Algeria

DATA CENTRE AT EL AFFROUN, BLIDA

- **AAPI : quatre projets d'investissement bénéficient de foncier économique, plus de 1300 emplois à la clé** — Algerie Eco, 2 September 2026

  Algeria's investment promotion agency (AAPI) handed over land concessions on 2 September 2026 for four projects, including a site at El Affroun in Blida wilaya for a data centre by the company Diar Dzair, expected to create 340 jobs. The other three are food-industry projects in Bordj Bou Arreridj. No investment sum is given.

I-CLOUD DATA CENTRE, AKBOU

- **Akbou Inaugurates Nation's First 100% Sovereign Data Center** — DZWatch, 4 October 2026

  Algeria inaugurated I-Cloud, described as its first wholly sovereign data centre, in the Akbou industrial zone in Bejaia. The knowledge economy minister presided, and agreements were signed with local industrialists and Algeria Venture on small firms' access to it; the inauguration date and capacity are not stated.

Angola

NATIONAL PRESS DATA CENTRE

- **Imprensa Nacional inaugura Data Center** — ANGOP, 11 September 2026

  Angola's state printing house, Imprensa Nacional, opened its own data centre in Luanda on 11 September 2026 to support official and security documents and document authentication systems. It has more than 170 terabytes of storage and over one terabyte of processing memory. The institution produces about 600 million fiscal stamps a year. The investment was not disclosed.

- **Imprensa Nacional deixa de depender do exterior para documentos de alta segurança** — Correio da Kianda, 12 September 2026

  Angola's state printer, Imprensa Nacional, inaugurated its own data centre in Luanda on 11 September 2026. Board chair Lando Teta said it will let the printer produce and certify high-security state documents in-house rather than buying them abroad, and offer authentication and traceability services to private companies.

Botswana

KALA DATA CENTRE

- **Tlou weighs Kala data centre expansion** — ITWeb Africa, 5 October 2026

  Tlou Energy's annual report says Botswana's gas-powered Kala Data Centre ran well below its design of about 1MW in the year to June 2026, for lack of gas from the one connected well. The company has begun planning a pipeline from a second well, and any expansion depends on gas supply and funding.

Burkina Faso

NATIONAL BIG DATA CENTRE

- **JEPPC 2026/Transformation digitale : 10 milliards de francs CFA investis pour les premières « Maisons du citoyen »** — leFaso.net, 9 October 2026

  Burkina Faso's digital-transition minister said 80 citizen service houses have been launched on a FCFA 10 billion envelope, against a target of one in each of 351 communes by 2030. She put the two modular data centres at FCFA 15 billion and a national data centre at an estimated FCFA 20 billion, and said digital identity enrolment was due to start in October.

Cameroon

DOUALA ARTIFICIAL-INTELLIGENCE DATA CENTRE AND POWER PLANT

- **Cybastion backs Cameroon digital sovereignty with $75M infrastructure project** — Biometric Update, 4 September 2026

  Cybastion, a US digital ID and cybersecurity firm, confirmed a US$75 million commitment to build a data centre and a dedicated power plant in Douala, Cameroon, reported on 4 September 2026. The figure was first announced by the US embassy at the US–Cameroon Bilateral Economic and Commercial Dialogue at the end of August. No construction timetable is given.

- **US Firm Cybastion Plans $75 Million AI Data Center and Power Plant in Douala** — Business in Cameroon, 7 September 2026

  A United States firm plans US$75m, about FCFA 42.25bn, for a Douala data centre designed in part for artificial-intelligence workloads with dedicated power generation. The planning ministry describes it as an intention presented at the first bilateral economic forum rather than a commitment; the same vendor's Ivorian project was underwritten by a US$66.14m export-credit guarantee.

ORANGE CAMEROUN DATA CENTRE, DOUALA

- **Mieux nous connaitre | Orange Business Cameroun — Le Data center Orange Tiers III+** — Orange Business Cameroun, 16 October 2026

  Orange Business Cameroon describes its data centre, open since May 2017, as Tier III+ with 340 racks in two server rooms. The company claims 99.82% availability and two separate medium-voltage grid feeds; no certification is named.

Central African Republic

ELECTORAL AUTHORITY DATA-PROCESSING CENTRE

- **RCA : une enquête ouverte après l'incendie du centre de données de l'ANE** — Journal de Bangui, 24 September 2026

A fire damaged part of the data-processing centre of the Central African Republic's National Elections Authority in the week before 24 September 2026, and the government opened an investigation. Territorial administration minister Bruno Yapandé said the residual elections scheduled for October 2026 will go ahead. No cause or estimate of damage is given.

Congo

NATIONAL DATA CENTRE

- **Le Vice-Premier ministre inspecte l'état d'avancement de la ferme solaire et du Data center** — Vox Congo, 24 September 2026

  The Republic of Congo's deputy prime minister, Jean-Jacques Bouya, and the telecoms and digital economy minister, Frédéric Nzé, inspected the national data centre at Bacongo, Brazzaville, and the Kintélé solar farm on 22 September 2026. Bouya said the data centre, built with the African Development Bank, should be operational by the end of 2026 or early 2027, after energy tests and then two to three months of data-centre tests.

Cote d'Ivoire

NATIONAL DATA CENTRE

- **Ivory Coast targets launch of first state-owned data center in 2027** — Data Center Dynamics, 9 September 2026

  Cote d'Ivoire is targeting 2027 for the opening of its first state-owned data centre, built by Cybastion at an estimated US$66 million under an Export-Import Bank of the United States financing package. The facility is specified at 1.73MW of IT capacity within 3MW of total power, 228 racks and 10 petabytes of storage.

PUBLIC-ADMINISTRATION DATA CENTRE AT THE INSTITUT NATIONAL POLYTECHNIQUE FELIX HOUPHOUET-BOIGNY, YAMOUSSOUKRO

- **Administration électronique : un data center installé à l'INP-HB de Yamoussoukro** — Ivoirematin, 17 September 2026

  A data centre has been installed at the Institut national polytechnique Felix Houphouet-Boigny in Yamoussoukro to support Cote d'Ivoire's electronic administration. It is presented as strengthening national capacity to store, process and secure the public administration's data.

Egypt

INTEGRATED HYPERSCALE DATA-CENTRE AND AI HUB PROPOSAL

- **Egypt open to international partnerships to strengthen position as regional data center hub** — Egypt State Information Service, 3 September 2026

  Egypt's communications minister, Raafat Hindi, met a delegation from the data-centre developer Heka Data and a US alliance of data-centre developers on 3 September 2026 to discuss an integrated zone for hyperscale data centres and artificial intelligence in Egypt. Talks covered the project's concept, scale and phases. No investment figure, site or timetable was stated.

- **Egypt explores hyperscale data centre hub** — ITWeb Africa, 4 September 2026

Egypt is exploring an integrated hub for hyperscale data centres and artificial intelligence with the United States digital infrastructure company Heka Data, in talks that would draw on the country's location, fibre networks and subsea cables to strengthen its position as a regional hub for data centres, cloud computing and digital services.

- **Egypt Explores Major Data Centre and AI Hub Project With Heka Data, US Consortium** — TechAfrica News, 4 September 2026

  Egypt's communications minister met the data-centre developer Heka Data and the United States consortium it leads to discuss an integrated data-centre and artificial-intelligence hub, covering the project's concept, scale, implementation phases, investment and job potential and the integration of digital infrastructure with power supply. No investment figure, site or timetable was stated.

GOVERNMENT AI DATA-CENTRE TENDER

- **Sovereignty just acquired a pyramid-shaped target** — theCUBE Research, 4 September 2026

  A commentary sets out Egypt as the first country to receive competing artificial-intelligence data-centre bids from both superpowers: a 102-page Huawei proposal covering military, surveillance and public-sector use obtained on 26 August, against a United States counter-offer that has not been published. China's president arrived in Cairo on 1 September and agreements on artificial intelligence and technology transfer were reported being signed that week; no award is on file.

AFRICA DATA CENTRES EGYPT

- **Egypt's data-centre project targets up to $1bn** — The Truth, 15 September 2026

  Partnerships between a telecoms group, a pan-African operator and a domestic engineering contractor could draw as much as US$1bn into data-centre infrastructure, pairing large-scale development with locally hosted artificial intelligence computing.

KEMET DATA CENTRE, SOKHNA

- **Egypt, INTRO Holding advance plans for $1.2 bln Kemet data centre in SCZone** — Al-Ahram (Ahram Online), 23 September 2026

  Egypt's communications minister met INTRO Investment Holding to review the Kemet data centre in the Suez Canal Economic Zone's Sokhna industrial zone, planned as the zone's first Tier III facility at 80 MW. The project is put at USD 1.2 billion, with USD 270 million for phase one; no timeline was disclosed.

EFINANCE, ALIBABA CLOUD AND NUVEXA CLOUD MEMORANDUM

- **OPEN// eFinance, Alibaba Cloud bring global cloud services to Egyptian businesses** — Middle East News Agency (MENA), 7 October 2026

  Egypt's eFinance Investment Group, Alibaba Cloud and Nuvexa signed a memorandum, reported on 7 October 2026, to explore offering Alibaba Cloud services to Egyptian businesses through eFinance's locally hosted infrastructure, with data kept and processed in Egypt. Small businesses, agriculture and digital commerce come first. No sum is stated.

EGYPT'S TOTAL OPERATIONAL DATA-CENTRE CAPACITY IN MW

- **A consortium is forming to take an equity stake in an Egyptian data center, but the sector's barriers run deep** — EnterpriseAM, 7 October 2026

> Egypt has about 15–20 MW of installed data centre IT capacity, and of 400–500 MW announced across four large projects only about 20 MW is committed, Post For Investment's chief executive told the EnterpriseAM Egypt Forum on 5 October 2026. He said his firm is forming a consortium to take an equity stake in a data centre; the four projects would need US$4–5bn.

Eswatini

> NATIONAL DATA CENTRE DISASTER RECOVERY SITE

- **Govt seeks to cancel E182m data recovery site loan** — Times of Eswatini, 22 September 2026

  Eswatini's Finance Minister Neal Rijkenberg told Parliament that the Treasury has asked Exim Bank of India to cancel an undrawn US$10.4 million loan, about E182 million, for a government data recovery site in the Lubombo Region. The project stalled and no work has taken place, while commitment fees continue to accrue. The bank has not yet confirmed the cancellation.

- **E182m data centre loan not cancelled - Neal** — Times of Eswatini, 5 October 2026

  Eswatini's finance ministry says the E182 million India Exim Bank loan for a disaster recovery site at Siteki has not been cancelled. What the minister meant in Parliament was the commitment fee on the undrawn balance, which the lender has agreed to stop; 1% of the loan has been drawn.

> NATIONAL DATA CENTRE

- **National Data Centre hit by 'incident'** — Times of Eswatini, 24 September 2026

  Eswatini's Royal Science and Technology Park confirmed that an incident at the National Data Centre disrupted at least 12 government digital services, including e-Visa, company registration, the government website and the financial management system. It did not confirm social-media claims of a hack or ransom demand, and said outside experts were helping restore services.

- **INTERPOL roped in on RSTP incident** — Times of Eswatini, 28 September 2026

  Eswatini's police have engaged INTERPOL over the incident at the National Data Centre and will investigate once a consultant hired by the science park and the ICT ministry reports. Unnamed sources suspect a third-party client gave attackers a way in; preliminary findings point to corrupted files and no data stolen.

Gabon

> AI DATA CENTRE FOR THE PUBLIC ADMINISTRATION AT THE CHARBONNAGES SITE

- **Administration publique : vers un data center IA made in Gabon avec la Chine ?** — GabonReview, 16 September 2026

  A Chinese government delegation inspected La Poste and Gabon Telecom sites in Libreville on 15 September 2026 as a possible home for an AI data centre serving the public administration. The postal site can host more than 300 servers; the project depends on the Gabon-China partnership being finalised.

Gambia

> INCUMBENT OPERATOR CO-LOCATION AND FACILITY RENTAL

- **Co-Location / Facility Rental Services – GAMTEL** — GAMTEL, 16 October 2026

  Gambian operator GAMTEL offers ISPs and small businesses space for servers and network equipment at its 43 sites and towers. Its listed prices include a GMD 3,000 installation fee and GMD 1,000 per square metre of floor space a month.

Ghana

ATOMIC ENERGY COMMISSION AI DATA CENTRE

- **Zanetor Agyeman-Rawlings calls for human control of GAEC's proposed AI Data Centre** — Ghanaguardian.com, 10 October 2026

  Visiting the Ghana Atomic Energy Commission on 9 October, the science and technology minister said the AI data centre it proposes must run under human oversight to protect sensitive nuclear information. She asked for governance arrangements to be written into the plan.

Guinea

KOLOMA NATIONAL TIER III DATA CENTRE

- **Data Center National : le Premier ministre evalue l'operationnalisation de l'infrastructure** — WebGuinee24.info, 9 September 2026

  Guinea's prime minister, Amadou Oury Bah, visited the National Data Centre on 9 September 2026, a year after its inauguration, to review progress towards full operation. He told the teams concerned to finalise and send the technical and administrative documents needed to speed up its commissioning. No date for full operation is given.

- **Bah Oury : 'Nous avons besoin de rattraper notre retard et de renforcer notre souverainete numerique'** — VisionGuinee.Info, 10 September 2026

  Guinea's prime minister, Bah Oury, visited the national data centre on 9 September 2026 and said it is still not fully operational a year after its inauguration in September 2025, despite nearly US$10 million invested. He said the work is about 90% complete with one payment outstanding, and that he will propose measures to the president to bring it into service.

- **Data Center national : Bah Oury met sous pression les cadres des Télécoms pour l'opérationnalisation de cette l'infrastructure de dix millions Usd** — Guinéenews, 14 September 2026

  Guinea's prime minister, Bah Oury, pressed telecoms officials on a visit reported on 14 September 2026 to bring the national data centre into service. He was told the project, costing about US$10 million, is roughly 90% complete but not fully operational. He said he would demand detailed information from the digital economy ministry's agencies.

- **Guinée : Amadou Oury Bah exige l'accélération de la mise en service du Data Center national. | Sahel Matin** — Sahel Matin, 15 September 2026

  Guinea's prime minister, Amadou Oury Bah, visited the national data centre at Koloma on 15 September 2026, found it about 90% complete but not operational, and ordered it brought into service. The investment is put at close to $10 million. He asked the digital economy ministry to identify blockages and wants concrete results within two to three weeks.

Kenya

NBO2 DATA CENTRE, NAIROBI CAMPUS

- **Digital Realty Strengthens Nairobi as East Africa Digital Gateway with New Data Center** — Digital Realty, 7 September 2026

A second facility on the operator's Nairobi campus adds 6.4MW of capacity, opened alongside the retirement of the iColo brand in Kenya and Mozambique in favour of the parent's. The figure is critical IT load rather than delivered live load, and no occupancy or campus total is published.

- **Government welcomes digital investors** — The Standard, 7 September 2026

  Kenya's ICT principal secretary John Tanui told investors the government is working on policy to keep the country attractive, speaking at the launch of the NBO2 data centre in Nairobi, where Icolo rebranded as Digital Realty. The company's Africa managing director Marcel Louw said it runs more than 17 data centres in Africa, with over 200 megawatts of capacity going live.

- **Firm bolsters East Africa's tech hub with data centre** — The Standard, 8 September 2026

  Digital Realty opened its Nairobi Two (NBO2) data centre in Karen, adding 6.4 MW to its Nairobi campus, which now has more than 14 MW of IT power over 34,000 square metres. NBO2 has six data halls. The launch also marked the rebranding of icolo to Digital Realty; the source's date for the event is inconsistent.

NOBUS NAIROBI AVAILABILITY ZONE

- **Nobus Opens Nairobi Availability Zone** — CIO Africa, 9 September 2026 NIGERIA

  Nobus Cloud Services, a Nigerian public cloud provider operated from Lagos, went live with a Nairobi availability zone designated Nobus-EA-AZ1, letting Kenyan organisations provision workloads locally. It opened alongside a programme offering free cloud credits and technical support to African startups and enterprises.

OFFSHORE ARTIFICIAL-INTELLIGENCE DATA CENTRE AT MOMBASA

- **Greek firm Amaco partners with US energy giant for Sh194bn Mombasa data centre** — Business Daily Africa, 10 September 2026

  A Greek energy group has partnered with a United States energy-equipment company to supply gas turbines for its proposed US$1.5 billion artificial-intelligence data centre at Mombasa. The turbines would sit in an unmotorised floating power barge feeding local or national grids, and the facility is intended to serve East African demand for computing infrastructure.

TATA CONSULTANCY SERVICES SOVEREIGN CLOUD AT IXAFRICA

- **TCS Sovereign Cloud Goes Live In Nairobi** — CIO Africa, 28 September 2026

  Tata Consultancy Services' sovereign cloud went live in Kenya, hosted at iXAfrica's Nairobi campus and delivered with a regional integrator, aimed at government agencies and regulated sectors with data-residency rules. Its capacity, pricing and clients were not disclosed.

Lesotho

HYDROPOWER AND AI DATA CENTRE AGREEMENT

- **Lesotho's biggest foreign investment deal faces scrutiny** — Daily Maverick, 15 September 2026

  The country signed a US$6.2bn agreement, its largest recorded foreign investment, for a hydropower plant and artificial intelligence data centre. A feasibility study runs over the next year, then implementation agreements including water-use plans, and a potential conflict of interest has surfaced.

- **Minister may benefit from Lesotho's R100-billion AI and hydropower deal** — GroundUp, 15 September 2026

> The public works minister holds shares in a firm the energy minister named among potential local partners for the country's US$6.2bn artificial intelligence and hydropower project. He has previously been accused of conflict of interest.

Liberia

CENTRAL BANK OF LIBERIA PAYMENTS DATA CENTRES AND LIB-PSS FACILITY

- **Specific Procurement Notice — Invitation for Bids: Data Centers Upgrade (Main and DR), IFB CBL/G/PS/2026/01** — Central Bank of Liberia, 28 September 2026

  The Central Bank of Liberia has opened an international tender to upgrade its main and disaster-recovery data centres, financed by the African Development Bank under its payments infrastructure upgrade project. Bids, with a US$18,000 security, are due on 28 October 2026.

Libya

KM-4 DATA CENTRE CERTIFICATION

- **Uptime Institute — KM-4 Data Center, Libyan International Telecom Company** — Uptime Institute, 3 September 2026

  A tier III design certification is recorded for the Libyan national telecom company's KM-4 site, the first independent assessment of a Libyan facility the repository holds. It certifies design rather than construction or operation, and no capacity figures are disclosed.

O3 GROUP TIER III DATA CENTRE, BENGHAZI

- **Libya's O3 Group Unveils Digital Infrastructure Plans After Medusa Cable Landing** — TechAfrica News, 19 October 2026

  Libya's O3 Group, a private telecoms company founded in 2024 and based in Benghazi, set out its infrastructure plans as the Medusa submarine cable made its first Libyan landing at Benghazi on 17 October 2026. The plans include a 12,000 to 13,000 km national fibre network, a Tier III data centre in Benghazi and a mobile service. A second Medusa landing is planned for Tripoli.

Malawi

CONVERGED TECHNOLOGY NETWORKS AI-ENABLED EDGE DATA CENTRE, LILONGWE

- **Is Smaller, Better? CTN's bet on AI-enabled edge data centers** — LinkedIn (Brian Munyao Longwe, CEO, Converged Technology Networks), 9 September 2026

  Converged Technology Networks' chief executive, Brian Munyao Longwe, wrote on 9 September 2026 that the company is upgrading its Lilongwe edge data centre, live since February 2026, for AI workloads with support from the EU D4D Hub, and plans further sites in Blantyre, Mzuzu and Zomba alongside 150 new 4G sites. He puts Malawi's fixed broadband connections at about 15,000.

TNM THIRD DATA CENTRE

- **TNM expands Malawi data infrastructure** — ITWeb Africa, 11 September 2026

  Telekom Networks Malawi bought OpenConnect Limited's Tier 3 data centre at Kanengo, Lilongwe, for K12 billion, about US$6.9 million, unveiling it on 11 September 2026. TNM will link it with its Limbe data centre into one cloud platform to offer data centre as a service and host local AI platforms.

Mauritius

CENTRAL BACKUP SERVICE

- **Computer Support (Central Backup Service)** — Central Information Systems Division (CISD), Ministry of Information Technology, Communication and Innovation, 1 September 2026

  Mauritius runs a central offsite backup service for government electronic media out of the central information systems division, alongside technical support and equipment commissioning for ministries and departments. It is the state's standing backup arrangement; the page publishes no capacity, retention period or restoration-test record.

Morocco

ICUDAR DAKHLA GREEN DATA CENTRE

- **Maroc IA 2030 : le Royaume passe de l'ambition a l'action** — LesEco.ma, 10 September 2026

  Morocco's digital transition minister, Amal El Fallah Seghrouchni, presented the operational phase of the Maroc IA 2030 roadmap in Rabat on 8 September 2026. It includes green data centres at Dakhla, a network of regional JAZARI institutes and language models in Darija and Amazigh. Targets for 2030 are MAD 100 billion added to GDP, 50,000 jobs and 200,000 trained people.

NEXUS ARTIFICIAL-INTELLIGENCE COMPUTE PLATFORM

- **FiveNines Group partners with Nexus Core Systems to develop 20MW data centre in Morocco** — EIN Presswire (FiveNines Group announcement), 7 October 2026

  The UK firm FiveNines Group was appointed to lead design management and procurement strategy for a 20MW AI data centre that Nexus Core Systems plans near Casablanca, Morocco, using Nvidia's Vera Rubin reference architecture. The announcement puts the wider Nexus AI Factory platform's target at 180MW on renewable power. No cost, permit or construction start is given.

Namibia

NATIONAL AND PUBLIC DATA CENTRE

- **AI to boost digital services: Theofelus** — New Era, 25 September 2026

  Namibia's ICT minister, Emma Theofelus, said at the launch of the National AI Institute in Windhoek on 23 September 2026 that 4G covers about 89% of the country and internet use is about 62%. She said construction of the National Data Centre at Kenya House has begun. No measurement date for the coverage figures is given.

- **NCRST opens National AI Institute** — New Era, 25 September 2026

  Namibia's National Commission on Research, Science and Technology launched the National Artificial Intelligence Institute in Windhoek, with centres for research, software, datasets and AI innovation. The commission said 2,000 students have received AI training and it has funded two GPU-enabled high-performance computing centres at the Namibia University of Science and Technology and the University of Namibia. No cost is given.

Nigeria

KASI HYPERSCALE DATA CENTRE CAMPUS

- **NSIA bets on 100MW AI data centre to power Nigeria's digital economy** — BusinessDay Nigeria, 1 September 2026

Nigeria's sovereign wealth fund announced plans for KASI, a 100MW artificial-intelligence-ready hyperscale data centre campus in Lagos offering co-location, cloud, storage and high-performance compute. It is framed as import substitution for compute currently bought abroad; no construction start or cost is stated.

AIRTEL NXTRA EKO ATLANTIC DATA CENTRE

- **Vertiv Agrees $2.6 Billion AI Power Deal As Airtel Africa Builds Nigerian Data Centre** — THEWILL, 4 September 2026

  Vertiv, the power and cooling vendor named in October 2025 for Airtel Africa's Nxtra data centre in Lagos, agreed to acquire UtilityInnovation Group for up to US$2.6 billion, about US$1.45 billion in cash at closing with the balance tied to earnings targets over 12 and 24 months. The report puts the Lagos site's planned capacity at 42MW over four construction phases to 2028, where Airtel Africa's own website gives 38MW, a difference neither company has reconciled.

COMMERCIAL DATA-CENTRE ESTATE

- **Nigeria's 197-Megawatt Data-Center Market Needs Power Reform to Scale** — MoneyCentral, 4 September 2026

  S&P Global Ratings puts Nigeria's data-centre capacity at about 197 megawatts, against 435 MW in Saudi Arabia and roughly 40 GW in China, in a report of 4 September 2026. S&P rates Nigeria's power availability for data centres as very low, citing reliance on self-generation and grid instability, while noting the Central Bank of Nigeria's data-localisation rules and tax incentives as support for local investment.

- **Nigeria targets fourfold data centre capacity increase** — The Punch, 28 September 2026

  An industry forum in Lagos set out a plan to raise Nigeria's data-centre capacity from about 50 MW of IT load to about 200 MW over five years, with a market assessment counting 21 operational facilities and 16 upcoming. A speaker said more than 80% of Nigeria's sovereign data is hosted abroad.

DIGITAL PARKS AFRICA NIGERIA DATA CENTRE 1 (NDC1)

- **Digital Parks Africa expands African footprint with new Nigerian data centre facility** — Lifestyle & Tech (South Africa), 9 September 2026

  Digital Parks Africa announced Nigeria Data Centre 1, a carrier-neutral facility in Lagos and its first outside southern Africa, at ITW Africa. The developer frames the build as an extension from power and technical services into data centre operations, aimed at financial institutions, cloud and connectivity providers; no investment value is stated.

AFRIDATA NIGERIA DATA CENTRES, LAGOS AND DELTA

- **AFRIDATA Nigeria Data Center Feasibility Study (USTDA business opportunity, request for proposals)** — U.S. Trade and Development Agency (USTDA), 15 September 2026

  The US Trade and Development Agency has granted US$1,870,000 to Infragora Global Capital for a feasibility study of two data centres in Nigeria's Lagos and Delta states, with 60–70 MW of combined capacity expandable to 100 MW. US firms are invited to bid by 13 October 2026. The centres would be owned by AFRIDATA Datacenter Nigeria Ltd, a company formed for the project.

Rwanda

SHARED GOVERNMENT DATA HUB AND INTEROPERABILITY PLATFORM

- **Africa needs to take charge of its digital health systems, says minister** — The New Times, 2 October 2026

Rwanda's Minister of State for ICT and Innovation Yves Iradukunda told the Africa HealthTech Summit in Kigali on 1 October 2026 that reliance on external funding and procurement leaves health systems vulnerable, and called for aligned data-exchange policies across Africa. He set out Rwanda's data governance roles: the statistics institute as custodian, the ICT ministry for policy and the Rwanda Information Society Authority for platforms.

Senegal

STELLARIX DATA CENTRE, DIAMNIADIO

- **STELLARIX Senegal Expands Data Centre Capacity to Support AI and Digital Growth** — Tech Africa News, 2 October 2026

  STELLARIX Senegal, part of the AXIAN Group, said it has expanded its data-centre capacity in Senegal for cloud, AI and hosting demand. It named three contractors and gave no capacity or cost figure.

Sierra Leone

AFCOM DATA CENTRE, FREETOWN

- **Data Center & Colocation – Afcom** — Afcom, 16 October 2026

  Afcom describes its Freetown data centre as a privately owned, carrier-neutral Tier III facility offering rack, cage and cloud hosting. It claims 99.9% availability, with redundant generators able to run for two weeks without refuelling.

Somalia

COMMERCIAL COLOCATION DATA CENTRES (DALKOM)

- **Colocation And Web Hosting Services** — Dalkom Somalia, 16 October 2026

  Somali operator Dalkom offers colocation and hosting in its own data centres in Mogadishu and Nairobi, connected to a redundant 10 Gbps backbone. The company says it holds stakes in the EASSy cable and WIOCC.

South Africa

JOHANNESBURG DATA-CENTRE EXPANSION

- **Equinix points to data centres' economic role amid resource concerns** — Business Day, 3 September 2026

  Equinix said its South African build-out runs to about 160MW of added capacity under a R7.5bn investment programme, including two proposed Cape Town facilities approved for land-use changes in July 2026. The South African Human Rights Commission called for submissions in May on data centres' resource use, and Eskom expects a 2-3GW generation surplus. No date is given for the R7.5bn programme.

WATER AND POWER CONSTRAINT ON THE DATA CENTRE PIPELINE

- **SA's data centre boom risks hitting a wall over water and power** — Sunday Times (TimesLIVE), 8 September 2026

  A ratings agency rates South Africa's water resilience relatively low and names energy and water as the risks to a data-centre pipeline, suggesting operators may need modular energy that bypasses the grid.

AWS AFRICA (CAPE TOWN) REGION

- **AWS puts $2.3bn behind Africa's cloud, AI future** — ITWeb South Africa, 10 September 2026 AFRICA

A large cloud provider says it has invested more than US$819 million in African infrastructure since 2018 and committed a further US$1.5 billion to 2029, with 154 services now available in its Cape Town region. Its general manager for Sub-Saharan Africa told a Johannesburg summit the Africa strategy is increasingly aimed at local developers building for regional markets, and claimed more than a million Africans trained in cloud and AI skills.

JNB11 DATA CENTRE OWNERSHIP, CENTURION

- **Merger Alert: Competition Tribunal approves acquisition of JNB11 data centre; and renewable energy merger with HDP ownership conditions** — Competition Tribunal of South Africa, 16 September 2026

  South Africa's Competition Tribunal approved the acquisition of the JNB11 data centre by Main Street 2156, a newly formed South African company, from Vantage Data Centers South Africa. The deal transfers the companies that operate the facility and own its building and lease rights. The notice gives no transaction value, conditions or ultimate buyer.

- **South Africa could soon get a new fibre giant as rivals plot major merger** — African Insider, 18 September 2026

  South African fibre operators Octotel and MetroFibre confirmed they are assessing a possible merger, reported on 18 September 2026. Old Mutual's African Infrastructure Investment Managers owns all of Octotel and 37% of MetroFibre; a combined network would rank third behind Vumatel and Telkom's Openserve. No deal has been finalised.

STANDARD BANK GROUP HYBRID-CLOUD PARTNERSHIP WITH HUAWEI

- **Standard Bank Group, Huawei forge strategic cloud partnership to drive digital, intelligent finance in Africa** — ITWeb South Africa, 29 September 2026

  Standard Bank Group expanded its partnership with Huawei to move its core banking systems from legacy infrastructure to a hybrid cloud platform, in phases across the 21 African countries it operates in. No value, timetable or hosting location was given.

CONTINENT 8 DATA CENTRE, JOHANNESBURG

- **Continent 8 Technologies launches data center in Johannesburg, South Africa** — Data Center Dynamics, 5 October 2026

  Continent 8 Technologies, which hosts online gaming and betting operators, announced its first African data centre, in Johannesburg. It did not disclose the site or any colocation partner.

Tanzania

NATIONAL DATA CENTRES AT DODOMA AND ZANZIBAR

- **SMZ yatenga Sh53 bilioni kuendesha miradi ya Tehama** — Mwananchi, 3 October 2026

  Zanzibar's government has set aside more than TZS 53 billion for three ICT infrastructure projects, chiefly a data centre and public internet, communication minister Mudrik Ramadhan Soraga said on 2 October 2026. He said a draft startups bill creating a fund of grants and low-cost loans is due for first reading in November or December 2026.

Tunisia

CIRCULAR ON SECURING PUBLIC BODIES' DIGITAL SYSTEMS

- **منشور حكومي لتعزيز تأمين المنظومات الرقمية للهياكل العمومية من التهديدات السيبرنية** — Al Chourouk, 4 September 2026

> Tunisia's prime minister issued a circular on 2 September 2026 requiring public bodies' websites and service platforms to be hosted only at the National Computing Centre, sectoral public centres or licensed operators. It also mandates HTTPS, multi-factor authentication and an annual security audit by auditors accredited by the National Cyber Security Agency.

> STATE DATA CENTRE AT THE NATIONAL COMPUTING CENTRE

- **Hosting services** — Centre National de l'Informatique (CNI), 19 September 2026

  Tunisia's national computing centre describes the state data centre that carries the government's major applications: about fifty servers serving some 4,500 workstations across ministries, regional offices, public bodies and municipalities, with a replicated backup site.

> ORANGE TUNISIE AND FOCUS LOCAL CLOUD PARTNERSHIP

- **Tunisia’s Orange and Focus Partner to Expand Local Cloud Services** — Tech Africa News, 6 October 2026

  Orange Tunisie and Focus Tunisie announced a partnership to offer companies cloud and infrastructure resources hosted and operated in Tunisia, pitched on control over where data sits. No value, capacity or start date is given.

Uganda

> THIRD NATIONAL DATA CENTRE IN THE NITA-U STRATEGIC PLAN

- **Blogs: Plan now for infrastructure to power AI** — New Vision, 10 October 2026

  Godfrey Mutabazi, director of Net Studios Africa, argues in a New Vision opinion column that Uganda needs a 10–15-year national compute and data-centre programme. He notes that the national backbone connects more than 1,600 government sites and that the 2025/26–2029/30 strategic plan provides for a third national data centre in Entebbe, with disaster recovery in Jinja.
