

STATUS REPORT

Togo: status report

Edition of 2026-08-16 • 111 systems and instruments tracked, 39 of them not held

Compiled 2026-08-14 from the Data Landscapers source base, from [outputs/reports/TG0/ledger.csv](#) (111 systems and instruments, 39 of them **Not held**). Each section opens with its ledger; specific events are covered in the monthly updates. Figures are dated because most are time-varying.

Status values. *Implemented* — in operation or in force. *Piloting* — running with a limited user group or in a controlled environment. *In development* — build or drafting under way, not yet operating. *Planned* — announced or provided for, no build or draft on record. *Enacted* — an instrument passed into law; pair with a qualifying clause for its in-force date. *Under review* — a law or policy currently being reconsidered. *Discontinued* — closed or superseded. *Not held* — the base carries no reliable statement of status; these are the gaps to fill and are listed again at the end.

Summary of position

Togo's digital state is built further than it is written down. The identity programme reaches [more than 6,000,000 people, about 62 per cent of the population](#), payments run at [12.55m electronic-money accounts with the highest activity growth in the union](#), and the state has digitised civil status in five communes and twenty-nine energy procedures behind one portal. What it has not built is the layer beneath them: the national interoperability and data-exchange layer is *Not held*, and the only named candidate, government software licensed in June 2024, has never been reported deployed — so the services that exist are joined by the identity number rather than by an exchange. Payments are the other built layer: [six banks are authorised on the regional instant payment platform and the first mobile wallet joined in April 2026](#), and retirement allowances now pay by bank transfer and mobile money against a registration deadline of 31 August, after which allowances stop for anyone who has not registered payment details. Neither the payment platform nor the identity register has a published availability or throughput figure, so the built layer is described by its coverage and not by its performance. What is missing alongside all of it is instruments: 39 of 111 rows are *Not held*, and the founding texts of the identity agency and the cybersecurity agency, the decree organising the data-protection authority, the access-to-information statute and the national artificial-intelligence strategy are all among them. The one statute held in full is the [2019 data-protection law, gazetted with ninety-seven articles](#) — whose biometric-authorisation article is unenforced against the state's own identity programme.

Infrastructure

Connectivity

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
5G service on 100 MHz at 3400-3500 MHz	IMPLEMENTED ↗	Commercial since 2020, restated in a regional regulators' survey answered April 2026
ECOWAS free-roaming arrangement with Senegal and Benin	IMPLEMENTED ↗	Signed at Lome and took effect 2026-04-24 under regional regulation C/REG.21/12/17 of December 2017
Licence for E-Space Togo to operate Internet-of-Things networks	IMPLEMENTED, DECREE ADOPTED WITH NO NUMBER OR TEXT HELD ↗	Adopted in the Council of Ministers 2026-08-04
Starlink licence	PLANNED ↗	Listed by the operator as available from 2026, with no licence granted
West Africa subsea backbone with second-route diversity	IMPLEMENTED ↗	Capacity on a second submarine system added for route diversity
Internet exchange point	NOT HELD	—
Internet shutdown or throttling in 2025	NOT HELD	—
Mobile network population coverage	NOT HELD	—
National 5G strategy	NOT HELD	—
National fibre backbone and terrestrial transmission network	NOT HELD	—
Quality-of-service assessment results	NOT HELD	—

Data Storage

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Lome Data Centre	IMPLEMENTED ↗	Certified to the third tier and wholly owned by a state company, as reported
Sovereign private cloud at the Lome Data Centre	IN DEVELOPMENT ↗	Strategic partnership signed between the state operator and a pan-African data-centre group
Lome Data Centre capacity and utilisation	NOT HELD	—

Energy

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Power supply to the digital estate	NOT HELD	—

Cybersecurity

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
African Centre for Coordination and Research in Cybersecurity	PLANNED ↗	Named as the strategic culmination of the Luxembourg programme in a regional working-group report
Agence Nationale de la Cybersecurite	IMPLEMENTED ↗	Created by the cybersecurity and cybercrime amendments of June 2022
CERT.tg	IMPLEMENTED ↗	Operator established on the record - a joint venture of the Togolese state and a Polish group, founded 2019

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
National Cybersecurity Strategy 2024-2028	IMPLEMENTED, TEXT NOT HELD ↗	In force for 2024 to 2028
TogoCyber+	IN DEVELOPMENT ↗	Cooperation agreement signed at Lome within a three-accord package carrying EUR 78,550,000
Constituting instrument of the cybersecurity agency	NOT HELD	—
Incident response team operational record	NOT HELD	—
Terms of the joint venture running the national incident response team	NOT HELD	—

The national cybersecurity agency, Agence Nationale de la Cybersecurite, [reported handling more than 333,000 incidents between 2021 and 2024](#), a cumulative total first attributed to its director-general in July 2026. A [year-on-year breakdown published 2026-08-03](#) puts the count at 39,168 incidents in 2021, rising to 181,088 in 2024 — a 4.6-fold increase — with no figure published for 2022, 2023 or 2025 and no definition offered of what counts as an incident. The report frames the rise as evidence of wider monitoring and faster detection rather than of deteriorating security; that causal reading is asserted in the report, not evidenced by it.

Digital public infrastructure

Data Exchange

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Government electronic-government software licensing agreements	PLANNED ↗	Three source-code licensing agreements signed at Lome in late June 2024
Tax-exemption platform interfaced to the customs system	IMPLEMENTED ↗	Mandatory from 1 January 2026 after a three-month transition
National interoperability and data-exchange layer	NOT HELD	—

Digital Identity and CRVS

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Numero d'identification unique and the biometric identity card	IMPLEMENTED ↗	More than six million unique numbers and biometric cards reported at end-December 2025
Data-protection authority's authorisation for biometric and identification-number processing	NOT HELD	—
National citizen account or single sign-on	NOT HELD	—

Digital Payments and Fintech

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Digitised payment of retirement allowances	IMPLEMENTED, MIGRATION INCOMPLETE ↗	First digital disbursements made in July 2026, with registration of payment details required by 2026-08-31
Gozem Money	IMPLEMENTED ↗	Entered service with a partner bank under regional electronic-money rules

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Mandatory connection deadline for the instant payment platform	IMPLEMENTED, EXTENDED ↗	Deadline moved from 30 June 2026 to 30 September 2026 for banks, electronic-money issuers and payment institutions, and to 30 June 2027 for microfinance institutions
Regional guide to electronic-money issuance by public treasuries	IMPLEMENTED ↗	In force under the regional electronic-money regulation and its implementing instruction
Treasury interoperable prepaid card	PLANNED ↗	Announced with no launch timetable
WAEMU instant payment platform, Togolese participation	IMPLEMENTED ↗	Six institutions on the central bank's list authorised to open services to the public
Current status of the pandemic-era cash-transfer scheme	NOT HELD	—

Registries (population, land, address, etc.)

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Electoral register	IMPLEMENTED ↗	Nationwide revision ran 7-23 April 2025 under a presidential decree of 1 April 2025
Georeferencing of pre-2007 land titles	IN DEVELOPMENT ↗	Field operation under way under the revenue authority's cadastre directorate
National birth-registration catch-up campaign	IMPLEMENTED ↗	Second edition launched at Agbandi, Blitta 2, 2026-07-31, with OIF support
National satellite-positioning correction network	IMPLEMENTED ↗	Launched at Lome
Online civil-status certificate service	PILOTING ↗	Launched in five pilot communes
Single window for infrastructure mapping	IMPLEMENTED ↗	Officially launched at Lome
National social registry	NOT HELD	—

Sectoral management information systems (HMIS, EMIS, etc.)

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Education management information system	IMPLEMENTED, MID-MIGRATION ↗	A study tour assessed the system in the field
Pupil registration number platform	IN DEVELOPMENT ↗	Recorded as launched in 2023 by the ministry, with no clear evidence of student identification numbers found in April 2024
School-census collection system	IMPLEMENTED, MID-MIGRATION ↗	Database migration and a switch to online data entry, with a consultant recruited in 2023
National health management information system	NOT HELD	—

Other GovTech and e-Gov

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Electronic document management at the finance ministry	IN DEVELOPMENT ↗	A new phase of official training on document management and digitisation
Guichet National du Service Public	IMPLEMENTED ↗	Twenty-nine energy-sector procedures added, with other ministries expected to join from January 2026
Programme for the digitalisation of public administrations	IMPLEMENTED ↗	A four-week sprint at the foreign affairs ministry launched 2026-03-31

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Volunteering agency mobile application	IMPLEMENTED ↗	A registration tutorial published 2026-07-23 fixes the application as live on or before that date

Rural digital data capture

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Spectrum royalties for satellite and machine-to-machine services	IMPLEMENTED ↗	Amending decree adopted in the Council of Ministers
Rural connectivity or universal-service programme	NOT HELD	—

Digitalisation of sub-national government

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Urban addressing in Greater Lome	IN DEVELOPMENT ↗	Modernisation begun, preceded by updating the geographic address database of the thirteen communes

National statistics

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
National open-data portal or statistical dissemination platform	NOT HELD	—

Use of satellite data

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
National satellite or earth-observation capability	NOT HELD	—

The ministry of territorial administration, local governance and customary affairs, with support from the Organisation internationale de la Francophonie, [launched a second national catch-up campaign for birth registration](#) at Agbandi in Blitta 2 commune on 2026-07-31. [A first edition had delivered a judgement suppletif and a birth certificate to 5,000 vulnerable children, and the second targets 6,461 further children across 25 communes, taking the two campaigns' combined total to 11,461.](#) The same report carries an unreconciled second figure for the campaign's reach: [the funder's West Africa resident representative put it at nearly 7,400 vulnerable schoolchildren across the same 25 communes, against the 6,461 stated elsewhere in the same account.](#) The prefect of Blitta said on the record that despite years of civil-registry reform, many children, particularly in rural areas, remain without a birth certificate.

Governance and regulation

Legislation and regulation

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Anti-money-laundering law of 2025	IMPLEMENTED, ADOPTED WITH NO PROMULGATION DATE, NUMBER OR GAZETTE REFERENCE HELD ↗	Adopted in the National Assembly's December 2025 budget session
Decret n 2023-040/PR on electronic-communications fees and royalties	IMPLEMENTED ↗	Signed 2023-04-05, with one annex table amended by a decree adopted 2026-07-30
Rules on mobile commercial offers	IMPLEMENTED, TEXT AND REFERENCE NOT HELD ↗	Entered into force April 2026, recorded in an operator's parent's half-year financial report
Access-to-information statute	NOT HELD	—
Cybersecurity and cybercrime statute and its 2022 amendments	NOT HELD	—
Founding instrument creating the identity agency	NOT HELD	—
Text of the spectrum-royalty amendment	NOT HELD	—

Strategies, plans and policies

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Government roadmap for 2026-2031	IMPLEMENTED, TEXT NOT HELD ↗	Private-sector contribution workshop convened at Lome 2026-07-30 under Vision Togo 2040 and the roadmap
Regulatory authority for electronic communications and posts	IMPLEMENTED ↗	Created in October 2020 in an institutional reform replacing its predecessor
Togo Digital 2025-2030 national digital strategy	IN DEVELOPMENT ↗	Consultant procurement launched, with no adoption reported
National artificial-intelligence strategy	NOT HELD	—

Regional collaboration

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Transposition of the regional consumer-protection directive	PLANNED, CONSULTATION ONLY ↗	A stakeholder workshop at Lome on 20 and 21 March 2025, with no adoption instrument

Standards

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Decree instituting a national conformity-assessment mechanism	IMPLEMENTED, ADOPTED WITH NO NUMBER, TEXT OR ENTRY-INTO-FORCE DATE HELD ↗	Adopted in the Council of Ministers 2026-07-30
Decret n 2026-037/PC approving the national frequency allocation plan	IMPLEMENTED ↗	Adopted in the Council of Ministers 2026-03-11 and published by the regulator 2026-04-15

Data protection

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Cooperation accord between the broadcasting and data-protection authorities	IMPLEMENTED ↗	Signed 2025-12-10
Instance de protection des donnees a caractere personnel	IMPLEMENTED ↗	Activities formally launched at Lome, with a public campaign from 1 April 2025
Loi n 2019-014 on the protection of personal data	IMPLEMENTED ↗	Gazetted 2019-10-29 in the official journal, ninety-seven articles
Decree fixing the data-protection authority's organisation and functioning	NOT HELD	—

Open data

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Open government data portal or policy	NOT HELD	—

The governance layer is unusually well populated and unusually hard to read. Two instruments are held in full — the [2019 data-protection law](#) and the [2026 national frequency allocation plan](#) — while the [2025 anti-money-laundering law](#), the [conformity-assessment decree](#) and the [government roadmap for 2026-2031](#) are each recorded as in force with no text, number or gazette reference held. The data-protection authority is [operating](#) without the decree that would fix its organisation. Five rows here are *Not held* and they are the load-bearing ones: the cybersecurity statute, the identity agency's founding instrument, the spectrum-royalty amendment's text, the access-to-information statute and any open-government-data instrument.

Artificial intelligence and the technology sector

AI

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
National-languages speech and translation model project	IN DEVELOPMENT ↗	Presented at an international summit, with four data competitions carrying US\$40,000 in prizes
Pan-African African-language artificial-intelligence coalition	IMPLEMENTED, LAUNCHED AS A COALITION WITH NO DELIVERED MODEL ↗	Launched at a continental telecommunications conference, with Togo's digital ministry a founding government
Togo AI Lab	IMPLEMENTED ↗	Presented its national-languages project at an international summit, 7-10 July 2026
The data-collection start-up named as the flagship project's partner	NOT HELD	—

ICT Industry

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Digital toolbox for very small and medium enterprises	IMPLEMENTED ↗	Launched at Kara during the national small-enterprise week
Fuel marking and traceability system	IMPLEMENTED ↗	Launch ceremony at Lome, the obligation having applied in the regulations since 1 July 2026

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Declaration issued at the Lome space forum	NOT HELD	—
Digital sector share of gross domestic product	NOT HELD	—

Innovation ecosystem

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
TogoTech national digital start-up association	IMPLEMENTED ↗	Officially launched at Lome under the digital minister
Start-up statute or legal framework	NOT HELD	—

China activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Chinese digital or technology cooperation instrument	NOT HELD	—

India activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Indian digital or technology cooperation instrument	NOT HELD	—

Gulf/UAE activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Gulf-state digital or technology cooperation instrument	NOT HELD	—

Artificial intelligence and the technology sector are announcements over an unmeasured base. Three artificial-intelligence positions are held — a [national-languages model project](#), a [pan-African coalition](#) and the ministry's laboratory — none with a released model or dataset. Industry is firmer: the [fuel marking system](#), the [digital toolbox for smaller firms](#) and the [national start-up association](#) all operate. Seven rows are *Not held*, including the digital sector's share of gross domestic product, any start-up statute, and any Chinese, Indian or Gulf cooperation instrument — so the sector has no stated size and no stated foreign partners on this record.

Inclusion and capacity

Digital divides

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Community network at Ati-Akakpe	PLANNED ↗	Launch announced as imminent, to connect 2,000 inhabitants
Gender-disaggregated digital access measure	NOT HELD	—
Rural and urban connectivity gap measure	NOT HELD	—
Universal service fund	NOT HELD	—

Access to services

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Full-service payment institution licence for a Togolese fintech	IMPLEMENTED ↗	Licence granted under the regional payment-institution instruction
Instant international payment service	IMPLEMENTED ↗	Launched with Togo as the first market
Mobile-money service extension	IMPLEMENTED ↗	Launch event at Lome

Literacy

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Youth digital-hygiene awareness campaign	IMPLEMENTED ↗	About 3,000 young people trained at a Lome campaign in the last week of October 2025
National digital-skills or digital-literacy programme	NOT HELD	—

Training and skills

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Corporate data-protection correspondents programme	IMPLEMENTED ↗	First cohort certified at Adetikope after a three-day session
European support programme for the digital transformation of the economy	IMPLEMENTED ↗	Commitment recorded for 2024, running to 2030

Research institutions

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
District and school data-use project	IMPLEMENTED ↗	Entered its final phase, concluding November 2026

Inclusion is carried by commercial services and measured by nobody. A Togolese firm holds the [most complete non-bank payment licence](#) the central bank issues, [instant international payments run to more than 130 countries](#), and an [operator has extended mobile money to insurance premiums, card transfers and gift cards](#). The state's own contribution is [one youth digital-hygiene campaign reaching about 3,000 people](#) and [thirty-two certified corporate data-protection correspondents](#). Four rows are *Not held*, and together they are the whole of the measurement: no gender-disaggregated access figure, no rural-urban gap, no universal service fund, no national digital-literacy programme.

Finance

New investments

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Bilateral digital transformation programme	IMPLEMENTED ↗	Commitment recorded for 2022, running to 2028
Electronic-governance support to the financial administration, first phase	IMPLEMENTED ↗	Commitment recorded for 2024, running to 2028

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Electronic-governance support to the financial administration, second phase	IMPLEMENTED ↗	Commitment recorded for 2025, running to 2028
Good Financial Governance programme	IMPLEMENTED, ENDING 2026-06-30 ↗	Closing workshop held at Lome 2026-05-19 ahead of the programme's formal end on 2026-06-30
Public administration service-delivery modernisation project	IMPLEMENTED, NAMED ONLY ↗	Named as a live project at the government's portfolio review of 2026-07-28
Regional unique identification programme, Togolese component	IMPLEMENTED ↗	Additional US\$20,000,000 signed 2026-07-16 inside a five-agreement package of US\$429,000,000
Telecom expansion loan to the incumbent operator's parent	IMPLEMENTED ↗	Actual start 2024-05-07, recorded active and invested
Togo Digital Acceleration Project	IMPLEMENTED ↗	US\$13,992,856 of US\$100,000,000 disbursed on the project portal, enriched 2026-07-21

MoUs and other agreements

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Card and merchant partnership with a global payment network	PLANNED ↗	Partnership announced, with Togo among five markets
Indicative cooperation programme with Luxembourg for 2026-2031	IMPLEMENTED ↗	Signed at Lome alongside two other accords

Domestic budget appropriations and expenditure

SYSTEM OR INSTRUMENT	STATUS ↗ source	MILESTONE
Domestic state appropriation to digital technology	NOT HELD	—

External financing is well documented and domestic financing is not documented at all. Eight external programmes are held with commitments and identifiers, led by the [digital acceleration project at US\\$13,992,856 of US\\$100,000,000 disbursed](#) and the [Luxembourg indicative programme carrying a digital component inside EUR 78,550,000](#), with the [good financial governance programme closing on 30 June](#). Against all of that, the domestic state appropriation to digital technology is *Not held*: nothing in the base states what Togo spends on this from its own budget.

Gaps to fill

SYSTEM OR INSTRUMENT	WHAT WOULD SETTLE IT	LAST PROBED
National 5G strategy	A digital economy ministry or regulator strategy document; the regional regulators' association positively records that none is published, so this may close as a stated absence	not yet probed
National fibre backbone and terrestrial transmission network	A regulator or ministry network map or annual report giving route-kilometres and the backbone operator, or the digital acceleration project's procurement documents naming the fibre lots	not yet probed
Internet exchange point	A national exchange point's peering statistics, an Internet Society or registry statement, or a regulator register of interconnection points; the base names exchange points in Chad, Gabon and elsewhere and none in Togo	not yet probed
Mobile network population coverage	The regulator's annual market observatory or quarterly statistical bulletin, the equivalent of the series the base already holds in full for Nigeria	not yet probed

SYSTEM OR INSTRUMENT	WHAT WOULD SETTLE IT	LAST PROBED
Quality-of-service assessment results	A published regulator assessment campaign report or a compliance decision against either operator; a regional guideline records that the Togolese survey instrument exists	not yet probed
Internet shutdown or throttling in 2025	A network-measurement or shutdown-tracker country entry with dates and duration; the continental table the base holds names the event in two words	not yet probed
Constituting instrument of the cybersecurity agency	The cybersecurity and cybercrime amending law of June 2022; the agency's creation date currently rests on a one-line paraphrase in a World Bank implementation report	not yet probed
Incident response team operational record	An incident-response profile of the kind the base holds for Rwanda and Ghana, an annual incident report, or a membership record with an international response network; the 333,000-incident total is a single news attribution with no breakdown	not yet probed
Terms of the joint venture running the national incident response team	The government-supplier joint-venture agreement or shareholding record; the base establishes that a foreign-partnered company runs the national response function and nothing about the terms, the data-handling arrangements or the duration	not yet probed
Lome Data Centre capacity and utilisation	The state operator's own statement or annual report, or the facility's tier certification record; the only market-level document the base holds is a commercial briefing whose figures are cited and deliberately not absorbed	not yet probed
Power supply to the digital estate	A utility or regulator connection record for the Lome Data Centre, or a rural electrification programme document covering base stations; no source in the base connects Togo's grid, tariffs or generation to any digital infrastructure	not yet probed
Data-protection authority's authorisation for biometric and identification-number processing	The authority's published register of authorisations, or the authorisation decision itself for the identity agency's processing; article 8 of the 2019 statute requires prior authorisation both for biometric data and for use of a national identification number, and the authority's own organisational decree is also unheld	not yet probed
National citizen account or single sign-on	Technical or service documentation for the public-services portal, or any statement on which agency systems federate to the identification number; the volunteering agency's new mobile application is the immediate test case	not yet probed
National interoperability and data-exchange layer	A digital agency or ministry statement naming Togo's government service bus, or a deployment report on the software licensed in June 2024, which is the only named candidate and has never been reported deployed	not yet probed
National health management information system	A health ministry implementation record or annual health-statistics yearbook establishing whether a national health system exists alongside the education one; the only datapoint is a private supplier founded in 2025 with no client count, financing or deployment figure	not yet probed
Rural connectivity or universal-service programme	The regulator's annual report or the instrument establishing a universal-service fund, plus the published text of the July 2026 royalty amendment; the fund is named only as the recipient of 30 per cent of fine proceeds in a fee decree	not yet probed
National open-data portal or statistical dissemination platform	The national statistics institute's publication catalogue or a national data portal; the census dissemination is the obvious anchor document	not yet probed
National satellite or earth-observation capability	A national space agency or geospatial strategy instrument; the base's only Togo-facing space material is coverage of a Lome forum whose closing declaration was never issued	not yet probed
National social registry	A social action ministry instrument creating a unified social register, or the appraisal document of a social-protection operation; the base establishes Togo had none before the pandemic and nothing since	not yet probed
Current status of the pandemic-era cash-transfer scheme	A programme statement or evaluation dated after the 2023 case study; the base carries the 2020 scheme and its published figures and never says whether it still runs	not yet probed
Decree fixing the data-protection authority's organisation and functioning	The implementing decree the 2019 statute defers to regulation, published in the official journal; the decrees in the same gazette issue as the statute concern unrelated matters	not yet probed
National artificial-intelligence strategy	The strategy document, or the Council of Ministers communique or ministerial statement adopting it; a July 2026 report refers to a national strategy engaged by the government and the base holds no instrument, date, scope or budget	not yet probed
Open government data portal or policy	A national data portal, an open-data policy or decree, or a dataset catalogue; the base carries one Togolese source on this subject and it is an artificial-intelligence language-corpus project, not an open-data instrument	not yet probed
Access-to-information statute	The gazetted statute, or a dated statement that no such law exists	not yet probed

SYSTEM OR INSTRUMENT	WHAT WOULD SETTLE IT	LAST PROBED
Founding instrument creating the identity agency	The gazetted law of September 2020 with its number and date; it is currently a one-line paraphrase in a World Bank implementation report	not yet probed
Cybersecurity and cybercrime statute and its 2022 amendments	The gazetted base law and the amending act that created the cybersecurity agency	not yet probed
Text of the spectrum-royalty amendment	The gazetted decree with its number and the amended rate table; the regulator's site carries no 2026 royalties text and the rates reach the wiki only through a Council of Ministers communique	not yet probed
Declaration issued at the Lome space forum	The declaration text as issued at the close of the forum on 31 July 2026, or its publication by the organisers or the regulator	not yet probed
Start-up statute or legal framework	A law or decree on start-up labelling and incentives, or a ministerial statement that none exists; the industry association's own remedy for legal uncertainty was a private law-firm partnership	not yet probed
The data-collection start-up named as the flagship project's partner	A company filing, an agency or association member listing, or a founder profile establishing founding date, size and funding	not yet probed
Digital sector share of gross domestic product	A national accounts series or ministry statistical annex; the base holds a government figure of about 4 per cent for 2022 against a stated target of 10 per cent, relayed by trade press with no target date and nothing measured since	not yet probed
Chinese digital or technology cooperation instrument	Any memorandum, credit line or supplier contract naming Togo; the subject returns no Togolese source, and a full-text sweep of the base for the major Chinese vendors returns nothing tagged to Togo	not yet probed
Gulf-state digital or technology cooperation instrument	Any investment, data-centre agreement or sovereign-fund commitment naming Togo; the subject returns no Togolese source at all	not yet probed
Indian digital or technology cooperation instrument	Any memorandum, credit line, training-programme participation or supplier contract naming Togo; the subject returns no Togolese source	not yet probed
Universal service fund	The fund's constituting instrument and any published annual report or regulator accounts showing its balance, governance body and disbursements; the only held reference is the article of the fee decree allocating 30 per cent of fine proceeds to it	not yet probed
National digital-skills or digital-literacy programme	A named national programme document with a target and timetable, or the digital-skills component workplan of the digital acceleration project or the European support programme, either of which would give the skills spend a named object rather than a budget line	not yet probed
Domestic state appropriation to digital technology	The finance law for 2026 or the finance ministry's budget annexes showing the appropriation to the digital ministry and the identity, cybersecurity, regulatory and digital agencies; the compiled budget outputs hold no Togo file	not yet probed
Gender-disaggregated digital access measure	A sex-disaggregated figure from an international telecommunications or financial-inclusion series, or the national statistics institute's own household survey; the only gender figure in the section is a 2020 programme statistic carried by a 2023 reference study	not yet probed
Rural and urban connectivity gap measure	A regulator coverage or penetration series broken down by region or by rural and urban area; the base holds only a sub-Saharan regional figure and Togo's rural population share	not yet probed

Thirty-nine rows are *Not held*, and they divide cleanly. The first group is the state's own paperwork — the cybersecurity statute and its 2022 amendments, the founding instruments of the identity and cybersecurity agencies, the decree organising the data-protection authority, the spectrum-royalty amendment's text, the access-to-information statute. Each exists by inference from a paraphrase or an announcement, and each would be settled by one gazette. The second is measurement: mobile coverage, quality-of-service results, the rural-urban gap, gender-disaggregated access, the digital sector's share of output, and any breakdown behind the incident total. The third is the harder kind — the terms of the joint venture running the national incident-response function, and the data-protection authority's authorisation for the state's own biometric processing. Those two are where the record is thinnest against what is already operating.

Figures are dated because most are time-varying: a figure carries the date it was true, not the date you are reading it. Where the base holds no reliable statement, the document says **Not held** rather than leaving a silence — those are counted, and listed at the end.

This is a dated edition and is not revised after publication. If a figure here has moved, the current edition will say so.
