Governance

Strategies, plans and policies

Stratégie Nationale de Paiement Numérique (SNPN) — Banque Centrale de Mauritanie, 6 September 2026

MAURITANIA

Mauritania's central bank publishes its National Digital Payment Strategy on its fintech portal, presented as a natural extension of the national financial inclusion strategy and aimed at widening access to financial services for rural and under-banked citizens. It sets five objectives: easing the regulation of payment and electronic-money institutions to attract fintech investment, rebuilding the digital payments infrastructure, modernising financial services around innovation, building adoption and use, and putting a governance system in place across the whole financial-digital sector. No implementation report or measured outturn against any of them appears on the page. *Also under [Digital Payments and Fintech](#).*

Contrôle des modifications du document — Guide de l'Architecture d'Entreprise Gouvernementale du Togo — ATD (Agence Togo Digital), 6 September 2026

TOGO

Togo's government enterprise-architecture guide, and with it the common interoperability framework it defines, is still a draft on the digital agency's own live status page: version 1.0, status Brouillon, with the version date, reviewer and review date fields blank and the revision table carrying only its column headers. The framework exists as a published normative text and has not been given force of law. *Also under [Standards](#).*

Legislation and regulation

مقترح قانون عدد 017 / 2024 يتعلق بتنقيح وإتمام المرسوم عدد 54 لسنة 2022 المتعلق بمكافحة الجرائم المتصلة بأنظمة المعلومات والاتصال — Assemblée des Représentants du Peuple (ARP), 6 September 2026

TUNISIA

Parliament's own case file for the bill amending Tunisia's 2022 cyber-offences decree-law puts dates on a revision that has been called a priority: deposited on 20 February 2024, referred to committee on 10 April 2025, carrying 38 sponsors, and still unvoted. The amendments themselves are not published on the page, so what the bill would change remains unstated.

Registries

Home Page — Egyptian Tax Authority, 7 September 2026

EGYPT

The Egyptian Tax Authority's own portal carries the state of its digital systems: electronic invoicing with registration guidance and online training for businesses joining it, an e-receipt system defined as an electronic document proving business-to-consumer transactions, and value-added tax return automation. A consumer-incentive scheme rewarding shoppers for taking a receipt or invoice is in trial operation at five shopping malls. *Also under [Sectoral management information systems](#).*

ABOUT THIS DOCUMENT

EDITION	2026-09-07-2
RETENTION	Kept until 2026-09-14. Older bulletins: the country pages and the monthly reports.
THIS FILE	https://corpus.data-landscapers.io/bulletin/corpus-bulletin-2026-09-07-2.pdf
LICENCE	CC BY 4.0

This bulletin is produced automatically at the end of each data collection sweep but only includes items published on the day cited in the edition, and the previous day. Items published in the last month can be found on the [country pages](#). The links to all items stored in the corpus can be found in the [catalogue](#).

Bulletins are kept for a week — the last week's editions are listed above, each at its own dated address — and are then deleted. Older material is in the country pages and the monthly reports.
