Governance

Strategies, plans and policies

- **À Doha, le Mali défend un numérique souverain et accessible à tous** — Malijet, 12 November 2026 MALI

  Mali's digital economy minister, Alhamdou Ag Ilyène, spoke for Mali and the Sahel confederation at the ITU conference in Doha, Malijet reported on 12 November 2026. The minister listed infrastructure, cybersecurity, online services and rural access as priorities. The minister asked the ITU for more support to African states, in particular those of the Sahel confederation. *Also under Access to services, Digital sovereignty and Regional collaboration.*

- **NITDA, U.S. Chamber of Commerce Explore Strategic Partnerships to Advance Nigeria's Digital Economy** — NITDA, 12 November 2026 NIGERIA

  NITDA Director General Kashifu Inuwa received a U.S. Chamber of Commerce delegation led by Kendra Gaither, NITDA reported on 12 November 2026. Inuwa said the federal government invested more than NGN 4.5 trillion in IT between June 2023 and June 2026. Inuwa said NITDA is working with the Central Bank of Nigeria on an assurance framework for data localisation. *Also under Data Storage and US / hyperscaler activities.*

- **Nitda, Cbn Partner To Strengthen Nigeria'S Digital Sovereignty Through National Sovereign Cloud Initiative** — NITDA, 12 November 2026 NIGERIA

  NITDA and the Central Bank of Nigeria held a dialogue on the National Sovereign Cloud Initiative, NITDA reported on 12 November 2026. Director General Kashifu Inuwa said the two bodies want the financial sector to comply first. *Also under Data Storage and Digital sovereignty.*

- **Mamadou Lamine Dianté suggère un cadre d'anticipation et d'accompagnement de l'IA - APS** — Agence de presse sénégalaise (APS), 12 November 2026 SENEGAL

  Senegal's Minister of the Civil Service, Mamadou Lamine Dianté, proposed on 12 November 2026 that the State, employers and unions draw up a national framework on AI at work, APS reported. The minister made the proposal at a workshop held with the Konrad Adenauer Foundation. The framework would cover changes in jobs and skills, training and workers' rights. *Also under AI.*

- **Lesotho Calls for Affordable International Connectivity for Landlocked Countries to Ensure They Are Not Left Behind in the Digital Transformation Agenda** — Government of Lesotho, 12 November 2026 LESOTHO

Lesotho's ICT minister, Nthati Moorosi, asked the ITU to prioritise affordable connectivity for landlocked states, the government reported on 12 November 2026. The minister spoke at the ITU conference in Doha. Lesotho has approved a digital transformation strategy, an AI policy and a data policy. With ITU support, it is building an emergency telecoms plan and a farmers' registry. *Also under Connectivity*.

- **Le Groupe de la Banque africaine de développement et l'Agence française de développement renouvellent leur partenariat pour accélérer le financement des priorités de développement en Afrique** — Agence Française de Développement, 12 November 2026 AFRICA

  The African Development Bank Group and the Agence française de développement signed a memorandum of understanding for 2026-2031 in Paris on 10 November 2026. Its areas include digital infrastructure, data governance and the responsible use of AI. Energy and transport are also covered. No sum is attached; the two lenders have co-financed 17 projects in 14 countries since 2021. *Also under MoUs and other agreements, Connectivity and AI*.

- **Launch of the National E-commerce Strategy of Mauritania** — UNCTAD, 12 November 2026 MAURITANIA

  UNCTAD says Mauritania's digital transformation ministry was to launch its National E-commerce Strategy 2026-2030 on 12 November 2026. The strategy builds on a 2023 eTrade Readiness Assessment and was funded by GIZ and UNCTAD's core donors (Australia, Switzerland and the Netherlands). A development partners' roundtable was set for 13 November. *Also under ICT Industry*.

- **AI Governance Fragmentation Cause For Concern** — CIO Africa, 12 November 2026 KENYA

  Lawyers at Bowmans, writing in CIO Africa on 12 November 2026, warn that Kenya's AI rules risk overlapping mandates. They list the National AI Strategy of March 2025 and a draft AI policy published for comment in July 2026. A draft data governance policy and a private member's AI Bill are also in play. The Central Bank of Kenya published draft guidance on AI in banking in September 2026. *Also under AI and Legislation and regulation*.

Legislation and regulation

- **Hyperscalers want clear rules before they build data centers in Egypt** — Enterprise (EnterpriseAM), 12 November 2026 EGYPT

  Lawyers quoted by Enterprise say Egypt's data rules deter hyperscalers. Each transfer of data abroad needs its own permit, and limits on state access are unclear. Egypt has an estimated 15-60 MW of installed data-centre capacity against an ambition of 400-500 MW. The government plans a national data-centre strategy by the end of 2026 but has set no date for new rules. *Also under Data Storage, Data protection and US / hyperscaler activities*.

- **FRA Approves 10 Companies to Offer Non-Bank Financial Services Using FinTech** — Financial Regulatory Authority (Egypt), 12 November 2026 EGYPT

  Egypt's Financial Regulatory Authority approved 10 companies to run non-bank financial activities through fintech, in a release of 12 November 2026. They include the start-ups Nice Deer, for factoring, and Dayra Microfinance, as well as insurers, brokers, asset managers and custodians such as MNT-Halan. Each approval is tied to a named e-KYC provider, chiefly VLens. *Also under Digital Payments and Fintech and Digital Identity and CRVS*.

- **CRAN develops regulatory framework for AI, satellite internet and blockchain** — The Brief (Namibia), 12 November 2026 NAMIBIA

Namibia's Communications Regulatory Authority is developing a regulatory sandbox, The Brief reported on 12 November 2026. It would let operators, start-ups, universities and government projects test AI, satellite broadband, direct-to-cell, drones, blockchain and digital-identity services under set conditions. A steering committee would recommend changes to regulation; the framework is still at stakeholder consultation. *Also under AI, Innovation ecosystem and Connectivity.*

- **A decade on, ICASA edges towards new network licences** — ITWeb South Africa, 12 November 2026 SOUTH AFRICA

  ICASA published a discussion document on 30 October 2026, ITWeb reports. It takes the preliminary view that licence transfers have not promoted competition well, and that new network licences could be considered. The inquiry drew 33 responses to its first phase, including from ISPA, Cell C and Vodacom. Amatole Telecommunications put the cost of a licence pair at over R1 million; comments are due by 6 January. *Also under Connectivity.*

- **AI Governance Fragmentation Cause For Concern** — CIO Africa, 12 November 2026 KENYA

  Summarised under Strategies, plans and policies.

Data protection

- **POTRAZ Puts Zimbabwe On Africa's Digital Map** — Post On Sunday, 12 November 2026 ZIMBABWE

  POTRAZ, Zimbabwe's telecoms regulator, won the PICCASO Africa 2026 award for most outstanding data protection authority in Lagos on 5 November, the Post On Sunday reported. The paper says POTRAZ has licensed more than 2,500 data controllers and certified over 1,500 data protection officers. It also credits POTRAZ with more than 195 enforcement notices. *Also under Access to services.*

- **BoU Calls for Safeguards as AI, Open Banking Reshape Finance** — Nile Post, 12 November 2026 UGANDA

  Bank of Uganda Deputy Governor Augustus Nuwagaba spoke at a financial inclusion forum in Kampala on 12 November 2026. The deputy governor said AI, open banking and open finance need privacy, security, fairness and accountability safeguards from the start. Virtual assets, stablecoins and tokenisation also need examination. The bank became vice-chair of the African Financial Inclusion Policy Initiative in July 2026. *Also under Digital Payments and Fintech and Access to services.*

- **Hyperscalers want clear rules before they build data centers in Egypt** — Enterprise (EnterpriseAM), 12 November 2026 EGYPT

  Summarised under Legislation and regulation.

Regional collaboration

- **ITU PP-26 Doha: Chad and Rwanda explore stronger digital cooperation at ITU PP-26** — TechReviewAfrica, 12 November 2026 CHAD RWANDA

  Chad's telecoms minister, Haliki Choua Mahamat, met Rwanda's ICT minister at ITU PP-26 in Doha on 10 November 2026. The Chadian minister asked ADETIC and ARCEP Chad to prepare a study mission to Rwanda. ARCEP Chad is looking at cooperation with RURA on spectrum management, quality of service, competition and consumer protection. *Also under Standards and Other GovTech and e-Gov.*

- **Central Bank Governors' Bureau Strengthen Regional Monetary and Payments Institutions** — Common Market for Eastern and Southern Africa (COMESA), 12 November 2026 MALAWI ZAMBIA AFRICA

The bureau of COMESA's central bank governors met in Lilongwe on 11 November 2026 to review revised charters for the COMESA Clearing House and the COMESA Monetary Institute. COMESA said its Digital Retail Payment Platform, a cross-border retail system in local currencies, was nearing user trials. Live transactions are to be piloted between Malawi and Zambia. *Also under Digital Payments and Fintech.*

- **Benin: Strengthening dialogue on transit, transport and digitalisation within the National Trade Facilitation Committee** — UN Trade and Development (UNCTAD), 12 November 2026 BENIN

  UNCTAD and Benin's trade ministry held a workshop in Cotonou on 11-12 November 2026 for Benin's National Trade Facilitation Committee. It covered a single customs transit guarantee for Benin, Burkina Faso, Niger and Togo, and links between national Single Windows. The work falls under the EU-funded Global Gateway programme for the Cotonou-Niamey corridor. *Also under Data Exchange.*

- **À Doha, le Mali défend un numérique souverain et accessible à tous** — Malijet, 12 November 2026 MALI

  Summarised under Strategies, plans and policies.

Standards

- **EU and Egypt bring Partnership forward by advancing cooperation on electronic signatures and seals** — European Commission, DG CONNECT, 12 November 2026 EGYPT

  The European Commission said on 12 November 2026 that Egypt's electronic signature and seal framework is technically aligned with the EU's eIDAS Regulation. Egypt is the first country outside Europe to reach this. It will join the EU Third Countries Trusted List, so EU member states can validate its signatures and seals. The step was a deliverable of the EU-Egypt Summit of 22 October 2025. *Also under Digital Identity and CRVS and EU activities.*

- **ITU PP-26 Doha: Chad and Rwanda explore stronger digital cooperation at ITU PP-26** — TechReviewAfrica, 12 November 2026 CHAD RWANDA

  Summarised under Regional collaboration.

Finance

Financial sustainability

- **ACCÈS À INTERNET - Madagascar veut réduire la fracture numérique** — L'Express de Madagascar, 12 November 2026 MADAGASCAR

  A COMESA consultation on financing digital infrastructure met in Antananarivo from 10 to 13 November 2026. GSMA estimates cited there put 3G and 4G coverage at about 81% of Madagascar's population in 2026. Yet 66% of people live in covered areas without using mobile internet. 4G reaches an estimated 67% of rural people against 96% in towns. *Also under Digital divides and Connectivity.*

MoUs and other agreements

- **Le Groupe de la Banque africaine de développement et l'Agence française de développement renouvellent leur partenariat pour accélérer le financement des priorités de développement en Afrique** — Agence Française de Développement, 12 November 2026 AFRICA

  Summarised under Strategies, plans and policies.

New investments

- **Norfund-backed fund helps drive MNT-Halan's rise from Egyptian startup to regional fintech leader** — Innovation Village, 12 November 2026 EGYPT

  MNT-Halan listed its Egyptian business on the Cairo Stock Exchange in Egypt's largest IPO since 2021, Innovation Village reported on 12 November 2026. The retail tranche was more than 43 times oversubscribed and the institutional tranche more than 19 times. Norfund committed USD 40m in 2019 to the DPI fund that invested in MNT-Halan in 2021. *Also under Digital Payments and Fintech.*

- **Nigerian fintech Raenest acquires Remitise** — Connecting Africa, 12 November 2026 NIGERIA

  Nigerian fintech Raenest has acquired Remitise, a UK payments company registered with the Financial Conduct Authority, Connecting Africa reported on 12 November 2026. The terms were not disclosed. Raenest says the deal adds UK payments infrastructure to its Nigerian and Canadian licences. *Also under Digital Payments and Fintech.*

- **MNT-Halan Lists Egyptian Business on Cairo Stock Exchange in Major IPO** — Tech Africa News, 12 November 2026 EGYPT

  MNT-Halan listed its Egyptian business on the Cairo Stock Exchange, Egypt's largest IPO since 2021, Tech Africa News reported on 12 November 2026. The retail tranche was more than 43 times oversubscribed and the institutional tranche more than 19 times. Norfund says the fintech grew from 400,000 customers in 2018 to 10 million across four countries. *Also under Digital Payments and Fintech.*

ICT Infrastructure

Connectivity

- **Zambia Deploys 751 Starlink Kits to Health Facilities with UNDP Support** — Tech Africa News, 12 November 2026 ZAMBIA

  Smart Zambia Institute has begun deploying 751 Starlink kits to health facilities in all 10 provinces, Tech Africa News reported on 12 November 2026. The Global Fund pays for the kits through the Ministry of Health, and UNDP supports the rollout. The first 90 kits went to the Western Province health office. *Also under Access to services.*

- **Ruto to EU: Turn 50 Years of Ties Into Jobs** — Y News, 12 November 2026 KENYA

  President William Ruto asked EU heads of delegation in Nairobi for jobs and investment, Y News reported on 12 November 2026. President Ruto said the EU takes 21% of Kenya's exports. The president asked for Global Gateway finance on concessional terms. The next Kenya-EU Digital Dialogue, later in November, is to take up fibre links and the Blue Raman cable. *Also under EU activities.*

- **Paratus Group Launches in Malawi with Starlink Enterprise Connectivity Services** — Tech Africa News, 12 November 2026 MALAWI

  Paratus Group has launched in Malawi, its 16th market in sub-Saharan Africa, Tech Africa News reported on 12 November 2026. Paratus will first sell Starlink enterprise connectivity to businesses and organisations in Lilongwe, Blantyre and Mzuzu. Local technical partners are to install within 24 to 48 hours.

- **Our network extends into Uganda at Raxio's Kampala data centre | Workonline** — Workonline Communications, 12 November 2026 UGANDA

Workonline Communications opened its first Ugandan point of presence at Raxio's UG1 data centre in Kampala, the company announced on 12 November 2026. Workonline sells 100GE IP transit under a new Ugandan licence, over two separate routes to Nairobi. UG1 hosts 25 carriers and ISPs and the Uganda Internet Exchange Point, where Workonline plans to peer. *Also under Data Storage.*

- **Kenyan fixed internet outpaces SA** — ITWeb Africa, 12 November 2026 KENYA

  Communications Authority of Kenya figures show 2.84 million fixed internet subscriptions in June 2026, up 32.4% in a year. Safaricom held 1.02 million of them, or 36.1%. nPerf user tests from November 2025 to October 2026 put Kenya's average fixed latency at 29ms, ITWeb reports. That ranks Kenya second of 16 English-speaking countries; South Africa recorded 71ms.

- **Emerging technologies: How to close, not widen, divides - ITU** — International Telecommunication Union (ITU), 12 November 2026 GLOBAL

  ITU reports a ministerial discussion on emerging technologies and digital divides at its Plenipotentiary Conference in Doha on 11 November 2026. Rwanda's ICT minister, Paula Ingabire, called for a move from universal connectivity to universal capability. The Global Satellite Operators Association said terrestrial mobile networks cover only about 20% of the Earth's landmass. No decision came from the session. *Also under Digital divides and AI.*

- **Lesotho Calls for Affordable International Connectivity for Landlocked Countries to Ensure They Are Not Left Behind in the Digital Transformation Agenda** — Government of Lesotho, 12 November 2026 LESOTHO

  Summarised under Strategies, plans and policies.

Cybersecurity

- **Sudan traders 'missing millions' as hackers target Bankak app** — Dabanga Radio TV Online, 12 November 2026 SUDAN

  More than 50 Bank of Khartoum customers in Kordofan say thieves took money through the Bankak app, Radio Dabanga reported on 12 November 2026. The Dar Hamar Emergency Rooms put losses at SDG 18-45 million each, from thefts on 14 October and 3 November. The group accuses the bank of not freezing accounts and is preparing legal action. *Also under Digital Payments and Fintech*.

- **Mauritanie : cybersécurité et formation au cœur d'un accord avec l'américain Cybastion** — We Are Tech Africa, 12 November 2026 MAURITANIA

  Mauritania's digital transformation ministry signed a memorandum with the US firm Cybastion in Nouakchott on 10 November 2026, We Are Tech Africa reported. It covers network protection, digital infrastructure and training through Cybastion's Africa DigiEmpower programme with Cisco Networking Academy. A separate World Bank-funded WARDIP tender for a national CSIRT and SOC closes on 17 November 2026. *Also under Other GovTech and e-Gov and Training and skills*.

- **El Ejecutivo aprueba la segunda propuesta para la modernización integral de CNEDOGE** — Oficina de Información y Prensa de Guinea Ecuatorial, 12 November 2026 EQ. GUINEA

Equatorial Guinea's government approved on 11 November 2026 the second of three investment options to modernise CNEDOGE, which issues national identity documents and passports. The plan renews servers, storage, security, networks, power supply and biometric capture and issuing equipment, much of it in service since 2017. The initial invoice was revised 40% downward; the amount is not stated. *Also under Digital Identity and CRVS and Other GovTech and e-Gov*.

DPI

Data Exchange

- **Transforming public services through one digital ecosystem** — The Herald (Zimbabwe), 12 November 2026 ZIMBABWE

  In a Herald column of 12 November 2026, Louis Mondo argues that Zimbabwe should connect its existing government systems so citizens submit information once. The column names TaRMS, ZimConnect, the e-Cadastre and the Digital Land Administration Platform as the base. It says TaRMS already links to the company registrar, the deeds office and civil registry. *Also under Other GovTech and e-Gov*.

- **Benin: Strengthening dialogue on transit, transport and digitalisation within the National Trade Facilitation Committee** — UN Trade and Development (UNCTAD), 12 November 2026 BENIN

  Summarised under Regional collaboration.

Digital Identity and CRVS

- **South Africa begins testing biometric asylum registration platform** — Biometric Update, 12 November 2026 SOUTH AFRICA

  South Africa's Department of Home Affairs has begun testing a digital asylum platform, Biometric Update reported on 12 November 2026. The platform records an intention to apply for asylum with facial biometrics, personal details and supporting documents. Later phases are to add appointments, records checks and machine-learning tools for adjudication. *Also under Other GovTech and e-Gov*.

- **Facephi and Egypt Trust partner on digital identity and fraud prevention** — Biometric Update, 12 November 2026 EGYPT

  Egypt Trust is adding Facephi's identity-verification and fraud-detection technology to its locally hosted platform. Egypt Trust was among the first electronic signature and e-seal providers licensed by ITIDA. The partnership was announced at Cairo ICT and reported by Biometric Update on 12 November 2026.

Digital Payments and Fintech

- **Nigerians can pay without cards or transfers, yet remain completely unaware** — TechCabal, 12 November 2026 NIGERIA

  TechCabal reported on 12 November 2026 that contactless payment works on some Nigerian cards and terminals but few consumers use it. On 28 October 2026 Mastercard and Interswitch launched Google Pay for eligible Mastercard holders in Nigeria. TechCabal tested a contactless Verve card from Wema Bank's ALAT at a point-of-sale agent, and it worked.

- **E-payments gain momentum in Tunisia** — African Manager, 12 November 2026 TUNISIA

  Central Bank of Tunisia data show 18 million online payments worth TND 1.229bn in January-September 2026, up 27%. In-store card payments rose 18.6% to 41.3 million, worth TND 5.143bn. At 30 September 2026 there were 1,552 active merchant websites and 45,900 POS terminals, African Manager reported on 12 November.

- **Digital finance skills urgently needed to keep economic transactions going and protect individual incomes during Sudan's war, UNDP assessment finds** — United Nations Development Programme, 12 November 2026 SUDAN

  UNDP published an assessment of digital financial literacy in Sudan on 5 November 2026. It surveyed 152 people in River Nile, Kassala and Gedaref; the sample is not nationally representative. Of these, 78% own a phone but only 44% have a bank account, 36% a mobile payment app and 10% a digital wallet. UNDP found that wallets from different providers often cannot pay one another. *Also under Literacy and Digital divides.*

- **How eHealth Africa is using tech to close immunisation gaps** — TechCabal, 12 November 2026 NIGERIA

  TechCabal profiles eHealth Africa, a non-profit that maps settlements and plans and tracks vaccination campaigns in Nigeria. Its 2026 Mid-Year Report says campaigns it supported reached over 23 million children in the first half of 2026. In Kebbi State, missed settlements fell from over 20% to about 6% with a digital microplan, eHealth Africa says. *Also under Geospatial data.*

Other GovTech and e-Gov

- **The General Information Authority Organizes a Specialized Training Course on the Operating Mechanism of the Government Reports Platform** — General Information Authority (Libya), 12 November 2026 LIBYA

  Libya's General Information Authority began training public bodies on its Government Reports Platform on 11 November 2026, starting with the Ministry of Culture and Knowledge Development. The authority describes the platform as a central tool for periodic reports to the Prime Minister's Office. It says the platform tracks performance indicators in real time.

- **Rwanda explores AI and science-driven innovation to improve justice sector service delivery** — Tech Review Africa, 12 November 2026 RWANDA

  Rwanda's Ministry of Justice met two institutes to discuss AI in the justice sector, Tech Review Africa reported on 12 November 2026. The institutes are the Institute of Legal Practice and Development and the African Institute for Mathematical Sciences. The talks covered case management, delays and access to legal resources. They build on a recent memorandum between the two institutes; no project was named. *Also under AI.*

- **Publication Policy - TransparencyPortal (Data User Guide, Office of the Chief Procurement Officer eTender Portal)** — National Treasury, South Africa (OCPO), 12 November 2026 SOUTH AFRICA

  South Africa's National Treasury publishes eTender procurement data in the Open Contracting Data Standard, says the portal's policy, read on 12 November 2026. Bulk files run monthly from May 2021, with an API; the stated scope starts on 1 April 2022. Municipalities and state-owned entities are not obliged to share their data. *Also under Open data.*

- **LACC Launches Anti-Corruption Dashboard** — The New Dawn, 12 November 2026 LIBERIA

The Liberia Anti-Corruption Commission launched a public accountability dashboard on 11 November 2026, due to become operational in 2027. It is to bring together audit findings, procurement compliance, investigations, prosecutions and asset declarations. The work sits under the World Bank-supported GREAT Project. The PPCC, the General Auditing Commission and the Public Accounts Committee are to be trained to feed it. *Also under Open data*.

- **GIMPA, Chinese university to establish West African digital governance hub** — Ghana News Agency, 12 November 2026 GHANA

  Ghana's public-administration institute GIMPA announced a partnership with China's University of Electronic Science and Technology to set up a Ghana-China Centre for West African Studies, the Ghana News Agency reported on 12 November 2026. The proposed centre would do research and capacity-building in digital governance, e-government, AI and data systems. No timetable or funding is stated. *Also under Research institutions, Training and skills and China activities*.

- **Côte d'Ivoire : un guichet numérique pour moderniser la gestion du tourisme** — wearetech.africa, 12 November 2026 CÔTE D'IVOIRE

  Côte d'Ivoire's Ministry of Tourism and Leisure launched a digital one-stop shop for tourism businesses in Abidjan on 10 November 2026. The US firm Cybastion built it. Operators can file applications, pay online and track requests, and the ministry sets a 45-day maximum for processing. A pilot runs in four regional directorates: Abidjan Nord, Abidjan Sud, San Pedro and Grand-Bassam.

ABOUT THIS DOCUMENT

EDITION	**2026-11-13-2**
RETENTION	Kept until 2026-11-20. Older bulletins: the country and region news.
THIS FILE	https://corpus.data-landscapers.io/bulletin/corpus-bulletin-2026-11-13-2.pdf
FEEDBACK	info@data-landscapers.io
LICENCE	CC BY 4.0

This bulletin is produced automatically at the end of each data collection sweep but only includes items published on the day cited in the edition, and the previous day. Items published in the last month can be found on the country pages. The links to all items stored in the corpus can be found in the catalogue.

Bulletins are kept for a week — the last week's editions are listed above, each at its own dated address — and are then deleted. Older material is in the country and region news.
