3 places. Every table below is carried verbatim from that place's own progress report; nothing is written here.

AFRICA · SOUTHERN AFRICA · WEST AFRICA

Movement values. *Advanced* — a system entered service, a stage was completed or an instrument was made. *Stalled* — a stated target passed without delivery. *Regressed* — an instrument was withdrawn or neutralised, or a measured position worsened. *Closed* — the programme ended. *No change* — the position at both ends is the same. *Baseline not held* — the base carries no position at the start of the period, so no movement can be stated. A value may carry a qualifying clause after a comma, as in *Advanced, slipped*.

Africa

BODY, INSTRUMENT OR SYSTEM	AT 2025-08-01	AT 2026-08-27	MOVEMENT
ADAPT (Africa Digital Access and Public Infrastructure for Trade)	Did not exist	In pilot in Nigeria, Kenya and Morocco on the Secretary-General's statement to the second Digital Trade Forum; no live exchange, governing instrument or assessment held	ADVANCED
AU Digital Agriculture Strategy implementation	Adopted for 2024-2030 with an average agricultural growth target of 6 per cent and an estimated US\$165 million continental implementation cost, prioritising national e-agriculture strategies over a uniform regional approach after a 2021 situation analysis covering all 55 member states	A continental workshop convened regional economic communities, union organs and participating countries to harmonise implementation, seeking interoperable agricultural data platforms, common data governance and alignment of national and regional systems with the continental digital transformation strategy and agriculture reporting	ADVANCED
IGAD SDMX regional statistical-systems capacity-building programme	Did not exist	Outcome stated as harmonised SDMX Data Structure Definitions and a long-term roadmap institutionalising SDMX across IGAD and its member states under Open Data Portal 2.0; no budget, adoption date or roadmap milestone published	ADVANCED
SADX (Smart Africa Data Exchange)	Did not exist	Unveiled at Conakry on 2025-11-12 and taken into a technical mission with Rwanda, Benin and Ghana on trust chains, interface contracts and incident response; no live exchange held; the alliance and a German development agency say a digital identity issued in one of Rwanda, Ghana or Benin is now recognised in the other two, with eighteen further countries said to be joining, presented as the first step to a single African digital market by 2030	ADVANCED

BODY, INSTRUMENT OR SYSTEM	AT 2025-08-01	AT 2026-08-27	MOVEMENT
AU Data Policy Framework	In force since February 2022 as the continental reference for data governance, with none of its operative texts drafted	Unchanged in text; the three operative frameworks it provides for went to validation in December 2025 and none is adopted or published	NO CHANGE
AU Guidelines for Integrating Data Provisions in Protocols on Digital Trade	Issued September 2023 as a reference guide for negotiators integrating data provisions into the AfCFTA Protocol on Digital Trade	Unchanged; no record is held of its provisions being carried into the Protocol or its annexes	NO CHANGE
Smart Africa cross-border data exchange guidelines	Drafted by eleven member states under the Council of African IT Agencies	No adopted text, signatory list or implementation record held in the year since the drafting session	NO CHANGE
AfCFTA Customs Modernisation Project	BASELINE NOT HELD	A public-private partnership under which Bergmans Security Consultants and Supplies Limited mobilises the financing for customs digital solutions, secure electronic exchange of customs information, coordinated border management, One Stop Border Posts, transit systems, electronic cargo tracking, non-intrusive inspection technology, integrated data centres, multilingual customs portals, risk management and data analytics across participating State Parties; the agreement builds on a memorandum of understanding concluded in July 2026 and nothing is recorded as deployed; a US\$3.1bn contract was signed with a Nigerian security consultancy to digitise customs across the 50 member states, aiming at real-time cargo tracking and reduced revenue leakage	<i>Baseline not held</i>
Continental data governance frameworks	BASELINE NOT HELD	Three drafts - data categorisation and data sharing, cross-border data flows, and a continental open data strategy - validated with member states and regional economic communities; none submitted to AU policy organs and none published	<i>Baseline not held</i>

Southern Africa

BODY, INSTRUMENT OR SYSTEM	AT 2025-08-01	AT 2026-08-27	MOVEMENT
One-stop border posts and digitised border systems	BASELINE NOT HELD	A chairship priority tying one-stop border posts to the corridor trip monitoring system that integrates transport, immigration and customs data, to online permitting and operator accreditation, to one member's electronic visa and travel authorisation, and to a proposed regional tourism visa, with progress to be measured in border-crossing times reduced rather than agreements signed	<i>Baseline not held</i>
SADC Agricultural Information Management System	BASELINE NOT HELD	Member-state readiness under assessment with the FAO and the EU; no platform, membership or timetable held	<i>Baseline not held</i>

West Africa

BODY, INSTRUMENT OR SYSTEM	AT 2025-08-01	AT 2026-08-27	MOVEMENT
SIGMAT (ECOWAS interconnected transit management system)	Operating on major corridors since 2019	A forward roadmap presented to the World Customs Organization and deployment agreed at three further border posts; the e-Hub and the regional guarantee system remain roadmap items	ADVANCED, MARGINAL

Figures are dated because most are time-varying: a figure carries the date it was true, not the date you are reading it. Where the base holds no reliable statement, the document says **Not held** rather than leaving a silence — those are counted, and listed at the end.

This is a dated edition and is not revised after publication. If a figure here has moved, the current edition will say so.
