

STATUS REPORT

Tanzania: status report

Edition of 2026-08-11 • 89 systems and instruments tracked, 13 of them not held

Compiled 2026-08-11 from the Data Landscapers source base, from [outputs/reports/TZA/ledger.csv](#) (89 systems and instruments, 13 of them Not held). Each section opens with its ledger; specific events are covered in the monthly updates. Figures are dated because most are time-varying.

Status values. *Implemented* — in operation or in force. *Piloting* — running with a limited user group or in a controlled environment. *In development* — build or drafting under way, not yet operating. *Planned* — announced or provided for, no build or draft on record. *Enacted* — an instrument passed into law; pair with a qualifying clause for its in-force date. *Under review* — a law or policy currently being reconsidered. *Discontinued* — closed or superseded. *Not held* — the base carries no reliable statement of status; these are the gaps to fill and are listed again at the end.

Summary of position

At December 2025 the national identity register held [26.4m people registered](#), [22.3m numbers issued](#) and [20.6m cards distributed](#), about [81% of eligible adults](#), with [more than 138 institutions integrated](#) for electronic verification. The 1.7m gap between numbers issued and cards in citizens' hands did not close over the year.

The instant payment system cleared [651m transactions worth TZS 54.95tn in 2025](#), against 453m worth TZS 29.82tn in 2024. Since [1 July 2026](#) an order under the electronic transactions Act has made nine scheduled classes of transaction electronic-payment-only, and the central bank has [capped several retail charges while rejecting a general price cap](#).

An external maturity index places Tanzania in its [top group](#), [second in Africa](#); a ministerial inspection of the national backbone recorded [942.5 km built in one region](#) against [65 citizens connected region-wide](#).

The base holds no Tanzanian cybersecurity strategy, no incident-response team, no cybercrime instrument and no open-data policy.

Infrastructure

Connectivity

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
636-mast programme	IN DEVELOPMENT ↗	Due March 2027

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Kenya border terrestrial fibre link	IMPLEMENTED ↗	Launched 2026-07-29
Kilimanjaro One submarine cable	PLANNED ↗	Announced 2025-11-12
National ICT Broadband Backbone	IMPLEMENTED ↗	15,167 km spanned at December 2025, per the minister's WTISD 2026 statement
Satellite broadband service	IMPLEMENTED ↗	Live in Tanzania as of November 2025
Tower and fibre public-private handover	IMPLEMENTED ↗	Handed to government 2026-04-11
TTCL fibre-to-the-home programme	IMPLEMENTED ↗	The target reset to 2028, with about 200,000 of 280,000 financial-year connections delivered
Zanzibar broadband partnership	PLANNED ↗	A twenty-year agreement signed, reported 2026-06-25

Data Storage

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Local cloud exchange platform	IMPLEMENTED ↗	Launched in Tanzania in November 2025, its first market
Mbezi Tier III data centre, second phase	IMPLEMENTED ↗	The second phase launched 2025-03-19
National data centres at Dodoma and Zanzibar	IN DEVELOPMENT ↗	Named as active government investment 2026-06-19
Raxio Tanzania data centre	IN DEVELOPMENT ↗	Named as a site under development, 2026-07-13

Energy

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Energy provision for digital infrastructure	NOT HELD	—

Technical Capacity

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Cyber-skills partnership with South Korea	IMPLEMENTED ↗	The partnership announced 2025-08-17
Practical backbone training with a technical institute	IMPLEMENTED ↗	Reported 2026-07-23; the visit date is not stated

Cybersecurity

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Tanzania Cybersecurity Forum	IMPLEMENTED ↗	A fourth edition held at Arusha, April 2025
Zanzibar cybersecurity capacity memorandum	IMPLEMENTED ↗	A memorandum signed, reported 2026-06-11
National cybersecurity strategy or response team	NOT HELD	—

The state network is built ahead of its take-up. The backbone [spanned 15,167 km at December 2025 at a capacity of 2,000 Gbps](#), reaching all mainland regional headquarters and 122 of 139 districts and linked to seven neighbouring countries, against [13,820 km of a 16,280 km planned total at April 2025](#). Its regional manager states that phase one connected government offices and public institutions with individual citizens only next, and the [one regional figure the ministry has published is 65 citizens connected across Dodoma Region \(2026-07-24\)](#). No national connected-user total is held.

Commercial capacity is measured better than public capacity. The regulator's quarterly report to 31 March 2026 records [1,804 5G facilities on 10,084 towers, 32.83% population coverage and 11.04% geographic](#), and names low smartphone penetration and a 23.7% geographic broadband gap as sector constraints. On the same report smartphone users fell to 28.5m while penetration rose to 42.5%; the base does not reconcile the two.

Total mobile subscriptions, a count of active SIMs rather than devices, reached [106.82m at end-2025, 156.7% penetration, up 23.1% year on year](#) on the regulator's own submission to a regional compilation — the second-highest subscription growth rate among the seven East African states it covers, after South Sudan's 21.7%.

The state's data-centre estate cannot be sized. [Four public data centres have been commissioned](#) since March 2021 and no rack, floor-space or power capacity is published for any. The commercial estate is specified where the public one is not: the second phase at [Mbezi carries 110 racks](#), unchanged since March 2025.

Security is the thinnest position here: no national cybersecurity strategy, cybercrime instrument or incident-response team is held, while the base holds such records for several neighbours. Energy appears only as other parties' caveat.

Digital public infrastructure

Data Exchange

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Appeals module integration with the judiciary	PLANNED ↗	The authority announced plans to integrate the module with the judiciary's system
Credit reference data system	IMPLEMENTED ↗	The annual report recorded the system developed and deployed with onboarding under way
Government enterprise service bus	IMPLEMENTED ↗	An external maturity index named it as the backbone underpinning the country's top-tier classification
Jamii X-Change	IN DEVELOPMENT ↗	The ICT minister said the ministry was still coordinating its construction
Procurement complaints and appeals module	IMPLEMENTED ↗	The appeals authority directed all domestic and international bidders to lodge challenges through the module

Digital Identity and CRVS

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Centralised identity card printing	IMPLEMENTED ↗	The government declined a request to print identity cards in Zanzibar, on security grounds
Certificate-dispensation window	IMPLEMENTED ↗	A one-year window opened for more than 14,000 dismissed public servants to correct records and obtain identity cards
Identity system expansion, second phase	IN DEVELOPMENT ↗	The authority published tenders for iris and facial recognition contractors
Infant Registration Bill	IN DEVELOPMENT ↗	Set for the parliamentary session opening 2026-01-27; not tabled
Jamii Namba as a distinct issued identifier	IN DEVELOPMENT ↗	The authority confirmed registration from birth still awaits the enabling bill and the end-2025 conclusion target passed
Registration from birth	PILOTING ↗	The government announced amendment of the registration Act and child registration from FY2026/27

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Toll-free identity-status service	IMPLEMENTED ↗	A free shortcode launched for checking identity status by message

Digital Payments and Fintech

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Central bank digital currency	IN DEVELOPMENT, UNDER STUDY ↗	The annual report restated that a digital currency remains under study
Central Electronic Ticketing System	IMPLEMENTED ↗	Transport ministry figures to March 2026
Cross-border instant-payment corridor with Rwanda	IN DEVELOPMENT ↗	A technical meeting in Zanzibar from 7 to 11 July 2026 advanced governance, commercial and risk frameworks
Fintech regulatory sandbox	IMPLEMENTED ↗	The annual report recorded 35 applications reviewed and five approved for live testing
General price cap on payment charges	DISCONTINUED, REJECTED BY THE CENTRAL BANK ↗	The governor rejected the cap, saying charges are already low and competition will cut fees within six months
Jamii Malipo	IN DEVELOPMENT ↗	A ministry official described it as a programme still to be created
M-Wekeza wallet-based investment platform	IMPLEMENTED ↗	More than TZS 370bn in customer investments recorded between the November 2024 launch and March 2026, per Vodacom Tanzania's results (month precision)
Mandatory electronic payments order	IMPLEMENTED ↗	The order came into operation, making nine scheduled transaction classes electronic-payment-only
Mobile money core platform upgrade	IMPLEMENTED ↗	A US\$28m core upgrade launched
Retail payment fee caps	IMPLEMENTED ↗	The central bank set out the caps and substitutions
TANQR national QR payment standard	IMPLEMENTED ↗	27 participating financial service providers at end-2025, per the central bank's payment systems annual report

Registries (population, land, address, etc.)

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Birth registration programme, 2026-2027	PLANNED ↗	A national partner sought for a programme running August 2026 to August 2027
Cooperative management system	IMPLEMENTED ↗	The e-government agency gave the registered-society count at an agricultural exhibition
Electronic birth certificate issuance	IMPLEMENTED ↗	An upgraded platform reported issuing birth certificates within 48 hours
Zanzibar national address programme	IMPLEMENTED ↗	Operational since June 2025, with more than 450,000 digital addresses assigned

Sectoral management information systems (HMIS, EMIS, etc.)

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Agriculture and fertiliser information systems	IMPLEMENTED ↗	Both systems described at an agricultural exhibition
Health management information system	IMPLEMENTED ↗	An analysis recorded the platform carrying over 90% of data flows across a fragmented ecosystem

Digitalisation of sub-national government

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Make Kibamba Digital	IN DEVELOPMENT ↗	Launched at an equipment handover 2026-08-04
Local-government administrative and financial systems	NOT HELD	—

National statistics

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
National statistical system objects	NOT HELD	—

Use of satellite data

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Educational cubesat	PLANNED ↗	A line item in the ministry's FY2026/27 budget request
Earth-observation or national geospatial data programme	NOT HELD	—

Registration from birth is [running as a pilot ahead of the amendment to the registration Act](#), with child registration announced from FY2026/27; the [Infant Registration Bill](#) was set for the session opening 27 January 2026 and [no enactment is on file](#). The common identifier is designated but [still not issued as a distinct number, its end-2025 target passed unmet](#). A [second phase is tendered for iris and facial biometrics and offices in 31 districts, on an external loan of about US\\$70m](#).

Charges are capped per instrument: [bank-to-wallet interoperability at TZS 5,000 above TZS 500,000, instant and retail bank-to-bank transfers at TZS 2,000, card payments at zero](#). The central bank's payment systems report puts [merchants accepting digital payments at 2,789,455 in 2025 against 1,327,803 in 2024](#), a rise it attributes to the TANQR pay number, which carried 86.34 million interoperable merchant transactions worth TZS 6,413.14 billion across 27 participating providers. A newspaper account carries [8,126 buses on the Central Electronic Ticketing System and more than 21 million electronic bus tickets between June 2025 and March 2026](#) at second hand; the transport ministry figures behind it are not held.

The service bus carries external validation but [no held source states how many institutions joined by the deadline of 30 July 2025](#). Jamii X-Change, a separate build, is [still under construction with no go-live date](#).

Vodacom Tanzania's [M-Wekeza wallet-based investment platform has taken more than TZS 370bn in customer investments between its November 2024 launch and March 2026](#), per the operator's results reported at second hand in a comparative piece on Lesotho's equivalent service; no subscriber count or portfolio composition is held.

Governance and regulation

Legislation and regulation

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Financial consumer protection amendment regulations	IMPLEMENTED ↗	Dated 2025-05-23
Online content and cybercrime regulation	NOT HELD	—

Strategies, plans and policies

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
National Data Management Framework	IN DEVELOPMENT ↗	A stakeholder process reported under way, completion targeted January 2026

Regional collaboration

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
EAC regional AI strategy	IN DEVELOPMENT ↗	National stakeholder consultations held in Tanzania 2026-02-12

Standards

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
National data or interoperability standards instrument	NOT HELD	—

Data protection

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Certified Data Protection Officer programme	IMPLEMENTED ↗	Launched 2026-07-14 by the commission with the open university
Personal Data Protection Act, 2022	IMPLEMENTED ↗	Commenced 2023-05-01, with regulations in force

EU activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
EU-Tanzania digital governance instrument	NOT HELD	—

Open data

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Open-data policy or national open-data portal	NOT HELD	—

Data protection is in force and its compliance base is unmeasured. The [Personal Data Protection Act, 2022](#) commenced on 1 May 2023 with a supervisory commission, a registration duty, a mandatory officer requirement and a breach-notification duty; practitioners record that *security breach* and *without undue delay* remain undefined

and that there is no duty to notify data subjects. A [registration deadline of 8 April 2026](#) was set by ministerial directive, with nationwide inspections from the following day, followed by a [seven-day ultimatum to part-registered bodies](#), health and education named as still processing unregistered. No count of registered controllers and no inspection outcome, fine or decision is held after that date.

The statutory officer duty now has a [certification programme](#), the [open university training and assessing and the commission certifying](#), with no intake number on file.

Restriction of access is recorded only from outside government. A monitoring organisation counts [eight shutdowns across 2025](#), the [highest of any African state in its data](#), including a five-day nationwide blackout at the October election. No gazetted instrument, directive or regulator order is held for any of them, and the monitor states its counts are subject to revision.

The [National Data Management Framework](#) was in stakeholder drafting for a [January 2026 target](#) and no record of completion or slippage is held.

Artificial intelligence and the technology sector

AI

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Cardiac institute digital patient tracking and AI imaging	IMPLEMENTED ↗	The institute reported the tracking system in use for medical-camp follow-up
Kiswahili large language model	PLANNED ↗	Set out by the ICT minister to an international AI meeting as a commitment written into the 2050 vision
National AI data centre	IN DEVELOPMENT ↗	The minister stated the centre is under construction
National AI strategy or guidelines	IN DEVELOPMENT ↗	An archives officer told a training event that government is still drafting guidelines, and an external outlook the same day placed Tanzania among states still developing strategies
Ports authority enquiry chatbot	PILOTING ↗	A design-and-evaluation study published in a peer-reviewed journal
University AI prototypes	IN DEVELOPMENT ↗	Shown at a national agricultural exhibition

ICT Industry

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Digital Economy Strategic Framework 2024-2034	IMPLEMENTED ↗	The implementation year opened and targets restated at an annual ICT conference

Innovation ecosystem

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Accelerator placement	IMPLEMENTED ↗	A Dar es Salaam company named in a fifteen-startup cohort
ITU acceleration centre	PLANNED ↗	Final approval at an international innovation board meeting

US / hyperscaler activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
United States technology-sector engagement	NOT HELD	—

India activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
India-Tanzania technology cooperation	NOT HELD	—

Gulf/UAE activities

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Gulf-state technology or AI engagement	NOT HELD	—

Tanzania has no adopted artificial-intelligence instrument. Guidelines are [still being drafted](#), and an [external outlook of 30 July 2026](#) places Tanzania among states still developing a strategy — the commission having said at the first national AI forum that one was [expected in 2025](#). The base does not establish whether the guidelines and the strategy are the same object. A [regional strategy is in drafting at East African Community level](#), with no adoption date or Tanzanian ratification step on file.

The ICT ministry states that a [national AI data centre is under construction, justified on ending raw-data export and training models on domestic hydro and geothermal power](#), with no site, cost, capacity or completion date, and that a Kiswahili large language model is written into the 2050 vision, with no developer, budget or timetable. The e-Government Authority stated on 11 July 2026 that a [Kiswahili database of more than 61 million words is under development for AI use](#); no held source connects it to the model. A statement of 31 July 2026 sets out [three requirements — health data stored inside Tanzania, healthcare AI systems approved by the relevant authorities, and local capacity to build them](#), naming no instrument and no approving authority.

A cardiac institute reports [digital patient tracking in service alongside AI-enabled echocardiography](#), without patient volumes or procurement route. The only measured outcome in the base is a ports enquiry chatbot, [95.1% weighted task success with fifteen domain experts](#) in a peer-reviewed study, with no production deployment.

The [framework targets the ICT share of GDP doubled to 3% by 2029](#) from about 1.5% for 2022/23, with no intervening annual figure held.

Inclusion and capacity

Digital divides

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Digital transformation centre for rights and gender equity	IMPLEMENTED ↗	A EUR 3,000,000 commitment for 2024 to 2027 recorded in the compiled finance layer

Access to services

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Third National Financial Inclusion Framework	IMPLEMENTED ↗	The council reported on implementation for 2025
Universal service fund rural site programme	IMPLEMENTED ↗	133 fund sites completed, marked at a Dodoma event

Literacy

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Digital clubs programme	IMPLEMENTED ↗	The regulator's director general put the count at 800 clubs, reported 2026-08-04
Science and ICT education grant	IMPLEMENTED ↗	A grant of about US\$10m for secondary-school science and ICT education, running to 2027

Training and skills

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
ICT workforce training with European partners	IMPLEMENTED ↗	Training opened in Dar es Salaam for 110 participants across four named priority areas
Overseas AI and data-science scholarship placements	IMPLEMENTED, PARTIALLY ↗	The education minister told a parliamentary committee that sixteen graduates had travelled and 34 were expected
Zanzibar postgraduate technology campus	IMPLEMENTED ↗	A second graduation of data-science, AI and ocean-structure cohorts

Research institutions

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
University ICT college building	IN DEVELOPMENT ↗	A parliamentary committee inspected the building under construction under a higher-education project
National ICT or AI research programme or fund	NOT HELD	—

The council's [2025 reading is 0.83](#), [access 0.87](#) and [usage 0.79](#), [against 0.81 for 2024](#); the report reads that as people reaching the system and not using it. [Financial access points reached 2.27m](#), [up 33.5%](#), [about 2m of them mobile-money agents](#) — growth in agents rather than branches.

The universal service fund's [133 completed rural sites](#) are the only output figure held, and no levy rate or fund balance appears anywhere in the base.

Skills are supplied in cohorts of [110 participants across AI, cybersecurity, personal data protection and emerging technologies](#) in Dar es Salaam; a [second cohort of 129 students](#), [about half from East Africa](#) and [30% women](#) at the Zanzibar postgraduate campus, institution-reported; and [sixteen graduates studying AI and data science overseas with 34 expected](#). None carries a budget, and no national ICT or AI research programme or fund is held. The telecoms regulator reports [800 digital clubs established from nursery to university level](#), with no per-club spend or outcome measure published.

The largest single commitment is the [US\\$150m Digital Tanzania Project for 2021 to 2026](#), with nothing in the base marking its scheduled closure.

The communications ministry's own vote is [proposed at TZS 222,589,451,000 for 2026/27 against TZS 291,533,139,000 approved for 2025/26](#); domestic development finance is unchanged at TZS 98.48bn and the whole reduction falls on external finance, which drops from TZS 178.57bn to TZS 110.96bn. TZS 147,768,795,247 of the 2025/26 vote had been released by March 2026, 50.6%.

Finance

New investments

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Digital Tanzania Project	IMPLEMENTED ↗	Board approval of a US\$150m operation covering broadband, digital government, digital financial services and digital skills
Payment-rails credit facility	IMPLEMENTED ↗	A US\$25m credit facility announced, extendable to US\$50m

MoUs and other agreements

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Bilateral digital-cooperation tracks with Brazil, Poland and Russia	PLANNED ↗	Cooperation frameworks agreed at an international summit; memoranda proposed, none signed
Digital economy memorandum with Huawei	IN DEVELOPMENT ↗	Signed in Shanghai by the ministry's permanent secretary, witnessed by the minister
Zanzibar broadband memorandum with a second operator	IN DEVELOPMENT ↗	A memorandum signed covering broadband, digital inclusion and public services

Domestic budget appropriations and expenditure

SYSTEM OR INSTRUMENT	STATUS ↗ source	AS AT
Domestic state appropriation for digital transformation	IMPLEMENTED ↗	Estimates for Vote 68 presented to Parliament 2026-04-30

(narrative not yet written)

Gaps to fill

SYSTEM OR INSTRUMENT	WHAT WOULD SETTLE IT	LAST PROBED
National cybersecurity strategy or response team	the instrument establishing the national response team under the regulator, or a national cybersecurity strategy document with its approval date	not yet probed
Energy provision for digital infrastructure	a dated grid-reliability or generation-capacity figure from the utility, or a stated contracted load or power-purchase arrangement for any named Tanzanian data centre	not yet probed
Online content and cybercrime regulation	the gazetted online content regulations or cybercrime Act text, or a dated regulator notice	not yet probed
National data or interoperability standards instrument	a published national data standard, interoperability framework or e-government standards circular with a date	not yet probed
Open-data policy or national open-data portal	an open-data policy document or a dated portal launch	not yet probed
EU-Tanzania digital governance instrument	a signed EU-Tanzania digital partnership, adequacy arrangement or gateway instrument with a date	not yet probed

SYSTEM OR INSTRUMENT	WHAT WOULD SETTLE IT	LAST PROBED
Earth-observation or national geospatial data programme	a ministry, regulator or lands primary naming a geospatial data programme with a dated status	not yet probed
National statistical system objects	a statistics-bureau primary or a statistics Act instrument with dated coverage	not yet probed
Local-government administrative and financial systems	a local-government ministry or auditor-general primary naming a council-level system, its coverage across the 184 councils, and a dated figure	not yet probed
United States technology-sector engagement	a signed US-Tanzania digital or AI cooperation instrument, a named US cloud or AI vendor contract with a Tanzanian public body, or a dated development-finance technology commitment	not yet probed
Gulf-state technology or AI engagement	a dated Gulf data-centre, AI or telecom investment in Tanzania with a named counterparty and value	not yet probed
India-Tanzania technology cooperation	a dated India-Tanzania technology memorandum, or a funding and enrolment series for the Zanzibar campus	not yet probed
National ICT or AI research programme or fund	the science commission's budget or annual report, the higher-education project appraisal document, or a national AI or ICT research strategy	not yet probed

Thirteen rows carry no reliable statement, in three groups: instruments, where no cybersecurity strategy or incident-response team, cybercrime or online-content instrument, standards instrument, open-data policy or bilateral European Union instrument is held; measurement of the state's own estate, where nothing is held on data-centre power, statistical-system objects, a geospatial programme or the systems of the 184 local councils; and relationships, where nothing is held on United States, Gulf-state or Indian engagement beyond single sources on other subjects.

Figures are dated because most are time-varying: a figure carries the date it was true, not the date you are reading it. Where the base holds no reliable statement, the document says **Not held** rather than leaving a silence — those are counted, and listed at the end.

This is a dated edition and is not revised after publication. If a figure here has moved, the current edition will say so.
