South Africa

START-UP FUNDING CONDITIONS

- **South Africa's startup funding is recovering, but founders still struggle to find fit** — TechCabal, 2 September 2026

  South African startups raised $335.9 million in 2025, more than three times the $100.4 million of 2024, across 42 rounds rather than 25, with average deal size nearly doubling to $7.99 million. The recovery is uneven: only three of the 42 rounds carried a debt component, and continent-wide the first half of 2026 held roughly flat at $1.44 billion while deal count fell from 252 to 174 and early-stage startups took just $9 million against $25 million a year earlier. The argument is that the money is not absent but badly matched to stage.
