Strategies, plans and policies

NATIONAL E-COMMERCE STRATEGY

- **"الأونكتاد" يدعم تونس في إعداد إستراتيجية للتجارة الإلكترونية** — Al Chourouk, 21 September 2026

  UNCTAD is helping Tunisia's trade and export development ministry draft a national e-commerce strategy, with initial planning meetings held from 31 March to 2 April 2026, according to Ramzi Louati of Tunisia's mission in Geneva. No adoption date or drafting timetable is given.

NATIONAL HEALTH PACT

- **Santé : la Tunisie signe un Pacte national pour accélérer la couverture sanitaire universelle** — Tunisie Numerique, 2 October 2026

  Tunisia's health and communication technologies ministers signed a National Health Pact on 1 October to speed universal health coverage through digital transformation. Its six axes include sovereign governance of health data, modernised digital platforms and medicine supply-chain security; it is backed by the World Bank and WHO.

LA POSTE TUNISIENNE STRATEGY 2026-2030

- **Poste tunisienne : l'IA et le numérique au cœur de la stratégie 2026-2030 - Tunisie Numerique** — Tunisie Numerique, 9 October 2026

  Tunisia's communications minister, Sofiene Hemissi, said on 9 October 2026 that La Poste tunisienne's 2026-2030 strategy will integrate artificial intelligence and digital identity into postal services. Its chief executive listed five priorities, including financial inclusion and e-commerce logistics, and an enterprise resource planning rollout under way. The minister ruled out turning the Post into a bank.

Legislation and regulation

COMPULSORY E-INVOICING (ARTICLE 53)

- **Tunisie: Fiscalité - Le conseiller Anis Ben Saïd détaille l'obligation de la facturation électronique pour 380 000 professions libérales** — allAfrica, 20 September 2026

Tunisian tax adviser Anis Ben Saïd told Diwan FM on 19 September 2026 that electronic invoicing is now mandatory for about 380,000 liberal-profession providers, including doctors, lawyers, engineers and accountants, with registration on the platform open since 15 September. Invoices are validated through the mobile digital identity and cannot be changed once signed; errors require a credit note.

- **جريدة الصباح نيوز - عمادة الأطباء تعلن تمسكها بالتحفظ على تطبيق منظومة الفوترة الإلكترونية على القطاع الطبي بصيغتها الحالية** — Assabah News, 3 October 2026

  Tunisia's National Council of the Order of Physicians said on 3 October 2026 that it maintains its objection to applying electronic invoicing to doctors in its current form. It argues that a 2026 tax note extended Article 53 of the Finance Law to non-commercial professions without legal basis, and cites medical secrecy and patient data protection. A proposed amendment it helped draft is still awaited.

CENTRAL BANK CIRCULAR 2026-10 ON PAYMENT ESTABLISHMENTS

- **Circulaire n°2026-10 relative aux établissements de paiement** — Banque Centrale de Tunisie, 25 September 2026

  Tunisia's central bank issued Circular 2026-10 on payment institutions on 25 September 2026, replacing Circular 2018-16 with effect three months after publication. It sets three tiers of client payment accounts, allows remote account opening with reliable identity checks, caps cash transfers at 3,000 dinars per operation and requires an annual IT security audit by a firm certified by the national cybersecurity agency.

REMOTE-WORK BILL

- **وزير الشؤون الاجتماعية.. مشروع قانون العمل عن بعد جاهز وفي طور استكمال مراحله الإدارية الأخيرة** — Al Chourouk, 8 October 2026

  Tunisia's social affairs minister Issam Lahmar said on 8 October 2026 that the remote-work bill is ready and completing its final administrative stages. He said the ministry has also studied the platform economy and prepared a legal text on it, and is working on core labour-law principles and mediation in labour disputes. No date for submission to parliament is given.

Data protection

NATIONAL AUTHORITY FOR PERSONAL DATA PROTECTION

- **Le Forum Chawki Gaddes dénonce la divulgation de données personnelles et appelle à protéger les mineurs** — Business News (Tunisia), 4 October 2026

  Tunisia's Forum Chawki Gaddes for digital rights condemned the spread on social media of personal and sensitive data, including leaked judicial documents and images of child victims. It says the national data-protection authority has stopped working although its law remains in force, and calls for it to be reactivated.

INTERNET PROVIDER PARENTAL-CONTROL OBLIGATION

- **وزارة تكنولوجيات الاتصال: إجراءات جديدة لتوفير حماية أكبر للأطفال على شبكة الإنترنت** — Al Chourouk, 5 October 2026

  Tunisia's communications ministry announced child-protection measures resting on a telecommunications regulator's decision of 10 June 2026. Internet providers must offer parental controls covering site blacklists, device management and access-time limits, tell subscribers about them and write a child-protection clause into contracts.

Regional collaboration

AFRICAN TELECOMMUNICATIONS UNION COUNCIL SEAT

- **3rd African Preparatory Meeting for WRC-27 (APM27-3) and the 11th African Spectrum Management Conference** — African Telecommunications Union (ATU), 7 September 2026 AFRICA

  The African Telecommunications Union published the draft agenda and working-group schedule for the third African Preparatory Meeting for the 2027 World Radiocommunication Conference, held in Tunis on 7–11 September 2026 alongside the 11th African Spectrum Management Conference. The agenda covers the ITU's preparatory work plan, other regions' positions and the WRC-27 agenda items.

- **African Delegations Seek Common Ground in Tunis Ahead of 2027 World Radiocommunication Conference** — African Telecommunications Union (ATU), 9 September 2026 AFRICA

  African governments and telecoms regulators opened four days of talks in Tunis on 8 September 2026 to build common spectrum positions ahead of the 2027 World Radiocommunication Conference. Hosted by Tunisia's National Frequency Agency and coordinated by the African Telecommunications Union, it is the third such preparatory meeting, after Maseru in 2024 and Nairobi in 2025.

- **ATU calls for stronger spectrum policy as Africa prepares for WRC-27** — TechReviewAfrica, 10 September 2026 AFRICA

  The African telecommunications union's secretary-general called for stronger alignment among African administrations on spectrum policy, at the 11th Africa spectrum management conference in Tunis. He singled out the mid-band ranges where mobile broadband demand will need capacity and coordination, and argued that policy must extend beyond identifying frequencies to how spectrum is priced and licensed.

AI FORWARD SUMMIT 2026

- **كاتب دولة: قمة الذكاء الاصطناعي فضاء للحوار حول السبل الكفيلة بجعل هذه الثروة رافعة للتنمية والتعاون والسلام** — Radio Nationale Tunisienne, 9 September 2026 NORTH AFRICA

  The AI Forward Summit 2026, organised by the Arab Information and Communication Technologies Organisation and Tunisia's communication technologies ministry, opened in Tunisia on 9 September 2026. Secretary of State Mohamed Ben Ayed told the opening session that Tunisia wants international cooperation on capacity-building, technology transfer and finance so developing countries produce AI rather than only consume it.

- **ياسمين الحمامات.. افتتاح قمة "الذكاء الاصطناعي نحو المستقبل 2026"** — Assabah News, 9 September 2026

  The Arab ICT Organisation and Tunisia's communication technologies ministry opened the 'AI towards the Future 2026' summit in Yasmine Hammamet on 9 September 2026. Participants include the ITU, UNESCO, the Council of Europe, Smart Africa, ESCWA and the GSMA; sessions cover turning AI's technical potential into economic and social value.

INTERNATIONAL DECLARATION ON SPACE-BASED SCIENTIFIC DATA

- **International declaration on space-based scientific data.** — Élysée, 10 September 2026 ANGOLA DRC MADAGASCAR MAURITIUS RWANDA GLOBAL

  Angola, the Democratic Republic of Congo, Madagascar, Mauritius, Rwanda and Tunisia are among the 49 states that signed, with the European Space Agency, a declaration on space-based scientific data published by France's presidency on 10 September 2026. It commits signatories to open access to satellite observation data, save for exceptions such as security and personal data, and to common exchange standards.

TUNIS DECLARATION ON DIGITAL HEALTH

- **TeleHealth Connect Tunisia 2026 : la Tunisie veut faire du numérique un levier d'équité en santé** — La Presse de Tunisie, 29 September 2026

  Tunisia's health minister Mustapha Ferjani said on 29 September 2026, opening the TeleHealth Connect Tunisia conference, that the ministry aims to give every citizen a unique health identifier and digital medical record before the end of 2026, hosted on a Tunisian sovereign cloud. He said more than 32 hospitals were equipped for remote imaging this year and the digital hospital has run over 120,000 radiology exams.

- **إعلان تونس" للتحول الرقمي في قطاع الصحة.. التفاصيل":** — Assabah News, 30 September 2026

  Tunisia's health ministry unveiled a 'Tunis Declaration' on digital health at the TeleHealth Connect 2026 conference, attended by experts from about 35 countries, reported on 30 September 2026. It commits to protecting health data and digital sovereignty under national law, treating cybersecurity as part of patient safety, responsible human-centred AI, and interoperable systems on open standards.

Standards

HOSTING OF THE THIRD AFRICAN PREPARATORY MEETING FOR WRC-27

- **African Delegations Demand Common Ground In Tunis Ahead Of 2027 World Radiocommunication Conference** — Cyber Era, 17 September 2026 AFRICA

  African governments and regulators opened four days of talks in Tunis to build common positions on the radio frequencies used by mobile, satellite and other wireless services, ahead of the 2027 World Radiocommunication Conference. Broadband capacity, rural connectivity and future communications technologies are the focus.

G-CLOUD AND N-CLOUD PROVIDER LABELS

- **Cybersécurité et entreprises : ce qui va changer pour les entreprises publiques et leurs fournisseurs privés** — Webmanagercenter (WMC), 22 September 2026

  An analysis of Tunisia's circular of 2 September 2026 on public-sector cybersecurity says it obliges public enterprises to adopt multi-factor authentication, DDoS protection, regular audits, backups and business continuity measures, creating recurring costs. The national cybersecurity agency's list of 17 September names only six qualified N-Cloud providers. New continuity and recovery requirements are announced from 1 January 2027.

Public debate and participation in policymaking

DECREE-LAW 54 ON CYBER-OFFENCES AND ITS REVISION

- **مقترح قانون عدد 017 / 2024 يتعلق بتنقيح واتمام المرسوم عدد 54 لسنة 2022 المتعلق بمكافحة الجرائم المتصلة بأنظمة المعلومات والاتصال** — Assemblée des Représentants du Peuple (ARP), 6 September 2026

  Parliament's own case file for the bill amending Tunisia's 2022 cyber-offences decree-law puts dates on a revision that has been called a priority: deposited on 20 February 2024, referred to committee on 10 April 2025, carrying 38 sponsors, and still unvoted. The amendments themselves are not published on the page, so what the bill would change remains unstated.

- **مجلس الوزراء ينظر في تنقيح 3 مراسيم.. من بينها المرسوم 54** — Al Chourouk, 30 September 2026

  Tunisia's Council of Ministers, chaired by President Kais Saied, discussed a draft decree amending Decree 54 of 2022 on crimes involving information and communication systems on 29 September 2026. The content of the amendment was not published.

ICT Infrastructure

Connectivity · Data Storage · Cybersecurity

Connectivity

TUNIXP NATIONAL INTERNET EXCHANGE POINT

- **À propos – ATI Tunisie Internet** — Agence Tunisienne d'Internet (ATI / Tunisie Internet), 3 September 2026

  The Tunisian Internet Agency (ATI) describes itself as Tunisia's incumbent internet operator since 1996, now an access provider and national host. Its own page says it runs the national internet exchange point (TUNIXP), the .tn and .تونس domain registry and national IP addressing. The page carries no date.

NATIONAL FIBRE BACKBONE

- **TeleHealth Connect Tunisia 2026 : la Tunisie veut faire du numérique un levier d'équité en santé** — La Presse de Tunisie, 29 September 2026

  Summarised under Regional collaboration.

Data Storage

CIRCULAR ON SECURING PUBLIC BODIES' DIGITAL SYSTEMS

- **منشور حكومي لتعزيز تأمين المنظومات الرقمية للهياكل العمومية من التهديدات السيبرنية** — Al Chourouk, 4 September 2026

  Tunisia's prime minister issued a circular on 2 September 2026 requiring public bodies' websites and service platforms to be hosted only at the National Computing Centre, sectoral public centres or licensed operators. It also mandates HTTPS, multi-factor authentication and an annual security audit by auditors accredited by the National Cyber Security Agency.

STATE DATA CENTRE AT THE NATIONAL COMPUTING CENTRE

- **Hosting services** — Centre National de l'Informatique (CNI), 19 September 2026

  Tunisia's national computing centre describes the state data centre that carries the government's major applications: about fifty servers serving some 4,500 workstations across ministries, regional offices, public bodies and municipalities, with a replicated backup site.

SOVEREIGN CLOUD FOR NATIONAL HEALTH DATA

- **TeleHealth Connect Tunisia 2026 : la Tunisie veut faire du numérique un levier d'équité en santé** — La Presse de Tunisie, 29 September 2026

  Summarised under Regional collaboration.

ORANGE TUNISIE AND FOCUS LOCAL CLOUD PARTNERSHIP

- **Tunisia's Orange and Focus Partner to Expand Local Cloud Services** — Tech Africa News, 6 October 2026

  Orange Tunisie and Focus Tunisie announced a partnership to offer companies cloud and infrastructure resources hosted and operated in Tunisia, pitched on control over where data sits. No value, capacity or start date is given.

Cybersecurity

CIRCULAR REQUIRING A COMMON SECURITY BASELINE FOR PUBLIC DIGITAL SYSTEMS

- **Cybersécurité : la Cheffe du gouvernement tunisienne appelle les organismes publics à appliquer les bonnes pratiques** — Tunisie Haut Débit, 3 September 2026

Tunisia's head of government Sarra Zaafrani Zenzri issued circular no. 5 on 2 September 2026, setting security rules for public bodies' digital systems based on a technical note by the cybersecurity agency ANSI. It requires approved hosting, HTTPS on all pages, multi-factor authentication, an ANSI-accredited audit before launch and yearly after, DDoS protection and .tn domains.

- **Cybersécurité : le grand tournant pour l''administration ?** — La Presse de Tunisie, 5 September 2026

  An analysis of the head of government's circular of 2 September sets out what it requires of the administration: encrypted connections, mandatory renewal of security certificates, two-factor verification for administrator access, protection against traffic-saturation attacks and hosting on state-approved servers, with messaging apps and social media banned for official documents and shared credentials ended. It binds the administration rather than the wider economy, and carries no compliance deadline.

Data Exchange

HOSPITAL INFORMATION SYSTEMS AND THE COMPUTERISED MEDICAL RECORD

- **Tunisia bets on telehealth as it prepares to host Telehealth Connect 2026** — DH Arab, 25 September 2026

  Tunisia is hosting Telehealth Connect 2026 in Tunis from 29 September to 1 October, with more than 500 participants from 30 countries expected. The health ministry reports teleradiology in 30 facilities, 99 facilities implementing electronic medical records and 800,000 active registrations for the national health identifier. It is preparing Sahetna, a platform for patients to view appointments and health records.

CRIMINAL-RECORD EXTRACT (B3) DIGITISATION AND INTERCONNECTION

- **B3 : le ministère de l'Intérieur dévoile sa nouvelle stratégie** — Tuniscope, 6 October 2026

  Tunisia's interior ministry, answering a deputy's written question, said its plan for the criminal-record extract rests on digitising the record through interconnection with the justice ministry, to update judgments, and the finance ministry, to enter fines automatically. The aim is faster issue of the extract.

Digital Identity and CRVS

E-HOUWIYA MOBILE IDENTITY

- **Numérisation : Le ministère de l'Agriculture intègre l'identité numérique « E-Houwiya » d'ici novembre 2026** — Tunisie-Tribune, 18 September 2026

  Tunisia's agriculture ministry issued a circular requiring every body under it to integrate the E-Houwiya digital identity into its platforms by 15 November 2026. It makes the E-Houwiya identifier the sole reference for any new digital service and requires strong multi-factor authentication where extra checks apply.

NATIONAL HEALTH IDENTIFIER

- **Tunisia bets on telehealth as it prepares to host Telehealth Connect 2026** — DH Arab, 25 September 2026

  Summarised under Data Exchange.

- **TeleHealth Connect Tunisia 2026 : la Tunisie veut faire du numérique un levier d'équité en santé** — La Presse de Tunisie, 29 September 2026

  Summarised under Regional collaboration.

- **Avec 180 000 Identifiants uniques, le CHU de Sahloul leader national en transition numérique - La Presse de Tunisie** — La Presse de Tunisie, 7 October 2026

  Tunisia's Sahloul university hospital in Sousse had unified 180,000 patient records under the unique health identifier by 6 October 2026, ranking it first among public hospitals in the roll-out, it said in a statement. A meeting chaired by its director general agreed a common method for handling outstanding technical cases.

Digital Payments and Fintech

SIBTEL CLEARING, THE SMT CARD SYSTEM AND THE SGMT SETTLEMENT SYSTEM

- **Systèmes de paiement — Banque Centrale de Tunisie (Système de la Télécompensation, compensation manuelle, système de la Monétique, SGMT)** — Banque Centrale de Tunisie, 3 September 2026

  Tunisia's central bank describes the country's payment systems on its website: SIBTEL clearing for transfers, direct debits, cheques and bills of exchange with 24-hour settlement; the SMT card system and its secure online payment service; and the SGMT real-time gross settlement system. The SGMT, in service since November 2006, handles about 722 payments a day worth 3.255 billion dinars. The page carries no publication date.

FREE DIGITAL WALLETS FOR SCHOOL AND UNIVERSITY REGISTRATION

- **Numérisation : La Poste Tunisienne valide plus de 1,8 million d'inscriptions scolaires et universitaires en ligne - La Presse de Tunisie** — La Presse de Tunisie, 9 October 2026

  La Poste Tunisienne said about 1.57 million pupils, some 75%, and about 287,300 university students, some 76%, paid their 2026–2027 registration fees online using its free e-Dinar wallets. The post office also brought a new integrated ERP system into operation and launched the Universal Postal Union's Ecom@africa e-commerce exchange platform at Tunis-Carthage airport.

Registries

LIVRE FONCIER AND COMPULSORY LAND REGISTRATION

- **Immatriculation foncière obligatoire (Cadastre)** — Office de la Topographie et du Cadastre (OTC), Ministère de l'équipement et de l'habitat, 3 September 2026

  Tunisia's Office of Topography and Cadastre describes the compulsory land registration procedure under a 1964 decree-law. The land court opens and rules on cases, the office surveys boundaries and draws plans, and the National Land Property Office enters each property in the land register with a title number. The page carries no date.

TAX IDENTIFIER AND THE TEJ FILING PLATFORM

- **Octroi d'un identifiant fiscal** — Ministère des Finances, Tunisie, 3 September 2026

  Tunisia's Ministry of Finance sets out how a tax identifier is granted: the applicant files a declaration of existence at the competent tax-control office, which may inspect the premises before its head issues the identifier immediately. The page lists the documents required and cites Article 56 of the income and corporate tax code and Decree 2008-201 of 29 January 2008.

- **Direction générale des impôts : de nouvelles fonctionnalités ajoutées à la plateforme d'échange fiscal « Tej »** — Tunisie Numérique, 8 September 2026

  Tunisia's tax directorate announced on 8 September 2026 new functions on its Tej tax-exchange platform from September. Taxpayers can check their filing status in real time, subscribers can delegate functions to other users, and public bodies can check their suppliers' tax position. Tej now also carries all withholding-tax certificates, and public bodies still on the older e-sit-fisc system were told to register.

- **Fiscalité numérique : la DGI enrichit la plateforme « TEJ »** — L'Economiste Maghrébin, 8 September 2026

  Tunisia's tax directorate added functions to its TEJ tax data exchange platform from September 2026, announced on 8 September. Taxpayers can check their filing status in real time and delegate tasks to other users, public enterprises can check suppliers' tax standing, and all withholding-tax certificates now go through TEJ.

NATIONAL BUSINESS REGISTER DIGITALISATION

- **Le RNE tunisien rejoint l'EBRA, une première pour un pays africain** — Nessma, 26 September 2026

  Tunisia's national business register, the RNE, became a full member of the European Business Registry Association on 21 September 2026, the first African registry to join. Membership lets it take part in the association's work on digitalisation, information-system interoperability and identifying beneficial owners. The association has 42 members.

Sectoral management information systems

OFFICE OF TRADE STOCK AND SALES MANAGEMENT APPLICATION

- **ديوان التجارة يستعدّ لإطلاق تطبيقة معلوماتيّة جديدة للتّصرف في المخزونات والبيوعات** — Assabah News, 1 September 2026

  Tunisia's state trade office, the Office du Commerce, is preparing to launch an application built by its own IT department to manage stocks and sales, track performance indicators and check sale procedures at its storage and distribution centres. Purchasing and logistics are to be added later, followed by a user guide. No cost, supplier or launch date is given.

SCHOOL LIFE PLATFORM (VIESCOLAIRE.EDUCATION.TN)

- **Rentrée scolaire 2026-2027 en Tunisie : plus de 1,69 million d'élèves inscrits à distance** — Directinfo (Webmanagercenter), 3 September 2026

  Tunisia's education ministry said about 1.691 million pupils, 81% of those eligible, had enrolled online for the 2026-2027 school year by 3 September 2026. Of these, 1.587 million had paid their enrolment fees, and enrolment continued ahead of the start of school on 15 September.

PSIM MATERNAL, NEWBORN AND CHILD HEALTH PLATFORM

- **Santé : vers une plateforme numérique dédiée à la santé de la mère et de l'enfant** — Le Temps News, 8 September 2026

  Tunisia's health ministry and UNICEF held a national workshop in Tunis, reported on 8 September 2026, to prepare PSIM, a digital platform for maternal, newborn and child care. The workshop reviewed a benchmarking study of existing practice and identified priority needs. No launch date, cost or funding source is stated.

CHILD PROTECTION DELEGATES' INFORMATION SYSTEM

- **انطلاق العمل بالمنظومة المعلوماتية الجديدة لمندوبي حماية الطفولة** — Al Chourouk, 11 September 2026

  Tunisia's Ministry of Family, Women, Children and the Elderly brought into service a new information system for child protection delegates on 11 September 2026, built by national teams. It digitises and analyses case data on children at risk and children in conflict with the law. The ministry plans two training sessions for delegates in regional offices during September.

LABOUR ADMINISTRATION DIGITAL PLATFORM

- **Minister of Social Affairs: new digital labour-administration platform enters service in September 2026** — Tunisia TV, 14 September 2026

Tunisia's social affairs minister, Issam Lahmar, told the Arab Labour Conference in Cairo on 13 September 2026 that his ministry has prepared a digital labour-administration platform to launch during September. He said it will support labour inspectors and provide up-to-date data on the social situation.

- **Tunisie : l'inspection du travail passe au numérique** — Tunisie Numérique, 23 September 2026

  Tunisia's Ministry of Social Affairs launched the Gestion du travail digital platform for labour inspectors on 23 September 2026, developed under an International Labour Organization project. Its modules cover enterprises, inspection visits, workplace accidents, conciliation and social dialogue, and enterprise data is to be exchanged with the national business register and the social security fund. A pilot runs to the end of December 2026.

PUBLIC TELERADIOLOGY NETWORK

- **Tunisia bets on telehealth as it prepares to host Telehealth Connect 2026** — DH Arab, 25 September 2026

  Summarised under Data Exchange.

NATIONAL MEDICINE STOCK TRACKING PLATFORM

- **Médicaments : comment la Tunisie veut prévenir les ruptures avant qu'elles ne surviennent** — Tunisie Numerique, 29 September 2026

  Tunisia's health ministry announced an extra 15 million dinars a year for regional health facilities to buy and stock medicines, alongside a national platform to track medicine stocks, reported on 29 September 2026. Licence holders must report stocks and give three months' notice before withdrawing a product. The pharmacists' union put digitisation of orders with the central pharmacy at about 80% complete.

MOSQUE STAFF MANAGEMENT PLATFORM

- **Lancement d'une plateforme numérique pour gérer les cadres des mosquées - La Presse de Tunisie** — La Presse de Tunisie, 10 October 2026

  Tunisia's religious affairs ministry has launched a platform to manage mosque staff: it follows personnel files, shows vacant posts and links central and regional services.

Other GovTech and e-Gov

KHADAMET MOBILE PORTAL FOR ADMINISTRATIVE SERVICES

- **Khadamet : l'administration en un clic ?** — L'Économiste Maghrébin, 2 September 2026

  L'Économiste Maghrébin reviews Khadamet, the Tunisian communication technologies ministry's single app for public services, presented on Express FM on 2 September 2026. The app uses digital identity and covers health-insurance refunds, vehicle tax, traffic fines, bill payment and children's birth certificates; the outlet argues its value depends on government back offices being interconnected. A web version is planned for people without smartphones.

- **خدمات»: تطبيقة جديدة لتبسيط الإجراءات الإدارية ورقمنتها في تونس»** — Radio Express FM, 2 September 2026

  Tunisia's communications technology ministry has released Khadamet, a mobile app giving access to administrative services through digital identity, including bill and fee payments, health and social security claims, and civil-status documents. Its wallet holds documents such as the vehicle registration card and passport and warns before they expire. An official said about 70% of Tunisians use mobile phones to reach services; a second version is expected in the coming months.

- **Application « Khadamet » : 50.000 utilisateurs en dix jours** — La Presse de Tunisie, 13 September 2026

Tunisia's Khadamet app for online public services registered 50,000 users in its first ten days, Ahmed Megdich of the Directorate-General for Information Technology said, reported on 13 September 2026. Social security, civil status, education, bill payment and road-traffic services were among the most used.

TAAMIR BUILDING PERMIT PLATFORM

- **Tunisie : lancement de la plateforme numérique « Taamir »** — Webmanagercenter, 14 September 2026

  The municipality of Tunis launched Taamir, a digital platform for filing and tracking building-permit applications, announced on 14 September 2026. The municipality said the existing paper procedure stays in force for now. The national platform was announced on 24 June for 16 municipalities.

ELFATOORA ELECTRONIC INVOICING PORTAL

- **Tunisie TradeNet annonce le lancement du portail web de la facturation électronique** — Tunisie Numérique, 15 September 2026

  The trade network opened a web portal for electronic invoicing from 15 September, aimed at businesses and professionals with low invoicing volumes, letting them configure their environment and prepare and track invoices.

VOCATIONAL TRAINING ONLINE REGISTRATION PLATFORM

- **السنة التكوينية الجديدة: حوالي 112 ألف ترشح عبر المنصة الجديدة للتسجيل عن بعد** — Radio Sfax, 18 September 2026

  Tunisia's new online registration platform for vocational training received about 112,000 applications by 17 September 2026, the start of the training year, against 70,000 in 2025, the Tunisian Vocational Training Agency said. A second platform handles hostel and canteen applications and fee payments.

INNORPI DIGITALISED INDUSTRIAL-PROPERTY SYSTEM

- **(Tunisie) Enjeux juridiques du nouveau système digitalisé de l'INNORPI. Par Montaha Ben Taieb, Juriste.** — Village de la Justice, 7 October 2026

  A Tunisian jurist, Montaha Ben Taieb, examines the legal questions raised by the digital industrial-property system that Tunisia's standards and industrial property institute, INNORPI, launched in June 2026 for trademarks, patents and designs. She covers the legal value of electronic filings, how filing dates are fixed, data protection and cybersecurity risk.

KHADAMAT PUBLIC-SERVICES MOBILE APP

- **«وزارة تكنولوجيات الاتصال: تطبيقة «خدمات» متاحة للتحميل على «آبل ستور** — Al Chourouk, 11 October 2026

  Tunisia's communication technologies ministry released its Khadamat public-services app on a second mobile platform, after an Android release at the end of August. It is reached through the e-Houwiya digital identity and covers civil-status records, driving licence and vehicle data, traffic fines, inspection bookings, health-insurance and social-security services and e-payments.

TAAMIR BUILDING-PERMIT PLATFORM

- **بلدية تونس: الشروع في اعتماد المنصة الرقمية "تعمير" لايداع ومتابعة ملفات رخص البناء** — Assabah News, 14 September 2026

The Municipality of Tunis began adopting the Taamir platform for filing and tracking building-permit applications, keeping the paper route open for now. Taamir was launched in 16 municipalities in June under an interior ministry agreement with German cooperation and USAID funding.

Rural digital data capture

ECOLES NUMERIQUES DIGITAL-EDUCATION KITS

- **Ecoles Numériques** — Fondation Orange Tunisie (en partenariat avec le Ministère de l'Éducation et le Centre National des Technologies en Education), 3 September 2026

  The Orange Foundation in Tunisia says its Digital Schools programme, run with the Ministry of Education since 2014, has equipped 185 public primary schools with offline digital-education kits. Each kit includes two Raspberry Pi servers, 25 tablets, a laptop and a projector, giving pupils educational content without an internet connection. The page carries no date.

SI-SSPL PRIMARY-CARE INFORMATION SYSTEM

- **Digitalisation** — Programme Essaha Aziza (Ministère de la Santé / Union Européenne), 3 September 2026

  The Essaha Aziza programme, run by Tunisia's health ministry with the European Union, documents its work to digitise primary-care facilities: a diagnosis of the existing information system, governance recommendations, a national electronic medical record, and deployment on pilot sites in Nabeul. Training of field teams and developers was carried out by the firm Elligy. No dates or costs are given.

SANAD 2 CUSTOMS RISK-TARGETING SYSTEM

- **Tunisia's Finance Ministry Moves to Integrate AI into Taxation, Customs and Accounting** — News Tunisia, 29 September 2026

  Tunisia's Ministry of Finance said it is integrating artificial intelligence into its taxation, customs and accounting systems, at a conference held by its national finance and customs schools. Projects to be announced include a chatbot for the tax directorate and Sanad 2, a customs system for risk targeting and certificates of origin. No cost or timetable is given.

- **Tunisie: L'IA bientôt intégrée au ciblage des déclarations douanières à risque** — La Presse de Tunisie via allAfrica, 9 October 2026

  Tunisian Customs official Kais Ben Zayed said on 9 October 2026 that AI built by in-house staff will be added to the customs risk-management and selectivity system at the end of November 2026, to target high-risk declarations. He said nine or ten customs services have been digitised and more than 1.5 million declarations were examined in 2025.

BIG-DATA AND MACHINE-LEARNING TAX-AUDIT PROJECT

- **Douanes et fiscalité : la Tunisie accélère l'usage de l'intelligence artificielle** — WMC, 30 September 2026

  Tunisia's customs and tax services plan to use machine learning to target high-risk declarations and audits; a customs risk-model test on 2025 data found about 96.9 million dinars in additional amounts. The finance ministry's IT centre said a one-year big-data tax-audit project on local infrastructure is at the bidding stage.

- مشروع ميزانية 2027: استراتيجية لتعبئة الموارد ترتكز على التعويل على الذات ومكافحة التهرب الجبائي بالذكاء الاصطناعي — Assabah News, 6 October 2026

  A Tunisian finance ministry document on the 2027 draft budget plans to fight tax evasion using artificial intelligence, data analysis and linked databases across public bodies, reported on 6 October 2026. It also aims to reduce external borrowing, widen the tax base and expand digital tax services. The document itself is undated and not published.

MACHINE-LEARNING MODULE IN THE CUSTOMS SELECTIVITY SYSTEM

- **Douane tunisienne : le circuit rouge recule fortement en 2026 - La Presse de Tunisie** — La Presse de Tunisie, 6 October 2026

  Tunisian Customs said on 6 October 2026 that it has used AI in its risk analysis of declarations since May 2026. The share of declarations sent to the red channel for full inspection fell from 4.7% in 2025 to 2.6% in 2026. An official said customs could be paperless within 12 to 18 months.

AI RISK TARGETING AT THE CUSTOMS ADMINISTRATION

- **Douane : l'intelligence artificielle bientôt utilisée pour détecter les fraudes et contrôler les marchandises** — Business News (Tunisia), 12 October 2026

  Tunisian Customs spokesman Colonel-Major Chokri Jabri said on 12 October 2026 that first trials of artificial intelligence for targeting high-risk shipments improved targeting by 20-25%. AI will also be used to analyse container scanner images remotely, and the SINDA 2 customs IT system is due for completion by the end of 2027 as declarations move to paperless processing.

Training and skills

ARTIFICIAL INTELLIGENCE IN VOCATIONAL TRAINING PROGRAMMES

- وزير التشغيل يعلن إدراج الذكاء الاصطناعي في برامج التكوين المهني — Al Chourouk, 7 September 2026

  Tunisia's employment minister said artificial intelligence is being added to vocational training, with twelve laboratories to be created in training centres from the new training year.

- **Formation professionnelle : Le Kef accueille son premier laboratoire d'IA en partenariat avec Tunisie Telecom** — Webdo, 18 September 2026

  Tunisia's employment and vocational training minister, Riadh Chaoued, announced on 17 September 2026 the creation of an artificial intelligence laboratory at the vocational training centre in Le Kef, in partnership with Tunisie Telecom. It is the first of 12 AI labs the ministry announced on 7 September for vocational training centres in 2026-2027. No cost is given.

CONTINENTAL EXECUTIVE PROGRAMME ON AI GOVERNANCE

- **Executive Capacity Building Programme on AI Governance, Trust and Digital Sovereignty, Yasmine Hammamet** — Smart Africa Digital Academy (SADA), 8 September 2026 AFRICA

  The Smart Africa Digital Academy held a two-day executive programme on AI governance, trust and digital sovereignty in Yasmine Hammamet, Tunisia, for more than 40 senior policymakers and regulators, with RealTyme and Université Laval. Sessions covered risk-based regulation, AI standards, sovereign infrastructure and adding AI to existing digital public infrastructure.

ENGINEERS LEAVING THE COUNTRY

- **Étude sur la transformation digitale et l'IA en Tunisie - Édition 2026** — Arnault Chatel (LinkedIn Pulse), 25 September 2026

  A 2026 study of Tunisia's digital transformation and AI sets recent infrastructure gains, including the Medusa submarine cable landing at Bizerte in November 2025, the first national supercomputer entering trials in July 2026 and a national AI strategy for 2026-2030 presented in August, against continuing emigration of engineers. It cites more than 7,000 engineers leaving in 2025 and an expected 8,000 in 2026, and asks how the country can turn that talent into value created at home.

EMPLOYMENT MINISTRY AND TUNISIE TELECOM FRAMEWORK PARTNERSHIP

- **امضاء اتفاقية شراكة إطارية بين وزارة التشغيل و "اتصالات تونس" في مجال الاتصالات والتحول الرقمي** — Assabah News, 14 October 2026

  Tunisia's Ministry of Employment and Vocational Training signed a five-year renewable framework agreement with Tunisie Telecom on 14 October. The operator is to connect employment offices and training centres to fibre, install AI labs in vocational-training centres and host a distance-training system in its national data centre.

NATIONAL INSTITUTE OF STATISTICS DEVELOPMENT STRATEGY

- **المجلس الوطني للإحصاء يستعرض استراتيجية تطوير المعهد الوطني للإحصاء وبرنامج عمله لسنة 2027** — Assabah News, 17 September 2026

  Tunisia's National Statistics Council reviewed the statistics institute's development strategy and its 2027 work programme at its second plenary of the year, alongside its own annual statistical programme and the progress of the general agricultural census. Neither the strategy nor the work programme is published with the communique.

INTERNET USE

- **Usages des TIC en Tunisie : Un taux d'accès de 85,9 %, une consommation nocturne et la primauté du Sud** — L'Echo Tunisien, 1 October 2026

  Tunisia's telecoms regulator, the Instance Nationale des Télécommunications, puts the national internet access rate at 85.9% in its latest ICT use barometer, reported on 1 October 2026. Use is 99.2% among 18–24 year-olds and 54.1% among 60–70 year-olds, and ranges from 69.1% in the lowest-income households to 95.9% in the highest. The barometer's fieldwork date is not given.
