MONTHLY UPDATE

# India activities: monthly update, July 2026

Edition of 2026-08-17 · compiled from the Data Landscapers source base

---

*2 places. Every block below is carried verbatim from that place's own monthly update, where it was written, sourced and checked; nothing is written here.*

## Egypt

The two industry ministers [agreed a joint study of priority sectors for industrial and investment integration](#) at Jaipur, with financial technology among them, and discussed linking the two countries' payment systems and settling bilateral trade in local currencies. The linkage is under discussion only: no central bank, operator or payment rail is named on either side, and no instrument, value or date is given.

## Namibia

A [five-node high-performance computing cluster is specified for deployment at the science and technology university in Windhoek — 17.7 TF peak, 5,320 cores, 480 GB memory and 100 TB of storage](#) under the India-Namibia centre of excellence. No operator, cost or opening date is published. It is a university research cluster and not the national high-performance computing facility the gaps register still seeks; the source itself warns against conflating the two.

Figures are dated because most are time-varying: a figure carries the date it was true, not the date you are reading it. Where the base holds no reliable statement, the document says **Not held** rather than leaving a silence — those are counted, and listed at the end.

This is a dated edition and is not revised after publication. If a figure here has moved, the current edition will say so.
