Governance

Strategies, plans and policies

- **UNGA81: Smart Africa CEO advocates for affordability to be treated as economic and fiscal priority** — TechReviewAfrica, 25 September 2026 AFRICA

Smart Africa's chief executive Lacina Koné told a GSMA and Partnership for Digital Access in Africa summit on the sidelines of UNGA81 that affordability should be treated as an economic and fiscal policy priority, not only a telecoms matter. The roundtable addressed the goal of bringing one billion Africans into meaningful digital participation by 2030. *Also under [Access to services](#).*

- **UNGA81: Sierra Leone unveils Open Source Policy to address digital fragmentation and vendor lock-in** — Tech Review Africa, 25 September 2026 SIERRA LEONE

Sierra Leone's communications ministry presented a new open source policy at a UNICEF event on the sidelines of UNGA81, as its answer to duplicated government systems, rising proprietary costs, systems that cannot interoperate and vendor lock-in. The policy's text, adoption date and instrument were not given. *Also under [Other GovTech and e-Gov](#).*

- **Robust policies, plans and collaboration drive Tanzania's communications sector** — The Citizen, 25 September 2026 TANZANIA

Tanzania's regulator TCRA reported that mobile-network fraud reports fell 69% between September 2023 and June 2026, from 23,328 to 7,334 cases. Mobile money accounts rose from 32.7 million in March 2021 to 87.0 million in June 2026, and only 15.4% of the country's 17,690 Gbps of international capacity was in use. *Also under [Connectivity](#), [Digital Payments and Fintech](#) and [Cybersecurity](#).*

- **Egypt AI Council Reviews National AI Strategy Progress, Quantum Computing Plans** — Tech Africa News, 25 September 2026 EGYPT

Egypt's National Council for AI adopted the first-half 2026 progress report on the National AI Strategy 2025-2030 and reviewed the outline of a National Quantum Computing Strategy 2027-2030. It also discussed guidelines on government AI procurement, generative AI in government and the safe use of AI applications by children. *Also under [AI](#) and [Data protection](#).*

Legislation and regulation

- **Liberia: Senator Dopoh Backs Enforcement of Cybercrimes Law, Advances Recommendations For Smooth Implementation** — FrontPage Africa, 25 September 2026 LIBERIA

Senator Francis Dopoh, who chairs the Senate telecoms committee, defended the Cybercrime Act approved by President Boakai on 3 July 2026 as aimed at fraud, harassment and child exploitation rather than free speech. He called on the executive to designate critical national information infrastructure, set up a national cybersecurity centre and a 24/7 emergency response team, publish the Act's regulations within its six-to-twelve-month timeline and fund its implementation. *Also under [Cybersecurity](#) and [Public debate and participation in policymaking](#).*

- **Liberia: Judge Gives Police 'Last Opportunity' in Cybercrime Suspect's Detention Case** — FrontPage Africa, 25 September 2026 LIBERIA

A Monrovia criminal court gave the police a last opportunity to justify holding Jerry Nyantee Wrato, a suspect under the Cybercrime Act, after no officer appeared for the second time. The judge found the state had not shown the case was lawfully before the court and postponed the habeas corpus hearing to 25 September. *Also under [Cybersecurity](#) and [Public debate and participation in policymaking](#).*

Data protection

- **Togo, Mali Data Regulators Agree to Share Expertise** — Togo First, 25 September 2026 TOGO MALI

Togo's personal data protection authority (IPDCP) and Mali's APDP signed a cooperation agreement on 23 September covering information exchange, joint handling of complaints and compliance checks, and staff training. Their talks also touched on cross-border data transfers, cybersecurity and AI. *Also under [Regional collaboration](#).*

- **Liberia: Ten Liberian Civil Society Groups Launch Digital Advocacy and Rights Alliance** — FrontPage Africa, 25 September 2026 LIBERIA

Ten Liberian civil society organisations, including CENTAL and the Liberia Equality Network, signed a memorandum establishing the Digital Advocacy and Rights Alliance (DARA). The coalition is to work on digital rights, privacy, online safety and digital freedoms. *Also under [Public debate and participation in policymaking](#), [Cybersecurity](#) and [Digital divides](#).*

- **Information Commission trains CSOs on access to information, data protection** — The Point, 25 September 2026 GAMBIA

The Gambia's Information Commission and the UN system opened a three-day workshop on 23 September training civil society organisations on the Access to Information Act and the Personal Data Protection and Privacy Act, both of which the Commission implements. *Also under [Training and skills](#).*

- **How AI deepfakes, cyberstalking endanger women -Experts** — Vanguard, 25 September 2026 NIGERIA

The RACE Centre opened a two-day training in Abuja for the Feminist Digital Watch Collective on responding to technology-facilitated gender-based violence, including AI-generated deepfakes and cyberstalking. Its AI-enabled tracker, launched two months earlier, has documented about 24,000 human-verified cases across five social media platforms. *Also under [AI](#) and [Digital divides](#).*

- **Did you just train your replacement?** — ITWeb, 25 September 2026 SOUTH AFRICA

An opinion piece asks whether a South African employer that has an employee train an internal AI agent on her work thereby acquires her professional capability. It argues that South African case law, including *Automotive Tooling Systems v Wilkens* and *Nuvest Chemicals v Meyer* (January 2026), treats skills and know-how as the employee's own rather than the employer's property. *Also under [AI](#) and [Public debate and participation in policymaking](#).*

Summarised under [Strategies, plans and policies](#).

Regional collaboration

- **UNGA81: Sierra Leone pushes country ownership and regional cooperation for Digital Public Infrastructure** — Tech Review Africa, 25 September 2026 SIERRA LEONE

Communications minister Salima Monorma Bah told an AU-UNDP ministerial panel at UNGA81 that Sierra Leone's foundational digital identity covers more than 90% of the population, a national payment switch is scaling rapidly and a data exchange layer is being piloted in the financial sector. She presented the ECOWAS Data Embassy Framework as a way to pool digital infrastructure regionally rather than every country building the full stack alone. *Also under [Other GovTech and e-Gov](#), [Digital Identity and CRVS](#), [Digital Payments and Fintech](#), [Data Exchange and Data Storage](#).*

- **Nsengiyumva: AI Governance Cannot Be Inclusive Without Countries That Do Not Build AI** — KT Press, 25 September 2026 RWANDA

Prime Minister Justin Nsengiyumva told an AI governance discussion at UNGA81 that Rwanda's National AI Agency could host shared testing of advanced AI systems for the region, so African countries can evaluate frontier models themselves. No timetable, funding or partner countries were stated. *Also under [AI](#), [Standards and Public debate and participation in policymaking](#).*

- **Le Rwanda et la Jordanie ouvrent une coopération sur l'IA, l'identité numérique et les services publics** — wearetech.africa, 25 September 2026 RWANDA

Rwanda and Jordan signed a memorandum of understanding on ICT cooperation on the sidelines of UNGA81 on 24 September, between Rwanda's ICT minister Paula Ingabire and Jordan's digital economy minister Sami Smeirat. It covers sharing experience in digital public services, digital identity and AI and identifying joint projects. *Also under [Other GovTech and e-Gov](#) and [Digital Identity and CRVS](#).*

- **IA bancaire dans l'UEMOA : De l'accès à l'usage, la nouvelle frontière selon les présidents de la FAPBEF et de l'APBEF Senegal** — Dakaractu, 25 September 2026 WEST AFRICA

The federation of UEMOA banking associations (FAPBEF) held a sub-regional forum in Dakar on AI for financial inclusion and banking, with the BCEAO's national director for Senegal present. Its president, Guy Awona, called for a federated and controlled approach to AI across the Union's banks rather than treating it as a purely technological matter. *Also under [AI](#).*

- **Données énergétiques : la CEMAC veut parler d'une même voix** — GabonReview, 25 September 2026 CENTRAL AFRICA

CEMAC energy ministers met in Libreville on a draft regulation creating a community energy information system (SIE-CEMAC), setting rules for collecting, processing, keeping and sharing energy data. Gabon's energy minister asked the African Energy Commission for technical and financial support and said the sharing of some energy data must be limited because it falls under national sovereignty. *Also under [National statistics](#) and [Digital sovereignty](#).*

Public debate and participation in policymaking

- **Étude sur la transformation digitale et l'IA en Tunisie - Édition 2026** — Arnault Chatel (LinkedIn Pulse), 25 September 2026 TUNISIA
A 2026 study of Tunisia's digital transformation and AI sets recent infrastructure gains, including the Medusa submarine cable landing at Bizerte in November 2025, the first national supercomputer entering trials in July 2026 and a national AI strategy for 2026-2030 presented in August, against continuing emigration of engineers. It cites more than 7,000 engineers leaving in 2025 and an expected 8,000 in 2026, and asks how the country can turn that talent into value created at home. *Also under [AI](#) and [Training and skills](#).*
- **Stakeholders Fault CBN's January Timeline on Data Localisation, Call for Extension** — ThisDay, 25 September 2026 NIGERIA
Bank and fintech executives at a Lagos forum on 24 September called on the Central Bank of Nigeria to extend and phase its 1 January 2027 deadline for hosting all payment data in Nigeria, calling it virtually impossible to meet. FCMB's technology chief said bank CIOs had been unable for three months to get clarity from the CBN on which data must be kept on-premise. *Also under [Data Storage](#) and [Digital Payments and Fintech](#).*
- **Kaolack: les acteurs communautaires à l'école des enjeux du numérique** — Le Soleil, 25 September 2026 SENEGAL
The Forum Civil held a two-day regional workshop in Kaolack for civil society and community leaders on digital issues, under an EU-funded project, Recentrer le civisme numérique. It aims to equip young people and community leaders to understand and use digital tools. *Also under [Literacy](#) and [Training and skills](#).*
- **At Editors' Conference, Amupitan Says INEC Deploying AI to Detect Result Errors Ahead of 2027** — ThisDay, 25 September 2026 NIGERIA
Nigeria's electoral commission INEC said it has begun using AI tools in its results-management process to flag discrepancies and errors in result records before final validation, with every automated check subject to human audit. Chairman Joash Amupitan said INEC has set up an AI Division and adopted an AI roadmap and governance framework ahead of the January and February 2027 elections. *Also under [AI](#) and [Cybersecurity](#).*
- **African states must strengthen safeguards against AI-driven electoral manipulation – Kwasi Prempeh** — MyJoyOnline, 25 September 2026 GHANA AFRICA
Opening the Third Electoral Integrity Summit in Accra, CDD-Ghana's executive director Henry Kwasi Prempeh called on African states to strengthen safeguards against AI-driven disinformation, deepfakes and coordinated manipulation of elections. He said the question is not whether to use these technologies but under what safeguards and who is accountable when they cause harm. *Also under [AI](#).*

MoUs and other agreements

- **Angola and UAE strengthen space cooperation through new letter of intent** — Tech Review Africa, 25 September 2026 ANGOLA
Angola's space programme office GGPEN and the UAE Space Agency signed a letter of intent on cooperation in the peaceful uses of outer space, covering space sciences, technologies and applications. It was signed in Abidjan on 25 September at the Africa Space Expo, where Angola is guest country of honour. *Also under [Use of satellite data](#).*

ICT Infrastructure

Connectivity

- **TIX upgrades core to 100G as Tanzanian traffic jumps 80%** — tech.africa, 25 September 2026 TANZANIA
The Tanzania Internet eXchange in Dar es Salaam upgraded its core switching to 100G, the ISP association TISPA said on 23 September. On the exchange's own statistics its 66 connected networks averaged about 205 Gbps in late September 2026, up from about 110 Gbps a year earlier.
- **Côte d'Ivoire links space infrastructure to digital transformation agenda** — Tech Review Africa, 25 September 2026 CÔTE D'IVOIRE
Côte d'Ivoire's digital minister Djibril Ouattara told the Africa Space Expo in Abidjan on 24 September that satellite infrastructure should complement terrestrial networks to extend coverage, which he put at 95% nationally, towards a 100% target. A radiocommunications forum alongside the expo is addressing the integration of terrestrial and satellite networks. *Also under [Use of satellite data](#).*

ABOUT THIS DOCUMENT

EDITION	2026-09-25-2
RETENTION	Kept until 2026-10-02. Older bulletins: the country pages and the monthly reports.
THIS FILE	https://corpus.data-landscapers.io/bulletin/corpus-bulletin-2026-09-25-2.pdf
FEEDBACK	info@data-landscapers.io
LICENCE	CC BY 4.0

This bulletin is produced automatically at the end of each data collection sweep but only includes items published on the day cited in the edition, and the previous day. Items published in the last month can be found on the [country pages](#). The links to all items stored in the corpus can be found in the [catalogue](#).

Bulletins are kept for a week — the last week's editions are listed above, each at its own dated address — and are then deleted. Older material is in the country pages and the monthly reports.
