Bulletin

Last updated 06-11-2026 at 16:21 — Covering sources published on 6 November 2026

No source in the corpus carries a publication date of 6 November 2026.

The corpus acquires in batches rather than continuously, so an empty window means nothing was **published** on that day — not that nothing arrived. Records ingested in the same period but published earlier are in the country and topic reports, which select on what a record moves rather than on when it was published.

This bulletin is produced automatically at the end of each data collection sweep but only includes items published on the day cited in the edition, and the previous day. Items published in the last month can be found on the country pages. The links to all items stored in the corpus can be found in the catalogue.

Bulletins are kept for a week — the last week's editions are listed above, each at its own dated address — and are then deleted. Older material is in the country and region news.
