

STATUS REPORT

Egypt: status report

Edition of 2026-08-11 · 156 systems and instruments tracked, 54 of them not held

Compiled 2026-08-11 from the Data Landscapers source base, from [outputs/reports/EGY/ledger.csv](#) (156 systems and instruments, 54 of them Not held). Each section opens with its ledger; specific events are covered in the monthly updates. Figures are dated because most are time-varying.

Status values. *Implemented* — in operation or in force. *Piloting* — running with a limited user group or in a controlled environment. *In development* — build or drafting under way, not yet operating. *Planned* — announced or provided for, no build or draft on record. *Enacted* — an instrument passed into law; pair with a qualifying clause for its in-force date. *Under review* — a law or policy currently being reconsidered. *Discontinued* — closed or superseded. *Not held* — the base carries no reliable statement of status; these are the gaps to fill and are listed again at the end.

Summary of position

Egypt's digital state is dense and its measurements are almost entirely its own. The government reported 105 bodies connected and 100 national databases linked through its digital switch, alongside a digital treasury of reusable verified documents and live trust services ([cabinet readout](#)) — the hardest inter-agency interoperability figures the wiki holds for any African state, and ministry-reported rather than drawn from a published register.

The regulatory position caught up with the built one only in the past year. The Personal Data Protection Law has been in force since 2020, but its Executive Regulations were issued on 1 November 2025 and its obligations become enforceable from 1 November 2026 at the end of a one-year grace period ([regulations summary](#)). The single enforcement award on record rests on tort and custodian's liability rather than on the data-protection law ([judgment note](#)).

Two figures set the frame. Financial inclusion reached 77.6% of adults at end-2025 ([central bank](#)), while only 15% of popular web content consumed in Egypt is served from inside the country ([content-locality measurement](#)).

Infrastructure

Connectivity

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
2Africa submarine cable, Egypt transit and Mediterranean segment	IMPLEMENTED ↗	Mediterranean capacity activated on the Port Said-Genoa-Marseille route

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
5G mobile service	IMPLEMENTED ↗	Commercial launch by four operators on refarmed 2.6 GHz
AWS CloudFront edge location, Cairo	IMPLEMENTED ↗	Announced in service 2024-05-22
Mobile tower expansion programme	IN DEVELOPMENT ↗	Target of 40,000 towers by 2028 restated to the Prime Minister
Starlink service in Egypt	PLANNED, NO LICENCE ISSUED ↗	Preliminary talks disclosed by a licensed operator, expanded meeting slated for June 2026
2Africa Egyptian landing stations and ready-for-service dates	NOT HELD	—
5G coverage and subscriber base	NOT HELD	—
Egypt's internet exchange points	NOT HELD	—
National broadband plan and any universal service obligation or fund	NOT HELD	—

Data Storage

Khazna Data Center Egypt expansion	PLANNED ↗	Named in Africa's 890 MW development pipeline
NTRA data-centre licensing regime	IMPLEMENTED ↗	Tenth licence in two years issued
Telecom Egypt Regional Data Hub 2	IN DEVELOPMENT ↗	Tier III design certification awarded; execution expected complete by end-2025
Egypt's total operational data-centre capacity in MW	NOT HELD	—
Government data centres, location, operator and capacity	NOT HELD	—
Regional Data Hub 2 entry into service	NOT HELD	—

Energy

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Renenergy green hydrogen and solar project, El-Tor	PLANNED ↗	Executive plan reviewed by the investment and foreign trade minister
Data-centre energy and water consumption reporting	NOT HELD	—
Power supply arrangements for Egypt's operating data centres	NOT HELD	—

Technical Capacity

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
National high-performance computing or public GPU capacity	NOT HELD	—

Cybersecurity

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
EG-CERT national computer emergency readiness centre	IMPLEMENTED ↗	Named as delivery partner in the national cyber-skills academy

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Critical information infrastructure protection regulation	NOT HELD	—
National Cybersecurity Strategy, second and third editions, as documents	NOT HELD	—
National emergency readiness centre incident and advisory record	NOT HELD	—
Submarine cable protection regime for Egyptian waters	NOT HELD	—

Egypt's connectivity position is one of transit strength and domestic thinness. About 15 active international submarine cable systems land in the country, the largest concentration in Africa. Against that, only 15% of popular web content consumed in Egypt is served from inside the country ([content-locality measurement](#)) — the country carries other people's transit and hosts little of its own users' traffic.

Spectrum moved further in one transaction than in three decades: 410 MHz awarded across three bands for US\$3.5bn in February 2026, which the ICT minister said matched all spectrum allocated in Egypt over the previous 30 years ([award account](#)). What followed does not read as capacity. Six months after the June 2025 launch the combined 4G and 5G median download speed was 34.77 Mbps against a pre-launch baseline of 37.68 Mbps ([measurement](#)); Egypt refarmed 2.6 GHz rather than licensing dedicated mid-band, and set no coverage or quality obligation of the kind its neighbours imposed.

Rural fibre is the clearest delivery: more than 1,250 of the 1,450 phase-one Decent Life villages connected by 30 June 2026, from 856 at end-2024 ([operator account](#)). Data centres are being licensed faster than they are described — ten licences in two years ([licence account](#)) — with no capacity figure in megawatts or power arrangement for any licensed site held.

Digital public infrastructure

Data Exchange

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Digital treasury of reusable verified documents	IMPLEMENTED ↗	First consuming service went live, public-shop licensing on Digital Egypt
Digital trust services, e-signature and e-seal	IMPLEMENTED ↗	Signature and seal services launched using the security token and integrated with digital identity
Government digital switch	IMPLEMENTED ↗	105 connected bodies and 100 linked national databases reported to cabinet
Register of bodies connected to the government digital switch, and its lawful basis	NOT HELD	—
Relationship between the ministry's digital post box and the postal service's product	NOT HELD	—

Digital Identity and CRVS

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Automated civil-registry kiosks	IMPLEMENTED ↗	Initial phase of 8 offices expanded to 16 locations
Electronic birth and death registration	IMPLEMENTED ↗	Development plan states registration taken electronic republic-wide
Haweya national digital financial identity	IMPLEMENTED ↗	Launched by the central bank governor at the 12th financial inclusion conference
Mobile line registration regime	IMPLEMENTED, REGULATIONS UNDER REVISION ↗	Regulator statement on liability and on moving to biometric subscriber verification
MOIEG-PASS biometric authentication platform	PILOTING ↗	Selfie-biometrics pilot widened on Android
National digital identity app	IMPLEMENTED ↗	Second release adding biometric verification and automated liveness detection, reported to cabinet
Private eKYC and e-signature licence for the non-bank financial sector	IMPLEMENTED ↗	Regulatory clearance granted
Governing instrument for digital identity and biometric processing	NOT HELD	—
National digital identity enrolment count	NOT HELD	—

Digital Payments and Fintech

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Direct carrier billing licence for government payments	IMPLEMENTED ↗	First regulator licence for direct carrier billing signed
Financial Regulatory Authority digital factoring portal	IMPLEMENTED ↗	Phase one launched on the authority's e-portal
Instant Payment Network and InstaPay	IMPLEMENTED ↗	Inbound cross-border remittance receipt activated
InstaPay transfer pricing	IMPLEMENTED ↗	Fees applied from 2025-04-01 at 0.1% of value, minimum EGP 0.50, maximum EGP 20
onebank digital bank	IN DEVELOPMENT ↗	Central bank initial approval to establish Egypt's first wholly digital bank
Pan-African Payment and Settlement System, Cairo headquarters	IMPLEMENTED ↗	Formally launched January 2022, headquartered in Cairo
SoftPOS contactless acceptance	IMPLEMENTED ↗	Launched by the central bank after a pilot capped at EGP 600 per transaction
Central bank national payment system statistics	NOT HELD	—
National card scheme current issuance	NOT HELD	—

Registries (population, land, address, etc.)

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
National Platform for Regularising State Lands	IMPLEMENTED ↗	Committee reported intake and completion figures
Rashid state-owned companies platform	IN DEVELOPMENT ↗	Hosting and operations protocol signed with the state payments company
Commercial register size and digitisation state	NOT HELD	—
National land registration coverage	NOT HELD	—

Sectoral management information systems (HMIS, EMIS, etc.)

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
DHIS2 national health information system	IMPLEMENTED ↗	Launched at a high-level meeting with UNICEF Egypt and the Oslo health information systems centre
Social insurance 95-service online catalogue	IN DEVELOPMENT ↗	Six-month window from the February 2026 undertaking falls due with the first tranche still forthcoming
Social insurance digital transformation system	IMPLEMENTED ↗	92% of the accumulated arrears backlog cleared
Takaful and Karama unified social registry	IMPLEMENTED ↗	Programme's tenth anniversary, figures given in a lender interview
Education management information system	NOT HELD	—
Universal Health Insurance system enrolment and digital architecture	NOT HELD	—

Other GovTech and e-Gov

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
African Financial Stability Committee digital portal	IMPLEMENTED ↗	Launched by the central bank with the Association of African Central Banks
Digital Egypt platform	IMPLEMENTED ↗	242 services live, reported to a cabinet meeting on presidential directives
Digital visa-on-arrival at Cairo International	PILOTING ↗	Phase one begins in all Cairo International arrival halls
Economic Entities Platform	PLANNED ↗	Named as the ministry's flagship project at the Capital Market Development Package Conference
Egyptian Tax Authority electronic system	IMPLEMENTED, CONTESTED ↗	Five-year assessment by eight named practitioners published
Public Prosecution electronic criminal-record enquiry	IMPLEMENTED ↗	Service opened on the Public Prosecution portal
Unified Government Services Card	PILOTING ↗	Phase one applied in Port Said; phases two and three set for Ismailia and Luxor, then the remaining governorates
Unified investment-licensing platform	IMPLEMENTED ↗	Reported as officially launched; the launch event itself is not dated

Rural digital data capture

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Decent Life rural fibre programme	IMPLEMENTED ↗	About 5 million fibre lines completed across more than 1,250 of 1,450 phase-one villages
Rural digital service uptake, as distinct from rural connectivity	NOT HELD	—

Digitalisation of sub-national government

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Public shop licensing on Digital Egypt	IMPLEMENTED ↗	Launched by the ministers of local development and of communications
Governorate-level service platforms and local-government information systems	NOT HELD	—

National statistics

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
2027 Population, Housing and Establishments Census	IN DEVELOPMENT ↗	Methodology presented to a cabinet follow-up; presidential decree still pending
National labour-market data platform	PLANNED ↗	Joint coordinating committee met to examine the proposal
Statistics agency release programme and publication calendar	NOT HELD	—

Use of satellite data

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Egypt-Japan water, artificial intelligence and satellite-data cooperation	PLANNED ↗	Trilateral memorandum signed at the close of the water minister's visit to Japan
Egypt's own earth-observation and satellite programme	NOT HELD	—

No register of the bodies connected to the government digital switch is published, no lawful basis for the sharing is stated, and the data-protection regulator has no named role in it ([cabinet readout](#)).

The instant payment network reached 16 million users and carried EGP 4.2tn in the year to June 2025 ([central bank figures](#)), on pricing that rested on a renewable board decision, which lapsed.

The Central Bank of Egypt and the Association of African Central Banks launched a digital portal for the African Financial Stability Committee on 3 August 2026, the channel for the committee's African Financial Stability Report ([central bank statement](#)).

Identity has three biometric channels and no enrolment figure for any of them: a central bank identity app (November 2025), an interior ministry biometric platform in pilot (February 2026), and the ministry's own identity app at version two (July 2026). No instrument authorising the biometric processing is stated.

After citizens found mobile lines registered to them without their knowledge through its My NTRA application, the telecoms regulator stated on 8 August 2026 that such a registration does not by itself establish criminal liability, and that it is revising the registration rules towards biometric subscriber verification ([regulator statement](#)).

Governance and regulation

Legislation and regulation

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Child national ID card proposal	PLANNED ↗	Two workshops held on the proposal
Electronic service of judicial notices	IMPLEMENTED ↗	Cooperation protocol signed at the Supreme Judicial Council's headquarters
Financial Regulatory Authority technology sandbox	IMPLEMENTED ↗	First two projects cleared to live testing 2026-08-08

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
PDPL Executive Regulations, Decree 816 of 2025	IMPLEMENTED, GRACE PERIOD TO 2026-11-01 ↗	Issued by ministerial decree 2025-11-01, circulated December 2025
Property ID Law	IMPLEMENTED, IMPLEMENTING DECREE NOT ON RECORD ↗	Approved by the House of Representatives 2025-04-27
Real property register conversion, Manshah section, Sohag	IN DEVELOPMENT ↗	Deferred to 2027-07-01
Regulator unit monitoring AI-manipulated social-media content	IMPLEMENTED ↗	Existence disclosed to Cabinet
Regulatory framework for foreign satellite operators	IMPLEMENTED ↗	Entered into force 2024-07-09, adopted 2023-10-08 with a grace period
Social-media legislative review	IN DEVELOPMENT ↗	Cabinet agreed a legislative review 2026-07-29
Standalone digital-privacy statute proposal	PLANNED, A MEMBER'S DEMAND ONLY ↗	Demand put on the parliamentary record
Cybercrime Law 175 of 2018 and its enforcement record	NOT HELD	—
Executive Regulations 816 of 2025, the instrument itself	NOT HELD	—
Telecommunication Regulation Law 10 of 2003	NOT HELD	—

Strategies, plans and policies

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Digital Egypt service-coverage targets	IMPLEMENTED ↗	242 services now, over 270 by end-2026, about 450 by 2030
National Cybersecurity Strategy	IMPLEMENTED, SECOND EDITION ↗	Third edition under preparation, stated to the Senate
National data-centre strategy	IN DEVELOPMENT ↗	Preparation confirmed on presidential directive
National Spectrum Strategy 2026-2030 and the 410 MHz award	IMPLEMENTED ↗	US\$3.5bn agreement signed with the four operators
National Artificial Intelligence Strategy, second edition, the document	NOT HELD	—

Regional collaboration

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Chairmanship of the Arab AI governance and quantum working groups	IMPLEMENTED ↗	Elected chair of two of six working groups
Egypt's position on the AU Malabo Convention	NOT HELD	—

Standards

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Transfer-pricing guidance	IMPLEMENTED, 2018 EDITION UNREVISED ↗	No update since 2018

Data protection

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Data-protection compliance guidelines and templates	IMPLEMENTED ↗	Published January-February 2026
Personal Data Protection Center	IMPLEMENTED, ENFORCEMENT POWERS FROM 2026-11-01 ↗	Confirmed as supervisory authority by the Executive Regulations
Personal Data Protection Law 151 of 2020	IMPLEMENTED, ENFORCEMENT FROM 2026-11-01 ↗	Executive Regulations issued 2025-11-01
Data-protection regulator enforcement and licensing record	NOT HELD	—

Public debate and participation in policymaking

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Council of State digital transformation plan	IN DEVELOPMENT ↗	Stated as under way, no deliverable named
VAT credit-refund period reduction	PLANNED ↗	Awaiting completion of legislative steps
Public consultation on the data-protection Executive Regulations	NOT HELD	—

EU activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Cloud sovereignty cooperation with SAP	PLANNED ↗	Ministerial talks, no instrument signed
EU-Egypt digital cooperation instrument	NOT HELD	—

Open data

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
National Open Data Policy	IMPLEMENTED, NO TEXT OR DATE ON RECORD ↗	Named by the ICT minister as a supporting policy
Egyptian national open-data portal	NOT HELD	—

The Personal Data Protection Law of 2020 had never been given executive regulations; Decree 816 of 2025 issued them on 1 November 2025, establishing the approvals model, a licence for each cross-border transfer, registered data-protection officers and 72-hour breach notification ([regulations summary](#)). Enforcement is expected from 1 November 2026.

The Economic Court of Alexandria ordered an operator to pay EGP 10 million in February 2025 for an unconsented SIM replacement, grounding liability in tort and custodian's liability precisely because the regulations were still pending ([judgment note](#)). No regulator decision, fine, registration figure or transfer licence appears in the base at any date.

A member called on 20 July 2026 for a comprehensive digital-privacy bill, arguing that the Cybercrime Law and the Penal Code are insufficient — without referring to the Personal Data Protection Law at any point ([demand](#)).

The ICT minister told Cabinet on 29 July 2026 that a regulator unit already detects and acts on artificial-intelligence-manipulated video and imagery, and that legislative amendment is still needed to address the practices at root ([cabinet account](#)). The unit's legal basis, method and appeal route are not stated.

The financial regulator cleared the first two projects in its non-banking technology sandbox to three-month renewable live testing on 8 August 2026, out of seven given preliminary approval in the sandbox's first year, and one verifies foreign nationals' identities by reading electronic passports with NFC-equipped phones ([authority statement](#)).

Artificial intelligence and the technology sector

AI

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Cassava AI Factory, Egypt site	PLANNED ↗	Egypt placed last in the announced four-country build sequence
Egyptian Center for Responsible AI	IMPLEMENTED ↗	Established at the ICT ministry at the end of 2025
Karnak Arabic large language model	IMPLEMENTED ↗	Stated by the ministry as developed by the applied innovation centre and available for startups to build on
National Artificial Intelligence Strategy, second edition	IMPLEMENTED ↗	Second edition launched early 2025, covering 2025-2030
National Council for AI, Quantum Computing and Emerging Technologies	IMPLEMENTED ↗	Remit widened from artificial intelligence to quantum computing and emerging technologies
National quantum computing strategy	IN DEVELOPMENT ↗	Under preparation, no publication date
Applied Innovation Centre	NOT HELD	—
Artificial intelligence contribution to Egyptian GDP	NOT HELD	—
Egypt's AI-specific statute or regulation	NOT HELD	—
Egyptian Charter for Responsible AI (2023)	NOT HELD	—

ICT Industry

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Egypt-United Kingdom ICT cooperation	PLANNED ↗	Ministerial meeting with the British ambassador
Electronics and handset localisation programme	IMPLEMENTED ↗	Output reached 10 million handsets by end-2025
Konecta Egypt regional headquarters and generative-AI centre	IMPLEMENTED ↗	Facility inaugurated in New Cairo with the ICT minister present
Systems Limited Egypt delivery centre	IMPLEMENTED ↗	New Smart Village headquarters opened; expansion plans put to the ICT ministry
Technology parks programme	IN DEVELOPMENT ↗	Six parks under development at Minya, Menoufiya, Mansoura, Sohag, Qena and Aswan
Venduo B2B fashion and textiles marketplace	IMPLEMENTED ↗	About EGP 40m in platform transactions reported since launch

Innovation ecosystem

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
InfiniLink	DISCONTINUED ↗	Acquired by a United States chip manufacturer, November 2025
Stakpak	DISCONTINUED ↗	Team joined a United States platform company, announced 2026-07-20

US / hyperscaler activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Google AI Pro free student subscriptions	PLANNED ↗	Egypt named among the first eight countries

China activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Chinese-supplied smart-city surveillance in Egypt	IMPLEMENTED ↗	Egypt included in an eleven-country mapping of Chinese smart-city surveillance
Fibre-to-the-room service with Telecom Egypt	IMPLEMENTED ↗	Commercial launch agreement signed, stated as a first in Egypt
Huawei Cloud Egypt region	IMPLEMENTED ↗	First Huawei public cloud region in Egypt launched 2024

India activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
India-Egypt technology cooperation	PLANNED, NO INSTRUMENT SIGNED ↗	Ministerial meeting on the sidelines of the BRICS Industry Ministers' Meeting, Jaipur

Gulf/UAE activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Gulf-state technology investment in Egypt	NOT HELD	—

The second edition of the National AI Strategy has been in force since early 2025 on six stated pillars, and a responsible-AI centre was established inside the ICT ministry at the end of 2025; the strategy text itself is not held, so its content is known only from ministerial summaries. The national council that owns it was widened to cover quantum computing and emerging technologies, and is preparing a quantum strategy; the date of the widening and the instrument are not stated.

The state's own model is described but not documented: an Arabic large language model attributed to an applied innovation centre, with no release date, licence or access terms held, and a centre with no establishment date, mandate or funding on file.

Egypt was elected on 31 July 2026 to chair both the AI Governance and Quantum Computing working groups of the Arab Permanent Committee for AI and Emerging Technologies ([election account](#)).

The sector's own measures are ministerial and unreconciled: outsourcing exports for 2025 are stated at US\$4.8bn by one minister and US\$5.2bn by his successor, neither citing an underlying series ([ministerial briefing](#)).

The industry ministers of Egypt and India agreed on 7 August 2026 to study priority sectors for industrial integration, financial technology among them, and discussed linking the two countries' payment systems and settling trade in local currencies; no instrument was signed ([meeting account](#)). Nothing is held on Gulf technology engagement with Egypt.

Venduo, described by its founders as Egypt's first digital B2B marketplace for fashion and textiles, has processed about EGP 40m in transactions since launch, EGP 20m of that in the first half of 2026, connecting 8,000 brands and designers with more than 2,000 contract manufacturers; international brands including Zara, Adidas, Nike and Mango account for about 30% of platform brands ([company account](#)).

Inclusion and capacity

Digital divides

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Presidential initiative on digital accessibility of government websites	PILOTING ↗	Accessibility toolbar published on the ICT ministry's own website
Affordability of connectivity relative to income	NOT HELD	—
Gender gap in internet and mobile-internet use	NOT HELD	—

Access to services

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Ration-card grievance data update at post offices	IMPLEMENTED ↗	Service began at 500 post offices
Internet use as a share of population	NOT HELD	—
Postal service digital services and post-office digitisation	NOT HELD	—
Universal service fund or universal service obligation	NOT HELD	—

Training and skills

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
AI Capacity Building Initiative for Universities	IMPLEMENTED ↗	Fourth round closed 2026-08-04
Cybersecurity SuperHero Academy	IMPLEMENTED ↗	Third edition opened for registration 2026-07-06
Enrolment and graduate numbers for the named national training programmes	NOT HELD	—

Research institutions

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Applied Innovation Centre research programme and model documentation	NOT HELD	—
Compute access for Egyptian researchers	NOT HELD	—
National research and development spending on artificial intelligence and digital technologies	NOT HELD	—

Egypt's inclusion measures are almost entirely central bank measures, and they are strong. Financial inclusion reached 77.6% of adults at end-2025 — 54.7 million of 70.5 million people — from 27.4% in 2016, with women at 71.4% ([central bank](#)). More than 55.5 million mobile wallet accounts transacted about EGP 1.8tn to June 2025.

Against that headline sits a credit position that has not moved. About 16.7 million Egyptian adults had no formal access to credit or other banking services at June 2025, and no fresher measure is held ([lender account](#)).

Training is measured by programme rather than nationally. A university artificial-intelligence initiative running since 2022 reports 2,710 students and 763 projects cumulatively ([round account](#)). The most recent national ICT training total the base holds is 400,000 trainees for 2023/24, and no later figure exists.

The accessibility position is a demonstration rather than a standard: a toolbar published on the ICT ministry's own site on 4 August 2026 under a presidential initiative, with no deadline, list of bound entities, conformance level or audit route stated ([ministry account](#)).

Enforcement of ration-card eligibility criteria, applied strictly from June 2026, removed about 850,000 cards from the subsidy system; only 2,600 appeals were filed, about 0.3%, a rate the supply ministry now attributes to document hurdles rather than to accuracy — applicants must obtain proof from other agencies, such as the traffic department certifying they own no vehicle, before an appeal can be assessed, and name collisions or stale records require correction at the agency holding the original data ([ministry account](#)). A comparable enforcement round in 2019 drew objection that led to about 1.8 million reinstatements under presidential directive.

What Egypt commits in money is unestablished. There is no domestic budget archive for Egypt, and the FY2026/2027 development plan is not held, so no appropriation figure in this report rests on a state budget document.

Finance

New investments

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Blk consumer lending facility	IMPLEMENTED ↗	US\$37.1m raise announced
Egypt Startup Charter and unified financing initiative	IMPLEMENTED, CERTIFICATION LAUNCHED ↗	First Startup Label Certificates issued, one recipient named

Central bank memorandum with Afreximbank on a pan-African Gold Bank	PLANNED ↗	Memorandum of understanding signed
Fawry point-of-sale integration partnership	IMPLEMENTED ↗	Partnership signing announced
Memorandum on a regional IT outsourcing delivery centre	PLANNED ↗	Memorandum of understanding signed with the IT industry agency

Domestic budget appropriations and expenditure

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Economic and Social Development Plan FY2026/2027	NOT HELD	—
Startup Charter EGP 50bn financing initiative, appropriation and disbursement	NOT HELD	—
State appropriation for digital transformation and for the ICT ministry	NOT HELD	—

The Startup Charter's certification track has begun operating, ahead of confirmation on its financing. UMAMI E-Learning Solutions was named as one of the first Egyptian companies awarded the Startup Label Certificate under the Charter, assessed on innovation, technological reliance, scalability and investment readiness ([company account](#)). No cumulative certification count is held, and no appropriation or disbursement record for the stated EGP 50bn unified financing initiative accompanies it.

Gaps to fill

SYSTEM OR INSTRUMENT	WHAT WOULD SETTLE IT	LAST PROBED
National Cybersecurity Strategy, second and third editions, as documents	The published strategy text or the Supreme Cybersecurity Council decision adopting it, with an issue date and edition number	not yet probed
National emergency readiness centre incident and advisory record	An annual report or regulator incident statistics giving reported incidents, sectors affected and response times for 2025 or 2026	not yet probed
Critical information infrastructure protection regulation	A regulator or cabinet instrument designating critical information infrastructure and setting security obligations on its operators, including the data centres now being licensed	not yet probed
Submarine cable protection regime for Egyptian waters	An Egyptian instrument on cable protection zones, anchoring restrictions or repair-vessel access; the analysis the wiki holds is Africa-wide and names none for Egypt	not yet probed
Egypt's internet exchange points	A regulator or exchange-registry entry naming Egypt's exchange points, their members and peak traffic; nothing in the base names one, which sits oddly against the 15% content-locality reading	not yet probed

SYSTEM OR INSTRUMENT	WHAT WOULD SETTLE IT	LAST PROBED
2Africa Egyptian landing stations and ready-for-service dates	The consortium's landing-station list or the incumbent's segment announcements naming the Egyptian Mediterranean and Red Sea landings	not yet probed
National broadband plan and any universal service obligation or fund	The published national broadband plan or the regulator instrument establishing a universal service fund, with coverage targets and a financing line	not yet probed
5G coverage and subscriber base	A regulator quarterly bulletin giving 5G population coverage, base-station count and subscribers; the equivalent is held for Morocco and Tunisia in the same source and absent for Egypt	not yet probed
Egypt's total operational data-centre capacity in MW	A market report or regulator licence register giving installed and pipeline IT load by facility	not yet probed
Government data centres, location, operator and capacity	A ministry or cabinet statement enumerating the state's own data centres; the base repeatedly refers to government data-centre projects and giant data centres without naming or siting one	not yet probed
Regional Data Hub 2 entry into service	An operator press release or annual report confirming commissioning, Tier III constructed-facility certification, and delivered IT load	not yet probed
Power supply arrangements for Egypt's operating data centres	A grid connection agreement, tariff schedule or power purchase agreement for any licensed Egyptian data centre; the base holds nothing beyond the Sinai green-power proposal	not yet probed
Data-centre energy and water consumption reporting	A licence condition or operator sustainability report giving power usage effectiveness, annual energy draw or cooling-water use for an Egyptian facility	not yet probed
National high-performance computing or public GPU capacity	A ministry or applied innovation centre statement giving the compute on which the Arabic large language model was trained and is served, with location and ownership	not yet probed
National digital identity enrolment count	A ministry or interior ministry registration figure for the digital identity app, the interior biometric platform or the central bank identity app; three biometric identity channels launched inside the window and the base holds no enrolment number for any	not yet probed
Governing instrument for digital identity and biometric processing	A decree or law establishing the national digital identity system and its biometric processing basis; the data-protection law and its regulations are held, but no identity-specific instrument is	not yet probed
Register of bodies connected to the government digital switch, and its lawful basis	A ministry or cabinet decree establishing the switch, or a published register of the 105 connected bodies and 100 linked databases; only a cabinet readout of ministry-reported counts is held	not yet probed
Relationship between the ministry's digital post box and the postal service's product	A ministry statement naming the digital post box product, or the postal service protocol text; the ministry reported its own digital post box as being finalised on 2026-07-19 and a national-ID-linked postbox appeared as operating on 2026-08-05, and nothing states whether these are the same system	not yet probed
National land registration coverage	A real estate publicity department or justice ministry figure for registered against unregistered properties, or a count of survey sections converted to the title register	not yet probed
Commercial register size and digitisation state	A supply ministry or investment authority figure for registered establishments; the base records nine commercial-registry services made exclusive to the platform from 2026-01-01 but no register size or digitisation coverage	not yet probed
Universal Health Insurance system enrolment and digital architecture	An insurance authority enrolment or governorate-rollout figure; the base holds a policy note proposing automatic enrolment and a note that the national digital health strategy is anchored on the insurance architecture, but no operating position	not yet probed
Education management information system	A Ministry of Education statement or system name; education appears only as one of nine priority sectors and as an area receiving new services, with no named system	not yet probed
National card scheme current issuance	A central bank figure for national scheme cards issued after end-2024; 43.5m at end-2024 is the newest count held, repeated in two November 2025 accounts of the same address	not yet probed
Central bank national payment system statistics	A payment systems annual or quarterly report giving mobile money and switch transaction volumes and values; the base carries only inclusion rates quoted second-hand	not yet probed
Governorate-level service platforms and local-government information systems	A local development ministry statement on governorate digital service centres or a local-government information system; the base holds the shop-licensing platform and nothing on governorate-level systems as such	not yet probed

SYSTEM OR INSTRUMENT	WHAT WOULD SETTLE IT	LAST PROBED
Statistics agency release programme and publication calendar	The agency's published release calendar or its statistical yearbook for 2025 or 2026; the base holds no agency output at all beyond the census-planning readout	not yet probed
Egypt's own earth-observation and satellite programme	An Egyptian Space Agency statement or satellite mission record; the section's only satellite content is Egypt's intended use of a Japanese rainfall product	not yet probed
Rural digital service uptake, as distinct from rural connectivity	A figure for platform transactions or service-centre usage originating in Decent Life villages; the base holds fibre-line and village counts but nothing on whether rural households use the digital services those lines carry	not yet probed
Data-protection regulator enforcement and licensing record	An annual report or published decisions register giving decisions issued, fines imposed, officers registered and cross-border-transfer licences granted since 2025-11-01	not yet probed
Executive Regulations 816 of 2025, the instrument itself	The Official Gazette text of the decree; the base holds only two law-firm summaries of it	not yet probed
Cybercrime Law 175 of 2018 and its enforcement record	The Official Gazette text with any amendments, plus prosecution or conviction statistics; the base names the law repeatedly but holds no text and no enforcement record	not yet probed
Telecommunication Regulation Law 10 of 2003	The Official Gazette text as amended; the base knows it only through the recital in the regulator's satellite framework and a second-hand reference to one article	not yet probed
Egypt's position on the AU Malabo Convention	The AU depositary's ratification list, or an Egyptian instrument of ratification or accession; nothing states whether Egypt has signed, ratified or acceded	not yet probed
EU-Egypt digital cooperation instrument	The text of any EU-Egypt digital chapter, Global Gateway package allocation or European Commission adequacy assessment naming Egypt; the base holds nothing on Egypt's digital relationship with the EU as an institution	not yet probed
Egyptian national open-data portal	The portal's own landing page with a dataset count and a licence statement, or the text of the open data policy the ICT minister referred to on 2025-12-21	not yet probed
Public consultation on the data-protection Executive Regulations	A regulator or ministry consultation record - a draft published for comment, submissions received, or a response document; the base holds no evidence the Regulations were consulted on before issue	not yet probed
National Artificial Intelligence Strategy, second edition, the document	The published strategy text giving the six pillars' content, targets, budget and delivery milestones now known only from ministerial summaries	not yet probed
Egypt's AI-specific statute or regulation	A published bill or Official Gazette instrument; nothing establishes any AI-specific law, only the data-protection law and a cabinet-agreed legislative review of 2026-07-29	not yet probed
Egyptian Charter for Responsible AI (2023)	The charter text itself; the base carries only the minister's one-line reference to its 2023 issuance	not yet probed
Applied Innovation Centre	A founding instrument, budget line or annual report; the centre is named in three sources as the developer of the Arabic model but has no establishment date, mandate or funding on file	not yet probed
Artificial intelligence contribution to Egyptian GDP	The study behind the widely quoted figure of about US\$42.7bn or 7.7% of GDP by 2030; no source on file establishes it, and the entity page expressly declines to carry it	not yet probed
Gulf-state technology investment in Egypt	Any source at all; the wiki holds zero Egypt sources on this subject, so no UAE, Saudi or Qatari technology or data-centre commitment can be stated, dated or sized	not yet probed
State appropriation for digital transformation and for the ICT ministry	The finance ministry's published FY2026/2027 budget chapters for the communications ministry, or the ICT chapter of the Economic and Social Development Plan; there is no budget archive for Egypt and the plan document is not held	not yet probed
Economic and Social Development Plan FY2026/2027	The plan document from the planning ministry or as laid before Parliament; the wiki records at 2026-08-04 that it is not held and that the ministry site serves no plan document	not yet probed
Startup Charter EGP 50bn financing initiative, appropriation and disbursement	The cabinet decision or finance law establishing the fund, and the managing body's first disbursement report	not yet probed
Applied Innovation Centre research programme and model documentation	The centre's own published research output, budget or model card; nothing at all is held on research capacity for Egypt	not yet probed

SYSTEM OR INSTRUMENT	WHAT WOULD SETTLE IT	LAST PROBED
National research and development spending on artificial intelligence and digital technologies	A statistics agency or higher education ministry expenditure series, or the National AI Strategy's own budget annex	not yet probed
Compute access for Egyptian researchers	A dated statement from the AI-factory operator or the Egyptian state on the Egyptian site's siting, capacity and access terms; the base records only that Egypt is one of five planned sites	not yet probed
Enrolment and graduate numbers for the named national training programmes	Ministry or IT industry agency annual reports giving per-programme intake and completion figures; the base names the vehicles at 2026-07-21 but carries no numbers	not yet probed
Internet use as a share of population	Regulator or ministry monthly ICT indicators, or an ITU country profile; no source in the base carries an Egyptian internet-penetration figure with a citable URL	not yet probed
Universal service fund or universal service obligation	The regulator's annual report or the universal-service provisions of the telecommunications law and any levy accounts; no source names such a fund	not yet probed
Postal service digital services and post-office digitisation	A national postal authority progress report; the base holds only 2024 figures of 27 digital services and about 3,000 post offices digitised, with no update	not yet probed
Gender gap in internet and mobile-internet use	An industry association gender-gap country table or a statistics agency ICT household survey for Egypt; only the mobile-money literacy split is held	not yet probed
Affordability of connectivity relative to income	An affordability alliance or ITU affordability series for Egypt; the base records rising consumer complaints about internet prices at December 2025 but no price or income measure	not yet probed

The absences here are concentrated in two places. Egypt's own money is the first: no state appropriation for digital transformation or for the ICT ministry is held, and the FY2026/2027 development plan is not held either, so what the state commits to any of the systems described above cannot be stated. Research capacity is the second: nothing is held on research and development spending, on the applied innovation centre's output, or on compute access for Egyptian researchers.

Two further silences bear on claims made here: no register of the 105 bodies connected to the digital switch exists and no lawful basis for that sharing is published ([cabinet readout](#)), and no enrolment count exists for any of the three biometric identity channels launched inside the window. Gulf and Indian technology engagement returns no source at all, which given the documented role of Gulf capital in Egyptian infrastructure is a hole in the wiki rather than an absence in the world.

Figures are dated because most are time-varying: a figure carries the date it was true, not the date you are reading it. Where the base holds no reliable statement, the document says **Not held** rather than leaving a silence — those are counted, and listed at the end.

This is a dated edition and is not revised after publication. If a figure here has moved, the current edition will say so.
