Governance

Strategies, plans and policies

Transformation Numerique : La Cote d'Ivoire et Mistral Renforcent leur Cooperation pour une Intelligence Artificielle au Service des Ivoiriens — Portail Officiel du Gouvernement de Côte d'Ivoire (distribué par APO Group / Africa Newsroom), 2 September 2026 CÔTE D'IVOIRE

Côte d'Ivoire's Ministry of Digital Transition published its own communiqué on the strategic partnership it signed with the French AI company Mistral on 17 August in Abidjan. The work is a study and strategic audit of the national AI ecosystem, mapping the actors and resources available, and sits inside the Feuille de Route Numérique 2026-2028 and its forty structuring projects. No sum is stated and no financier of the audit is named. *Also under [AI](#) and [MoUs and other agreements](#).*

Premier Forum national sur l'intelligence artificielle : Djibouti prend le virage de la révolution technologique — La Nation (Djibouti), 2 September 2026 DJIBOUTI

Djibouti opened its first national forum on artificial intelligence at the Palais du Peuple on 2 and 3 September, organised by the ministry for the digital economy and innovation under the president's patronage. The framing is explicitly sovereignty: AI as a lever of independence, innovation and development rather than a technology to be received. The forum sits against Vision Djibouti 2035 and UNESCO's readiness assessment. *Also under [AI](#) and [Public debate and participation in policymaking](#).*

Le Bénin recherche un expert international pour renforcer son système d'identité numérique — wearetech.africa, 2 September 2026 BENIN

Benin's ANIP, through the World Bank-financed WURI programme, called for expressions of interest in an international expert on digital public infrastructure strategy, to define a sustainable economic model and institutional framework for the identification agency. The 60-day mission spread over five months covers a strategic diagnosis, a comparison of international DPI and national identity models, and a roadmap for financing, operation, maintenance and modernisation. Applications closed 8 September 2026. The question being asked is how a national ID agency pays for itself once the donor project ends. *Also under [Digital Identity](#) and [CRVS](#).*

National Payment System Bill: Sarb readies overhaul — TechCentral, 1 September 2026 SOUTH AFRICA

South Africa's Reserve Bank governor said the National Payment System Bill will soon go out for public comment, moving payment regulation from an entity-based model to an activity-based one — the change that would open payment licensing beyond banks. *Also under [Digital Payments](#) and [Fintech](#).*

MTN wants MoMo to crack South Africa's cash-heavy payments market — TechCabal, 1 September 2026

SOUTH AFRICA

MTN sees the overhaul of South Africa's payment infrastructure as its opening for MoMo in a market where cash still dominates everyday payments and where its mobile money product has not taken hold. *Also under [Digital Payments and Fintech](#).*

Legislation and regulation

US pushes looser approach to AI regulation, while EU pushes new law — Al Jazeera, 2 September 2026

At a G20 innovation ministerial in Chapel Hill on 1 September, the United States urged other governments to adopt the Carolina Principles, a framework arguing that regulation should not single out particular technologies. The European Commission moved the other way in the same week, sending information requests to more than 30 AI companies worldwide under the AI Act. The two positions are the choice most African governments drafting AI rules will be asked to pick between. *Also under [US / hyperscaler activities](#), [EU activities](#) and [AI](#).*

ICASA turns to ConCourt to clarify its powers — ITWeb South Africa, 2 September 2026

SOUTH AFRICA

ICASA has asked the Constitutional Court to settle whether it may condone a late licence-renewal notice from a class licensee, having lost the question in both the Pretoria High Court and the Supreme Court of Appeal to Open Heaven, a Hammanskraal community radio station that filed two weeks late. The regulator reads section 11(9) of the Electronic Communications Act as granting that power only for individual licences, and section 19(2) as deliberately withholding it for class licences; Open Heaven argues the Act leaves latitude where good cause is shown. The court heard the matter on 27 August and has not ruled. *Also under [Connectivity](#).*

Ghana's NCA Receives Four Applications for 5G Spectrum Licences — Tech Africa News, 2 September 2026

GHANA

Ghana's National Communications Authority closed applications for 700MHz, 2.3GHz and 3GHz mobile-broadband spectrum on 2 September with four applications received, and opened Envelope A under the published Selection and Award Procedure. Envelope B, holding the Best Price Offer, stays sealed. The authority was careful to say that opening Envelope A determines nothing about the eligibility, compliance or completeness of any application. *Also under [Connectivity](#).*

Tanzanian influencer sues Meta over alleged government-driven account suspensions — TechCabal, 1 September 2026

TANZANIA

The Tanzanian activist and influencer Mange Kimambi filed a 36-page complaint against Meta in a California court on 21 August, alleging her accounts were disabled under pressure from Tanzanian authorities during a period of political unrest. The allegation is untested. *Also under [Public debate and participation in policymaking](#).*

MONARI: When iTax fails, the taxpayer still pays — The Star, 1 September 2026

KENYA

A column on Kenya's tax portal failing on the evening of the 30 June filing deadline, when the revenue authority itself notified a traffic surge and intermittent delays. The penalties for late filing continued to run. *Also under [Public debate and participation in policymaking](#) and [Digital Payments and Fintech](#).*

Madagascar actualise son arsenal face à la montée des risques numériques — We are Tech, 1 September 2026

MADAGASCAR

Madagascar is overhauling its 2014 cybercrime law, with judicial cooperation across borders the central problem where offenders and evidence sit in several countries at once. *Also under [Cybersecurity](#).*

Government told to stop making citizens carry ID copies — observer24.com.na, 1 September 2026

NAMIBIA

Namibia's National Root Certification Authority, operated by the communications regulator at the top of the country's digital trust chain, is technically live after a key-signing ceremony; the electronic signature provisions of the transactions act took effect on 15 June 2026. *Also under [Digital Identity and CRVS](#), [Data Exchange and Access to services](#).*

Egypt's FRA Approves Two New Fintech Projects for Regulatory Sandbox — Tech Africa News, 1 September 2026

EGYPT

Egypt's Financial Regulatory Authority granted preliminary approval for two further projects to enter its regulatory sandbox for non-banking financial technology. *Also under [Digital Payments and Fintech](#) and [Digital Identity and CRVS](#).*

Cyberattaques récurrentes : le Sénégal se dote d'une Autorité nationale de Cybersécurité — AtlanticActu, 1 September 2026

SENEGAL

Senegal's National Assembly adopted the bill on protecting critical information infrastructure and digital security, creating a national cybersecurity authority with legal personality and a special status, backed by a national response team. Adopted is not promulgated. *Also under [Cybersecurity](#).*

Data protection

Police Launch Vigilant App for Public Reporting of Financial Fraud — Nigeria Info FM, 2 September 2026

NIGERIA

The Nigeria Police Force launched the NPF Vigilant App on 1 September at its conference centre in Jabi, Abuja, a public channel for reporting suspected financial fraud, uploading evidence and tracking a case through to feedback. It was built by the Force ICT Department with financial-sector stakeholders and is meant to coordinate police handling with banks; the Central Bank of Nigeria, NIBSS, banks and fintechs attended. Inspector-General Olatunji Disu said the technology must be deployed lawfully and ethically, with respect for privacy and data protection. *Also under [Other GovTech and e-Gov](#) and [Cybersecurity](#).*

Africa cannot afford to scale AI faster than it can govern it — BusinessDay NG, 2 September 2026

NIGERIA

Roseline Ilori of Bridge57 Solutions argues that Africa cannot scale AI faster than it can govern it, and that the question worth asking is not how quickly the continent adopts the technology but whether the systems being deployed are safe, fair, transparent and accountable. The gap she names is institutional rather than technical: regulators unable to supervise automated systems, businesses that do not understand the risks, and citizens with no way to challenge an algorithmic decision. *Also under [Public debate and participation in policymaking](#) and [AI](#).*

What 'NIN Will Replace TIN in All Transactions' Actually Means — Business Times Uganda, 1 September 2026

UGANDA

Uganda's cabinet approved phasing out the standalone taxpayer identification number for individuals, replacing it with the national identification number already printed on the identity card. Nothing states a commencement date or a transition arrangement for the roughly nine to ten million Ugandans not yet on the register. *Also under [Digital Identity and CRVS](#) and [Public debate and participation in policymaking](#).*

Hungry Lion customer creds online for months — ITWeb, 1 September 2026

SOUTH AFRICA

Customer credentials for the fast-food chain Hungry Lion were exposed for about nine months through its consumer-facing web portals, on analysis of stealer-log data finding 23 records tied to its South African domain, 13 of them customer accounts. *Also under [Cybersecurity](#).*

How AI Is Rewiring Legal Services in Africa — TechTrends Africa, 1 September 2026 NIGERIA

An account of artificial intelligence entering routine legal work for African small businesses, most of which never see a lawyer until something goes wrong. *Also under [AI](#), [Innovation ecosystem](#) and [Standards](#).*

Regional collaboration

Kenya and Lesotho Deepen ICT Regulatory Cooperation on National Addressing System — Tech Africa News, 2 September 2026 KENYA LESOTHO

Kenya's Communications Authority is hosting a Lesotho Communications Authority delegation to benchmark Kenya's National Addressing System and the legal framework behind it. Kenya's system is designed to give every street, building and parcel of land a verifiable address, supporting last-mile e-commerce delivery and emergency response, and the authority has driven the draft National Addressing System Bill, 2025 with standards developed jointly with the Kenya Bureau of Standards. No visit dates are stated. *Also under [Registries](#).*

Solutions numériques agricoles : le Tchad s'inspire de l'expérience togolaise — Site officiel du Togo, République Togolaise, 1 September 2026 TOGO CHAD

A Chadian delegation from the West African food system resilience programme visited Lomé to study Togo's deployment of digital solutions in agriculture. The account is the host government's. *Also under [Sectoral management information systems](#).*

Make Africa's digital trade corridor work — Ghanaian Times, 1 September 2026 GHANA

An editorial on what the AfCFTA Digital Trade Corridor has to get right to matter, following the joint venture agreement signed in Accra. See the corridor entry above. *Also under [Public debate and participation in policymaking](#) and [Digital Payments and Fintech](#).*

AfCFTA Digital Trade Corridor to Cut Cost of Intra-African Commerce - Wamkele Mene — MyDailyNewsOnline, 1 September 2026 GHANA

The AfCFTA Secretary-General set out the case for the Digital Trade Corridor: cutting the cost and complexity of intra-African business by ending the routing of African payments through third countries. *Also under [Digital Payments and Fintech](#).*

Standards

Digital Service Framework to strengthen Government digital services — Government Information Service, Mauritius, 1 September 2026 MAURITIUS

Mauritius will develop a Digital Service Framework setting mandatory principles and standards for every government digital service, from planning through operation, binding all services developed, procured or maintained by ministries. Cabinet noted it on 28 August; no compliance date is set. *Also under [Other GovTech and e-Gov](#) and [Cybersecurity](#).*

Communiqué | Facture électronique certifiée : la mise en vente des systèmes de facturation démarre le 7 septembre 2026 au Burkina Faso — Burkina24 (communiqué DGI / CCI-BF), 1 September 2026 BURKINA FASO

Certified electronic invoicing systems go on sale in Burkina Faso from 7 September 2026 for large and medium enterprises, under the general tax code — the point at which the invoicing regime becomes equipment a business has to buy. *Also under [Data Exchange](#).*

[Tunisie-Allemagne : plus de 140 millions d'euros annoncés, mais quels secteurs en bénéficieront vraiment ?](#) —

Webmanagercenter (WMC), 1 September 2026

TUNISIA

Five agreements worth more than EUR100 million were signed between Tunisia and Germany, with about EUR40 million more under discussion for the green economy. The piece asks the question the announcements do not answer: which Tunisian firms will be able to reach the money, in what form and at what cost. *Also under [MoUs and other agreements](#).*

[NIRA register reaches 36.15 million people](#) — New Vision, 1 September 2026

UGANDA

Uganda's identification authority holds 36.15 million people on the national register, close to 77% of a population the 2024 census put at 45.9 million, leaving nine to ten million unregistered. The figure matters because cabinet has just made that register the basis of tax identity. *Also under [Digital Identity and CRVS](#), [Registries](#) and [Data Exchange](#).*

[Gouvernance de l'IA : le Bénin doit transformer son avance en résultats](#) — La Nation, 1 September 2026

BENIN

Benin placed third in the first Africa AI Governance Index, which scores all 54 African states across eight domains. The accompanying argument is that a governance lead has yet to become anything citizens can point to. *Also under [AI](#).*

New investments

South Africa's startup funding is recovering, but founders still struggle to find fit — TechCabal, 2 September 2026 SOUTH AFRICA

South African startups raised \$335.9 million in 2025, more than three times the \$100.4 million of 2024, across 42 rounds rather than 25, with average deal size nearly doubling to \$7.99 million. The recovery is uneven: only three of the 42 rounds carried a debt component, and continent-wide the first half of 2026 held roughly flat at \$1.44 billion while deal count fell from 252 to 174 and early-stage startups took just \$9 million against \$25 million a year earlier. The argument is that the money is not absent but badly matched to stage. *Also under [Innovation ecosystem](#).*

Instarc Secures EUR1.25 Million to Scale Cloud-Native Compliance Platform in South Africa — Tech Africa News, 2 September 2026 SOUTH AFRICA

Instarc, a Tallinn-based regulatory-technology firm, raised a €1.25 million strategic investment from HFO Investments to commercialise its compliance platform for South African accountable institutions under the Financial Intelligence Centre Act. The platform covers client onboarding, identity and ownership verification, configurable workflows, document management, retrievable audit records and APIs into existing systems, and the company says it is built to adapt to other regulatory regimes. The date the investment was agreed is not stated in the reporting held. *Also under [Innovation ecosystem](#).*

Alan acquires Senegal's Tanel in rare Francophone healthtech exit — TechCabal, 2 September 2026 SENEGAL
CÔTE D'IVOIRE

French health insurer Alan acquired Dakar-based Tanel in a deal that closed in June 2026 for an undisclosed sum, its first move into Africa and a full exit for Ventures Platform, AAIC Investment and a group of angels. Tanel is a licensed insurer carrying its own risk rather than administering another underwriter's cover, selling employer health plans in

Senegal and Côte d'Ivoire across a contracted network of more than 1,200 pharmacies and providers, covering about 70,000 lives and profitable in 2025. Alan had backed Tanel's \$2.1 million seed round in 2024, giving it two years of visibility before it approached the founders, who stay on as general managers. *Also under [Innovation ecosystem](#).*

Wiocc lands US\$300-million from Saudi and African backers — TechCentral, 1 September 2026

SOUTH AFRICA

WIOCC Group signed a shareholder subscription agreement with the Africa Finance Corporation and Saudi Arabia's Vision International Investment Company for a combined US\$300 million — by some distance the largest capital raise in the carrier-neutral infrastructure operator's history. The agreement was signed at a technology exhibition in Riyadh. *Also under [Data Storage](#) and [Connectivity](#).*

Connectivity

MTN Nigeria targets fibre gaps with FlyX — ITWeb Africa, 2 September 2026

NIGERIA

MTN Nigeria launched FlyX, a 5G fixed-wireless home broadband service for locations where indoor reception is weak or its FibreX fibre product is unavailable, at ₦30,000 for 30 days at 50Mbps and ₦45,000 at 100Mbps, both unlimited. The operator holds a target of eight million Nigerian homes on fibre within three years and names lengthy approvals, the physical demands of cable installation and slow cost recovery as what stands in the way. Fixed wireless is the faster-to-deploy substitute rather than the plan.

MTN Nigeria is making more money but earning less from each customer — TechCabal, 2 September 2026

NIGERIA

MTN Nigeria's average revenue per user fell 8.82% to \$3.41 in the second quarter of 2026, its first decline since Q2 2025, even as first-half service revenue rose 25.9% to ₦2.99 trillion and subscribers grew 8.9% to 92.2 million. Naira ARPU also fell, 1.67% to ₦5,101, so the drop is not an exchange-rate artefact: 7.5 million subscribers were added in the half, against inflation of 15.91%, diluting the average. Nigeria supplied 30.64% of MTN Group's half-year revenue but ranks eighth of thirteen group markets on ARPU, against Ghana's \$6.66. *Also under [ICT Industry](#).*

Ghana Cyber Security Authority Launches 2026 Awareness Month to Strengthen Digital Finance Security — Tech Africa News, 2 September 2026

GHANA

Ghana's Cyber Security Authority launched the 2026 National Cyber Security Awareness Month on 2 September, themed on securing the country's digital finance ecosystem and observed each October. Director-general Divine Selase Agbeti pressed banks, fintechs, payment service providers, insurers and merchants to treat cyber resilience as a core governance responsibility rather than a regulatory box, warning that lost trust in digital payments would undermine the wider digital economy. CSA figures put reported incidents at 2,008 in the first half of 2025 against 1,317 a year earlier, a 52% rise, with reported losses of GH¢14.94 million, more than 90% of it online fraud and impersonation. *Also under [Literacy](#) and [Digital Payments and Fintech](#).*

Cameroun : Abe Marcellinus prémunit les PME contre les cybermenaces — wearetech.africa, 2 September 2026

CAMEROON

A profile of Cameroonian engineer Abe Kelvin Bemarc Marcellinus, whose company WorqSphere, founded 2025, gives small and medium businesses device monitoring, threat detection and remote isolation of a compromised or stolen machine that keeps working offline. It holds critical data locally through power and network outages and counts electricity cuts in attendance tracking, and an AI assistant translates security alerts into plain language for firms with no cybersecurity staff. *Also under [Innovation ecosystem](#).*

AI now enables 55% of cybercrime in Africa as losses hit \$484m – CID – GBC Ghana Online (Ghana Broadcasting Corporation), 2 September 2026 GHANA

Ghana's police CID put Interpol's 2026 African Cyber Threat Assessment on the record at the awareness month launch: AI now enables 55% of reported cybercrime in Africa, with related losses of \$484 million. CID director-general COP Lydia Yaako Donkor described generative AI supplying convincing phishing messages, cloned voices and synthetic images and video, with cryptocurrency, mule accounts and fraudulent investment schemes moving the proceeds – an industrialised, borderless ecosystem rather than isolated offending. She tied Ghana's exposure directly to the spread of mobile money, internet banking and instant transfers. *Also under [AI](#) and [Digital Payments and Fintech](#).*

Zambia Urged to Accelerate Digital Transformation Through AI and Smart Technologies – Efficacy News, 1 September 2026 ZAMBIA

SA online retail races to R159bn as growth accelerates — ITWeb South Africa, 2 September 2026 SOUTH AFRICA

South African online retail crossed 10% of national retail turnover in June 2026 and is forecast at R159 billion in sales for the year, growth of 22.5%, according to *Online Retail in South Africa 2026* by World Wide Worx with Mastercard, Peach Payments and Ask Africa. The R29 billion added is close to the whole 2020 online market of about R30.2 billion. Takealot is used by 35.3% of online shoppers, Shein by 21.5% and Checkers Sixty60 by 15%, and PayInc processed an average 934 transactions a minute on Black Friday 2025. *Also under [ICT Industry](#)*.

Tim Cook leaves a \$4 trillion Apple with unfinished business in Africa — TechCabal, 1 September 2026

An assessment of Apple's African position as Tim Cook departs: no retail store on the continent, limited reach for its payment service, and a market served largely through third parties and grey imports. *Also under [ICT Industry](#) and [Access to services](#)*.

Shoprite targets informal retail with fintech expansion — ITWeb, 1 September 2026 SOUTH AFRICA

Shoprite finalised the acquisition of an initial 51% of R&A Cellular, whose point-of-sale platform is used by informal retailers to sell prepaid airtime, electricity, gaming and entertainment — extending the retailer's financial services into South Africa's informal economy. *Also under [Access to services](#)*.

Microsoft skills training hailed as boost for Eastern Cape government — ITWeb South Africa, 2 September 2026 SOUTH AFRICA

Microsoft and implementation partner NKUSI-IT Siyasebenza ran a three-day Power Apps skills-transfer programme for 20 IT specialists of the Eastern Cape Department of Cooperative Governance and Traditional Affairs, at the Steve Biko Centre in Ginsberg, Qonce, covering Power Apps, Power Automate, Power Pages and Dataverse. The partner's recommendation is a province-wide skills and adoption framework around AI and Copilot, cyber security and Azure, which is where a three-day course turns into a procurement position. *Also under [Training and skills](#).*

Rural digital data capture

Why an Imperial PhD candidate trusts herds of cattle more than satellites — TechCabal, 2 September 2026 NIGERIA

A career profile of Nigerian geospatial engineer Kayode Adeniyi that carries unusually direct field evidence about data systems designed away from the places they run in: a 2021 Ministry of Education library survey lost weeks of collected data because the app assumed the connectivity of Abuja's Garki and Wuse, and was rebuilt offline-first around SQLite. His flood modelling in Lere LGA, Kaduna treats herder observation as a higher-revisit sensor than satellite imagery, and a flood-warning system he built issues alerts in Hausa, Yoruba, Efik and Ijebu. *Also under [Use of satellite data and AI](#).*

Côte d'Ivoire : Koffi Nusiko Dabla crée un marché virtuel pour les agrotransformateurs — wearetech.africa, 2 September 2026 CÔTE D'IVOIRE

A profile of Koffi Nusiko Dabla, Togolese and based in Côte d'Ivoire, who co-founded Afoomarket in 2021 as an online marketplace for African agro-processors. Sellers run their own storefront, and the platform carries ordering, card and mobile money payment, a local delivery partner network, seller vetting and WhatsApp support, so a small producer gets a commercial presence online without building the infrastructure for one. *Also under [Innovation ecosystem](#).*

Egypt, Cisco to train 3,000 AI instructors — Connecting Africa, 2 September 2026 EGYPT

Egypt's National Telecommunication Institute and Cisco signed a memorandum of understanding to train 3,000 certified technology instructors in support of the national AI strategy: 1,000 university faculty members and independent lecturers a year for three years, in data networks, cybersecurity, operating systems and AI. The target is the supply of people qualified to teach those subjects rather than the students directly. Cisco says its programmes have trained or mentored nearly 670,000 Egyptian students; no signing date is given. *Also under [Training and skills](#).*

US urges hands-off approach to AI regulation at G20 tech meeting — Reuters, 1 September 2026

The United States pressed G20 members against creating new artificial-intelligence oversight bodies at a technology meeting in North Carolina, a position that would leave the largest American model developers unregulated by any new international body. African states negotiating continental AI governance are on the other side of that argument. *Also under [US / hyperscaler activities](#).*

NASENI Launches Xceler8 Programme to Commercialise Nigerian Innovations — Tech Africa News, 2 September 2026

NIGERIA

NASENI launched the Xceler8 accelerator with AfriLabs on 2 September, offering up to \$25,000 in acceleration support per cohort to Nigerians aged 15 to 40 who already hold a working prototype, MVP or commercial product. The problem it names is the one that recurs across African innovation programmes: moving a promising technology past the prototype stage into something that can attract investment. The top ten pitch investors at a Demo Day in Abuja.

Cascador selects 10 Nigerian businesses for growth-stage accelerator — TechCabal, 2 September 2026

NIGERIA

Cascador selected 10 Nigerian growth-stage companies from more than 1,000 applicants for its 2026 ScaleUp Program, a 12-week hybrid accelerator; the cohort includes Venco, SunFi, ColdHubs and EHA Clinics across proptech, clean energy, agriculture, healthcare, beauty, wellness, tourism, minerals and food. Participants become eligible for Cascador's Catalytic Fund, which it says deploys up to \$5 million a year in local-currency debt, equity and guarantees, and the programme closes with a Pitch Day for \$50,000 in awards. Cascador says it has supported over 70 ventures since 2019 that have collectively raised \$125 million. *Also under [Training and skills](#).*
