IMPLEMENTED ↗	Company-reported cumulative usage
Start-up statute, innovation fund or state innovation instrument	NOT HELD	—

US / hyperscaler activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Cybersecurity cooperation with the United States infrastructure security agency	PLANNED, NO INSTRUMENT ON FILE ↗	A videoconference following Chadian attendance at a counter-ransomware summit in Washington
United States digital work programme	PLANNED ↗	A mission held in May 2026 and a readiness to support conveyed on 2026-06-29, with nothing signed

China activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Fifth-generation platform request for the state operator's mobile arm	PLANNED ↗	A ministerial request made to the supplier in China, with no decision, funding or delivery on record
Huawei as contractor for the state connectivity programme	IMPLEMENTED ↗	Named as contractor for the national data centre and the backbone, with a supervising engineer

India activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Indian digital partnership	PLANNED ↗	A ministerial meeting at which a memorandum was intended and no timeline was announced
The national higher school of information and communication technologies	NOT HELD	—

Gulf/UAE activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Gulf-state digital cooperation	NOT HELD	—

The sector is a set of stalled positions. The [privatisation of the state telecommunications operator has no advisory bank appointed](#), announced repeatedly since 2014; a third private mobile operator is planned with nothing licensed; a fifth-generation platform was requested in 2024 and nothing is on record since; and the [Indian digital partnership remains talks with no memorandum](#). The one operating domestic service is a [telemedicine platform whose last figures are more than 2,000 users and about 10,000 consultations](#), unrefreshed since. Foreign engagement is broad and unsigned: four priority areas agreed with the United States, cybersecurity cooperation axes agreed, and a Chinese contractor in place since 2020 — none of it with an instrument in the base.

Inclusion and capacity

Digital divides

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Rural and urban split of internet access	NOT HELD	—

Access to services

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Francophone civil registration project, Chadian component	IMPLEMENTED, SECOND PHASE IN PREPARATION ↗	Reported on the continental civil registration day
Health-facility-integrated civil registration	IMPLEMENTED ↗	Reported to an international identity assembly
Refugee biometric identification	PILOTING ↗	More than 4,000 refugee identity numbers issued in the capital
Cost of connectivity	NOT HELD	—
Universal service fund	NOT HELD	—

Literacy

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
National digital literacy programme	NOT HELD	—

Training and skills

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Refugee digital learning centre	PILOTING ↗	Inaugurated at a one-stop shop in the east, funded by Italy
Youth digital and financial inclusion training	IMPLEMENTED ↗	A two-day session for 120 young people in the capital
Youth digital innovation and employment training programme	IMPLEMENTED ↗	Launched at a maker space with the national employment office and a francophone body

Inclusion runs through registration rather than through access. Birth registration within the legal deadline stands at 48.33 per cent, with about 2.95m under-fives undeclared and 829,000 pupils in school with no document attesting their legal existence. The working channels against that are small: more than 53,000 children registered by the francophone project in two provinces, and more than 120,000 through hospital-based registration since 2023 across ninety-seven digitised points. Refugee biometric identification stands at more than 4,000 issued against a pilot target of 7,000, with nothing after May 2025. Training is a first cohort of seventy-five against a target of 150, and one hundred and twenty young people in digital and financial inclusion.

Finance

New investments

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
China Eximbank concessional loan for the state connectivity programme	IMPLEMENTED ↗	The National Assembly approved the loan law
Chinese government grant for the connectivity programme	IMPLEMENTED ↗	Grant issued in 2019 alongside the concessional facility
Digitalisation of revenue administrations project	DISCONTINUED ↗	Project closed in 2023
Microfinance development support for women and youth entrepreneurship	IMPLEMENTED, DISBURSING ↗	Fourteenth recorded disbursement
Programme to improve the business climate and modernise public administration	PLANNED ↗	Commitment recorded at pipeline and identification stage
Projet d'appui à la transformation numérique	IMPLEMENTED, DISBURSING ↗	Three thousand electronic payment terminals handed to the finance ministry
Statistical development project	DISCONTINUED ↗	Project closed in 2022
The 2019 framework agreement and the concessional loan agreement	NOT HELD	—

MoUs and other agreements

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Digital infrastructure partnership with a regional incumbent operator	PLANNED ↗	Talks at an international mobile trade show

Domestic budget appropriations and expenditure

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Domestic appropriation for digital technology	NOT HELD	—

The financing picture is external and partially disbursed. The digital transformation project shows [US\\$12,220,932 disbursed](#) inside a US\$120m total, and a [business-climate and public-administration programme sits at pipeline stage, 90 per cent externally committed with a closing date of 31 January 2029](#). Two earlier operations, on revenue-administration digitalisation and statistical development, are committed and closed. Chinese financing for the connectivity programme is held as a concessional loan and a grant. No domestic appropriation to digital technology appears anywhere in the section, so what Chad spends from its own budget on any of this is not established.

Gaps to fill

SYSTEM OR INSTRUMENT	WHAT WOULD SETTLE IT	LAST PROBED
National radio frequency plan and spectrum allocation table	The regulator's published national frequency allocation table, or the order approving it, which would settle what spectrum is assigned to whom and at what price	not yet probed
5G spectrum award or licensing plan	A regulator licence award, a tender notice or a ministerial statement of policy; the base holds only a 2024 international statement that no such network exists and a 2024 ministerial request to a supplier for a platform for the state operator	not yet probed
Universal service fund	The decree or law creating a universal-service fund and its annual accounts, or a ministerial statement that none exists; the base holds no Chad-specific statement either way	not yet probed
Fibre kilometres laid and masts erected under the connectivity programme	A programme progress report or ministry reception minute stating delivery against the 1,200 km and 200-mast targets; the only delivery-side number in the base is the 1,275 km cited in an ultimatum, which no source reconciles with the target	not yet probed
Exchange-point peering traffic volume	The exchange point's own annual report or a digital agency statement of aggregate exchanged traffic; the first-year assembly published none	not yet probed
Retail price of internet access	A regulator tariff observatory or operator price schedule; only the satellite operator's July 2025 grid is held, and no mobile data price for Chad exists at any date	not yet probed
Wholesale international capacity price	A transit contract with the neighbouring incumbent, or that incumbent's published wholesale price list; a named analyst asserts it is a large share of the retail price without giving a figure	not yet probed
National computer emergency response team	The establishing instrument or a security-agency statement naming an operational incident-response team; the agency's reform ordinance is described in trade press without one and its text is not held	not yet probed
Electricity access rate and grid reliability	A national utility annual report, the results framework of the regional electricity access operation, or published access data; the subject carries one source in the whole base	not yet probed
Power arrangements for the data centre and telecom sites	A site-power specification for the national data centre, or an operator statement of diesel and solar site counts and autonomy hours; the ministry's own June 2026 exchange shows fuel supply is the operative constraint and no numbers exist	not yet probed
Information technology workforce and regulator technical staffing	A digital agency or regulator staffing statement, or the national digital skills plan under the connectivity strategy; the subject carries a single source, a police equipment donation	not yet probed
National identification enrolment total and coverage rate	An identity agency annual report or a published enrolment dashboard; the intersection page states plainly that no source in the base reports the register's enrolment total, and the system's 2020 deduplication capacity is a specification rather than a coverage figure	not yet probed
Data-protection authority overseeing the biometric register	The founding decree of a data-protection authority, or the security-agency reform ordinance confirming where supervision now sits; the reform folds data protection into the cyber agency with no standalone authority	not yet probed
National statistics institute data publication	Any dated statistical release from the national statistics institute; its site is unreachable from the wiki's network, so no national statistical output can be retrieved	not yet probed

SYSTEM OR INSTRUMENT	WHAT WOULD SETTLE IT	LAST PROBED
Census results	The preliminary results release, the published methodology, or a post-enumeration survey plan; the base holds how the count was conducted and nothing about its output	not yet probed
National health management information system	A health ministry statement or a national health-information implementation report; the base holds only exploratory talks with foreign suppliers and a private telehealth kiosk operator	not yet probed
National interoperability and data-exchange layer	The budget-framing text itself, or a digital or security agency technical specification naming the platform through which the mandated ministry interconnection is to run; the base holds the prohibition and no named exchange	not yet probed
National citizen electronic-services portal	A government portal address with a published service catalogue, or a digital agency statement of how many services are live online; the base records partially digitised procedures and nothing more concrete	not yet probed
Cadastre, state property and land registry platforms	A finance or land-administration ministry statement, or an implementation report from either modernisation programme, saying whether these platforms exist and operate; they are named in the 2027 orientations as things to interconnect	not yet probed
National business register and one-stop shop	The founding text or annual report of Chad's business one-stop shops, or an investment agency statement; a continental bank programme funds their modernisation and interconnection, which implies they exist, but the base holds no dated position	not yet probed
Rural connectivity programme for the unserved localities	A regulator or digital agency universal-service report giving the fund's balance and disbursements; the base holds about 500 unserved localities as a stated challenge with no financing instrument attached	not yet probed
Local-government digital services beyond the capital	A territorial administration ministry statement on communal digital services, or an identity agency list of municipalities connected to the biometric system; only the capital's civil-registry interoperability work is on file	not yet probed
Cybercrime law	The gazetted text with its number and promulgation date; the media regulator names it as the operative instrument for platform offences, so without it the wiki cannot say what conduct is criminalised or by whom it is enforced	not yet probed
Founding instrument and mandate of the media regulator	The organic law or decree establishing the authority and defining its competences, which would show whether its disclaimer of jurisdiction over digital platforms is a reading of its statute or a policy choice	not yet probed
Founding instrument of the telecommunications regulator	The statute or decree creating the regulator, with its independence guarantees, budget basis and sanction powers, plus a register of sanctions actually imposed	not yet probed
Open government data portal or policy	Any national open-data policy, decree or portal address; the base holds no Chadian source on this subject, so the absence is currently inferred from silence rather than established	not yet probed
Access-to-information statute	The text of any Chadian access-to-information statute, or an authoritative statement that none exists	not yet probed
Budget-framing instrument for 2027	The ministry's own circular, which would date the orientations and allow provisions to be quoted at article level; the ministry site returned a server error at the last attempt	not yet probed
European digital-governance or regulatory-alignment instrument	Any partnership, cooperation or programme document touching data governance or digital regulation; the four sources the base holds on this subject are training, data-centre financing and refugee identity projects, none carrying a governance instrument	not yet probed
National artificial-intelligence strategy or policy	A published national strategy or a Council of Ministers communique adopting one; nothing in the base suggests drafting has begun, so the finding may be that none exists	not yet probed
Deployed or piloted artificial-intelligence system	A digital agency or ministry procurement notice, or a security-agency register of systems under its new classification of entities of vital digital importance; no Chad-placed source describes a deployment	not yet probed
The national higher school of information and communication technologies	The school's own institutional statement, enrolment figures or the ministry decree establishing it; it appears in the base only as a body India was asked to support	not yet probed
Gulf-state digital cooperation	A signed memorandum, a joint communique, or any single dated Chad-Gulf digital event; the base has only mentions inside two lists of partners and no source at all on this subject	not yet probed
Start-up statute, innovation fund or state innovation instrument	A Chadian start-up law, a national innovation fund decree, or an employment or digital agency programme document that is not donor-financed; every innovation item in the base is donor-scaffolded	not yet probed

SYSTEM OR INSTRUMENT	WHAT WOULD SETTLE IT	LAST PROBED
Per-operator mobile market shares and subscriber bases	A regulator annual market observatory, or operator segment disclosure for Chad; the base carries only a ministerial aggregate of beyond 13 million subscribers and no split	not yet probed
Official sector statistics	A regulator annual report or national accounts series giving the sector's contribution to gross domestic product, against which the assertion of 1.9 per cent could be checked; every sector figure in the base is trade press or ministerial statement	not yet probed
The 2019 framework agreement and the concessional loan agreement	The gazetted ratification instrument of August 2019 and the loan contract; without them the EUR 175.1m, US\$180m and FCFA 111.4bn figures cannot be reconciled to a document	not yet probed
Domestic appropriation for digital technology	The finance law and the 2027 framing circular, or any ministry budget annex showing a digital line; the base carries no Chadian budget figure for digital at all and the compiled budget outputs hold no Chad file	not yet probed
Universal service fund	The decree or article establishing a universal-service fund, or a regulator annual report confirming its absence, plus any levy rate and disbursement record	not yet probed
National digital literacy programme	The component document or results framework of the transformation project naming the financial and digital literacy programmes it promises, with target numbers and a start date	not yet probed
Rural and urban split of internet access	A regulator market observatory, the census household module on information technology ownership, or an international country profile with disaggregated access; the census now in the field is the obvious candidate	not yet probed
Cost of connectivity	A regulator tariff observatory or an affordability basket for Chad; the base holds only the satellite operator's own price card	not yet probed

Forty-two rows are *Not held*, the highest proportion of any unit the base carries, and they divide into two. The first is the state's own texts: the digital code, any data-protection statute, the cybercrime law, the telecommunications regulator's founding instrument, the national frequency plan, the universal-service fund's creating decree. Chad has no reachable online gazette, which is why this class is as large as it is — each of these would close on a single published document. The second is delivery measurement: fibre kilometres and masts against the connectivity programme's targets, exchange-point peering volume, retail internet price, wholesale capacity price, electricity access, and the technical staffing of the regulator itself. Together they mean the base can describe what Chad has committed to in detail and can verify almost none of it.

ABOUT THIS DOCUMENT

EDITION	2026-08-14
CURRENT EDITION	https://corpus.data-landscapers.com/reports/TCD/TCD-status.html
THIS FILE	https://corpus.data-landscapers.com/reports/TCD/TCD-status-2026-08-14.pdf
DERIVED FROM	Data Landscapers source base, commit 7150d81e4dbb
VERIFY	Hash this file and look it up in https://corpus.data-landscapers.com/manifest.csv
LICENCE	CC BY 4.0

Figures are dated because most are time-varying: a figure carries the date it was true, not the date you are reading it. Where the base holds no reliable statement, the document says **Not held** rather than leaving a silence — those are counted, and listed at the end.

This is a dated edition and is not revised after publication. If a figure here has moved, the current edition will say so.
