

PROGRESS REPORT

Cybersecurity: progress report, 2025-08-01 to 2026-08-26

Edition of 2026-08-26 · compiled by Claude Opus from the documents in the Corpus repository

55 places. Every table below is carried verbatim from that place's own progress report; nothing is written here.

ALGERIA · ANGOLA · BENIN · BOTSWANA · BURKINA FASO · BURUNDI · CAMEROON · CAPE VERDE ·
CENTRAL AFRICAN REPUBLIC · CHAD · CONGO · COTE D'IVOIRE · DJIBOUTI · DR CONGO · EGYPT ·
EQUATORIAL GUINEA · ESWATINI · ETHIOPIA · GABON · GAMBIA · GHANA · GUINEA · GUINEA-BISSAU · KENYA ·
LESOTHO · LIBERIA · LIBYA · MADAGASCAR · MALAWI · MALI · MAURITANIA · MAURITIUS · MOROCCO ·
MOZAMBIQUE · NAMIBIA · NIGER · NIGERIA · RWANDA · SAO TOME AND PRINCIPE · SENEGAL · SEYCHELLES ·
SIERRA LEONE · SOMALIA · SOUTH AFRICA · SOUTH SUDAN · SUDAN · TANZANIA · TOGO · TUNISIA · UGANDA ·
ZAMBIA · ZIMBABWE · AFRICA · SOUTHERN AFRICA · WEST AFRICA

Movement values. *Advanced* — a system entered service, a stage was completed or an instrument was made. *Stalled* — a stated target passed without delivery. *Regressed* — an instrument was withdrawn or neutralised, or a measured position worsened. *Closed* — the programme ended. *No change* — the position at both ends is the same. *Baseline not held* — the base carries no position at the start of the period, so no movement can be stated. A value may carry a qualifying clause after a comma, as in *Advanced, slipped*.

The place reports do not share one window; the period above is the range they span.

Algeria

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT
Child online-protection cyber-vigilance cell (green line 1111)	Did not exist	Cell and green line 1111 operating	ADVANCED
MPT-CERT sectoral incident-response centre	Did not exist	Sectoral CERT operating with KOICA support	ADVANCED
National Strategy for Information Systems Security 2025-2029	Did not exist	Approved by the President; strategy text not held	ADVANCED
Presidential Decree 26-07 — security and data-protection structures in every public body	Did not exist	Gazetted; commencement unestablished and the operative text not held	ADVANCED
Public warning on platforms impersonating state bodies	None published	A public communique warning that unlicensed digital platforms are impersonating the wilaya's institutions and public enterprises, mostly as fake e-ticketing storefronts built to harvest bank card details and personal data, and directing citizens to verify the domain name before paying and to use only officially approved portals	ADVANCED
Russia cybersecurity MoU (Positive Technologies with Proxylan/CERIST)	Did not exist	MoU signed; no implementing project held	ADVANCED

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT
ASSI – Information Systems Security Agency (Ministry of National Defence)	BASELINE NOT HELD	Operating under the Ministry of National Defence; no establishing instrument held	<i>Baseline not held</i>

Angola

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT
Compensation for the incumbent's July 2026 cyberattack	Did not exist	The incumbent said it will compensate customers automatically for the July 2026 cyberattack that cut its services nationwide - business customers credited on their August or September invoice and consumer accounts given extra days of service, with no request needed. Mobile voice, messaging, data and internet are restored bar call waiting, and the operator's investigation with independent external specialists has found no evidence so far of any compromise or improper access to customer or partner personal data	ADVANCED
Cyber-security appropriation	Kz 70.5bn in the 2025 budget, about US\$76.4m at the source's stated rate	Kz 32.3bn in the 2026 budget, about US\$35m, still the third-largest item inside the communications programme	REGRESSED
Recovery from the July 2026 attack on the incumbent mobile operator	Voice, messaging, data and internet services degraded nationwide following the 2026-07-28 attack	Voice, messaging, data, internet and third-party network services declared fully restored nationwide, with only the custom ringback-tone feature still offline; a continuing forensic investigation with independent external experts has found no evidence of unauthorised access to or sharing of customer or partner personal data, and affected users are receiving automatic invoice credits or additional service days	ADVANCED

Benin

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-25	MOVEMENT
AFIS fingerprint system wired to the regional police exchange	Did not exist	Connected to the ECOWAS SIPAO police data exchange	ADVANCED
National digital-security stack	In place (2020)	Coordinated through ASIN and the CNIN, under the Malabo and Budapest conventions	NO CHANGE
Attack surface of the online service estate	BASELINE NOT HELD	More than 230 services delivered online, about 40 priority structures under oversight (2026-06)	<i>Baseline not held</i>
Ransomware threats detected	Baseline not held	631 ransomware threats detected in Benin in 2024, on a security vendor's telemetry cited by Interpol	BASELINE NOT HELD

Botswana

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT
Liquid Secure360	Not offered in Botswana (2025-08)	An integrated security framework and cloud services available to Botswana customers; no customer, revenue or capacity figures	ADVANCED
National Cyber Drill	No national cyber drill on file (2025-08)	A four-day 2026 drill held; the base separately records an inaugural drill in the same season	ADVANCED
Cybercrime and Computer Related Crimes Act 2018	In force (2025-08)	Still the operative cybercrime statute; its repeal is enacted but not commenced at 2026-08-06	NO CHANGE
Suspected digital fraud rate	BASELINE NOT HELD	0.9% of consumer transaction attempts suspected digital fraud, the lowest of the African countries analysed	<i>Baseline not held</i>

Burkina Faso

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT
Critical-infrastructure classification decree	The 2024 information-systems security law in force with no identification, classification or mapping machinery	Decree adopted, defining critical-infrastructure bodies as any entity housing installations indispensable to society's vital functions, expressly spanning energy, water, health, telecommunications and finance	ADVANCED
Cyber agency appropriation	FCFA 498,036,000 appropriated for 2025	FCFA 489,236,000 appropriated for 2026, against 444,200,000 in 2024	REGRESSED
Digital infrastructure supervision centre	Did not exist	A five-storey building under construction at FCFA 3.048bn, delivery scheduled for October 2026, to supervise the national backbone, secure cyberspace, manage state data centres and maintain critical infrastructure. At a ministerial site visit on 2026-08-05 the technical managers put physical execution across this worksite and the first Maison du citoyen together at about 20%, with the minister asking contractors to hold the pace	ADVANCED
Regional incident response centre	Not announced	Announced as an ambition for the regional confederation, with no host, financing or timetable stated	ADVANCED
Reported cybercrime complaints and losses	3,028 complaints and 1.108 billion FCFA of losses (2022)	6,367 complaints and 1.872 billion FCFA of losses (2025)	REGRESSED
Security audit and auditor accreditation decree	The law asserted an accreditation duty for auditors with no procedure attached	Conditions for periodic audits fixed, and accreditation of auditors vested in the national cyberspace control body	ADVANCED
Security-product approval and homologation regime	In force by statute, with no implementing regulation on record	The same, with the decrees of 30 July 2026 fixing audit and auditor accreditation but not the conditions for technical approval or homologation, which the law leaves to regulation	NO CHANGE

Burundi

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-25	MOVEMENT
Regional financial-system cybersecurity measures	Baseline not held	Flagged by the governors; no common measure adopted	BASELINE NOT HELD

Cameroon

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT
Device certification guidelines	Did not exist	Certification guidelines for devices sold in Cameroon, issued under the regulator's digital-safety campaign	ADVANCED
Intelligent urban video surveillance extension	Three tranches authorised, about FCFA 111.5bn; the first phase delivered 1,500 cameras and 2,000 portable radios	A fourth tranche of FCFA 39.2bn, bringing FCFA 150.8bn mobilised over eight years across three Chinese lenders	ADVANCED
National computer incident response team	Operating; 19m threats identified and blocked in 2024	Intrusion-detection and prevention hardware and software commissioned; the team ingests about 200GB a day and runs the national key infrastructure	ADVANCED, CAPABILITY HARDENED
National DNSSEC validation rate	No figure published	56.60% national average (2025-12-08), with one operator at 2.75% and most others at 0%; the target is restated as 100% by end-2026	STALLED

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT
Share of national domains secured domestically	Did not exist	Operators including the state operator secure over 73% of the country's domains against a national target of 98% by 2026, stated at the state operator's cloud event of 10-12 December 2025, at which it also put revenue from its data-transport activities above FCFA 33.7bn in 2024, more than 17% up on 2023	ADVANCED
DNSSEC signing of the national domain	The national zone cryptographically signed	Unchanged; the agency's own line is that signing the zone is only a step and the chain of trust depends on resolver-side validation	NO CHANGE
Average loss per online job scam	Not held	An average of 132,000 FCFA per incident for Cameroonian victims, against 58,000 FCFA in Chad; 82% of the Cameroonian cases described are WhatsApp-based social engineering linked to Nigerian networks, where the Chadian pattern is more localised SMS and voice phishing	BASELINE NOT HELD

Cape Verde

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT
National Security Operations Centre and CSIRT	Provided for by Decreto-Lei 9/2021 but not operating; NOSi funded CSIRT work from its own trading account and no cybersecurity rubric appeared at any grain of the FY2024 budget	Both bodies operating inside the state's private technological network, built by NOSi with World Bank involvement, the SOC for real-time detection and the CSIRT as a national alert-and-response point	ADVANCED
Cabo Verde-South Korea digital cooperation	A delegation led by the telecommunications and digital-economy directorate had completed a technical mission to South Korea covering data governance, digitisation of public services and cybersecurity; no agreement signed	Unchanged; no formal agreement is held	NO CHANGE
Decreto-Lei 9/2021, cybersecurity legal regime	In force; establishes the cybersecurity legal regime and creates the national CSIRT, with no budget line at any grain of the FY2024 or FY2025 volumes	Unchanged; no amendment, implementing regulation or repeal is held, and the first appropriation against it appears in FY2026	NO CHANGE
ISO 27001 certification of NOSi's public-key infrastructure	Committed in the FY2024 plan and funded from NOSi's trading account; no certification confirmed	Unchanged; neither the FY2024 accounts nor the FY2026 plan record certification	NO CHANGE
Cidade Segura surveillance programme	Baseline not held	Phase 3 financed by China at about EUR 9.3m in non-reimbursable assistance, the implementation agreement signed by the interior minister and the Chinese ambassador at the National Police Command Centre in Praia; it covers command centres, data centres and wireless base stations at Assomada, Tarrafal de Santiago and Porto Novo and expanded video surveillance in Praia and Mindelo, and follows two earlier phases	BASELINE NOT HELD

Central African Republic

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-25	MOVEMENT
Cybersecurity and electronic-certification platform	Recorded as delivered in the funder's own release, with no operator, uptake or certificate-issuance record	Unchanged; nothing added through 2026-08-06 and no held source names the platform again	NO CHANGE
National cybersecurity agency	Created by a cybersecurity law voted by acclamation in January 2024 under joint supervision, to secure information systems, handle alerts and regulate the sector, with no establishment record	Unchanged; the agency appears nowhere in the 2024, 2025 or 2026 estimates under any wording	NO CHANGE
Network-security and digital-trust appropriations	BASELINE NOT HELD	FCFA 6,000,000 combined for the year for the whole country, against FCFA 1,600,000,000 transferred from the same ministry to the regulator	Baseline not held

Chad

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-25	MOVEMENT
Order on the conditions of use of satellite internet services	Did not exist	In force: every user - individual, company or public institution - must be formally identified with the regulator or a licensed operator, giving full identity, residence or registered address, legal references and the serial numbers of modems, routers and antennas; the operator must retain internet addresses and connection history for at least twenty-four months; sanctions run to twelve-month suspension, permanent withdrawal, seizure of non-compliant equipment and administrative fines	ADVANCED
Tripartite data-centre security audit and certification agreement	Did not exist	In force, covering audit and certification of the national data centre against critical-infrastructure standards and the operation of one hundred micro-data centres; no completion date, cost or certification result is reported	ADVANCED
National cybersecurity strategy	Work under way since December 2022, with no text	Work under way, with no text, no adoption record and no publication	NO CHANGE
Average loss per online job scam	Not held	An average of 58,000 FCFA per incident for Chadian victims, against 132,000 FCFA for Cameroonian victims; 70% of the Chadian cases described are localised SMS and voice phishing rather than the WhatsApp-based, Nigerian-network-linked social engineering that dominates in Cameroon	BASELINE NOT HELD

Congo

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-25	MOVEMENT
Audit-provider qualification standard	Did not exist	A consolidated draft setting qualification conditions for bodies authorised to audit information systems nationally: technical competence, independence, integrity, confidentiality and professionalism	ADVANCED
National cybersecurity strategy	No national cybersecurity strategy held or in preparation	The tender open with bids due 2026-09-02, scope covering an ecosystem diagnostic, a strategic roadmap, public and private skills development and a standing forum, financed by a European bank through the transformation project	ADVANCED

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-25	MOVEMENT
National information systems security agency	FCFA 800,000,000 stated for 2025 operations on trade reporting alone, tied to no instrument, with no agency line in any 2025 appropriation or execution document	A statutory levy-share basis in the finance law for the first time, alongside the four resource streams of its founding law, with the agency now inside the invoicing homologation loop and running the strategy procurement	ADVANCED
National security operations centre and response team	No national operations centre or response team held or announced	Stated as a programme within the ministry's roadmap	ADVANCED
Security label in electronic-invoicing homologation	Did not exist	The agency awards the security label and conformity identifier and audits the infrastructure; the July orders set a four-stage homologation with mandatory cryptographic certification, key-extraction proofs, a penetration test under twelve months old and a sworn no-backdoor attestation, and give the agency 15% of homologation fees	ADVANCED

Cote d'Ivoire

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT
Cybercrime platform (PLCC)	Did not exist	The Plateforme de lutte contre la cybercriminalite is stated as created in the government's 2011-2025 security record, alongside 11 forensic-police branches	ADVANCED
Finance-ministry information-system security appropriations	FCFA 3.268bn for modernising and securing the treasury information system and FCFA 791.9m for the budget information system, FY2025	FCFA 1.618bn for the treasury system, roughly halved, against FCFA 841.9m for the budget system, FY2026	REGRESSED
National public key infrastructure	The root certification centre was listed as one of the state agency's technical units, with no national root of trust in service	Sovereign national root at the head of the internationally recognised certificate tree and trust anchor for every certification authority operating in the country, under the 2013 electronic transactions law and its 2014 and 2016 decrees	ADVANCED
Reseau national des RSSI	Did not exist	Network of public-administration information-systems security officers launched with a roadmap, intended for shared watch, early warning and major-incident coordination; no membership figure, budget or reporting obligation stated	ADVANCED
3R Technologie security operations centre	BASELINE NOT HELD	Commercial monitoring centre presented as the first AI-integrated security operations centre in the country; no customer count, coverage or pricing stated	Baseline not held

Djibouti

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-25	MOVEMENT
Autorite Nationale de Cybersecurite (ANC)	No statutory cyber authority; a pre-statutory ANCS label and ANSIE's DSSI	Autonomous public establishment under the Presidency, operational from December 2025, director-general named	ADVANCED
DJ-CERT national incident response team	No operating team on record	Operating team of the ANC; placed first in both simulation scenarios at the IGAD exercise (2026-06)	ADVANCED
National Cybersecurity Strategy 2024-2030	In force	In force	NO CHANGE

DR Congo

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT
Child online-safety service	Did not exist	A subscriber-level filtering service applying preset policies to a child's traffic, blocking adult, illegal, gambling and hate content and social platforms other than one messenger, from 50 units for 30 days	ADVANCED
National cybersecurity agency	BASELINE NOT HELD	Named alongside a cybersecurity council, the data-protection authority, the central bank and the telecommunications regulator; whether the agency exists in law, is staffed or is operating is not established	Baseline not held

Egypt

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT
ITU Global Cybersecurity Index standing	100% of index points on the 2023-2024 index, among the top 12 countries globally (reported 2025-02-18)	The same standing restated on 2026-06-10, among 12 states in the first tier at 100%	NO CHANGE
EG-CERT national computer emergency readiness centre	The base carries no dated position on the centre at 2025-08-01	Operating under the telecommunications regulator, with capability development under way using AI techniques against cyber threats; no incident statistics, mandate document, budget or reporting obligation is held	BASELINE NOT HELD

Equatorial Guinea

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-25	MOVEMENT
National Cybersecurity and Critical Infrastructure Agency (ANCIC)	Created in law by Ley 7/2024 of 23 December 2024, under the Presidency	Created in law; no premises, staffing, budget or activity is on record	NO CHANGE

Eswatini

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT
SADC regional cybersecurity framework	Did not exist	Approved regionally; no national implementing instrument on file	ADVANCED
Government services available online	Baseline not held	31 of 419 services online; 15 of 22 ministries run on 1 Mbps or less; 18 ICT professionals support the assessed estate	BASELINE NOT HELD
Ministry data backup and ICT maintenance	Baseline not held	9 of 21 ministries keep no regular backups, 11 have no ICT maintenance contract, and the finance ministry runs mainframe software past end of life	BASELINE NOT HELD
National cybersecurity awareness programme	Baseline not held	Run annually; no national cybersecurity strategy or CERT on file	BASELINE NOT HELD

Ethiopia

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT
INSA cybersecurity and sovereign-cloud foundations	Did not exist	Sovereign cloud and forensic laboratory stated in the strategy, not built	ADVANCED

Gabon

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT
ANINF-CNAMGS information-systems audit memorandum	Did not exist	The audit was carried out and its findings delivered on 2026-08-12, three months after signature, naming human resources, data and infrastructure as the three pillars of the fund's technology roadmap; the findings themselves are not published, and no remediation plan, timetable or cost is stated	ADVANCED
ANINF-MITRE national cybersecurity architecture	Not on the record	Design phase, twelve priority sectors defined and a national inventory of strategic cyber assets being mapped; no completion date, cost or instrument published	ADVANCED
Interpol Operation Serengeti 2.0	Under way	Concluded, with 1,209 arrests and about US\$97.4m recovered across the continent; no Gabon-specific arrest, seizure or case figure published	CLOSED
SEEG cyberattack and systems recovery	95 per cent of information systems collapsed after a sabotage attack (2026-06-15), knocking out the EDAN prepaid-meter top-up platform	Billing and payment services restored in Libreville and seven interior centres (Franceville, Moanda, Akieni, Mounana, Mouila, Port-Gentil, Lastoursville); the utility describes its network as healthy, secured and protected by reinforced measures, with restoration continuing elsewhere (2026-08-04)	ADVANCED
National cybersecurity strategy	None published	None published; the January 2026 regulator workshop restated resilience gaps without producing one	NO CHANGE
SecBOM security bill of material	Launched - asset inventory, standard formatting, integration to the configuration database, quarterly review and linkage to the national security operations centre and incident response team	Unchanged; no asset count, coverage, review cycle or output published in fourteen months	NO CHANGE
United States cybersecurity grant to ANINF	US\$1,249,997 committed, US\$49,313 disbursed	Unchanged; the planned end date has passed with no completion, extension or further disbursement on file	NO CHANGE

Gambia

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-25	MOVEMENT
National cybersecurity agency or incident response team	No position held at the start of the window	An institutional design on paper: GM-CSIRT operating a national Cybersecurity Centre with a security operations centre inside it, a National Cybersecurity Coordination Directorate, a National Cybersecurity Commission, an advisory board, sectoral focal points and sector CSIRTs, and a police cybercrime response unit. The plan directs that GM-CSIRT be operationalised and strengthened in budget and technology; nothing held states that any of these bodies is standing	BASELINE NOT HELD

Ghana

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT
Community media cyber capability project	Did not exist	Czech-funded and implemented with the cyber-security authority and a digital-transformation centre, training about 60 media houses and more than 100 journalists in Accra through August 2026 and in Kumasi in September, and certifying those who complete every session and file a report into a proposed cyber-security press corps; a training session at Accra on 19 August put newsroom devices to journalists as deliberate targets rather than accidental victims, citing an Angolan journalist's 2024 spyware infection as the regional precedent	ADVANCED
Critical information infrastructure designation	Did not exist	The communications minister says all central-bank-licensed entities will soon be designated critical information infrastructure; no instrument, date or designation list published	ADVANCED
Cross-network mobile-money fraud monitoring	Did not exist	A centralised real-time layer able to block suspicious transfers as they move between networks, described as under discussion and nothing built	ADVANCED
Commercial AI-driven security operations centre	Operating from May 2025 as a commercial AI-driven security and digital-forensics centre	Unchanged; no client count, throughput or incident figure published since launch	NO CHANGE
Cybersecurity Act 2020	In force as the cybersecurity statute, text not held	Unchanged; the text is now held - it establishes the Cyber Security Authority and a Cybersecurity Fund, provides for designation, registration and compliance audit of critical information infrastructure, and licenses cybersecurity service providers	NO CHANGE
National computer emergency response team	Operating as a unit of the cyber-security authority	Unchanged; a 24-hour incident-response service with a constituency of eight sectoral response teams and the general public, affiliated to the Budapest Convention	NO CHANGE
Cybersecurity Act licensing enforcement	Baseline not held	Three published administrative penalties totalling GH¢720,000 for licensing breaches under the Cybersecurity Act 2020, of which the largest was declared satisfactorily resolved in a joint statement of 2026-08-18 and the first is contested by the public body it was served on, which has asked the Attorney-General to intervene	BASELINE NOT HELD
Financial Industry Security Operations Centre	BASELINE NOT HELD	Expansion to all financial institutions including fintechs and microfinance announced in March 2026; four months later a digital-economy forum still lists complete onboarding as a recommendation	Baseline not held
Joint Cyber Security Committee	BASELINE NOT HELD	Eighteen institutions, chaired by the cyber-security authority	Baseline not held
Reported cybercrime losses and incident reports	Baseline not held	GH¢19.3m of cybersecurity-related losses in 2025, on 14,425 reports and 3,286 confirmed incidents recorded January-September 2025	BASELINE NOT HELD

Guinea

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT
ANSSI (national cybersecurity agency)	Baseline not held	Established; no published mandate, budget or reporting on file	BASELINE NOT HELD

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT
Cybersecurity statute	Not held	Statute held (Loi L/2016/037/AN, 2016): reaches cybercrime offences on Guinean territory and offences requiring collection of electronic evidence; provisions known only from ANSSI's own summary, as the 57-page scan carries no machine-readable text layer	BASELINE NOT HELD

Guinea-Bissau

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT
National Cybersecurity and Data Protection Agency	Announced and committed to (Jan 2025); not yet established	Still at commitment stage; no source confirms the Agency has been formally established or made operational	NO CHANGE
National Cybersecurity Strategy (decree)	Draft decree approved by Council of Ministers 2025-07-10; not confirmed published or in force	Unchanged; no further movement on file	NO CHANGE

Kenya

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT
Cyber Space Management appropriation, Vote 1122	No separately visible cyber appropriation	KSh 457.2m for Cyber Space Management appropriated in the original FY2026/27 estimates, plus KSh 382m for digital superhighway cybersecurity	ADVANCED
Kenya Cyber Resilience Project	Did not exist	EUR 3m over 36 months, EU-funded, implemented by Expertise France with ESTDEV, hardening critical information infrastructure	ADVANCED
National Cyber Security Agency	Did not exist; cyber duties split across KE-CIRT/CC, NC4, law enforcement and sector regulators	Autonomous state corporation under the Interior Cabinet Secretary; mandate covers critical-infrastructure audit and certification, a National Cyber Security Operations Centre and incident coordination, at about KSh 4bn establishment cost; a board is being constituted, the inaugural non-executive chair announced 2026-08-24	ADVANCED
president.go.ke	No compromise on record	Second defacement inside twelve months, with a 5 BTC ransom demand; State House says no evidence of data access, and cause, access vector and attribution are undisclosed	REGRESSED
Cyber threat events recorded by the communications regulator	BASELINE NOT HELD	2.35 billion in the quarter to June 2026, chiefly web-application attacks; INTERPOL separately puts Kenya second on the continent for exploitable digital vulnerabilities detected in 2025 at 11.9%, behind South Africa at 43.6% and ahead of Nigeria at 9.1%	Baseline not held
UK-Kenya cyber partnership	Baseline not held	Running, with a dedicated national cybersecurity agency and counter-disinformation AI tools named as the workstreams; no funding, deliverable or date is stated	BASELINE NOT HELD

Lesotho

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT
Government Chief Information Security Officer	Did not exist	Appointed, reported as the first such post across government	ADVANCED
Interim national CSIRT (LesComCSIRT)	Did not exist	Operating on an interim basis, ahead of the statute intended to establish it	ADVANCED

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT
National Cybersecurity Forum	Did not exist	Standing, spanning government, industry, regulators, financial institutions and telecommunications providers	ADVANCED
National Security Operations Centre	Budgeted for establishment, per the 2025/26 budget speech (2025-02-19)	Reported being stood up; no host, operator or date published	ADVANCED

Liberia

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT
Cybercrime Act 2025	Not in force	Signed into force on 2026-08-19, seven months after the Legislature passed it and nearly nineteen months after the House's data-breach proceedings	ADVANCED
Cybersecurity Regulations (LTA-REG-0013-2026)	Did not exist	Requires telecom providers to store personal data and PII primarily inside Liberia's own territory (s.7.3(A)(v)), establish an in-house Cybersecurity Unit within one year of the effective date (s.7.1), notify the LTA of breaches within 24 hours and customers within 72 hours (s.7.6(A)(ii)), run annual penetration testing and keep security-event logs for at least 12 months (s.7.5), and file tested incident-response and continuity plans; the LTA is to run a sector CERT with a 24/7 hotline (s.8.2). Penalties are revenue-linked (up to US\$3,000 plus 0.15% of the preceding year's gross revenue for failing to establish the Unit, escalating to US\$25,000 and possible licence suspension) but apply only from one year after the effective date (s.10.7); the s.10.6 penalty escalation ladder is unreadable in both held copies (2026-01)	ADVANCED
House investigation into the 2026 data breach	Did not exist	Investigation ordered into an alleged breach of about 2m citizens' data across the revenue, electricity and insurance bodies; no findings published (2026-02)	ADVANCED
National Cybersecurity Act	Scheduled for Q3 2025 by the strategy's action plan, not yet due (2025-08)	No draft, bill or enactment held; the data governance policy of March 2026 names only the unenacted Personal Data Protection and Privacy Act 2024 and Cybercrime Act 2025 (2026-03)	STALLED
National Cybersecurity Council	Scheduled for Q4 2024 by the strategy's action plan, not established (2025-08)	No constituting instrument, membership or meeting record held (2026-08)	STALLED
National Cybersecurity Strategy 2025-2029	Published, with an action plan dating deliverables from Q4 2024 (2024-07)	Published and unamended; the primary legislation its action plan scheduled for Q3 2025 is not held as delivered (2026-03)	NO CHANGE

Libya

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-25	MOVEMENT
Central Bank of Libya cyber incident	No disclosed incident	Systems isolated in June 2026 and a sample of bank data later published on a dark-web site	REGRESSED
Interior Ministry cybercrime caseload	135 cases and 188 devices seized in the first quarter of 2025	No figure published since the first quarter of 2025	NO CHANGE

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-25	MOVEMENT
Interior ministry and national operator technical cooperation agreement	Baseline not held	Signed between the interior ministry and the national telecommunications company covering digital transformation, cybersecurity and telecommunications infrastructure, including shared platforms, installation of towers and equipment at ministry sites, and technical support; no value, duration or delivery date is published	BASELINE NOT HELD

Madagascar

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT

Malawi

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT
Payment fraud against the state oil company	Did not exist	The state oil company was defrauded of K700m after attackers hijacked email from its Mozambican fuel-handling contractor and supplied false banking details, the company instructing its bank on 29 April 2026 to wire US\$403,605 to a fraudulent account; the fraud surfaced two weeks later when the genuine contractor demanded payment, and was confirmed publicly on 24 August 2026. The company attributed the control weaknesses to the government-to-government fuel procurement model being introduced before operational and cybersecurity procedures were in place, and says it is auditing payment-verification controls following a return to open tender	REGRESSED
World Bank cybersecurity and data-protection technical assistance	The foundations project's technical assistance ended with that project's closure in October 2024; no successor cybersecurity assistance appears in the base at 2025-08-01	A delegation team leader outlined technical assistance and capacity building covering critical-infrastructure security, legal and regulatory frameworks, data-protection systems and regional cybersecurity capability; no amount, financing instrument, duration or workplan is stated	ADVANCED
Chinese safe-city surveillance package offer	Malawi is the only one of the five countries studied - with Nigeria, Ghana, Morocco and Zambia - to have rejected the safe-city surveillance package offered by Chinese companies	Unchanged; the base holds no later statement, and no account of who rejected it, when, or on what grounds	NO CHANGE
Malawi Computer Emergency Response Team	The base carries no statement of the team's existence, mandate or activity at 2025-08-01	Operating within the regulator, which states an intention to establish it, alongside the data protection authority, as an independent institution with World Bank technical assistance; no establishing instrument, timetable, budget, staffing or incident statistics are held	BASELINE NOT HELD

Mali

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT

Legitimate pay-TV subscriptions	About 1.65m (2021)	About 800,000 (2026-03)	REGRESSED
National anti-piracy coordination framework	Did not exist	Being built with broadcasters, MTN, Airtel, Lyca, URA and URSB; no text drafted	ADVANCED
National Information Security Framework 2026	An earlier framework in force, edition and date not held (2025-08)	Updated framework issued, setting minimum controls for government institutions and critical-infrastructure protection	ADVANCED
Recorded cybercrime cases	523 cases (2023)	446 cases, UGX 72.1bn lost, an 887-case backlog (2024)	NO CHANGE, NO 2025 FIGURE PUBLISHED

Zambia

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT
Cyber Crimes Act No. 4 of 2025	Assented 8 April 2025, gazetted 15 April 2025, commenced 12 May 2025; the Law Association had moved to mount a legal challenge and the United States embassy had warned its citizens that the regime requires interception of all electronic communications	Declared fully operational by the information ministry twenty-six days before the 13 August 2026 general election, with warnings that recording, publishing or distributing private communications without authorisation can bring prosecution and compliance obligations extended to financial institutions, telecommunications operators, digital platforms, mobile money providers and e-commerce businesses; no prosecution, charge or conviction count is published	ADVANCED
Zambia Cyber Security Agency	Provided for by the Cyber Security Act; no operating record, leadership, budget or activity held	Operating from its own premises from 2026-08-20, having previously shared space in government offices; running outreach around the general elections and, after them, publicly warning of an increase in hate speech, cyberbullying and insulting online content and reminding the public that creating, publishing, forwarding, reposting or deliberately amplifying unlawful and harmful content may constitute an offence; no budget, staffing, incident count or critical-infrastructure register is published	ADVANCED
Consumers targeted by digital fraud	81% of consumers targeted by at least one digital fraud attempt in the preceding three months (2025 wave, run in Q2)	81% targeted in the preceding three months, flat on 2025; 67% changed passwords and 42% added multifactor authentication in the prior 60 days, but 17% took no action, of whom 71% did not know what to do and 21% felt overwhelmed by the volume of security advice	NO CHANGE
Cyber Security Act No. 3 of 2025	In force; establishes the cyber security agency and a critical-information-infrastructure regime, and per the embassy alert requires providers proactively to intercept all electronic communications via a central monitoring centre	The gazetted text is now held (assented 8 April 2025, gazetted 15 April 2025, commenced 12 May 2025 by Statutory Instrument 22 of 2025), and it does not read as the secondary characterisation did. Part V gates interception on a judge: section 29 requires a law enforcement officer to apply ex-parte to a judge of the High Court for an interception of communication order, valid three months and renewable once, and section 30 permits interception without a prior order only to prevent bodily harm, loss of life or damage to property, the officer having to put the written confirmation, an affidavit, the recording and a transcript before a judge within two days. Section 21 continues the Central Monitoring and Coordination Centre as the sole facility through which lawful interception is effected, managed by the division responsible for Government communications; section 39(1)(b) obliges providers to install interception facilities “when required by a law enforcement officer or under a court order” and section 40 empowers the President to make interception-capability regulations. Section 3(1) establishes the Zambia Cyber Security Agency in the Office of the President under his general direction; “law enforcement officer” extends to any person the President designates by statutory instrument	NO CHANGE
Law Association challenge to the 2025 cyber Acts	The Law Association was reported as set to mount a legal challenge against the cyber laws, framing them as a democratic backslide; no filing, cause number or hearing date on file	Unchanged at 2026-08-06. No filing, cause number, hearing, ruling or withdrawal is held in the sixteen months since	NO CHANGE

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-26	MOVEMENT
Lusaka safe-city surveillance system	Chinese-financed and Chinese-supplied safe-city surveillance in place; a development bank committed US\$210.8m to the government for the project, and 2023 research put Zambia among five African states each spending over US\$250m on such packages	Mapping across eleven countries finds Chinese companies supplied every country surveyed, records mass surveillance in Zambia despite no terrorism threat, and documents surveillance repurposed against political opposition; no Zambian authorising instrument, oversight body, procurement record, camera count or retention rule is held at any date	NO CHANGE
CCTV (Public Protection) Bill and National Public Security Command Centre	No position held	A Bill creating a National Public Security Command Centre is on the record as pending; no bill text, gazette date, parliamentary stage or budget is held	BASELINE NOT HELD
SIM cards deactivated for mobile-money fraud	No enforcement count held	43,500 SIM cards deactivated and K19.8 million secured between January and June 2026, attributed to consumer reports through a short code; no breakdown by operator, no recovery-to-victim figure and no prior-period comparison	BASELINE NOT HELD

Zimbabwe

SYSTEM OR INSTRUMENT	AT 2025-08-01	AT 2026-08-25	MOVEMENT
Artificial-intelligence and cybersecurity fusion centre	Did not exist	Proposed for real-time threat detection; a media rights organisation reports that the strategy sets out no governance structure, no limits on data collection, retention or use, and no route to challenge a threat assessment	ADVANCED
National Child Online Protection Policy	None published	Reported established; the text is not held and no implementing body, budget or date is on record	ADVANCED
National Cybersecurity Strategy	None published	In force from October 2025; the strategy text is not held and no implementation milestone since is on record	ADVANCED
Cyber security and monitoring of interception of communications centre	Operating under the Office of the President, advised by a committee on warrants, with no judicial oversight	Same; a media rights organisation reported in June 2026 that the centre still has no judicial oversight	NO CHANGE
National computer incident response team	A funded establishment project past its stated end, with no delivery recorded	The ITU record for project 9ZIM17008, with the ITU as implementing agency, the communications regulator as cooperation agency and a financial scale of CHF 100,000-500,000, carries an empty status field and an achievements field still stating it will be updated on completion; the ICT ministry's own 2025 priority-projects page separately lists establishment of the team (ZW-CIRT) among its seven priorities, aimed at monitoring, detecting and responding to cyber threats, with no completion date or operating status stated	NO CHANGE, RECORD IMPROVED
Cyber risk in the payment system, central bank assessment	Baseline not held	Vulnerabilities flagged by the Reserve Bank in third-party providers, payment channels and digital banking, alongside 36% of deployed card terminals active and 586,605 internet-banking subscribers (2026-08)	BASELINE NOT HELD

Africa

BODY, INSTRUMENT OR SYSTEM	AT 2025-08-01	AT 2026-08-26	MOVEMENT
Privileged access management for the African Union Commission's own networks	Did not exist	A request for bids for the supply and installation of a privileged access management solution for the Commission's own networks (Ref. ET-AUC-560865-GO-RFB), amended on 21 August 2026 to push the bid deadline from 27 August to 10 September 2026 and to restate the licence requirement as 8 administrator, 40 enterprise privileged-user, 25 business-user and 5 external-vendor subscriptions on three-year terms, with training raised from six staff to eight	ADVANCED, SLIPPED
Reported cybercrime losses across the continent	About US\$192m reported (2024)	About US\$484m reported, more than double the 2024 figure, drawn from 36 member countries, with artificial intelligence involved in 55% of surveyed 2025 cybercrime cases and deepfake incidents up sevenfold between the second and fourth quarters of 2024; against that, only 8% of intelligence analysts are recorded as having advanced artificial-intelligence expertise and 94% of agencies as lacking digital forensics tools, and a single Ugandan deepfake investment scam is put at over US\$2m of losses	REGRESSED
Vendor-measured attack volume across the continent	None published	African organisations averaged 3,237 attacks a week in July 2026 against a global average of 2,336, behind Latin America at 3,561 and Asia-Pacific at 3,316; Angola was highest of the African markets broken out at 5,714, then Nigeria at 4,975, Kenya at 2,915 and South Africa at 2,195. Ransomware victims were up 87% year on year and the continent posted the world's highest phishing rate at 1 in 106 emails	ADVANCED
Standing in the global cybersecurity index	BASELINE NOT HELD	Mauritius, Rwanda, Kenya, Tanzania and Ghana in the top tier; Benin, Togo, Zambia and South Africa in the second; the majority of the continent below, scored across legal, technical and organisational measures, capacity building and international cooperation	Baseline not held

Southern Africa

BODY, INSTRUMENT OR SYSTEM	AT 2025-08-01	AT 2026-08-25	MOVEMENT
SADC central-bank frameworks on cyber, climate risk and cross-border crisis management	In drafting by working groups led by Botswana and Zimbabwe	Finalised and approved, with supervision extended to cloud hosts and payment processors	ADVANCED
SADC Regional CIRT framework	A draft framework of September 2018, unpublished, with no regional incident-response capability operating	Unchanged; the 2018 draft is still the newest record held	NO CHANGE

West Africa

BODY, INSTRUMENT OR SYSTEM	AT 2025-08-01	AT 2026-08-26	MOVEMENT
ECOWAS Regional Cybersecurity Coordination Mechanism	Did not exist	Establishment approved; no terms of reference, seat, budget or staffing held	ADVANCED

BODY, INSTRUMENT OR SYSTEM	AT 2025-08-01	AT 2026-08-26	MOVEMENT
ECOWAS Information Sharing and Analysis Centre	BASELINE NOT HELD	Named by the Commission as established, as the region's threat-intelligence sharing platform; no founding instrument, membership, feed or published output is held (2026-08)	Baseline not held

Figures are dated because most are time-varying: a figure carries the date it was true, not the date you are reading it. Where the base holds no reliable statement, the document says **Not held** rather than leaving a silence — those are counted, and listed at the end.

This is a dated edition and is not revised after publication. If a figure here has moved, the current edition will say so.
