

STATUS REPORT

Senegal: status report

Edition of 2026-08-10 • 81 systems and instruments tracked, 9 of them not held

Compiled 2026-08-10 from the Data Landscapers source base, from [outputs/reports/SEN/ledger.csv](#) (81 systems and instruments, 9 of them Not held). Each section opens with its ledger; specific events are covered in the monthly updates. Figures are dated because most are time-varying.

Status values. *Implemented* — in operation or in force. *Piloting* — running with a limited user group or in a controlled environment. *In development* — build or drafting under way, not yet operating. *Planned* — announced or provided for, no build or draft on record. *Enacted* — an instrument passed into law; pair with a qualifying clause for its in-force date. *Under review* — a law or policy currently being reconsidered. *Discontinued* — closed or superseded. *Not held* — the base carries no reliable statement of status; these are the gaps to fill and are listed again at the end.

Summary of position

Civil registration is the deepest system in the base and the only one with coverage figures. [437 of 629 centres, 70%, are fully deployed on the civil-status software](#), regional spread running from 98% in one region to 42% in another, and [15.3m civil-status records are loaded in the live national register](#). The externally funded programme behind that work [closed in June 2026](#), leaving a validated bill unadopted.

The state's own systems have been breached three times on the record — [the tax authority in 2025](#), [the identity directorate on 19 January 2026](#) and [the public treasury in May 2026](#) — and no technical accounting has been published for any of them. Senegal has [neither a national cybersecurity agency nor a national response team](#) on the record, and the data-protection law is [in force and unamended since 2008](#).

The technology strategy carries a stated [FCFA 1,105bn envelope to 2034](#) with no breakdown, and no execution, outturn or audit figure exists for any digital line in any year. Nine of the rows below are *Not held*.

Infrastructure

Connectivity

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
2Africa cable landing station	IMPLEMENTED ↗	Commissioned December 2025
EBRD network facility	IMPLEMENTED ↗	The facility extended 2026-07-13
Gandoul teleport satellite gateway	IMPLEMENTED ↗	Gateway in service, reported 2026-07-10

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Satellite operating authorisation	IMPLEMENTED ↗	A five-year authorisation granted, February 2026
Senegal, Togo and Benin free roaming	IMPLEMENTED ↗	Took effect 2026-04-24 at Lomé
Tower operator investment	PLANNED ↗	Announced at a presidential meeting 2026-07-16
Universal connectivity project	PILOTING ↗	Deployment tour opened 2026-04-09
Via Africa cable landing	PLANNED ↗	Announced 2026-05-12 at a continental summit

Data Storage

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Cloud residency zones in operator data centres	IMPLEMENTED ↗	In service from 2024-05-30
Diamniadio national data centre	IMPLEMENTED ↗	Commissioned June 2021
Google sovereign-cloud memorandum	PLANNED ↗	Signed October 2024
Internet exchange point reactivation	PLANNED ↗	Announced in a state-operator partnership, 2025-03-26
PAIX Dakar data centre	IN DEVELOPMENT ↗	Groundbreaking 2025-01-23

Energy

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Power provision for data-centre and telecom infrastructure	NOT HELD	—

Cybersecurity

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Procurement route for critical-infrastructure cybersecurity	IN DEVELOPMENT ↗	A ministry and procurement-authority meeting reported 2026-07-30
National computer emergency response team	NOT HELD	—

International capacity is the strongest position. The 2Africa landing station entered service in December 2025 with sixteen fibre pairs, 180 Tbps and carrier-neutral open access, and a teleport gateway with sixteen new antennas links a low-orbit constellation to terrestrial networks. Fixed broadband stands at 1.16m subscribers at end-2025, more than 640,000 of them fibre-to-the-home.

Distribution to households is where the position weakens. 3% of rural households have internet access against 4G reaching 97% of the population — a usage gap, not a coverage gap. The state's answer is a satellite kit programme: a five-year renewable authorisation with local-supervision and data-sovereignty clauses, and a tour distributing a first 200 of 1,000 gifted kits, the one-million-beneficiary target moved to end-2026, with no beneficiary count published.

Domestic hosting is a set of memoranda and one facility. The Diamniadio national data centre has operated since June 2021 with no capacity or utilisation figure held; a sovereign-cloud memorandum of October 2024 has nothing on record being built; and a Dakar data centre of 1.2 MW broke ground in January 2025 and has not been commissioned.

Security is the weakest. Beyond the three breaches, the standing score is **67.17 out of 100**, tier three of four on the **2024 index edition**, which predates the whole breach run. The state's own diagnosis puts the blockage in procurement, where **three routes are being floated, including pooled purchasing**.

Digital public infrastructure

Data Exchange

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Digital agency and health-cover platform interconnection	PLANNED ↗	A convention announced 2026-07-23 committing the two bodies to interconnect their platforms
Government enterprise architecture	IN DEVELOPMENT ↗	Interim diagnostic results presented and the inventory of state information systems launched at a workshop, 2026-07-29
National climate-transparency data platform	IN DEVELOPMENT ↗	The project launched in Dakar 2026-07-22, externally funded, running 42 months
National interoperability platform	IN DEVELOPMENT ↗	A government enterprise-architecture account names interoperability as a standing challenge and platforms as still siloed, sixteen months after launch
Senegal and Gambia customs data exchange	PLANNED ↗	A second monitoring committee set a three-month roadmap on 2026-07-17
Unified social-protection information system	IN DEVELOPMENT ↗	A two-day workshop opened 2026-07-23 to diagnose existing systems and settle interoperability and data governance

Digital Identity and CRVS

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Civil-registration modernisation programme	DISCONTINUED ↗	A final steering committee held 2026-06-29, closing the externally funded programme
National identity card production	IMPLEMENTED ↗	Production resumed 2026-04-01 after a ransomware breach forced suspension on 2026-02-05
Universal digital identity under the technology strategy	NOT HELD	—

Digital Payments and Fintech

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Levy on mobile-money transfers	PLANNED ↗	Proposed under a recovery plan to raise about FCFA 220bn over three years

Registries (population, land, address, etc.)

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Audit of civil registration in 74 communes	IMPLEMENTED ↗	An audit mission launched at Rufisque 2026-07-28, covering 2018 to 2025
Bill on computerising civil-status management	PLANNED ↗	Listed among outstanding steps in the agency's August 2025 presentation
Biometric audit of the public-service headcount	PILOTING ↗	Physical and biometric enrolment running from 2026-06-23

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Biometric register of artisanal gold miners	IN DEVELOPMENT ↗	A convention signed 2026-07-30 by the mines ministry and the deposits fund
Business registration platform	IMPLEMENTED ↗	A digital platform launched for the enterprise and association identification number
National digital addressing project	IN DEVELOPMENT ↗	Relaunch workshop opened 2026-08-05

Sectoral management information systems (HMIS, EMIS, etc.)

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Digital-health bill	PLANNED ↗	A civil-society call for adoption at a restitution day 2026-07-23
Mortality and cause-of-death analysis tool	PILOTING ↗	A health-ministry training workshop held on 20 and 21 July 2026

Other GovTech and e-Gov

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Citizen single window	IMPLEMENTED ↗	The portal launched by the prime minister 2026-03-24 and declared operational
Digital fiscal stamp	IMPLEMENTED ↗	The tax authority withdrew the paper stamp on 2026-07-20, making the digital service the sole recognised channel
Free electronic fiscal-stamp service	DISCONTINUED ↗	The provider suspended its free tier on 2026-07-28, citing an administrative decision outside its control
Public procurement platform APPEL	IMPLEMENTED ↗	Launched 2025-10-15 to carry state acquisition procedures
Regulator digital platforms	IMPLEMENTED ↗	Eight platforms deployed by the telecommunications regulator

Rural digital data capture

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Rural digital data capture	NOT HELD	—

Digitalisation of sub-national government

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Commune-level systems other than civil status	NOT HELD	—

National statistics

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Inclusive-data initiative second phase	IMPLEMENTED ↗	The national statistics agency hosted the first second-phase peer exchange in Dakar

Use of satellite data

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Use of satellite data in public administration	NOT HELD	—

Deployment of the civil-status software stands at 437 of 629 centres with 15.3m records loaded, against 20m acts digitised and indexed of a 30m universe, restated in the June 2026 closing report as 10m digitised and 20m indexed, unreconciled. The bill computerising civil-status management is drafted and validated but not adopted, its implementing decree unsigned. Card production, suspended by ransomware on 5 February 2026, resumed on 1 April; the directorate's communiqués assert integrity, never confidentiality.

A biometric audit of the public-service headcount serves payroll control, and a biometric register of artisanal gold miners carries no data-protection provision in its reported design.

The national interoperability platform, launched in April 2025 with a first phase targeted for end-2025, is still stated as an intention rather than a capability. A government enterprise architecture is being built above it: interim diagnostic results were presented and the inventory of state information systems launched at a workshop on 29 July 2026, with no scope or deadline stated.

The citizen single window is operational for passports, business creation, police-clearance and nationality certificates, and the tax authority withdrew the paper fiscal stamp on 20 July 2026, making the digital service the sole recognised channel with no assisted route stated. A state procurement platform has run since 15 October 2025, and the procurement regulator names its protection as a priority. The national digital addressing project was relaunched on 5 August 2026 to settle its governance, with the pilot targeted to complete within one year; no budget, implementing agency or pilot geography is stated.

Governance and regulation

Legislation and regulation

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Bill on a media and social-network regulator	IN DEVELOPMENT ↗	A draft law unveiled with the broadcasting regulator 2025-01-24
Critical-infrastructure protection legal framework	IN DEVELOPMENT ↗	The procurement authority states the framework is in preparation and undated
Décret n. 2026-807 on classified defence procurement	IMPLEMENTED ↗	Signed 2026-04-22, published in the official journal 2026-04-29
Startup Act and labelling process	IMPLEMENTED ↗	The implementing decree adopted 2025-01-29; the labelling process launched in the strategy's first year

Strategies, plans and policies

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
National AI development plan	PLANNED ↗	A head-of-state instruction recorded in the council of ministers communiqué
National AI strategy and roadmap	IMPLEMENTED ↗	Adopted 2023 on six orientations
National data strategy	IMPLEMENTED, ADOPTION DATE UNESTABLISHED ↗	Cited as adopted, and as the frame requiring the data-protection bill to be re-levelled
National online child-protection action plan	IMPLEMENTED, PLAN UNPUBLISHED ↗	Put in place by the telecommunications ministry on nine axes

Regional collaboration

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
ECOWAS regional statistical methodological guides	IMPLEMENTED ↗	Directors-general of national statistical institutes approved the guides at the close of a Dakar meeting
Founding membership of a global AI cooperation body	IMPLEMENTED ↗	The founding agreement signed in Shanghai by the digital minister

Standards

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Francophone West African AI governance guidelines	IMPLEMENTED, NON-BINDING ↗	Adopted by six states and announced on the margins of a global AI dialogue

Data protection

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Bill revising the personal data law	IN DEVELOPMENT ↗	A two-day workshop convened to finalise the bill and its implementing decree
Cooperation convention with Benin's protection authority	IMPLEMENTED ↗	Signed at the counterpart's headquarters 2026-04-17
Loi n. 2008-12 on personal data	IMPLEMENTED ↗	Promulgated 2008-01-25, in force 2014; no amending law found

Open data

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Open government data policy, portal or licence	NOT HELD	—

The governing instrument is eighteen years old. [Loi n° 2008-12 was promulgated in January 2008, in force from 2014, and no amending law has been found](#); it did not move through the February 2026 breach of the national identity directorate. A [revising bill and its implementing decree are in a finalisation workshop, rewritten against the data and AI strategies](#), with no adoption date and no published text.

The policy layer above it is dense and largely unpublished. A [national data strategy is cited as adopted with no text on file and no adoption date established](#); an [AI strategy adopted in 2023 on six orientations](#) is likewise not on file; and a [national AI development plan has been instructed for deployment](#) without being an adopted instrument. Whether it supersedes, implements or replaces the 2023 strategy is unestablished. The [steering committee created in March 2026 to oversee digital transformation](#) was still described as operational in the near future on 3 August.

One instrument narrows disclosure. [Décret n° 2026-807, in force from 22 April 2026, makes contracts concerning critical information infrastructure an enumerated ground for defence classification](#), gatekept by a presidency-chaired commission with silence after fifteen days counting as refusal; its accompanying report states that administrations had been invoking the classification improperly. No open government data policy, portal or licence is held.

Artificial intelligence and the technology sector

AI

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
National AI ethics committee	PLANNED ↗	A readiness assessment records an ethics committee as planned
Senegal AI Factory	PLANNED ↗	Presented to an international AI-process meeting in Tokyo
Wolof and French AI tutor by phone call	IMPLEMENTED ↗	Presented at a national prize ceremony 2026-07-30

Innovation ecosystem

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Corporate mobility platform	IMPLEMENTED ↗	Launched in Senegal 2026-07-16
Max it super-app on the Dakar rapid-transit network	IN DEVELOPMENT ↗	The transit operator and the telecommunications operator signed a partnership 2026-07-14

US / hyperscaler activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
United States development-finance talks	IN DEVELOPMENT, TALKS ONLY ↗	The digital minister pitched the technology strategy in Washington and held working sessions with the State Department and the development finance corporation

China activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Sovereign cloud built with Alibaba	PILOTING ↗	The digital minister states the infrastructure is in testing, equipment installed and verified
Strategic partnership with Huawei	PLANNED, SIGNED ↗	Signed 2025-06-27 during a prime-ministerial visit to China

India activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Senegal-India technology cooperation	NOT HELD ↗	—

Gulf/UAE activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Senegal-Gulf technology investment	NOT HELD ↗	—

The AI policy layer is largely unpublished: the [2023 strategy is not on file](#), the development plan is an instruction, and the ethics committee is recorded as planned with no statute, membership or date. The technology strategy's Priority Programme No. 8 was [presented in Tokyo as the Senegal Digital Factory and, within it, the Senegal AI](#)

Factory, with no launch date, budget, compute location or partner stated. Senegal is absent from the eight African states ranked in a 2026 AI readiness index. It is **one of 29 founding states of an intergovernmental AI-governance body** and one of six adopting **non-binding Francophone West African AI governance guidelines**.

The one working AI service in the base is a **Wolof and French tutor reachable by ordinary phone call with no internet, its curriculum written by teachers and validated by school inspectors, hosted on servers in Senegal**; no user, pricing or evaluation figure is given, and the education ministry's role is asserted by the vendor rather than confirmed.

A **sovereign cloud is in testing, to host sensitive national data on Senegalese territory**, with no contract, value, hosting-term or data-access terms reported. A **June 2025 partnership covering data-centre modernisation, an equipment assembly plant and high-level training** has produced no site, cost or groundbreaking since. United States engagement is at **working-session stage, no financier or amount reported**; nothing is held on Indian or Gulf engagement.

Inclusion and capacity

Access to services

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Digital training for blind and partially sighted people	IMPLEMENTED ↗	An advanced-level course launched 2026-07-06

Literacy

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Digital financial-education project	DISCONTINUED ↗	The project closed 2026-07-15, with a closing workshop on 2026-07-23
Digital Schools programme	IN DEVELOPMENT ↗	A memorandum signed to equip 120 primary schools and train 500 women at seven digital houses

Training and skills

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Sovereign-cloud engineer training	PLANNED ↗	The digital minister states the infrastructure is deployed and tested and that training has not started
Young Africa Works Senegal	IMPLEMENTED ↗	A US\$200m five-year commitment announced September 2019

Research institutions

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
National research and innovation fund	PLANNED ↗	A council of ministers communiqué proposes the fund alongside applied research laboratories
Two AI research laboratories	IMPLEMENTED ↗	Both laboratories launched 2025-01-31 with three ministers present

The financing picture is announcements at the top and nothing at the bottom. The technology strategy states [FCFA 1,105bn across twelve priority programmes to 2034](#) with no breakdown; the [2026 ministry vote is FCFA 81.06bn with FCFA 58.2bn to investment](#), reported as set without stating tabled or enacted, which makes it an announcement rather than an appropriation. No execution, outturn or audit figure exists for any digital line in any year.

External commitments are better documented than domestic ones. The [digital economy acceleration project states FCFA 95.05bn committed](#) against US\$150m at board approval, and the two amounts are not reconciled in the base; a [foundation grant of US\\$10m](#) targets a universal digital identity, an AI hub and a delivery unit; and a [US\\$50m pre-seed and seed fund](#) has no first close or manager on file.

Skills carry the largest unverified commitment in the base: [US\\$200m announced in 2019 and running to 2030](#), with no disbursement or beneficiary figure held seven years on. A [memorandum to equip 120 primary schools and train 500 women](#) has produced no count at any date, and [two AI research laboratories launched in January 2025](#) have published no output or headcount. No domestic measurement of the digital divide exists at all.

Finance

New investments

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Digital economy acceleration project	IMPLEMENTED ↗	A portfolio review realigned the project to the technology strategy and validated first-half 2026 milestones
Foundation grant to the technology strategy	IMPLEMENTED ↗	US\$10m committed at a meeting on the margins of a UN session
Mobile money debt round	IMPLEMENTED ↗	A US\$137m debt raise closed 2025-06-30
Pre-seed and seed startup fund	PLANNED ↗	Announced on a conference stage in Paris 2026-06-20
Technology strategy financing envelope	PLANNED ↗	The strategy launched with a stated FCFA 1,105bn envelope across twelve priority programmes to 2034

MoUs and other agreements

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
UN development programme memorandum	IMPLEMENTED ↗	A memorandum signed with the communications and digital ministry

(narrative not yet written)

Gaps to fill

SYSTEM OR INSTRUMENT	WHAT WOULD SETTLE IT	LAST PROBED
Power provision for data-centre and telecom infrastructure	a Senegalese primary carrying the installed capacity of the data-centre estate, a utility tariff or supply agreement for a named facility, or a government decision on the industry recommendation	not yet probed
National computer emergency response team	a decree or ministerial order creating a national response team or cybersecurity agency, or an official statement naming one that already exists	not yet probed

SYSTEM OR INSTRUMENT	WHAT WOULD SETTLE IT	LAST PROBED
Open government data policy, portal or licence	a decree or circular on public-data re-use, a national open-data portal ingested as a primary, or a published open-data charter	not yet probed
Universal digital identity under the technology strategy	a build contract, pilot record or enrolment figure for the universal digital identity the strategy announced	not yet probed
Rural digital data capture	a source on tablet-based rural enumeration, agricultural census digitisation or field-level data collection	not yet probed
Use of satellite data in public administration	a statistics-agency, agriculture-ministry or land-administration document showing earth-observation data feeding an official statistic, cadastre or crop estimate	not yet probed
Commune-level systems other than civil status	a source on a commune-level administrative system that is not the civil register	not yet probed
Place in an AI readiness index	Senegal's inclusion in a future edition, or any other AI-readiness index publishing a Senegal score	not yet probed
Senegal-India technology cooperation	any dated Indian-government, export-bank or Indian-vendor announcement naming Senegal	not yet probed
Senegal-Gulf technology investment	a dated investment agreement, memorandum or facility naming a Gulf counterparty	not yet probed
Digital-sector budget outturn, execution and audit	the quarterly budget-execution report with ministry or programme disaggregation, or the audit court's settlement law for FY2024 or FY2025	not yet probed
Domestic measurement of the digital divide or digital literacy	a statistics-agency or regulator household ICT-usage survey, or a ministry digital-skills baseline	not yet probed

Nine instrument rows carry no reliable statement. Three are institutional absences the breach record makes conspicuous: no national response team or cybersecurity agency, no open government data policy, and no power provision for the data-centre and telecom estate — the one Senegalese statement on that being an industry recommendation of December 2025, never adopted.

Three are systems announced but never evidenced: the universal digital identity, with no build, pilot or enrolment on file; rural digital data capture; and commune-level systems other than civil status. Two are relationships returning zero Senegal sources, India and the Gulf states.

Two measures are the reason several figures above cannot be tested: no digital-sector budget outturn, execution or audit in any year, and no domestic measurement of the digital divide. Each row is in `gaps.csv` with what would settle it; none has yet been probed.

ABOUT THIS DOCUMENT

Figures are dated because most are time-varying: a figure carries the date it was true, not the date you are reading it. Where the base holds no reliable statement, the document says **Not held** rather than leaving a silence — those are counted, and listed at the end.

This is a dated edition and is not revised after publication. If a figure here has moved, the current edition will say so.
