Governance

Strategies, plans and policies

- **National AI Institute launched** – The Namibian, 27 September 2026 NAMIBIA

Namibia's ICT minister launched a National Artificial Intelligence Institute in Windhoek, made up of software development, datasets, innovation and research centres. It is to work on skills, local datasets and uses in health, education, food security, energy and public services. *Also under [AI](#) and [Research institutions](#).*
- **Intelligence artificielle : le Gabon veut définir ses besoins avant de fixer son cap** – GabonReview, 27 September 2026 GABON

Gabon's digital economy ministry and the UN Development Programme opened consultations toward a national artificial intelligence strategy, held in Libreville from 28 to 30 September 2026. The announcement sets out the themes but gives no budget, adoption date or priority uses. *Also under [AI](#).*

Data protection

- **Malawi's Digital ID must earn public trust** – The Maravi Post, 27 September 2026 MALAWI

An opinion piece asks how Malawi's new Nzika digital identity wallet, launched on 16 September 2026, will protect the biometric data of more than 13.5 million registered people. It notes that reports on a World Bank-financed contract for 2,400 biometric registration kits do not show any data was compromised, and calls for clear rules on access and storage. *Also under [Digital Identity and CRVS](#) and [Public debate and participation in policymaking](#).*

Regional collaboration

- **BANQUES DE LA CEMAC : La COBAC fixe le cap d'une finance plus résiliente et sécurisée** – Forum Libre, 27 September 2026 CENTRAL AFRICA

The Central African banking supervisor met the region's bank and microfinance chiefs in Malabo on 25 September 2026 to set priorities on climate-related risk, stress testing, cybersecurity and the use of artificial intelligence. A single banking law and a green taxonomy for the CEMAC zone were among the reforms discussed. *Also under [AI](#), [Cybersecurity](#) and [Digital Payments and Fintech](#).*

Standards

- **Togo's Mobile Quality Results Show YAS Ahead Nationally, MAT Leading on 4G** – Togo First, 27 September 2026 TOGO

Togo's telecoms regulator found neither mobile operator meeting its quality-of-service standards in a national campaign across 86 locations from July to August 2026, with YAS at about 75% compliance and Moov Africa Togo at about 54%. It is drafting rules that would require 95% compliance nationwide, backed by penalties. *Also under [Connectivity](#).*

Public debate and participation in policymaking

- **ظاهرة الأرقام الوطنية المزورة تتفاقم.. كيف نسد ثغرات السجل المدني الليبي؟** — Alwasat (Bawabat Al-Wasat), 27 September 2026

LIBYA

Libya's public prosecutor announced another case of civil-status records falsified for money, reviving concern over forged national identity numbers, which the last official tally put above 89,000. The report traces the problem to 2022, when forged numbers were found to have drawn salaries and family grants, and asks how the civil registry's gaps can be closed. *Also under [Digital Identity and CRVS](#) and [Registries](#).*

- **The Next Wave: Kenya's payments revolution cannot end with mobile money** — TechCabal, 27 September 2026

KENYA

A commentary argues that Kenya's success with mobile money has left the rest of its payments system neglected, citing central bank figures of 94.35 million registered accounts and KES 728.7 billion moved in July 2026. It calls for attention to bank rails, cards and cross-border payments beyond the dominant wallet. *Also under [Digital Payments and Fintech](#) and [Digital sovereignty](#).*

- **Intelligence artificielle : l'Afrique face à une nouvelle frontière de la connaissance** — Seneweb, 27 September 2026

AFRICA

A Senegalese professor argues that Africa's future in artificial intelligence depends on turning its young population into producers rather than consumers of technology. He calls for investment in science and mathematics education, research and computing capacity as the basis of what he terms cognitive and algorithmic sovereignty. *Also under [AI](#) and [Digital sovereignty](#).*

- **Inteligência Artificial: Hélio Varela desmistifica alarmismo** — A Nação, 27 September 2026

CAPE VERDE

In an interview, Cabo Verdean specialist Hélio Varela rejects alarm about losing control of artificial intelligence and argues that the real risk is its concentration in a handful of countries and companies. He proposes a pragmatic technological sovereignty for the islands rather than protectionism. *Also under [AI](#) and [Digital sovereignty](#).*

- **FIFAfrica26 Agenda Reveals Africa's Tech Ecosystem is Keeping in Tandem With Global Strides** — CIPESA, 27 September 2026

MAURITIUS

AFRICA

The 2026 Forum on Internet Freedom in Africa, hosted in Mauritius by CIPESA with a local partner, has published its agenda: 18 pre-events and 41 sessions across eight themes, chosen from more than 450 proposals. The themes run from data governance and AI to platform accountability and digital security. *Also under [AI](#).*

Digital Payments and Fintech

- **What will Rwandan traders gain from BK joining China's yuan payment network?** — The New Times, 27 September 2026 RWANDA

Rwandan importers who buy from China, the country's largest source of imports, expect Bank of Kigali's direct membership of China's yuan payment system to cut the cost of converting francs into dollars and then into yuan. An economist cautions that the gain depends on the bank's rates and fees, and that trade with China will not stop using the dollar. *Also under [China activities](#).*

- **PI-SPI : la gratuité des paiements bouscule le partage des revenus** — Seneweb, 27 September 2026 WEST AFRICA

The West African central bank's instant payment platform, live since September 2025, makes transfers between people and payments to merchants free to the customer across banks and wallets. The report looks at how that undercuts mobile money operators' fee income and network advantage as the deadline for institutions to connect approaches.

ICT Industry

- **Egypt: President El-Sisi Meets the Chief Executive Officer (CEO) of Orange Group** — Presidency of the Arab Republic of Egypt (distributed by APO Group), 27 September 2026 EGYPT
After Orange Group's chief executive met President El-Sisi, the operator announced training grants for about 200,000 people in artificial intelligence and cybersecurity, EUR 25 million for AI and advanced-technology startups, and technology laboratories for Egyptian universities. The President also sought its help with the second phase of the national digital health project. *Also under [Training and skills](#) and [Innovation ecosystem](#).*

Innovation ecosystem

- **Du codage aux prototypes : à Oyem, une Maison pour donner corps aux idées innovantes** — GabonReview, 27 September 2026 GABON
Gabon's First Lady visited the former governorate building in Oyem, which is being converted into a centre for coding, robotics, fabrication and entrepreneurship for children, young people and adults. It grows out of a local youth coding programme, and no cost or opening date is given. *Also under [Training and skills](#).*
