Strategies, plans and policies

NATIONAL AI IMPLEMENTATION PLAN

- **Gov't rolls out measures to address Ghana's AI, digital infrastructure gaps - Sam George** — Citi Newsroom, 15 September 2026

  The communications minister said government has begun implementing measures against gaps a UNESCO readiness assessment identified in digital infrastructure, artificial intelligence capacity and cybersecurity, putting US$250m against an AI computing centre and US$200m against digitalisation.

CENTRALISED TECHNICAL REVIEW OF PUBLIC-SECTOR AI PROCUREMENT

- **Ghana tightens scrutiny of public sector AI buys** — ITWeb Africa, 2 October 2026

  Ghana's communications minister announced that every AI system bought by a public institution will go through a centralised technical review. The national information technology agency will scope deployments against interoperability, data-protection, cybersecurity and local skills-transfer requirements, alongside procurement law.

DIGITAL HEALTH POLICY AND STRATEGY 2023-2027

- **WHO and UNDP support Ghana to integrate artificial intelligence into digital health strategy** — WHO Regional Office for Africa, 12 October 2026

  Ghana's Ministry of Health and Ghana Health Service, supported by WHO and UNDP, are reviewing the Digital Health Policy and Strategy 2023–2027 to incorporate AI, reported on 12 October 2026. The programme focuses on AI-enabled disease surveillance combining routine health data with climate data for malaria, cholera and meningitis. No start date or cost is given.

Legislation and regulation

VIRTUAL ASSET SERVICE PROVIDERS ACT 2025

- **Ghana: Technical Assistance Report - Regulation and Supervision of Crypto Markets and Activities (IMF Technical Assistance Report No. 26/78, September 2026)** — International Monetary Fund, Monetary and Capital Markets Department (Parma Bains, Philipp Hochreiter); file as hosted by BitKE, 1 September 2026

An IMF technical assistance report on Ghana, dated September 2026, found that the crypto guidelines of the Bank of Ghana and the Securities and Exchange Commission fall short of full oversight, ahead of a licensing regime under the Virtual Asset Service Providers Act 2025 due to start in December 2026. It puts annual crypto transactions at about US$21bn and recommends activity-based rules, final stablecoin rules and transitional licensing.

- **Ghana is 5th largest crypto market in sub-Saharan Africa; annual transactions around $21bn** — MyJoyOnline, 30 September 2026

  An International Monetary Fund technical assistance report for the Bank of Ghana and the Securities and Exchange Commission puts Ghana's crypto transactions at about $21 billion a year, with 8% to 17% of the population having traded crypto, reported on 30 September 2026. Ghana passed its Virtual Asset Service Providers Act in December 2025, giving both bodies oversight.

RIGHT TO INFORMATION ACT 2019 (ACT 989)

- **Transparency in words, Secrecy in practice: How MDAs are betraying Gov't's transparency pledge** — The Fourth Estate, 3 September 2026

  The Fourth Estate reported that 21 Ghanaian public institutions failed to release information in 24 Right to Information requests between January 2025 and July 2026. Those named include the Ministry of Finance, the Office of the Attorney-General, the National Communications Authority and the Ghana Highways Authority. Petitions have gone to the RTI Commission, and the Minister for Government Communications said there is no policy of concealment.

VIRTUAL ASSETS COORDINATING COMMITTEE

- **REGULATION | Ghana Sets Up 5-Agency Committee to Coordinate Virtual Asset Regulation Oversight** — BitKE, 3 September 2026

  Ghana has set up a five-agency Virtual Assets Coordinating Committee, chaired by Bank of Ghana Governor Johnson Pandit Asiama, joining the central bank, the Securities and Exchange Commission, the Finance Ministry, the Cyber Security Authority and the Financial Intelligence Centre. Regulators aim to implement the Virtual Asset Service Providers Act, 2025 fully by 2027. Operational rules have not yet been published.

INNOVATION AND STARTUP BILL

- **Ghana Moves to Align Digital Entrepreneurship and Innovation Regulatory Framework** — Neo Report Gh, 15 September 2026

  The Smart Africa Secretariat held a validation and roadmap workshop for Ghana under its AEDIB 2.0 programme in Accra on 9 and 10 September 2026, co-hosted by Ghana's science and communications ministries. Participants examined overlaps between a policy in development, a proposed Science and Technology Development Agency Bill and an advisory council not yet operating, and produced a workplan canvas.

Data protection

DATA PROTECTION COMMISSION

- **Full Text: Sam George's speech at Government Accountability Series** — MyJoyOnline, 7 September 2026

Ghana's communications ministry gave a full public account of its January–August delivery, and the arithmetic is the interesting part: 141,954 registered accounts against 5,812 logged completions on the national coders programme, 8,578 fibre cuts projected for 2026 at roughly US$2,045 a repair, and a dig-once policy still awaiting Cabinet. It also records voice over LTE rising from about 7% of traffic to 22.43% and smartphone penetration at 71.8% in June 2026.

- **DPC begins checks on data protection compliance** — Ghana News Agency, 4 October 2026

  Ghana's Data Protection Commission said it would begin spot checks and enforcement from 5 October against organisations that process personal data without registering or meeting the Data Protection Act, 2012. Its executive director said prosecution would follow where necessary.

- **DPC strengthens enforcement after registering 2,575 data controllers | Ghana News Agency** — Ghana News Agency, 13 October 2026

  Ghana's Data Protection Commission said it had registered 2,575 data controllers in 2026, more than in any previous year, and was adding spot checks, inspections and complaint investigations.

UNITED STATES HEALTH DATA-SHARING AGREEMENT

- **President Mahama Defends Rejection of U.S. Health Compact, Calls Terms 'Humiliating' and a Threat to Sovereignty** — Ghana News Global, 29 September 2026

  Ghana's President John Mahama told the Council on Foreign Relations in New York that his Cabinet rejected a US health compact because it required Ghana to share pathogen profiles and medical records and exempted US-supplied medicines from Food and Drugs Authority inspection. Reuters reported that the deal, under negotiation since November 2025, would have provided US$109 million for health over five years.

- **U.S. seeks transition from health aid dependency to country ownership – Rolf Olson | Ghana News Agency** — Ghana News Agency, 29 September 2026

  The US chargé d'affaires in Ghana, Rolf Olson, told journalists in Accra on 29 September 2026 that the health memorandum of understanding Ghana rejected was meant to taper US assistance over several years towards country ownership. He said the US invested US$82.5 million in Ghana in the administration's first year and US$53 million in FY2026, and has signed 35 bilateral health MOUs, 24 in sub-Saharan Africa.

- **US seeks changes to rejected $109m health compact with Ghana – Mahama** — MyJoyOnline, 10 October 2026

  Ghana's President John Mahama said the United States has asked to reopen talks on the roughly US$109m five-year health compact that Ghana's Cabinet rejected, with a view to amending or removing the disputed clauses. Ghana objected to provisions requiring it to give the US its pathogen profile and medical records, to counterpart funding and to limits on its Food and Drugs Authority.

DATA-PROTECTION ENFORCEMENT ACTIONS

- **Nyaho Medical Centre referred to CID over allegedly expired data protection registration** — MyJoyOnline, 12 October 2026

  Ghana's Data Protection Commission directed an Accra hospital to report to the police criminal investigations department over an expired data protection registration certificate, after an enforcement operation on 12 October. How long the registration had lapsed was not stated.

- **Data Protection Commission clamps down on organisations breaching regulations, microfinance firm and health facility referred to police for prosecution** — Graphic Online, 13 October 2026

  Ghana's Data Protection Commission began field enforcement in Accra on 12 October 2026, finding two hospitals operating with expired certificates; a microfinance firm and a health facility were referred to police for prosecution. Executive director Arnold Kavaarpuo said 2,575 data controllers registered in 2026, more than in any previous year, and that registration alone is not compliance.

Regional collaboration

AFCFTA DIGITAL TRADE CORRIDOR JOINT VENTURE

- **AfCFTA Digital Trade Corridor to Cut Cost of Intra-African Commerce - Wamkele Mene** — MyDailyNewsOnline, 1 September 2026 AFRICA

  The AfCFTA Secretary-General set out the case for the Digital Trade Corridor: cutting the cost and complexity of intra-African business by ending the routing of African payments through third countries.

- **Make Africa's digital trade corridor work** — Ghanaian Times, 1 September 2026 AFRICA

  An editorial on what the AfCFTA Digital Trade Corridor has to get right to matter, following the joint venture agreement signed in Accra. See the corridor entry above.

- **Africa Builds a Digital Highway for Trade** — Business Times (Uganda), 9 September 2026 AFRICA

  The AfCFTA Secretariat and Ghanaian technology company Quest Ghana signed a joint venture agreement in Accra on 31 August 2026 to set up a continental Digital Trade Corridor. It is to build digital infrastructure for payments, commodity trading, marketplaces and logistics. The US$5.17 billion figure reported is Quest Ghana's own valuation, not a stated commitment.

CHAIR OF THE AFRICAN UNION TECHNICAL COMMITTEE ON ICT

- **Sam George to chair AU ICT committee for two years** — MyJoyOnline, 7 September 2026

  Ghana's communications minister was unanimously confirmed as the next chair of the African Union technical committee on communication and ICT, for two years.

HOST OF THE 15TH AFRICA INTERNET GOVERNANCE FORUM

- **Webinar 09 Sep 13:00 UTC - Road to Ghana: Community Engagement Series #1** — ISOC Live Noticeboard, 7 September 2026 AFRICA

  The Africa Internet Governance Forum secretariat announced an online session on 9 September 2026, the first in a series ahead of the 15th Africa IGF, which Ghana hosts in Accra on 2-5 November 2026. The session covers how national, regional and youth IGF initiatives can implement the WSIS+20 outcomes and the Global Digital Compact in Africa.

BANK OF GHANA MEMORANDUM WITH THE CENTRAL BANK OF LIBERIA ON PAYMENT SYSTEMS

- **Bank of Ghana and Liberia central bank strengthen partnership on payment systems** — Ghana Guardian, 3 October 2026 LIBERIA

  A Central Bank of Liberia delegation led by Executive Governor Henry Saamoi visited the Bank of Ghana in Accra on 1 October 2026 to learn how Ghana set up its interbank payment and settlement system, GhIPSS, to inform Liberia's own payment-systems work. The visit falls under a capacity-building memorandum the two central banks signed earlier in 2026.

- **Liberia Studies Ghana's Payment Switch as It Expands Instant Transfers** — NewsGhana, 4 October 2026

  LIBERIA

  The governor of the Central Bank of Liberia led a delegation to the Bank of Ghana on 1 October to study how Ghana set up its interbank payment and settlement company. Liberia is working to connect its banks to the instant payment system it switched on in December 2025.

Standards

CYBER AND INFORMATION SECURITY DIRECTIVE 2026

- **BoG orders banks to give fraud units direct access to CEOs** — MyJoyOnline, 6 October 2026

  The Bank of Ghana directed banks to give their fraud units direct and unrestricted access to the managing director or chief executive, Governor Johnson Asiama told heads of banks. He said fraud staff must hold the right skills and certifications, and that the central bank will tighten supervision of technology, customer-fund safeguarding and third-party risk. The meeting date is not given.

- **BoG develops AI rules for financial sector** — MyJoyOnline, 11 October 2026

  The Bank of Ghana is drafting a directive on the use of artificial intelligence by financial institutions, its governor told the banks' annual meeting. The Bank will also run thematic reviews of how banks have implemented its revised cyber and information security directive.

MEDICAL RECORDS STRATEGY AND OPERATIONAL GUIDELINES

- **Preparing Ghana's health records for the digital future** — WHO Regional Office for Africa, 12 October 2026

  The Ghana Health Service, supported by WHO, convened a national workshop to revise its Medical Records Strategy and Operational Guidelines, written nearly a decade ago. The revision is to cover electronic medical records, data governance, interoperability, cybersecurity and the use of artificial intelligence in healthcare.

GOVERNMENT DATA EXCHANGE HUB

- **Ghana targets $5bn in annual economic gains from AI – Sam George** — MyJoyOnline, 15 October 2026

  Ghana's communications minister said the government has committed US$270 million to its AI plans, US$250 million of it for the first phase of a national AI compute centre and US$20 million for an AI fund, and targets about US$5 billion a year in economic gains. He said the ministry is building a data exchange hub to connect 48 government registries.

Public debate and participation in policymaking

CIVIC EDUCATION POSITION ON MISINFORMATION AND SYNTHETIC MEDIA

- **Misinformation, deepfakes pose serious threat to Ghana's democratic stability – NCCE** — MyJoyOnline, 1 September 2026

  Ghana's National Commission for Civic Education said misinformation, hate speech and deepfakes threaten democratic stability, its chair Kathleen Addy telling a media event in Accra that fabricated images and audio mean seeing and hearing no longer count as proof. The EU's deputy ambassador announced support for a new African Media Integrity and Resilience Programme on verification skills.

PROSECUTION OF ONLINE SPEECH UNDER THE FALSE-NEWS PROVISIONS OF THE CRIMINAL OFFENCES ACT, 1960

- **Barker-Vormawor urges courts to scrutinise rights violations in Ghana Jollof case** — MyJoyOnline, 19 September 2026

Ghana is prosecuting a senior nursing officer, Salomey Awiti Bafoh, under the false-news provisions of the Criminal Offences Act over videos from the UK-based "Ghana Jollof" TikTok account. Arrested on 13 September 2026, she was denied bail and remanded to 30 September. Lawyer Oliver Barker-Vormawor said on 19 September that the use of mobile-money records and device access needs close judicial oversight.

- **Ghana Jollof Case - Does section 208 of criminal code only apply to NPP? Ntim Fordjour questions** — MyJoyOnline, 19 September 2026

  Ghanaian opposition MP John Ntim Fordjour asked on JoyNews on 19 September 2026 whether section 208 of the Criminal Offences Act, on false publications, is applied only to NPP supporters and government critics. He criticised the police CID over the arrest of a nursing officer linked to the TikTok user known as Ghana Jollof, and said pro-government content goes unpunished.

ROADMAP ON HATE SPEECH AND HARMFUL ONLINE CONTENT

- **National Stakeholder Engagement on Hate Speech, Abusive Online Content and Responsible Digital Communication (OPS308.3.26.1386)** — Office of the President, Republic of Ghana, 22 September 2026

  Ghana's presidency asked the Media Foundation for West Africa and the Ghana Journalists Association, in a letter dated 22 September 2026, to convene a national stakeholder engagement on hate speech and harmful online content. It asks for guidelines for law enforcement, alternatives to arrest for non-criminal speech, and a roadmap with a timetable for the President.

Finance

New investments

New investments

UN CAPITAL DEVELOPMENT FUND PARTNERSHIP ON SMALL-BUSINESS DIGITAL FINANCE

- **UNCDF, FIDO begin phase two partnership to expand digital finance for MSMEs** — Ghana News Agency, 3 September 2026

  The UN Capital Development Fund began a second phase of work with Ghana's FIDO Microcredits on 3 September, providing a US$200,000 grant expected to catalyse US$1 million in loans and savings for small businesses led by women and young people. A US$30,000 first phase engaged 470 businesses in three regions. The project is expected to end in July.

SEEVCASH REMITTANCE PLATFORM FUNDING

- **Ghana's Seevcash Raises $333,000, Launches Visa Card** — We are Tech (wearetech.africa), 7 September 2026

  A Ghanaian remittance startup moving money from the United States to Ghana raised US$333,000 from a blockchain foundation's community fund, to launch an international payment card usable online and in stores. The commitment date is not stated in the account.

AI IMPLEMENTATION FUND

- **Ghana targets $5bn in annual economic gains from AI – Sam George** — MyJoyOnline, 15 October 2026

  Summarised under Standards.

Connectivity

5G SPECTRUM REQUEST FOR APPLICATIONS

- **Ghana's NCA Receives Four Applications for 5G Spectrum Licences** — Tech Africa News, 2 September 2026

  Ghana's National Communications Authority closed applications for 700MHz, 2.3GHz and 3GHz mobile-broadband spectrum on 2 September with four applications received, and opened Envelope A under the published Selection and Award Procedure. Envelope B, holding the Best Price Offer, stays sealed. The authority was careful to say that opening Envelope A determines nothing about the eligibility, compliance or completeness of any application.

- **Ghana to begin 5G deployment by December 2026 – Sam George** — MyJoyOnline, 7 September 2026

  Ghana expects to complete 5G spectrum assignment and begin deployment by December 2026, its communications minister said.

- **MTN, Telecel, Goal Telecom qualify for next stage of NCA spectrum auction** — MyJoyOnline, 9 September 2026

  Ghana's National Communications Authority said on 9 September 2026 that MTN Ghana, Telecel Ghana and Goal Telecom qualified for the next stage of its licensing process for the 700 MHz, 2.3 GHz and 3 GHz bands. A fourth applicant, Infrava, was disqualified. The next stage opens and ranks the qualified applicants' price offers; no date is given.

- **UPDATE ON THE 5G SPECTRUM LICENSING PROCESS** — National Communications Authority (Ghana), 11 September 2026

  Ghana's National Communications Authority concluded the 700 MHz stage of its 5G spectrum award on 11 September 2026, giving two lots to MTN Ghana, the only qualified applicant, for US$100.9 million. The 2.3 GHz band, sought by Telecel Ghana and Goal Telecommunications, is under-subscribed, and the 3 GHz band is over-subscribed; both go to the next stage.

- **5G licensing: MTN Ghana wins 700MHz spectrum for $100.9m** — Prime News Ghana, 12 September 2026

  Ghana's National Communications Authority assigned two 700 MHz lots, the most one applicant may win, to MTN Ghana for a licence fee of US$100.9 million. MTN was the only qualified bidder, which closes the 700 MHz stage of the 5G spectrum process; the 2.3 GHz and 3 GHz bands remain open.

- **NCA assigns 5G spectrum to MTN Ghana for US$109.9 million** — Graphic Online, 12 September 2026

  Ghana's National Communications Authority awarded two 700 MHz lots to MTN Ghana, the only qualified bidder, after opening best price offers on 11 September 2026. This account gives the fee as US$109.9 million; the regulator's release puts it at US$100.9 million.

- **Telecel Ghana gets NCA nod for 5G spectrum expansion** — Graphic Online, 16 September 2026

  Ghana's National Communications Authority awarded Telecel Ghana three lots in the 2.3 GHz band to support its 5G rollout, all the lots it applied for out of five on offer. The award is part of a competitive process covering the 700 MHz, 2.3 GHz and 3 GHz bands. Neither the assignment date nor the licence fee is stated.

- **NCA awards 5G spectrum to Telecel Ghana** — MyJoyOnline / Joy Business, 17 September 2026

  Ghana's regulator awarded the second operator all three of the 2.3 GHz lots it applied for, of five made available, a week after the dominant operator took both 700 MHz lots. No licence fee or assignment date is reported.

- **Scancom PLC (MTN Ghana) - MTN Ghana Receives Notice of Spectrum Award in the 700 MHz and 3 GHz Bands (GSE announcement, 2 October 2026)** — Scancom PLC (MTN Ghana), 2 October 2026

  MTN Ghana (Scancom PLC) told the Ghana Stock Exchange on 2 October 2026 that the National Communications Authority had notified it of 15-year spectrum awards: 2 x 20 MHz in the 700 MHz band for US$100.9 million and 150 MHz in the 3 GHz band for US$101.1 million. The company said it will use the spectrum for 5G once the licences are issued.

- **MTN set to deploy 5G services after winning spectrum licenses worth US$202m** — MyJoyOnline (Joy Business), 3 October 2026

  MTN Ghana says it will roll out 5G once the regulator issues the spectrum licences it has been awarded in the 700 MHz and 3 GHz bands, at a cost of about US$202 million. The company told investors the payments are already in its cash-flow outlook.

PPL NET GHANA SPECTRUM ALLOCATION AND CORE-NETWORK ACCESS

- **Sam George swears in AT Ghana's PPL Net board as directors vow 'We will not let Ghana down'** — MyJoyOnline, 3 September 2026

  Ghana's Communications Minister Sam George swore in a seven-member board for state-owned PPL Net Ghana, which runs the AT Ghana brand, on 3 September 2026. Cabinet has approved spectrum in three bands and access to GIFEC's core network, but both depend on the company filing audited accounts about a year in arrears; the minister said the regulator cannot legally issue spectrum without them.

CELL SITES NEEDED AGAINST SITES BEING BUILT

- **Ghana Needs 6,000 New Cell Sites To Improve Nationwide Connectivity – Minister** — The High Street Journal, 6 September 2026

  Ghana's communications minister, Samuel Nartey George, said on 6 September 2026 that the country needs about 6,000 new cell sites. About 1,100 are being rolled out, roughly 800 by MTN Ghana, of which nearly 180 are complete, and about 350 by Telecel, with completion expected in the first half of 2027. He also directed that all rural telephony sites be upgraded to at least 4G.

- **Full Text: Sam George's speech at Government Accountability Series** — MyJoyOnline, 7 September 2026

  Summarised under Data protection.

- **MTN commits US$1.1bn to Ghana network expansion after 5G reforms – Communications Minister** — MyJoyOnline, 7 September 2026

  The dominant Ghanaian operator's US$1.1bn three-year commitment is restated against the site build behind it: 800 new cell sites of which 180 are already active, and a second operator targeting 2,698 sites in 2026. The communications minister dates the regulator board's removal of wholesale 5G exclusivity to 15 July 2026.

AIRTELTIGO PROVISIONAL LICENCE AND SPECTRUM

- **Stranded Connectivity Equipments Relocated with Bets on Local-Language AI** — The High Street Journal, 7 September 2026

  Ghana's communications minister, Samuel Nartey George, said on 7 September 2026 that equipment from earlier rural connectivity projects, installed at sites with no line of sight or backhaul, is being relocated. He also said AirtelTigo has been given spectrum, a provisional licence and access to parts of the GIFEC core network after its own licences expired.

5G POPULATION COVERAGE TARGET FOR 2028

- **Ericsson and Ghana NCA Discuss 5G, Cybersecurity and Network Resilience** — Tech Africa News, 9 September 2026

  An Ericsson delegation called on Ghana's National Communications Authority to discuss 5G deployment, quality of service, cybersecurity and network resilience. The Authority's deputy director-general said 5G licence conditions require 70 per cent population coverage by March 2027 and that compliance monitoring would be strengthened.

CSQUARED OPEN-ACCESS FIBRE FEASIBILITY STUDY ON NEDCO LINES

- **USTDA Advances Secure Digital Access in Ghana** — U.S. Trade and Development Agency (USTDA), 9 September 2026

  The US Trade and Development Agency signed an agreement on 9 September to fund a feasibility study for open-access fibre laid along Northern Electricity Distribution Company lines, which span more than 60 per cent of Ghana. The study is to assess commercial viability, quantify demand and develop a financing strategy; no grant value is stated.

AMAZON LEO LOW-ORBIT BROADBAND COOPERATION

- **Ghana Discusses Amazon Leo Partnership for Broadband Expansion** — Ecofin Agency, 28 September 2026

  Ghana's president, John Dramani Mahama, discussed broadband cooperation with Amazon's chief global affairs officer, David Zapolsky, in New York on 25 September 2026, on the sidelines of the UN General Assembly. The talks focused on using Amazon Leo's planned constellation of more than 3,000 satellites to reach underserved communities. No agreement is reported.

TELECEL GHANA NETWORK MODERNISATION MEMORANDUM WITH HUAWEI

- **Telecel Group announces $200 million network modernization for Telecel Ghana** — TechFocus24, 6 October 2026

Telecel Group signed a $200 million, three-year memorandum of understanding with Huawei Ghana at HUAWEI CONNECT 2026 in Shanghai to expand and modernise Telecel Ghana's network, including mobile broadband. It follows a $70 million agreement signed in Shenzhen the previous November. The signing date is not stated.

ATOMIC ENERGY COMMISSION AI DATA CENTRE

- **Zanetor Agyeman-Rawlings calls for human control of GAEC's proposed AI Data Centre** — Ghanaguardian.com, 10 October 2026

  Visiting the Ghana Atomic Energy Commission on 9 October, the science and technology minister said the AI data centre it proposes must run under human oversight to protect sensitive nuclear information. She asked for governance arrangements to be written into the plan.

Cybersecurity

REPORTED CYBERCRIME LOSSES AND INCIDENT REPORTS

- **AI now enables 55% of cybercrime in Africa as losses hit $484m – CID** — GBC Ghana Online (Ghana Broadcasting Corporation), 2 September 2026 AFRICA

  Ghana's police CID put Interpol's 2026 African Cyber Threat Assessment on the record at the awareness month launch: AI now enables 55% of reported cybercrime in Africa, with related losses of $484 million. CID director-general COP Lydia Yaako Donkor described generative AI supplying convincing phishing messages, cloned voices and synthetic images and video, with cryptocurrency, mule accounts and fraudulent investment schemes moving the proceeds — an industrialised, borderless ecosystem rather than isolated offending. She tied Ghana's exposure directly to the spread of mobile money, internet banking and instant transfers.

NATIONAL COMPUTER EMERGENCY RESPONSE TEAM

- **Full Text: Sam George's speech at Government Accountability Series** — MyJoyOnline, 7 September 2026

  Summarised under Data protection.

- **Cyber Security Authority (CSA) Ghana opens NCSAM 2026 with call for stronger cybersecurity collaboration** — Tech Review Africa, 5 October 2026

  Ghana's Cyber Security Authority opened its 2026 awareness month with a call for banks, fintechs and telecoms operators to share threat information as routine. The national response team recorded 3,876 incidents between January and July 2026, about 47% of them online fraud.

DIGITAL FRAUD INCIDENTS

- **Digital fraud incidents rise 98% between 2022 and 2025 – BoG** — MyJoyOnline, 10 September 2026

> Ghana's central bank says digital fraud incidents rose 98 per cent between 2022 and 2025 as financial criminals exploited the growth in digital transactions. Its second deputy governor said fraudsters increasingly targeting digital platforms, as more people pay and transfer electronically, requires a significant change in how financial crime is tackled.

GHANA CYBERSECURITY INDUSTRY FORUM

- **GCIF cautions public as criminals deploy AI in phishing attacks** — MyJoyOnline, 25 September 2026

  The Ghana Cybersecurity Industry Forum, the industry body provided for under the Cybersecurity Act, 2020, warned at an Accra news conference that criminals are using AI to make phishing messages convincing. It named a skills shortage as its main challenge and set out student engagement, a virtual assets workshop and community roadshows for October to December 2026.

CENTRAL BANK FRAUD INTELLIGENCE HUB

- **BoG to strengthen fraud control as digital finance grows** — GhanaWeb, 1 October 2026

  The Bank of Ghana said on 1 October 2026 that it is building a fraud intelligence hub for financial institutions to share emerging fraud patterns, and has revised its Cyber and Information Security Directive for AI, cloud and data-security risks. Its information security director put mobile money flows above GH¢40 billion in June 2026.

CRITICAL INFORMATION INFRASTRUCTURE DESIGNATION

- **Ghana Strengthens Cyber Resilience for Critical Infrastructure** — Tech Africa News, 8 October 2026

  Ghana's communications minister said compliance with cybersecurity requirements is mandatory for the 13 designated critical information infrastructure sectors and about 200 owner institutions. He was opening a workshop on securing industrial control systems.

OPERATION BLACKOUT CYBERCRIME OPERATION

- **Sam George unhappy with FBI Director for not acknowledging Ghana's role in cybercrime operation** — MyJoyOnline, 8 October 2026

  Ghana's communications minister, Samuel Nartey George, objected that FBI Director Kash Patel's post on Operation Blackout did not credit Ghanaian agencies, reported on 8 October 2026. He said Ghana's Cyber Security Authority, police and national security staff led sting operations on 25–28 September with support from the UK National Crime Agency and the FBI; Patel's post cited more than 130 people detained and about US$10 million in losses.

- **Cyber Security Authority: Ghana led Operation Blackout, not FBI** — MyJoyOnline, 9 October 2026

  Ghana's Cyber Security Authority said Ghana, not the FBI, led Operation Blackout, which arrested eight suspects and rescued 120 suspected trafficking victims at cybercrime centres in Greater Accra. It asked the FBI to correct its public account, saying foreign agencies have no police powers in Ghana.

- **Ghana Rejects FBI-Led Claims Over Operation Blackout Cybercrime Raids** — Tech Africa News, 9 October 2026

  A second account of the Ghana Cyber Security Authority's statement on Operation Blackout: it names the Ghanaian, British, American and Nigerian agencies that took part and says the operation ran under Ghanaian authority.

MASTERKEY DIGITAL SKILLS AND WORK WALLET

- **Kenyan President Ruto names Ghana among first countries for portable skills programme** — Graphic Online, 22 September 2026 KENYA RWANDA

  Kenya's President William Ruto announced Masterkey, a digital wallet holding verifiable records of qualifications and work experience that individuals control and can share across African borders, at an Accra Reset event during the UN General Assembly. Ghana, Rwanda and Kenya are in the first phase, which targets 150,000 placements; Kenya's wallet runs through eCitizen.

CREDIT BUREAU ENQUIRIES

- **Bank of Ghana - Credit Reporting Activity Annual Report 2025** — Bank of Ghana, Financial Stability Department, 30 September 2026

  The Bank of Ghana's Credit Reporting Activity Annual Report 2025 counts 25,921,066 credit bureau enquiries in 2025, down 12.12% from 2024, with banks making 86.28% of them. Enquiries on digital borrowers rose from 13.1 million to 19.9 million, and there are now 36 designated data providers.

- **Over 25m enquiries conducted by financial institutions for credit appraisals, others in 2025** — MyJoyOnline, 30 September 2026

  The Bank of Ghana's 2025 credit reporting report records just over 25 million credit bureau enquiries by financial institutions and authorised users in 2025, down 12.12% from 29,496,440 in 2024. Monthly enquiries averaged 2,160,089, and banks accounted for 86.28% of the total. The bank attributed the fall mainly to fewer traditional loan enquiries.

Digital Identity and CRVS

GHANA CARD AS SOLE BANKING IDENTITY

- **Use of Ghana Card for All Financial Transactions** — Bank of Ghana, 2 September 2026

  The Bank of Ghana's website carries its directive, issued under the National Identity Register regulations (L.I. 2111), that from 1 July 2022 the Ghana Card is the only identity card accepted for transactions at institutions it licenses and regulates. The page is dated 2 September 2026 but the directive itself dates from 2022.

BIOMETRIC SIM RE-REGISTRATION

- **'The resolve of this Ministry is unshaken' – Sam George on biometric SIM verification** — Asaase Radio, 7 September 2026

  Ghana's communications minister said Parliament has passed the legislative instrument governing SIM registration and the biometric verification phase will be introduced before the end of 2026. The same account puts completion of the 2021–2023 exercise it replaces at 44.28% of subscribers.

GHANA CARD ELECTRONIC WALLET

- **Ghana Card to become e-wallet for electronic transactions soon – NIA Boss** — Modern Ghana, 17 September 2026

Ghana's National Identification Authority is in the final stages of making the Ghana Card an electronic wallet, secured by biometrics and a PIN, for transfers to and from bank accounts, its executive secretary Wisdom Kwaku Deku said, reported on 17 September 2026. It will be phased in. He said enforcement against accepting card photocopies instead of verification starts on 2 November 2026.

DVLAVERIFY BIOMETRIC IDENTITY VERIFICATION

- **DVLAverify app now available on iOS as DVLA introduces web verification platform** — MyJoyOnline, 23 September 2026

  Ghana's Driver and Vehicle Licensing Authority released its DVLAverify biometric identity-verification app on Apple's App Store and opened a web version usable from any computer with a webcam. Vehicle-registration applicants can now complete identity checks remotely.

ELECTRONIC NUMBER PLATE SYSTEM (DVLA)

- **DVLA begins pilot of RFID-enabled number plates ahead of 2027 rollout** — MyJoyOnline, 29 September 2026

  Ghana's vehicle licensing authority began piloting RFID-enabled number plates ahead of issuance to newly registered vehicles from January 2027. How existing vehicles will be re-registered is still to be announced.

GHANA CARD AS A TRAVEL DOCUMENT

- **ECOWAS pushes biometric ID toward region-wide border acceptance by December** — Biometric Update, 5 October 2026 WEST AFRICA

  ECOWAS is running public campaigns in Ghana and Nigeria ahead of its December 2026 target for all member states to accept its biometric identity card at air, land and sea borders. Seven member states have issued the card so far.

GHANA CARD ENROLMENT FOR CHILDREN AGED 6 TO 14

- **NIA extends Ghana Card registration for children in North East and Upper East** — MyJoyOnline, 5 October 2026

  Ghana's National Identification Authority, with the National Health Insurance Authority, began school-based Ghana Card registration of children aged 6 to 14 in the North East and Upper East regions on 5 October 2026. Children need a birth certificate, passport or citizenship certificate, or an oath of identity by a parent or guardian; those registered in the 2024 pilot should not re-register.

GHANA CARD

- **NIA biometric system to tighten fraud controls** — GhanaWeb, 9 October 2026

  Ghana's National Identification Authority will begin Ghana Card registration of children aged 0-5 the following week, alongside the ongoing registration of 6-14 year olds, its deputy executive secretary Fred Bedzrah said at a forum at the University of Professional Studies, Accra. He presented biometric verification with liveness detection as the check against ghost names on government payrolls.

Digital Payments and Fintech

ACTIVE MOBILE MONEY USERS, DOMINANT OPERATOR

- **MTN pushes mobile money beyond payments** — ITWeb Africa, 3 September 2026

  The chief executive of MTN Mobile Money Ghana said that fewer than 0.3% of its users are actively investing and only a small proportion save regularly, against more than 26 million transactions a day, and rejected the description of Ghana as a mature market.

VIRTUAL ASSET SERVICE PROVIDER REGULATORY SANDBOX

- **Yellow Card joins Ghana's second virtual asset regulatory sandbox** — MyJoyOnline, 4 September 2026

  Stablecoin firm Yellow Card was admitted on 4 September 2026 to the second cohort of Ghana's regulatory sandbox for virtual asset service providers, one of 10 participants. The sandbox is run by the Securities and Exchange Commission with the Bank of Ghana under the Virtual Asset Service Providers Act passed in December 2025; Yellow Card will test stablecoin payments, fiat settlement and digital wallets.

DIGITAL CREDIT SERVICE PROVIDER REGIME

- **Bank of Ghana Notice No. BG/GOV/SEC/29 — Unlicensed Digital Credit Services Providers** — Bank of Ghana, 8 September 2026

  The Bank of Ghana named 20 more unlicensed mobile loan apps on 8 September 2026, including CreditGo, Cash Cedi, Sika Credit and Zoom Advance, five weeks after listing a different 20 in August. It said they breach its September 2025 directive on digital credit providers and warned banks and payment service providers not to process their transactions.

- **BoG names 20 unlicensed digital loan providers** — Ghana News Agency, 9 September 2026

  The Bank of Ghana published a list of 20 mobile loan apps operating without a licence on 9 September 2026, among them Cash Cedi, CreditGo, Quick Cedi and Zoom Advance. It said they breach customer data privacy and consumer protection rules under its September 2025 directive on digital credit providers. Banks and payment service providers were told not to process transactions for them.

- **Bank of Ghana Notice No. BG/GOV/SEC/2026/36: Unlicensed Digital Credit Services Providers** — Bank of Ghana, 6 October 2026

  The Bank of Ghana named 20 mobile loan apps, including Agile Loan, KudiNow, SikaNow and Susu Loan, operating without its licence in a notice dated 6 October 2026. It said they breach its September 2025 directive on digital credit providers and customers' data privacy, and warned banks and payment service providers not to process their transactions.

- **BoG cautions public against 20 unlicensed mobile loan apps** — MyJoyOnline, 8 October 2026

  The Bank of Ghana warned the public against 20 mobile loan apps operating without its licence, including Agile Loan, KudiNow, SikaNow and Zatuloan, saying they breach the Directive for Digital Credit Service Providers. It cited risks to customer data privacy and consumer protection and said it is working with state agencies on enforcement.

DLOCAL GHANA ENHANCED PAYMENT SERVICE PROVIDER LICENCE

- **dLocal Ghana secures enhanced payments licence to deepen local operations** — TechCabal, 9 September 2026

  dLocal Ghana, the subsidiary of the Uruguayan payments company, has secured an Enhanced Payment Service Provider licence from the Bank of Ghana, letting it provide local collections, merchant acquiring, mobile-money acceptance and payouts in its own name where it had previously routed Ghana flows through its global platform and regulated third-party partners. It will roll the services out on operational readiness rather than at once. Paystack and Flutterwave hold comparable licences and Fincra was licensed in the enhanced category in May 2026; Bank of Ghana data put mobile money at GH¢4.54 trillion in 2025, up 50.8 per cent on 2024.

VISA ACCEPT VIRTUAL POINT OF SALE AT ACCESS BANK GHANA

- **Access Bank, Visa launch digital payment tool 'Visa Accept' to bring small merchants into formal economy** — Modern Ghana, 18 September 2026

Access Bank Ghana and Visa launched Visa Accept in Accra on 18 September 2026, a virtual point-of-sale tool in the bank's mobile app that lets small merchants take card taps, QR codes or payment links on a smartphone, with funds credited instantly. The bank's retail director Eugene Ocansey said the transaction records could help informal businesses qualify for credit.

- **Access Bank, Visa Launch First CEMEA Visa Accept Market in Ghana** — Current Issues Online, 18 September 2026

  Access Bank Ghana and Visa launched Visa Accept on 18 September 2026, a feature in the bank's mobile app that lets small merchants take contactless card payments on their own smartphones without a point-of-sale terminal. Ghana is the first market for the service in Visa's Central and Eastern Europe, Middle East and Africa region; the bank plans a door-to-door merchant campaign. No fees are given.

BANK-BACKED VIRTUAL ACCOUNTS FOR VIRTUAL-ASSET BUSINESSES

- **Chipper Cash launches bank-backed virtual accounts with UMB** — Graphic Online, 23 September 2026

  Fintech firm Chipper Cash began opening bank-backed virtual accounts for customers in Ghana through an API link with Universal Merchant Bank, reported on 23 September 2026. The bank had received Bank of Ghana and Securities and Exchange Commission approval to offer virtual accounts to businesses in the virtual asset sector; the approval date is not stated.

MOBILE MONEY TRANSACTION VALUE

- **Summary of Economic and Financial Data — September 2026** — Bank of Ghana, 23 September 2026

  The Bank of Ghana's data summary released on 23 September 2026 records 1,046 million mobile money transactions worth GHC518.8bn in August 2026, up from 831 million worth GHC354.1bn a year earlier. Registered mobile money accounts stood at 85.8 million, of which 26.4 million were active.

- **Total mobile money transactions value hits GH¢3.8trn as of August 2026** — MyJoyOnline, 24 September 2026

  Bank of Ghana data show monthly mobile money transaction values rose from GH¢446.2 billion in January 2026 to GH¢518.8 billion in August 2026, about GH¢3.8 trillion for the year to date. There were 26.4 million active accounts against 85.8 million registered in August 2026. Transactions totalled GH¢4.54 trillion in 2025.

REGISTERED AND ACTIVE MOBILE-MONEY WALLETS

CROSS-BORDER PAYMENT INTEROPERABILITY PILOTS WITH RWANDA AND NIGERIA

- **Bank of Ghana pilots digital cross-border payments with Rwanda, Nigeria** — Ghana News Agency, 13 October 2026 RWANDA NIGERIA

  The Bank of Ghana is testing cross-border payments using central bank digital currencies, stablecoins, bank accounts and mobile wallets in its corridors with Rwanda and Nigeria, Governor Johnson Asiama said at the IMF and World Bank annual meetings in Bangkok on 13 October 2026. It has also opened the Pan-African Payment and Settlement System to mobile wallets in the Ghana-Nigeria corridor.

- **Ghana, Rwanda, Nigeria test new cross-border digital payment systems** — Graphic Online, 14 October 2026 RWANDA NIGERIA

  Bank of Ghana Governor Johnson Asiama said on 13 October that the bank is testing cross-border payment interoperability with Rwanda and Nigeria across CBDCs, stablecoins, bank accounts and mobile wallets, with the aim of moving to live services on rails such as PAPSS. He said Ghana's mobile money transactions passed one billion in a month for the first time in August 2026, worth GH₵519 billion, and reported fraud cases rose 48% in 2025.

Registries

MARRIFY MARRIAGE AND DIVORCE RECORDS PLATFORM

- **Ghana launches digital marriage records platform** — ITWeb Africa, 7 September 2026

  A privately operated platform launched in Accra on 28 August lets users search and verify registered marriage and divorce records drawn from the registrar-general's department, the courts, district assemblies and the Gazette. No data-sharing agreement, fee schedule, coverage figure or record count is published.

NATIONAL HOUSEHOLD REGISTRY

- **Ghana's household registry now profiles 11.24 million people for social protection targeting** — MyJoyOnline, 16 September 2026

  Ghana's National Household Registry now covers 11.24 million people in 2,906,288 households across all 16 regions, 508,870 of them classed extremely poor. It is the targeting base for the LEAP cash grant, whose ceiling has risen to 450,000 households.

Sectoral management information systems

NATIONAL HEALTH INSURANCE AUTHORITY ELECTRONIC CLAIMS AND BIOMETRIC VERIFICATION

- **NHIA rolls out digital reforms to strengthen NHIS sustainability** — The Overseers, 8 September 2026

  Ghana's National Health Insurance Authority said all scheme claims are now processed electronically and a national digital health platform is running in 502 facilities across eight regions. Chief executive Victor Asare Bampoe said patients' visits are tied to one-time attendance codes, biometric checks are used in busy facilities, and data analytics flag duplicate claims. Active membership reached 70% in August 2026 against an 80% end-year target.

EDUCATION MANAGEMENT INFORMATION SYSTEM

- **Yaw Opoku Mensah criticises new SHS placement system** — Asaase Radio, 12 September 2026

  A former deputy spokesman for Ghana's education ministry, Yaw Opoku Mensah, said on Asaase Radio on 11 September 2026 that senior high school placement now runs on a third-party application, CloudSys, instead of the ministry's in-house system. He linked the 2026 placement problems, including students assigned to schools they did not choose, to the change.

COMPUTERISED SCHOOL SELECTION AND PLACEMENT SYSTEM (CSSPS)

- **CSSPS: Over 6,000 of 8,000 complaints resolved; Sept. 18 reopening date unchanged - OnuaOnline** — OnuaOnline, 15 September 2026

  Ghana's education ministry said on 15 September 2026 that it had resolved more than 6,000 of about 8,000 complaints about the Computerised School Selection and Placement System, most concerning residential status. Resolution centres were extended by a week and the 18 September school reopening date stands; the minister announced a technical committee to review the system.

REAL-TIME VAT ON CROSS-BORDER DIGITAL SERVICES (RTVAT)

- **Real-Time VAT on cross-border digital services** — MyJoyOnline, 27 September 2026

  An explainer by an adviser to the Ghana Revenue Authority describes its Real-Time VAT framework under the VAT Act, 2025, run on the Sentinel system: VAT is taken at the point of payment when a Ghana-issued card, mobile money account or wallet pays a foreign supplier of digital services. Banks and payment providers must integrate; about 167 non-resident e-commerce firms are registered, paying an estimated GH¢515 million a year.

- **Same tax, smarter collection** — Graphic Online, 8 October 2026

  The Ghana Revenue Authority will start collecting VAT on foreign digital services such as streaming at the point of payment from 15 October 2026, through its Sentinel real-time VAT system run with banks and mobile money providers. The 20% combined rate is unchanged, so a GH¢100 service costs GH¢120. The authority estimates GH¢2.5 billion went uncollected on 2025 data.

GHANA CHILD LABOUR MONITORING SYSTEM (GCLMS)

- **Ghana Strengthens Child labour fight with new Digital Monitoring System** — Ghana News Agency, 28 September 2026

  Ghana is rolling out a digital child-labour monitoring system to identify, refer and follow up cases, interoperable with other child-protection systems and developed with ILO funding. District and regional officials were trained on it in mid-September.

PUBLIC RECORDS AND ARCHIVES DIGITISATION

- **Government begins digitisation of 3.5 million public records – Sam George** — MyJoyOnline, 7 September 2026

  Ghana signed a contract to digitise 3.5 million public records held by the archives department, presented as records-management modernisation and better access to official information.

RENT CONTROL DEPARTMENT DIGITISATION PROGRAMME

- **Heads must roll; there is nothing to show for NPP's $1.7m digitisation - Rent Control boss - Adomonline.com** — Adomonline.com, 18 September 2026

  Ghana's acting rent control commissioner called for an investigation into a digitisation programme on which US$1.7 million was reportedly spent under the previous government, saying he found only four computers at the facility. No audit finding is yet on record.

INTEGRATED COURIER AND LOGISTICS MANAGEMENT SYSTEM (ICOLMS-GH)

- **Ghana launches digital platform to regulate the courier sector** — World Ports Organization, 20 September 2026

  Ghana's communications minister Samuel Nartey George launched the Integrated Courier and Logistics Management System (iCOLMS-GH), a paperless licensing platform for courier companies and delivery riders linked to Ghana.GOV and the National Identification Authority. A compliance grace period ran from 12 to 31 March 2026, with police and regulator enforcement from 1 April; the report appeared on 20 September 2026 and gives no launch date.

GHANA TOURISM INFORMATION SYSTEM (GTIS)

- **GTA pushes digital reset for tourism sector** — Graphic Online, 22 September 2026

  The chief executive of the Ghana Tourism Authority, Maame Efua Houadjeto, said on 18 September 2026 that its Ghana Tourism Information System will put registration, licensing and renewal, tourism levy filing and payment, establishment records and public verification into one digital system. No launch date, cost or supplier is given.

LOCAL GOVERNMENT SERVICE IT INFRASTRUCTURE AND SYSTEMS IMPROVEMENT PROGRAMME (LITISIP)

- **Local Government Service partners Celltel Networks to drive digital transformation** — Adomonline.com, 3 September 2026

  Ghana's Local Government Service signed a memorandum of understanding with Celltel Networks Limited to upgrade its IT infrastructure and digitise local government administration. Its head, Professor Lord Mensah, said the plan includes a technology hub for local government services and support for smart-city services such as waste management. No contract value, term or funding source was disclosed.

- **OHLGS, Celltel seal deal to turn 261 assemblies in Ghana into smart communities** — Kumasi Mail, 4 September 2026

Ghana's Office of the Head of the Local Government Service signed a memorandum with Celltel Networks to turn all 261 metropolitan, municipal and district assemblies into what both parties call smart assemblies, under a Local Government Service IT Infrastructure and Systems Improvement Programme spanning waste management, public safety, education, healthcare, environmental monitoring and citizen engagement. No contract value, financing structure or timeline is stated.

TECH FOR INCLUSIVE GOVERNANCE CITIZEN-REPORTING PLATFORM

- **Good Governance Africa launches digital platform to deepen participation in local governance** — Ghana News Agency, 3 September 2026

  Good Governance Africa's West Africa office launched a Tech for Inclusive Governance platform at Sogakope, in Ghana's South Tongu District, on 3 September 2026. Citizens use it to report service-delivery problems to their local assembly, which refers cases to the relevant department while the citizen follows progress until resolution.

LIVE BROADCASTS OF DISTRICT ASSEMBLY MEETINGS

- **Local Government Ministry to roll out live broadcasts of Assembly meetings nationwide** — Graphic Online, 15 September 2026

  Ghana's local government minister, Mahama Ayariga, announced on 15 September 2026 that the Ghana Broadcasting Corporation will carry live coverage of general assembly and town hall meetings of metropolitan, municipal and district assemblies, with the civic education commission. The ministry is to procure 51 pickup vehicles for the work. No start date for the broadcasts was given.

UNESCO AI READINESS ASSESSMENT

- **AI Readiness Assessment Methodology: Ghana** — UNESCO, 30 July 2026

  UNESCO published Ghana's AI Readiness Assessment on 30 July 2026, making Ghana one of 77 countries to have applied the methodology. Ghana's Ministry of Communication, Digital Technology and Innovations held three consultations for it: one with universities and research bodies, one with technology firms, innovation hubs and civil society, and a national validation meeting.

BOA MI AI AGRICULTURAL ADVISORY AND LENDING PLATFORM

- **DBG, partners launch AI platform to transform agricultural financing** — Ghana News Agency, 11 September 2026

  Development Bank Ghana, Opportunity International and the agricultural lending guarantor GIRSAL launched Boa Mi, a WhatsApp-based AI service giving farmers agronomic advice and loan officers portfolio data, in Accra on 11 September 2026. A pilot with rice farmers produced more than 8,500 queries in three months with 75% user satisfaction. It runs in English, with Twi, Dagbani, Ewe and Ga versions in development.

AUTOMATED ROAD-TRAFFIC ENFORCEMENT

- **How TRAFFITECH-GH will detect traffic offences, issue fines and penalise defaulters** — MyJoyOnline, 15 September 2026

The Ghana Police Service published guidelines for TRAFFITECH-GH, its automated traffic enforcement system, which takes full effect on 1 October 2026. Cameras and sensors detect offences such as speeding, and notices are sent by SMS from the sender ID GPS-MTTD. Motorists have 14 days to pay through ghana.gov.gh, mobile money or *222#, or contest online, after which a 1% daily penalty applies.

- **Police to enforce automated traffic offences from October 1** — Graphic Online, 15 September 2026

  The Ghana Police Service will begin full enforcement of traffic offences through its automated TRAFFITECH-GH programme on 1 October 2026, using cameras and handheld devices. Offenders will receive electronic notices by SMS and pay fines through Ghana.gov within 14 days. The pilot issued about 120,000 caution notices in 2024 and 2025.

- **Traffitech-GH — Frequently Asked Questions ("Police Invisible Eyes Are Watching")** — Ghana Police Service, Motor Traffic and Transport Department, 15 September 2026

  The Ghana Police Service's question-and-answer brochure for Traffitech-GH sets out how its automated traffic enforcement works. Cameras and sensors record offences such as speeding and red-light running, and the police send an electronic notice of violation by SMS to the vehicle owner. Fines are payable, or contestable online, within 14 days; after that a penalty of 1% of the fine is added for each day of default.

- **The Traffitech-GH SMS spot-fine system: The good, the sad, and the funny - Bright Simons writes** — MyJoyOnline, 4 October 2026

  In a MyJoyOnline opinion piece, Bright Simons examines Ghana's Traffitech-GH system, under which police will fine motorists by text message from 1 November 2026. He reports that the operator, NTMEL, is 60 per cent owned by Frank Osei and 40 per cent by Sensys Gatso, and that fine revenue is split 40 per cent to the operator and 60 per cent to government. He calls for the PPP contract to be published.

CUSTOMS AI ATTRIBUTED REVENUE

- **Customs revenue jumps to $450m monthly since AI introduction** — MyJoyOnline, 16 September 2026

  Ghana's revenue authority says customs collections have risen from about US$350 million to as much as US$450 million a month since an AI valuation system was installed at the ports in April 2026. It attributes the rise to more accurate valuation and classification rather than new taxes.

SIGNTALK-GH SIGN-LANGUAGE TRANSLATION SYSTEM

- **KNUST Researchers Develop AI System to Bridge Ghanaian Sign Language Communication Gap in Healthcare** — Kwame Nkrumah University of Science and Technology (University Relations Office), 23 September 2026

  Researchers at Ghana's Kwame Nkrumah University of Science and Technology have developed SignTalk-Gh, an AI system that translates Ghanaian Sign Language into text and audio and back, built for doctor-patient consultations. The work was funded through the Responsible AI Lab's AI4SD project by the French Embassy in Ghana and AFD. No deployment date or hospital count is given.

HUB FOR AI AND DISABILITY INCLUSION (HAIDI)

- **How Africa's AI boom is leaving 100 million disabled citizens behind** — TechCabal, 24 September 2026

  KENYA AFRICA

A Hub for AI and Disability Inclusion (HAIDI), hosted by KNUST's Responsible AI Lab, and an African Disability Data Network were launched at the Global Data Festival in Nairobi with backing from IDRC, the UK FCDO and AI4D. They plan to map disability-related datasets, build three new datasets, assess how national AI strategies treat disability and fund three startups with grants of up to KES 5 million.

BANK OF GHANA DIRECTIVE ON ARTIFICIAL INTELLIGENCE IN THE FINANCIAL SECTOR

- **BoG develops AI rules for financial sector** — MyJoyOnline, 11 October 2026

  Summarised under Standards.

NATIONAL AI LANGUAGE MODELS

- **Sam George tasks KNUST to develop Twi AI model as Ghana plans local-language artificial intelligence** — MyJoyOnline, 12 October 2026

  Ghana's communications minister said national AI language models will be built locally, tasking a Kumasi university to lead a Twi model and other universities to lead other Ghanaian languages. Voice interfaces for farmers and telemedicine are planned; no budget or timetable was given.

COMMUNITY DIGITAL CHAMPIONS PROGRAMME

- **EduSpots launches Digital Champions Programme to accelerate learning across 52 Ghanaian communities** — Citi Newsroom, 1 September 2026

  EduSpots launched a nine-month Digital Champions Programme on 1 September 2026 to train and certify 60 community leaders across 52 Ghanaian communities, under the Mastercard Foundation EdTech Fellowship. Participants attend a three-day residential academy in Elmina, followed by monthly modules on online safety, AI for educators and use of the EduSpots App.

NATIONAL CYBER SECURITY AWARENESS MONTH

- **Ghana Cyber Security Authority Launches 2026 Awareness Month to Strengthen Digital Finance Security** — Tech Africa News, 2 September 2026

  Ghana's Cyber Security Authority launched the 2026 National Cyber Security Awareness Month on 2 September, themed on securing the country's digital finance ecosystem and observed each October. Director-general Divine Selase Agbeti pressed banks, fintechs, payment service providers, insurers and merchants to treat cyber resilience as a core governance responsibility rather than a regulatory box, warning that lost trust in digital payments would undermine the wider digital economy. CSA figures put reported incidents at 2,008 in the first half of 2025 against 1,317 a year earlier, a 52% rise, with reported losses of GH₵14.94 million, more than 90% of it online fraud and impersonation.

- **Ghana sharpens digital finance security** — ITWeb Africa, 2 September 2026

  A second account of the same National Cyber Security Awareness Month launch, adding the Financial Industry Command Security Operations Centre as standing infrastructure for threat-intelligence sharing among Ghana's regulated financial institutions. See the Cyber Security Authority's launch entry for the campaign itself.

- **No sustainable digital economy without trust, cybersecurity – CSA** — MyJoyOnline, 1 October 2026

Ghana's Cyber Security Authority opened the 2026 National Cyber Security Awareness Month on securing digital finance. Its director-general asked banks, telecoms operators, fintechs and regulators to share threat intelligence quickly enough to stop attacks before losses occur.

Training and skills

ONE MILLION CODERS PROGRAMME

- **Ghana's One Million Coders Programme Begins ICT Trainers' Training** — Tech Africa News, 1 September 2026

  Ghana's communications ministry began a five-day training of trainers in datacom and access network technologies under the One Million Coders Programme on 31 August 2026, running to 4 September at the Ghana-India Kofi Annan Centre of Excellence in ICT. Huawei experts deliver the course, and each certified trainer is expected to train at least 20 members of the public.

  Summarised under Data protection.

- **Digital skills training producing solution-driven youth for Ghana's future – Sam George** — MyJoyOnline, 13 September 2026

  Ghana's communications minister, Samuel Nartey George, said the government has signed agreements with 12 universities to put One Million Coders Programme courses into first-year programmes from this academic year, and that 141,954 learners had enrolled by August 2026. He spoke at the graduation of 26 trainees from a Plan International Ghana project backed by Nokia. The universities are not named.

- **One Million Coders programme enrols 141,954** — Graphic Online, 15 September 2026

  Ghana's One Million Coders Programme had enrolled 141,954 accounts by August 2026, communications minister Samuel Nartey George said on 15 September. He said demand is highest for cybersecurity, data analytics and AI, and that 12 universities have signed agreements making its courses compulsory for first-year students from this academic year.

- **Ghana Reviews One Million Coders Programme After Beneficiaries Raise Training Challenges** — Tech Africa News, 13 October 2026

  Ghana's communications ministry is addressing training and infrastructure problems in the One Million Coders Programme after beneficiaries raised them in a monitoring exercise.

- **Gov't committed to expanding digital infrastructure and inclusion – Sam George | Ghana News Agency** — Ghana News Agency, 13 October 2026

  Ghana's communications minister presented 2,000 more laptops to a university for the One Million Coders Programme, where 195 of 1,447 enrolled students had completed the course. He said the ministry was working to open regional offices of the Cyber Security Authority.

- **Ghana's Sam George presents 2,000 laptops to KNUST as One Million Coders programme shifts focus** — Tech Review Africa, 14 October 2026

  Ghana's communications minister gave 2,000 more laptops to KNUST, adding to 500 given earlier, and said the One Million Coders Programme will now target third- and final-year students instead of first-years. He visited the university's Responsible AI Lab, which drafted the National AI Strategy launched in April 2026.

DIGITAL CERTIFICATIONS EMBEDDED IN UNIVERSITY DEGREES

- **Gov't signs MoUs with 11 universities to embed digital certifications in degree programmes** — MyJoyOnline, 7 September 2026

  Ghana signed memoranda with eleven universities to embed digital certifications into degree and diploma programmes.

AI AND ROBOTICS SUMMER BOOTCAMP

- **Ghana Launches AI and Robotics Bootcamp for 100 Young Innovators** — Tech Africa News, 9 September 2026

  Ghana's communications ministry has launched a five-day AI and robotics summer bootcamp for 100 students from 19 schools, split into four age cohorts covering coding, robotics and AI from ages 6 to 18. Younger participants work through visual and block-based activities and older ones through programming and design exercises.

AI EMPOWERED TRAINING FOR TVET FACILITATORS

- **TVET Service, UNESCO, KPMG and Microsoft partner to train 100,000 facilitators in AI and digital skills** — Ghana News Agency, 23 September 2026

  Ghana's TVET Service signed a memorandum with UNESCO, KPMG and Microsoft under the AI EmpowerED initiative to train at least 100,000 technical and vocational instructors in AI and digital skills. No cost or timeline was given.

NYAMRANSA MODEL ICT LABORATORY SCALE-UP POLICY

- **10 Years of Impact: Helping Africa Foundation calls for nationwide expansion of Nyamransa ICT model** — ModernGhana, 23 September 2026 GAMBIA LIBERIA

  The US-based Helping Africa Foundation marked its tenth anniversary in Gbawe, Ghana, and called on African governments to expand its youth ICT laboratory model. It has supported more than 19 ICT demonstration labs in Ghana, The Gambia and Liberia, with more planned in Tanzania and Zanzibar. Ghana's education ministry will discuss a scale-up policy; no funding is stated.

AI FOR YOUTH PROGRAMME AGREEMENT WITH INTEL

- **Ghana signs agreement with Intel to expand AI for Youth programme** — MyJoyOnline, 24 September 2026

  Ghana signed an agreement with Intel on the sidelines of UNGA81 to expand the AI for Youth programme into K-12 schools, with Coral Reef and the Ministry of Education as partners. The gender minister signed on behalf of the First Lady; no value or timeline was given.

KOICA DIGITAL BASIC EDUCATION CAPACITY-BUILDING PROGRAMME 2026-2032

- **Korea-Ghana @ 50: a partnership anchored on mutual respect, trust and shared prosperity** — Ghanaian Times, 5 October 2026

  South Korea's ambassador to Ghana, Kyongsig Park, told the Ghanaian Times that the Korea International Cooperation Agency is launching a Digital Basic Education Capacity-Building Programme for 2026 to 2032 with a budget of US$28 million. He said Korea also supports an ICT innovation centre at the University of Ghana, and more than 1,800 Ghanaians have taken part in KOICA programmes.

DPI INCLUSIVITY SURVEY

- **Global Development Network kicks off deployment of its five-country DPI Inclusivity Survey** — Global Development Network — Inclusive Digital Transformation Hub, 7 September 2026 SIERRA LEONE GLOBAL

  The Global Development Network has begun fieldwork on a five-country DPI Inclusivity Survey covering Sierra Leone and Ghana alongside Chile, Bangladesh and Indonesia, with partner teams at the Institute for Development and the University of Ghana. Running to April and engaging more than 5,000 households, it asks whether digital identity and digital payment systems leave people feeling more economically, socially and politically included, rather than measuring registration and access.

RURAL TELEPHONY AND DIGITAL INCLUSION PROJECT

- **Gov't to upgrade all rural telephony networks to 4G capability – Sam George** — MyJoyOnline (GNA), 5 September 2026

  Ghana's communications minister, Samuel Nartey George, said on 5 September 2026 that every Rural Telephony Project site will be upgraded to at least 4G, and that about 1,400 of the planned 2,016 sites are live. GIFEC's rural telephony allocation this year is about GH¢30 million. MTN Ghana is adding 800 sites this year and Telecel Ghana about 350.

- **Sam George inspects Rural Telephony projects to boost mobile network connectivity in Eastern Region** — News Alert Ghana, 6 September 2026

  Ghana's Communications Minister Samuel Nartey George inspected rural telephony sites in the Eastern Region on 4 September 2026 and directed that all rural telephony sites nationwide be upgraded to at least 4G. He said rural communities are still being given 2G and 3G. No cost or timetable for the upgrade is given.

- **NPP challenges Sam George over rural telephony record, demands data** — MyJoyOnline, 8 September 2026

Ghana's opposition New Patriotic Party said on 8 September 2026 that the Ghana Rural Telephony and Digital Inclusion Project began in 2020, financed by a EUR155 million China EXIM Bank facility, and left 1,961 sites built by January 2025. It called on the communications ministry and GIFEC to publish a full status report on the project within 30 days.

- **NPP gives Communications Ministry 30 days to disclose rural telephony status** — Citi Newsroom, 8 September 2026

  Ghana's opposition gave the communications ministry 30 days to publish a full status report on the Rural Telephony and Digital Inclusion Project, asking for sites constructed, connected, operational and built but out of service. The project runs on a EUR155 million China Eximbank facility against a target of 2,016 sites, with 1,961 stated as constructed at the January 2025 handover and 46 disputed as unconnectable.

- **Ghana Directs GIFEC to Expand Rural Connectivity and Accelerate Network Upgrades** — Tech Africa News, 14 October 2026

  After inspecting rural telephony sites on 13 October, Ghana's communications minister directed GIFEC to extend service to three more communities in Sekyere Afram Plains. The government is also working with MTN Ghana on 800 new sites at locations proposed by MPs.

- **Government to audit 2,016 community network sites – Communications Minister** — MyJoyOnline, 14 October 2026

  Ghana's communications minister Samuel Nartey George said the government will commission an independent audit of 2,016 community network sites inherited under an existing contract, to establish which are complete and working. He made the statement after inspecting four solar-powered rural telephony sites in Sekyere Afram Plains District on 13 October, which he said should be upgraded from 3G to 4G.
