Governance

Strategies, plans and policies

Implementation of the AU Data Policy Framework: South Sudan Data Governance Capacity Building and Engagement Workshop — draft concept note and agenda — KICTANet, 8 September 2026

SOUTH SUDAN

The African Union Commission, AUDA-NEPAD, GIZ and KICTANet convened a three-day workshop in Juba from 8 to 10 September on domesticating the African Union Data Policy Framework in South Sudan. This is a forward notice of the convening; no outcome or workplan is on record. *Also under [Regional collaboration](#), [Data protection](#), [Technical Capacity](#) and [Data Exchange](#).*

Egypt Targets \$8bn Outsourcing Exports as ICT Sector Records 24.3% Growth — Tech Africa News, 8 September 2026

EGYPT

Egypt's communications minister put outsourcing exports at US\$5.1 billion at the end of 2025 and set a US\$8 billion target for 2028, opening the sixth Tech Invest Egypt conference in Cairo, and gave ICT sector growth of 24.3 per cent for the fourth quarter of the 2025/26 financial year as the highest on record. It is the third ministerial figure for the same 2025 outturn — US\$4.8 billion and US\$5.2 billion are also on the record — and no statistical release stands behind any of them. *Also under [ICT Industry](#) and [AI](#).*

MTN commits US\$1.1bn to Ghana network expansion after 5G reforms – Communications Minister — MyJoyOnline, 7 September 2026

GHANA

The dominant Ghanaian operator's US\$1.1bn three-year commitment is restated against the site build behind it: 800 new cell sites of which 180 are already active, and a second operator targeting 2,698 sites in 2026. The communications minister dates the regulator board's removal of wholesale 5G exclusivity to 15 July 2026. *Also under [Connectivity](#) and [New investments](#).*

Full Text: Sam George's speech at Government Accountability Series — MyJoyOnline, 7 September 2026

GHANA

Ghana's communications ministry gave a full public account of its January–August delivery, and the arithmetic is the interesting part: 141,954 registered accounts against 5,812 logged completions on the national coders programme, 8,578 fibre cuts projected for 2026 at roughly US\$2,045 a repair, and a dig-once policy still awaiting Cabinet. It also records voice over LTE rising from about 7% of traffic to 22.43% and smartphone penetration at 71.8% in June 2026. *Also under [Connectivity](#), [Training and skills](#), [Cybersecurity](#), [Data protection](#), [AI](#), [Other GovTech](#) and [e-Gov](#) and [New investments](#).*

CBL Governor Naji Issa Launches New Financial Initiatives — Libya Herald, 7 September 2026

LIBYA

Libya's central bank governor launched a link to the Arab regional payments platform, a study track on a central bank digital currency and stablecoins, and a cyber-skills programme, and put a pilot for accession to China's cross-border interbank system at early 2027. None of the four carries an instrument, budget, participant list or delivery date. Also under [Digital Payments and Fintech](#) and [Cybersecurity](#).

Legislation and regulation

South Africa Pushes Subsea Cable, AI and Digital Skills Agenda to Expand Connectivity — Tech Africa News, 8 September 2026

SOUTH AFRICA

South Africa's operator association has asked the Competition Commission for a five-year exemption letting Vodacom, MTN, Telkom, Cell C, Rain and Liquid share limited infrastructure planning information through an independent third party, to find connectivity gaps and avoid duplicated build. The communications minister, who called the proposal encouraging for rural areas and townships, also argued that disruption to Middle East routes gives the country an opening as an alternative submarine cable hub. Also under [Connectivity](#), [Training and skills](#) and [AI](#).

Kenya Proposes Standalone Licence Framework for Data Centres — Tech Africa News, 8 September 2026

KENYA

The Communications Authority of Kenya has proposed a standalone Data Centre licence for co-location operators, taking them out of the Network Facilities Provider-Tier 2 category they currently sit under, and opened comment for thirty days from its public notice. The Authority gives visibility over data-centre operations, support for investment and proportionality with comparable jurisdictions as its reasons; the notice itself is not held, so the closing date is unestablished. Also under [Data Storage](#).

SAPS sounds alarm over AI-generated police images — ITWeb, 7 September 2026

SOUTH AFRICA

Provincial police in the Free State have warned that creating and sharing artificial-intelligence face-swap images of oneself in police uniform can breach section 68 of the South African Police Service Act 68 of 1995, which makes impersonating a police official an offence. It is an existing statute asserted against a new practice, not a new rule. Also under [AI](#).

'The resolve of this Ministry is unshaken' – Sam George on biometric SIM verification — Asaase Radio, 7 September 2026

GHANA

Ghana's communications minister said Parliament has passed the legislative instrument governing SIM registration and the biometric verification phase will be introduced before the end of 2026. The same account puts completion of the 2021–2023 exercise it replaces at 44.28% of subscribers. Also under [Digital Identity and CRVS](#).

Data protection

URA Explains Use of NINs to Replace TINs — Nilepost, 7 September 2026

UGANDA

Uganda's revenue authority says the move from taxpayer numbers to national identification numbers will not automatically make every citizen a taxpayer, the purpose being a single more secure identifier for government services and more accurate taxpayer records. It follows the finance minister's statement four days earlier that the two numbers must be interoperable rather than one replacing the other. Also under [Data Exchange](#) and [Digital Identity and CRVS](#).

Regional collaboration

Africa Accelerator for Digital Public Infrastructure (AA4DPI) — United Nations Development Programme, 8 September 2026

AFRICA

UNDP has published the standing description of its Africa Accelerator for Digital Public Infrastructure, led jointly by the Regional Bureau for Africa and the Digital and AI Hub, which supports countries to assess digital readiness, strengthen governance, build implementation capacity and develop investment-ready programmes across digital identity, digital payments and data exchange. Its first published cohort session ran on 2 and 3 September with delegations from Ethiopia, Malawi, Rwanda, Sierra Leone and Zambia; no budget, duration or deliverable set is published for the accelerator itself. *Also under [Other GovTech and e-Gov](#), [Digital Identity and CRVS](#), [Digital Payments and Fintech](#) and [Data Exchange](#).*

WHO launches Regional Health Data Hub to turn health data into informed action — WHO Regional Office for Africa, 7 September 2026

AFRICA

The regional health data hub launched at Addis Ababa carries 53 datasets and 7,965 indicators, about 65% of them ingested against a target of 80% by the end of 2026, and its governance framework is still in development. It is intended to bring maternal, newborn, child and adolescent health together with noncommunicable disease data across all 47 member states of the region. *Also under [Sectoral management information systems](#), [Data Exchange and Standards](#).*

Inside the System That Was Ready: How Years of Quiet Investment Shaped Africa's Ebola Response — African Society for Laboratory Medicine (ASLM), 7 September 2026

DRC

AFRICA

A multi-country laboratory assessment completed before the current Ebola outbreak covered 26 countries, finding every one with a functioning surveillance system and core diagnostic capacity and 3,964 laboratories mapped across fourteen. It named digital interoperability between laboratories and surveillance platforms, alongside specimen referral, workforce surge and domestic financing, as the weak points — the seams the response has since had to improvise at. *Also under [Sectoral management information systems](#) and [Technical Capacity](#).*

Govts back GITEX platform to accelerate financial innovation — The Punch, 7 September 2026

NIGERIA

A financial-innovation platform was unveiled in Lagos with backing from governments and financial-sector regulators, its full debut deferred to the 2027 edition of the technology week. No participants, funding or programme of work is published with the announcement. *Also under [Digital Payments and Fintech](#) and [Innovation ecosystem](#).*

Driving Africa's creative economy through seamless PAPSS Payments — News Agency of Nigeria (NAN), 7 September 2026

AFRICA

The continental payment system is being extended towards creative-economy payments, with third-party rails for royalties and licensing described and a Lagos creative-industries event in November set as the pilot occasion. No design, timetable or participant list is published. *Also under [Digital Payments and Fintech](#).*

Auditors Embrace AI to Protect Public Funds — Eswatini Positive News, 7 September 2026

ESWATINI

Eswatini's audit office hosted a week-long peer programme at which supreme audit institutions across the region weighed the use of artificial intelligence in government audit. No tool, pilot, audit methodology or procurement is named. *Also under [AI](#) and [Other GovTech and e-Gov](#).*

AFRINIC's IPv6-for-IPv4 Rule Needs a Control Test — BTW Media, 7 September 2026

AFRICA

A draft AFRINIC policy would tie any new IPv4 request to IPv6 eligibility, a deployment plan and percentage targets over 12, 24 and 48 months. The registry's own impact assessment says the evidence standard and the top-25 measurement method are not defined and warns smaller operators may face a disproportionate burden; AFRINIC 37 reached no consensus and the proposal returned to the mailing list. *Also under [Connectivity](#) and [Standards](#).*

Implementation of the AU Data Policy Framework: South Sudan Data Governance Capacity Building and Engagement Workshop — draft concept note and agenda — KICTANet, 8 September 2026

SOUTH SUDAN

Summarised under [Strategies, plans and policies](#).

Standards

Zambia Bets on Digital Trust — Zambia24, 7 September 2026

ZAMBIA

The communications regulator has operationalised the National Digital Trust Anchor as national root certification authority, under the electronic communications and transactions statute. The framework is to issue and verify the certificates and signatures that establish who a person or organisation is online. No certificate count, list of subordinate authorities or accreditation route accompanies the launch. *Also under [Digital Identity and CRVS](#) and [Cybersecurity](#).*

ICT Authority steps up protection of Govt systems, critical information infrastructure — Education News (Kenya), 7 September 2026

KENYA

Kenya's technology authority put the National Information Security Framework's audit, risk-management and certification mechanisms to a Nairobi stakeholder workshop, to establish whether they are practical for national implementation ahead of certifying critical information infrastructure. The framework text and the certification criteria are not published. *Also under [Cybersecurity](#) and [Other GovTech and e-Gov](#).*

DRC to Roll Out QR Code System to Track Products and Fight Counterfeits — We are Tech (wearetech.africa), 7 September 2026

DRC

The Democratic Republic of the Congo's standards control office plans a national QR-code system letting consumers scan a product — medicines included — to verify its certification status, with consumer checks stated as opening within weeks and resting on 88 laboratories across 29 sites. No launch date, register or enforcement route is published. *Also under [Data Exchange](#).*

Benmouloud, Abdellatif chair second meeting to establish unified digital mechanism for national market regulation — Algérie Presse Service (APS), 7 September 2026

ALGERIA

Algeria's digitalisation high commission and the domestic trade ministry held a second joint meeting on a unified digital mechanism for regulating the national market, taking the data sources themselves as the subject — how they are produced, updated and kept consistent. *Also under [Data Exchange](#) and [National statistics](#).*

WHO launches Regional Health Data Hub to turn health data into informed action — WHO Regional Office for Africa, 7 September 2026

AFRICA

Summarised under [Regional collaboration](#).

Public debate and participation in policymaking

SA is Not Future-Ready, Says Oosthuysen — Business Explainer, 7 September 2026

SOUTH AFRICA

An industry argument that South Africa is not positioning itself as future-ready cites employer survey findings that about 55% of workers show little or no proficiency in mathematics or data skills, 52% of businesses find it difficult to hire anyone prepared for digital transformation and 70% rate workforce technology skills poor or very poor, against 118,500 unfilled ICT vacancies of which 36% are junior roles. *Also under [Training and skills](#), [Digital divides](#) and [Connectivity](#).*

Nigeria's police Vigilant app raises questions about cycle of duplicate fraud reporting platforms — TechCabal, 7 September 2026

NIGERIA

The police fraud-reporting app launched on 1 September is the fourth police reporting platform in a decade, and it arrives over a cybercrime centre already logging about 146,000 reports and about ₦58bn in recovered assets. Nothing published says how the new channel routes against the centre already running, or what became of the earlier platforms. *Also under [Other GovTech and e-Gov](#) and [Digital Payments and Fintech](#).*

Nigeria needs 62.5 million more NINs in six months to meet target — TechCabal, 7 September 2026

NIGERIA

Nigeria had issued national identification numbers to 117.5 million people out of 134.6 million enrolments at 30 June 2026, against a target of 180 million by December. Closing the gap would need monthly enrolment to rise from 1.5–1.8 million to about 7.4 million. *Also under [Digital Identity and CRVS](#) and [Cybersecurity](#).*

Ghana's NCA Intensifies Public Education on Telecom Masts Amid Fibre and Infrastructure Concerns — TechAfrica News, 7 September 2026

GHANA

Ghana's communications regulator took radio-frequency exposure messaging to traders, transport operators and commuters at Koforidua Central Market, after opposition to a mast at a lorry station. It is the consent side of a build the same week's ministerial account puts at about 6,000 sites short. *Also under [Connectivity](#).*

Falana, SERAP Demand Probe into N33.75bn Cash Transfer — The Punch, 7 September 2026

NIGERIA

The Auditor-General's 2024 report states that the government could not provide auditors with sufficient evidence that ₦33.75bn of cash transfers intended for more than 3.29 million vulnerable households reached genuine beneficiaries, the payment platform's statements not having been supplied. A rights lawyer has asked the financial crimes commission to investigate and a civil-society organisation puts over ₦78.8bn across social protection programmes as diverted, unaccounted for or irregularly spent. *Also under [Digital Identity and CRVS](#) and [Access to services](#).*

Digitalisation des titres et actes de transport au Gabon : entre gouvernance numérique et valorisation de la compétence locale — Gabonactu, 7 September 2026

GABON

A Gabonese commentary places the digitalisation of transport titles and documents among the state's modernisation projects, and puts the open question as who governs it and whether local suppliers are used. No contracting authority, supplier, scope, cost or timetable for the project is on the record. *Also under [Other GovTech and e-Gov](#).*

Côte d'Ivoire-AIP/ La FENACCI crée un observatoire pour accompagner la transition vers la facture normalisée électronique — Agence Ivoirienne de Presse (AIP), 7 September 2026

CÔTE D'IVOIRE

Four days after nationwide checks on electronic standardised invoicing began, Côte d'Ivoire's traders' federation created a National Observatory on Electronic Standardised Invoicing, announced at a press conference in Adjamé. The observatory has no published mandate, membership or reporting arrangement, and the federation's earlier demand that the checks be suspended is not withdrawn on the record. *Also under [Data Exchange](#) and [Digital divides](#).*

Call for inclusive approach to AI revolution — SAnews (South African Government News Agency), 7 September 2026

SOUTH AFRICA

A deputy minister framed artificial-intelligence inclusion as three frontiers — connection, capability and command — arguing that youth, women and people with disabilities should build and shape the technology rather than only use it, at a first national summit on youth, artificial intelligence and the future of work. No programme, budget or date accompanies the framing. *Also under [Digital divides](#) and [AI](#).*

Finance

MoUs and other agreements

Vodacom, Bridge for Billions partner to boost startup ecosystem — The Guardian (IPP Media, Tanzania), 7 September 2026

TANZANIA

The leading Tanzanian mobile operator entered a three-year partnership with a global entrepreneurship network to reach 1,000 entrepreneurs and 40 ventures, with a first cohort of entrepreneur-support organisations due in October 2026. No commitment amount is stated, so the agreement carries targets and no measurable resource behind them. *Also under [Innovation ecosystem](#) and [Training and skills](#).*

UL Signs Tripartite Partnership — Liberian Observer, 7 September 2026

LIBERIA

A tripartite memorandum signed on 27 August has a foreign online university covering 97% of online tuition for more than 200 students of the national university, with three smart classrooms due in 2027. No commitment amount is stated. *Also under [Training and skills](#) and [Access to services](#).*

New investments

Egypt Partners With Vodafone, Elsewedy and Cassava on \$1bn Data Centre Investment — Tech Africa News, 8 September 2026

EGYPT

Two data centre partnerships announced in Cairo project about US\$1 billion of investment between them. The first establishes Africa Data Centres Egypt, combining Vodafone Business, Elsewedy Electric and Cassava Technologies, starting at 20MW over three years on a targeted path to 200MW; the second, between Vodafone Business and Cassava, is described as Egypt's first sovereign AI data centre, offering GPU-as-a-Service locally so that AI workloads run without moving data out of the country. The sums are projections stated at announcement rather than committed capital. *Also under [Data Storage](#) and [AI](#).*

US Firm Cybastion Plans \$75 Million AI Data Center and Power Plant in Douala — Business in Cameroon, 7 September 2026

CAMEROON

A United States firm plans US\$75m, about FCFA 42.25bn, for a Douala data centre designed in part for artificial-intelligence workloads with dedicated power generation. The planning ministry describes it as an intention presented at the first bilateral economic forum rather than a commitment; the same vendor's Ivorian project was underwritten by a US\$66.14m export-credit guarantee. *Also under [Data Storage](#), [Energy](#) and [US / hyperscaler activities](#).*

Ghana's Seevcash Raises \$333,000, Launches Visa Card — We are Tech (wearetech.africa), 7 September 2026

GHANA

A Ghanaian remittance startup moving money from the United States to Ghana raised US\$333,000 from a blockchain foundation's community fund, to launch an international payment card usable online and in stores. The commitment date is not stated in the account. *Also under [Digital Payments and Fintech](#).*

ICT Infrastructure

Connectivity

SA's internet costs climb, but other bills rise faster — ITWeb, 7 September 2026

SOUTH AFRICA

Wired internet prices rose 3.5% and wireless 4.1% over the first half of 2026, both ahead of cumulative headline inflation of 3.8%, on the competition authority's cost-of-living report. Over the six years to July 2026 the two rose 18.6% and 6.4% against headline inflation of 36%, so the recent move reverses the longer pattern for a service the authority treats as essential.

Openserve completes third fibre route to reduce network outage risk — BusinessDay South Africa, 7 September 2026

SOUTH AFRICA

The state-affiliated wholesale operator completed a third long-haul fibre route from Cape Town to Pretoria via Springbok and Mahikeng, built so the network stays up through major breaks. It sits inside a wholesale network of about 180,000km carrying just under R3bn of capital expenditure a year.

Gauteng e-Government accelerates digital transformation as e-Gov delivers more connectivity, skills and safer communities — South African Government (Gauteng Department of e-Government), 7 September 2026

SOUTH AFRICA

The Gauteng provincial department's 2025/26 annual report records 96 public Wi-Fi hotspots offering up to 500MB of free internet a day, 33 e-services live, 99% provincial network uptime and 7,271 cameras on the provincial safety network. The figures are the department's own, with no audited outturn or prior-year comparison in the account. *Also under [Digitalisation of sub-national government](#), [Other GovTech and e-Gov](#), [Training and skills](#) and [Access to services](#).*

Digital Realty Strengthens Nairobi as East Africa Digital Gateway with New Data Center — Digital Realty, 7 September 2026 KENYA

A second facility on the operator's Nairobi campus adds 6.4MW of capacity, opened alongside the retirement of the iColo brand in Kenya and Mozambique in favour of the parent's. The figure is critical IT load rather than delivered live load, and no occupancy or campus total is published. *Also under [Data Storage](#).*

Home Page — Egyptian Tax Authority, 7 September 2026 EGYPT

The Egyptian Tax Authority's own portal carries the state of its digital systems: electronic invoicing with registration guidance and online training for businesses joining it, an e-receipt system defined as an electronic document proving business-to-consumer transactions, and value-added tax return automation. A consumer-incentive scheme rewarding shoppers for taking a receipt or invoice is in trial operation at five shopping malls. *Also under [Sectoral management information systems](#).*

Paludisme : le Bénin intègre l'IA dans son dispositif national de diagnostic — wearetech.africa, 8 September 2026

BENIN

Benin's health ministry has contracted the South Korean firm Noul to put twenty AI-assisted malaria diagnostic devices into the main public referral hospitals, moving the miLab MAL system from individual facilities into the national malaria control programme, which has classified it as a point-of-service diagnostic. The device automates blood-smear preparation, digitisation and image analysis; the supporting evidence is the vendor's account of a 2025 evaluation in 211 children, and the award date is not established. *Also under* [Access to services](#).

ABOUT THIS DOCUMENT

EDITION	2026-09-08-2
RETENTION	Kept until 2026-09-15. Older bulletins: the country pages and the monthly reports.
THIS FILE	https://corpus.data-landscapers.io/bulletin/corpus-bulletin-2026-09-08-2.pdf
LICENCE	CC BY 4.0

This bulletin is produced automatically at the end of each data collection sweep but only includes items published on the day cited in the edition, and the previous day. Items published in the last month can be found on the [country pages](#). The links to all items stored in the corpus can be found in the [catalogue](#).

Bulletins are kept for a week — the last week's editions are listed above, each at its own dated address — and are then deleted. Older material is in the country pages and the monthly reports.
